A RESOURCE FOR SUPPORTING INCLUSIVE PRACTICE

**Inclusive practice** refers to the instructional and behavioral strategies that improve academic and social-emotional outcomes for **all students**, with and without disabilities, in general education settings.

To support inclusive practice, the tools of this *Guidebook* are based on the frameworks of [Universal Design for Learning](#), [Positive Behavioral Interventions and Supports](#), and [Social and Emotional Learning](#).

**Directions:** **Classroom educators** can use this process to drive their own goal setting process. **Building administrators** can use this tool to design professional development during the goal writing process. **District administrators** can use this tool when designing district-wide professional development. The tool is adapted from the [ESE Protocols for Developing S.M.A.R.T. Goal Statements](#).

The *Guidebook* tools are designed to strengthen inclusive practices and empower educators to meet the needs of all students by leveraging and augmenting the educator evaluation process.
