

Watertown Summer Shed Project 2005
Mr. Komanetsky Mr. Loughran

Rules and Behavior Contract

1. **Be respectful of others.** This means being respectful of the feelings of others and their right to learn and work in a *controlled* and *friendly* environment. Disrespectful or inappropriate comments, language and behavior toward students or the teacher are unacceptable.
2. You will be working as a member of a small team. Please be aware and respectful of the unique styles, personalities, and ideas of your team members. We **all** have different strengths to offer to a project.
3. When the instructors are speaking to the entire class, please don't talk unless you raise your hand and you are called on. There will be times during 'hands-on' building activities when the whole class may be talking at once. If the teachers need to address the class as a whole during these activities, **ALL** members of the building team should remain quiet during this time.
4. **Be respectful of your school and work environment.** This means leaving your work environment in AS GOOD (or better!) condition than when you arrived. This is an opportunity for you learn while doing fun, hands-on activities. Be responsible in your care for your workspace, tools, and materials (per the Safety Guidelines). No abuse or mishandling of tools and/or materials will be tolerated.
5. If you are absent, you need to bring a note from home explaining your absence. Unexcused absences will result in a phone call home.
6. Enjoy yourself and take pride in your work!
