**Inclusive Practice Tool: Self-Assessment Form**

**A RESOURCE FOR SUPPORTING INCLUSIVE PRACTICE**

**Inclusive practice** refers to the instructional and behavioral strategies that improve academic and social-emotional outcomes for **all students**, with and without disabilities, in general education settings.

To support inclusive practice, the tools of this *Guidebook* are based on the frameworks of **Universal Design for Learning**, **Positive Behavioral Interventions and Supports**, and **Social and Emotional Learning**.

---

This tool, adapted from ESE’s Model System, allows educators to conduct a self-assessment with an emphasis on inclusive practice. Classroom educators, building administrators, and district administrators can all use this tool in the process of conducting self-assessments.

**Directions:** Classroom educators can use this tool to reflect on inclusive practice, in which they use data to inform the practices that they implement, as well as promote discussion, collaboration, and planning relating to inclusive practice. Building administrators can use this tool to reflect on inclusive practice, in which they use data to promote discussion and conversation relating to inclusive practice at the school level. District administrators can use this tool to reflect on inclusive practice, in which they use data to promote discussion, collaboration, and planning relating to inclusive practice across the district.

---

The *Guidebook* tools are designed to strengthen inclusive practices and empower educators to meet the needs of all students by leveraging and augmenting the educator evaluation process. Although each tool is designed as a stand-alone resource, many tools mutually support educator practice. This tool has a strong relationship to the following *Guidebook* tools:

- **Tool 2a:** Massachusetts Classroom Teacher Rubric Resource
- **Tool 2b:** Massachusetts School-Level Administrator Rubric Resource
- **Tool 2c:** Massachusetts Superintendent Rubric Resource
