

## Massachusetts Comprehensive Assessment System <br> Technology/Engineering Formula Sheet

## Formulas

$\mathrm{V}=\mathrm{I} \times \mathrm{R}$
Pressure $=\frac{\text { Force }}{\text { Area }}$
$P=I \times V$
Area of a circle $=\pi r^{2}$

## Variables

$\mathrm{I}=$ current $\quad \mathrm{r}=$ radius
$\mathrm{P}=$ power
$\mathrm{R}=$ resistance
$\mathrm{V}=$ voltage

## Definitions and Abbreviations

$\mathrm{AC}=$ alternating current $\quad \mathrm{psi}=$ pounds per square inch
$\mathrm{DC}=$ direct current
$\pi \approx 3.14$
