PART III – REQUIRED PROGRAM INFORMATION

1. If requesting additional funding of teachers not funded through RTTT 4D, list the names of the teachers that will be trained using these funds, their content area, and the course in which they are/or will be enrolled.

2. If requesting stipends for said teachers, explain the rationale behind the stipend amount (Flat fee for 4 days? Based on union contract?)

3. Justify need for supplemental funds by detailing how RTTT 4D FY14 funds were used and show that the funds set aside in the 4D FY15 budget are not enough to fund the additional teachers.

4. All other required program information will be gathered by the 4D Program Coordinator from previous training records and current enrollment records obtained from Mass Insight Education (MIE) and National Math Science Initiative (NMSI).
