Charter Application Review Process and Criteria for Review

The Department of Elementary and Secondary Education (Department) conducts a thorough review of charter applications, working within the timelines created by the statute and regulations.

Objective of Process

The objective of the charter application review process is to award charters to applicants who show the greatest probability of creating public schools of the highest quality. The Department conducts a process with multiple phases that includes participation by internal and external reviewers, as well as opportunities for public comment, and interviews with each founding group. The prospectuses and final applications are reviewed against extensive criteria which is outlined in 603 CMR 1.05 and established by the Department through the application.

Prospectus and Final Application Panel Review

In the current application process, every prospectus and final application was reviewed by an average of six individuals. The Department utilizes multiple reviewers for prospectuses and final applications, including school leaders and teachers, education consultants, representatives from non-profits, and members of the Department's staff. Teams of reviewers read the prospectuses and final charter applications thoroughly, with reference to the criteria in the charter application.

At the prospectus stage, Charter School Office staff incorporate the written review of the external reviewers into their discussion and evaluation of each prospectus. After reviewing the prospectuses, questions and concerns the review team raised are communicated in writing to all applicants and invitations are issued to those chosen to move into the final application stage.

At the final application stage, review panels discuss the strengths and weaknesses of the application and identify areas where clarification from the applicant is needed. This process helps to generate questions for the next step, an interview with each founding group.

Public Comment

In order to solicit comments on charter applications from the public during the current application cycle, the Department held eight public hearings in late November and early December in areas where applicants propose to locate and requested written comments from the public, superintendents, and school committee members. All oral or written comments are reviewed and any substantial issues raised about a specific application are added to the list of questions for the applicant interview.

Interviews

The Department interviews all final applicant groups. Interviews last approximately two hours. The interviews allow applicants to respond to questions about the main weaknesses or areas of confusion identified in the review of their applications or to clarify aspects of their applications. Interviewers note the degree to which the applicant group successfully addressed these areas of its application and will get a clearer sense, in person, of the capacity of the founding group. Department staff present all of the information to the Commissioner and, based upon the information presented, the Commissioner determines which recommendations, if any, to make for the February meeting of the Board of Elementary and Secondary Education.

Proven Provider Status

If the Commissioner intends to recommend a proposed school in districts that have performed on the Massachusetts Comprehensive Assessment System (MCAS) in the lowest 10 percent statewide for two consecutive previous years and where the 9 percent net school spending cap has been or is expected to be raised, the applicant must meet the definition of proven provider in 603 CMR 1.02:

- (a) two or more persons who had primary or significant responsibility serving, for at least five years, in a leadership role in a school or similar program that has a record of academic success and organizational viability;
- (b) a non-profit education management organization or non-profit charter management organization, in operation for at least five years, that has a record of academic success and organizational viability;
- (c) the board of trustees of an existing charter school that has a record of academic success and organizational viability; or
- (d) an education management organization or charter management organization that has a record of academic success and organizational viability and with which an applicant proposes to contract.

Applicants must then meet the qualifications to achieve proven provider status. The regulations, at 603 CMR 1.05(2), define the qualifications of a proven provider as follows:

The applicant must submit evidence satisfactory to the Commissioner to demonstrate a significant management or leadership role at a school or similar program that is an academic success, a viable organization, and relevant to the proposed charter.

- ii. student performance on other standardized tests over no less than a three-year period for cohorts of students, if available, which demonstrates student achievement levels that are similar to statewide averages in English language arts and Mathematics for all students in Massachusetts in comparable grades;
 - iii. attendance, retention, and attrition data;
 - iv. graduation and dropout data.
- (c) The applicant shall submit evidence of organizational viability, which shall include but not be limited to effective governance, effective financial management, and compliance with applicable laws and regulations.

- (e) Applicants shall provide any other information as required by the Commissioner.

For applicants with a current or previous relationship to a Massachusetts charter school, the Commissioner may consider all information related to such school's performance, including his evaluation in connection with each renewal of its charter.
