

Continuum of fall reopening models	Kontinyasyon nan modèl re-ouvèti pou otòn
Return without restrictions	Retounen san restriksyon
Students return in person and restrictions are lifted	Elèv yo retounen anpèsòn e yo leve restriksyon yo
In-person learning with new safety requirements	Ansèyman an-pèsòn avèk nouvo egzijans sou sekirite
All students return in person; classrooms, schedules, protocols modified to meet health requirements	Tout elèv yo retounen an pèsòn; salklas, orè, pwotokòl modifye pou satisfè egzijans sante
Hybrid learning	Ansèyman Ibrid
Students learn both in-person and remotely	Elèv yo ap aprann alafwa an-pèsòn ak a-distans
Remote learning	Ansèyman a-distans
Learning takes place remotely	Ansèyman ap fèt a distans

### Infection risk at varying physical distances

Infection risk at varying physical distances	Risk enfeksyon nan diferan distans fizik
Absolute risk	Risk absoli
95% CI	95% CI
Cut points, mean	Pwen koupi, vle di
Out of sample predictions	Sou echantiyon prediksyon
High baseline risk for infection (eg 50%)	Risk enfeksyon debaz elve (egzanp 50%)
Intermediate baseline risk for infection (eg 10%)	Risk enfeksyon debaz mwayèn (egzanp 10%)
Low baseline risk for infection (eg 1%)	Risk enfeksyon debaz fèb (egzzanp 1%)
Graph detail	Detay grafik
Distance (m)	Distans (m)
Intermediate baseline risk for infection	Risk enfeksyon debaz entèmèdyè
Low baseline risk for infection	Risk enfeksyon debaz fèb
