IV. English Language Arts, Grade 5
Grade 5 English Language Arts Test

The spring 2017 grade 5 English Language Arts test was a next-generation assessment, featuring a new test design and new item types. The test was administered in two formats: a computer-based version and a paper-based version. The test included both operational items, which count toward a student’s score, and matrix items. The matrix portion of the test consisted of field-test questions that do not count toward a student’s score.

In general, all students were administered the same operational items, regardless of whether they took the computer-based test or the paper-based test. In some instances, the wording or content of a paper item differed slightly from the computer-based version. More information about the differences between the computer-based and paper-based tests will be posted to the MCAS website at www.doe.mass.edu/mcas/.

This document displays the paper-based versions of the 2017 operational items that have been released. The computer-based versions of the released items are available on the MCAS Resource Center website at mcas.pearsonsupport.com.

Test Sessions and Content Overview

The grade 5 ELA test was made up of three separate test sessions. Each session included reading passages, followed by selected-response and essay questions. On the paper-based test, the selected-response questions were multiple-choice items, in which students select the correct answer from among several answer options.

Standards and Reporting Categories

The grade 5 ELA test was based on Pre-K–5 learning standards in three content strands of the Massachusetts Curriculum Framework for English Language Arts and Literacy (March 2011) listed below. Page numbers for the learning standards appear in parentheses.

- Reading (Framework, pages 13–19)
- Writing (Framework, pages 23–28)
- Language (Framework, pages 33–40)

The Massachusetts Curriculum Framework for English Language Arts and Literacy is available on the Department website at www.doe.mass.edu/frameworks/current.html.

ELA test results are reported under three MCAS reporting categories, which are identical to the three framework content strands listed above.

The tables at the conclusion of this chapter provide the following information about each released and unreleased operational item: reporting category, standard(s) covered, item type, and item description. The correct answers for released selected-response questions are also displayed in the released item table.

Reference Materials

During all three ELA test sessions, the use of bilingual word-to-word dictionaries was allowed for current and former English language learner students only. No other reference materials were allowed during any ELA test session.

This session contains 7 questions.

Directions
Read each passage and question carefully. Then answer each question as well as you can. You must record all answers in your Student Answer Booklet.

For most questions, you will mark your answers by filling in the circles in your Student Answer Booklet. Make sure you darken the circles completely. Do not make any marks outside of the circles. If you need to change an answer, be sure to erase your first answer completely.

One question will ask you to write an essay. Write your essay in the space provided in your Student Answer Booklet. Only essays written within the provided space will be scored.
Museums contain many interesting objects. Read the two poems about museums. Then answer the questions that follow.

Museum

by Felice Holman

Pictures on the wall
look into lives
back when
I was not
5
anyone at all.
They smile
frown
play chess
walk to town
10
pat heads
of children
see them
to their beds.
They seem so real
15
and near
but they are fixed there
on the wall
and I am
here.

Closed in death
Red-lidded eyes,

While, underneath

What wonderment
To speak to me

The riddle of
