Pre-Implementation Requirements

What are examples of SRG-related activities that may be carried out between July 1, 2014 and August 31, 2014 in preparation for full implementation of SRG in the 2014–2015 school year?

This section of the guidance identifies possible activities that an LEA may carry out using SRG funds in the spring or summer prior to full implementation. The activities noted should not be seen as exhaustive or as required. Rather, they illustrate possible activities, depending on the needs of particular SRG schools:

**Family and Community Engagement:** Hold community meetings to review school performance, discuss the school intervention model to be implemented, and develop school improvement plans in line with the intervention model selected; survey students and parents to gauge needs of students, families, and the community; communicate with parents and the community about school status, improvement plans, choice options, and local service providers for health, nutrition, or social services through press releases, newsletters, newspaper announcements, parent outreach coordinators, hotlines, and direct mail; assist families in transitioning to new schools if their current school is implementing the closure model by providing counseling or holding meetings specifically regarding their choices; or hold open houses or orientation activities specifically for students attending a new school if their prior school is implementing the closure model.

**Rigorous Review of External Providers:** Conduct the required rigorous review process to select a charter school operator, a CMO, or an EMO and contract with that entity (see C-5); or properly recruit, screen, and select any external providers that may be necessary to assist in planning for the implementation of an intervention model (see H-19a).

**Staffing:** Recruit and hire the incoming principal, leadership team, instructional staff, and administrative support; or evaluate the strengths and areas of need of current staff.

**Instructional Programs:** Provide remediation and enrichment to students in schools that will implement an intervention model at the start of the 2014-2015 school year through programs with evidence of raising achievement; identify and purchase instructional materials that are research-based, aligned with State academic standards, and have data-based evidence of raising student achievement; or compensate staff for instructional planning, such as examining student data, developing a curriculum that is aligned to State standards and aligned vertically from one grade level to another, collaborating within and across disciplines, and devising student assessments.

**Professional Development and Support:** Train staff on the implementation of new or revised instructional programs and policies that are aligned with the school’s comprehensive instructional plan and the school’s intervention model; provide instructional support for returning staff members, such as classroom coaching, structured common planning time, mentoring, consultation with outside experts, and observations of classroom practice, that is aligned with the school’s comprehensive instructional plan and the school’s intervention model; or train staff on the new evaluation system and locally adopted competencies.

**Preparation for Accountability Measures:** Develop and pilot a data system for use in SRG-funded schools; analyze data on leading baseline indicators; or develop and adopt interim assessments for use in SRG-funded schools.

**Note:** Funds allocated via FY14 Bridge Grants should not overlap with or duplicate expenditures requested in FY15 Pre-Implementation funds.
