## COORDINATED PROGRAM REVIEW REPORT

### Boxford Public Schools

#### OVERVIEW OF REVIEW PROCEDURES

As one part of its School and School District Accountability System, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review System. All reviews will include selected requirements in special education under the federal Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 *et seq.* (IDEA-97) and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972) and certain federal civil rights requirements under Titles I and II of the Americans with Disabilities Act of 1990, Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971). Other monitoring activities in the areas of the state's Transitional Bilingual Education law (M.G.L. Chapter 71A), Title I, Safe and Drug-Free Schools and Communities Act, the Perkins Vocational and Technical Education Act, and Nutrition Programs and Services are conducted in some districts during these Coordinated Program Review procedures. The selected school districts for 2000-2001 were notified by the Commissioner of Education in April 2000 of scheduled visits and were encouraged to implement self-assessment activities prior to the arrival of the Department's visiting team.

#### Coordinated Program Review Elements

Team: Depending upon the size of a school district and the number of program areas to be reviewed, a team of approximately two to eight Department staff members conducts a Coordinated Program Review over two to seven days in a school district or charter school.

Scope: Approximately seventy school districts and charter schools are scheduled to receive visits in school year 2000-2001. All school districts and charter schools in the Commonwealth are monitored through the Department's Coordinated Program Review system on a six-year cycle with an additional mid-cycle special education follow-up visit.

Content: The Program Review criteria encompass the required elements for the specific program areas. In the case of special education, the elements selected for the FY 2001 reviews contain, at a minimum, those required by the federal Office for Special Education Programs (OSEP) and revised requirements included under IDEA-97 as described in the Department's Special Education Advisories. Additionally, the 2000-2001 reviews incorporate updated state special education requirements as adopted by the Board of Education and effective on September 1, 2000 and further amended by the state legislature in the FY '01 budget and subsequent Emergency Regulations of the Board. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993, and intended to promote high standards and achievement for all students.

Report: The Department's report is based on a review of written documentation and data regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional and support staff across all grade levels.

- Interviews of parent advisory council (PAC) representatives and other interviews as requested by persons from the general public.
- Student record reviews in the program areas of special education, Transitional Bilingual Education, and Perkins vocational programs. A sample of student records is selected by the Department. Student records are first examined by local staff, whose findings are then verified by the onsite team using standard Department student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements. Parents of students with disabilities whose files were selected for the record review were sent a survey that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements.
- Classroom and facilities observation. A sample of instructional classrooms and other school facilities used in the delivery of programs and services are visited to determine general levels of compliance with program requirements.
- Interviews, student record reviews, and observations in the case of collaborative programs and services. Where the district is a member of a collaborative approved by the Department of Education and the district serves as a site for any programs or services operated by the collaborative, interviews, student record reviews and classroom and facility observations are conducted.

Response: An Executive Summary and detailed findings for each program area describe determinations about the implementation status of each requirement (criterion) reviewed. The findings note those criteria the implementation of which the team found to be commendable. Where criteria are found not to be fully implemented, the local district or charter school must propose corrective actions to bring those areas into compliance with the respective statutes or regulations. Districts are encouraged to incorporate the corrective action into their district and school improvement plans, including the district professional development plan.

The Department of Education believes that the Coordinated Program Review process is a positive experience and that the Final Report should be seen as a helpful planning document for the continuing development of programs and services in the school district or charter school.

## REPORT INTRODUCTION

A three-member Massachusetts Department of Education team visited Boxford School District during the week of January 8-11, 2001 to evaluate the implementation of selected criteria in the areas of special education and civil rights. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the program efforts underway in the district. The onsite team would like to commend the following areas that were brought to the attention of the Department and that the team believes have a significant and positive impact on the delivery of educational services for students enrolled in the Boxford School District. These areas are as follows:

- *Efforts that the district makes at keeping students, to the maximum extent possible, in regular education.*
- *The small class size for both regular and special education.*
- *The use of the Teacher Assistance Team (TAT) and Child Study Team at each school to ensure that only students for whom all accommodations and interventions have been implemented are referred for an evaluation.*
- *The steps the district has taken to implement the new special education regulations and requirements.*
- *The DASH Program (Disability Awareness Starts Here).*

*Some of the areas of commendation noted above are additionally stated within the body of the Department's report under the respective compliance criteria.*

The Department is submitting the following Coordinated Program Review Report containing findings pursuant to this onsite visit. This report was prepared as a result of the review of extensive written documentation and data regarding the operation of the District's programs, together with information gathered from the following Department program review methods:

- Interviews of five administrative staff.
- Interviews of twenty teaching and support services staff across all levels.
- Interviews of one parent advisory council (PAC) representatives, and other interviews as requested by persons from the general public.
- Student record reviews: A sample of eleven student records was selected by the Department. Student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.
- Parent surveys: Eleven parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. Five of these parent surveys were returned to the Department of Education for review by the onsite team.
- Classroom and facilities observation: A sample of ten instructional classrooms and other school facilities used in the delivery of programs and services was visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components directly related to teaching and learning. These components are listed in the Executive Summary on the following pages. The findings in each program area describe determinations by the team about the implementation status or "Rating" of each criterion reviewed. The findings note those criteria which were found by the team to be substantially "Implemented" or implemented in a "Commendable" manner. (Refer to the "Definition of Terms" section of the report.) Where criteria were found to be either "Partially

Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the related statute or regulation. In some instances the team may have rated a requirement as "Implementation in Progress" or "Implemented" and has made specific comment on the district's implementation methods which also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including the district professional development plan.

## COORDINATED PROGRAM REVIEW REPORT

### EXECUTIVE SUMMARY

#### Boxford Public Schools

The following information synthesizes the findings for specific program criteria included in the Coordinated Program Review as they respond to essential questions which the Department has formulated for each of the major component areas of the report. Note that a more detailed discussion of the Onsite Team's findings which are represented in this Executive Summary, together with the specific legal standards for each program area included in this review, follows this summary.

#### **Component I: Assessment of Student Progress**

*Has the District implemented an assessment system that uses appropriate instruments, conducted according to the specified timelines and covering the appropriate content areas to determine instructional needs of students?*

The Boxford Public Schools have implemented most of the special education criteria under this component. The onsite team noted concerns regarding the consideration of the need for assistive technology, the meeting of timelines after the receipt of consent for evaluation, and the content of progress reports. The district has made progress in implementing the new regulations and requirements, particularly for independent evaluations and the determination of specific learning disabilities

#### **Component II: Student Identification and Program Placement**

*Has the District followed procedures for student identification and placement into the program according to the criteria specified in regulations?*

The Boxford Public Schools have implemented most of the special education criteria under this component. The areas of concern noted by the onsite team were with regard to outreach to certain groups for child find purposes, notification to the community regarding ongoing preschool screening, allowing certain children to remain in a preschool program beyond the time allowed by regulations and issuing a "draft" IEP at the Team meeting. Review of MOA/civil rights requirements indicated that the district does not have established procedures and assessments to evaluate students who may be limited English proficient. Other civil rights criteria do not apply since Boxford is a preschool through sixth grade district only.

#### **Component III: Parental Involvement**

*Has the District ensured that parents are notified, in the appropriate language, and are involved in decisions regarding their children's programs and services?*

The Boxford Public Schools have implemented most of the special education criteria under this component. The areas of concern noted by the onsite team were with regard to issuing a "draft" IEP at the Team meeting and implementing the required Parent Advisory Committee activities. Review of the MOA/civil rights criterion in this component indicated that the district does not currently have any groups with limited English language skills.

#### **Component IV: Curriculum and Instruction**

*Does the District hold all students to high expectations and standards and ensure that programs are designed to maximize student performance within regular education and are implemented according to the specific regulatory requirements with respect to learning time, class size, staffing ratio, and age spans? Has the District provided for coordination across program areas?*

The Boxford Public Schools have implemented most of the special education criteria under this component. The onsite team was concerned that Teams do not always consider the need for assistive technology, that the district does not always take responsibility for all procedural protections for students in approved out-of-district placements, and that children are sometimes retained in the preschool program beyond the age allowed under the regulations. The team found no problems under this component in the area of civil rights.

#### **Component V: Student Support Services**

*Has the District ensured that all students have equal opportunity and access to programs or services?*

The Boxford Public Schools have implemented most of the special education criteria under this component. The onsite team was concerned that the district sometimes implements a change in a behavioral intervention plan without reconvening the Team and amending the IEP. Review of the MOA/civil rights criteria in this component showed that the district does not make the required notifications at the beginning of the school year, that certain publications, including the student handbook, do not contain the required non-discrimination statement and that the written grievance procedures do not cover all areas.

#### **Component VI: Faculty, Staff and Administration**

*Does the District maintain certified staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development? Does the district implement an effective system of program leadership and oversight which fosters high standards and performance expectations for all students and staff consistent with the goals of applicable federal and state requirements and Education Reform Act of 1993?*

The Boxford Public Schools have implemented most of the special education criteria in this component. The district has made progress in implementing the new regulations and requirements regarding the curriculum accommodation plan; it has not provided all required professional development. All of the MOA/civil rights criteria have been implemented, although the onsite team did recommend more in-depth training for staff regarding civil right responsibilities.

#### **Component VII: School Facilities**

*Does the District maintain facilities that are conducive to learning, facilitate integration, and provide equal access and opportunity for students to achieve?*

Some staff have two different special education instructional groups within the resource rooms simultaneously; some spaces are not fully accessible.

#### **Component VIII: Program Plan and Evaluation**

*Does the District have written program plans that are evaluated according to specific regulatory requirements? Do parents have opportunities for input on needs, program implementation, evaluation, and improvement?*

The district does not regularly evaluate its special education programs. Review of the MOA/civil rights criteria under this component provided no evidence of a process to ensure that the curriculum is regularly reviewed for simplistic and demeaning generalizations or a comprehensive evaluation process to examine and remedy policies and programs that discriminate or limit educational access.

**Component IX: Record keeping**

*Does the District maintain required records and documentation for each specific program area?*

The Boxford Public Schools maintain a special education child count as required. The district's Federal Special Education Entitlement Grant is designed, amended, and monitored appropriately.

**DEFINITION OF TERMS**  
**FOR THE RATING OF EACH COMPLIANCE CRITERION**

<b>Commendable</b>	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
<b>Implemented</b>	The requirement is substantially met.
<b>Implementation in Progress</b>	The criterion includes one or more new state special education requirements which became effective on September 1, 2000. The district has substantially implemented any pre-September 1, 2000 requirements also included under the criterion and is currently engaged in staff training and/or is beginning implementation practices for new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the current school year.
<b>Partially Implemented</b>	The requirement, in one or several important aspects, is not entirely met.
<b>Not Implemented</b>	The requirement is totally or substantially not met.
<b>Not Applicable</b>	The requirement does not apply to the school district or charter school.

## COMPONENT I: ASSESSMENT OF STUDENT PROGRESS

The criteria in this component examine whether the District has implemented an assessment system that uses appropriate instruments, conducted according to the specified timelines and covering the appropriate content areas to determine instructional needs of students for the program areas listed below:

- Special Education (Report Issues # SE 1- SE 14)

*The district in most instances provides the parents with a copy of the IEP marked “Draft” at the conclusion of the Team meeting.*

#### COMPONENT IV: CURRICULUM AND INSTRUCTION

The criteria in this component examine whether the district holds all students to high expectations and standards and ensures that the program areas reviewed are designed to maximize student performance within regular education and are implemented according to specific regulatory requirements with respect to learning time, class size, staffing ratio, and age spans. The criteria also examine if the district has provided for coordination across the following program areas:

- Special Education (Report Issues # SE 33-42)
- Civil Rights Methods of Administration (MOA) (Report Issues MOA 15-16)

*Document review indicated that the student handbook does not contain the required nondiscrimination policy and that the complaint resolution procedures address only sexual harassment.*

## COMPONENT VI: FACULTY, STAFF AND ADMINISTRATION

The criteria in this component examine whether the district has certified staff, provides supervision of aides and tutors, and provides ongoing professional development in the program areas listed below. Additionally, the component examines whether the district implements an effective system of program leadership and oversight which fosters high standards and performance expectations for all students and staff consistent with the goals of applicable federal and state requirements and Education Reform Act of 1993.  
:

- Special Education (Report Issues # SE 50-54)
- Civil Rights Methods of Administration (MOA) (Report Issues MOA 18-21)

SE 50	<p><b>Responsibilities of the School Principal and Administrator of Special Education Principal:</b></p> <ol style="list-style-type: none"> <li>1. <u>Instructional support.</u> The principal in each of the district’s schools promotes instructional practices responsive to student needs and ensures that adequate instructional support is available for students and teachers. Instructional support includes remedial instruction for students, consultative services for teachers, availability of reading instruction at the elementary level, appropriate services for linguistic minority students, and other services consistent with effective educational practices and the requirements of MGL c. 71B, §2. The principal consults with the Administrator of Special Education regarding accommodations and interventions for students. Such efforts and their results are documented and placed in the student record. Additionally, when an individual student is referred for an evaluation to determine eligibility for special education, the principal ensures that documentation on the use of instructional support services for the student is provided as part of the evaluation information reviewed by the Team when determining eligibility.</li> <li>2. <u>Curriculum Accommodation Plan.</u> The principal implements a curriculum accommodation plan adopted by the district to ensure that all efforts have been made to meet students’ needs in regular education. The plan assists the regular classroom teacher in analyzing and accommodating diverse learning styles of all children in the regular classroom and in providing appropriate services and support within the regular education program including, but not limited to, direct and systemic instruction in reading and provision of services to address the needs of children whose behavior may interfere with learning. The Plan includes teacher training in (1) analyzing and accommodating diverse learning styles of all students in order to achieve an objective of inclusion in the regular classroom of students with diverse learning styles; (2) methods of collaboration among teachers, paraprofessionals and teacher assistants to accommodate such styles; and (3) training in the provision of pre-referral services within regular education, teacher mentoring and collaboration and parental involvement.</li> <li>3. <u>Coordination with special education.</u> The principal with the assistance of the Administrator of Special Education coordinates the delivery and supervision of special education services within each school building.</li> <li>4. <u>Educational services in home or hospital.</u> Upon receipt of a physician’s written order verifying that any student enrolled in a public school or placed by the public school in a private setting must remain at home or in a hospital on a day or overnight basis, or any combination of both, for medical reasons and for a period of not less than fourteen school days in any school year, the principal arranges for provision of educational services in the home or hospital. Such services are provided with sufficient frequency to allow the student to continue his or her educational program, as long as such services do not interfere with the medical needs of the student. The principal</li> </ol>

APPENDIX:  
SCHOOL DISTRICT PROFILE INFORMATION

The information which is provided in this Appendix was drawn from data supplied by the school district. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. The information is periodically updated by the school district and is available in an evercurrent form on the Department's Internet web site at <[www.doe.mass.edu](http://www.doe.mass.edu)>.

# School and District Profiles

## Definitions of Terms

School and District Profiles make important information about the Commonwealth's public schools available to all interested citizens. The array of information presented in the Profiles provides one snapshot of the educational picture in communities across the state. This information can be used in conjunction with firsthand observations and discussions by parents, educators, policy-makers, and any other interested parties to inform decision-making and ultimately improve the education of all Massachusetts students. While only the school district profile information is included with this Coordinated Program Review Report, information regarding individual school profile information is available on the Department's Web site at <http://profiles.doe.mass.edu/>. The following is an explanation of information presented in both the district and individual school Profiles. All data are submitted by schools and districts to the Department of Education. Data that are collected at the district level only are not included in the School Profiles, and are indicated below with an asterisk.

---

### GENERAL INFORMATION

**Grades/Schools\*:** indicates the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "N" indicates the district has pre-kindergarten. A high school range ending in "13" or "14" indicates the district has a post-graduate program.

**Programs\*:**

- **Inter-district Choice:** indicates whether students from other districts may enroll in the district through the state school choice program, which is voluntary and on a space-available basis.
- **Intra-district Choice:** indicates whether the district has a school choice program within the school district for students who live in the district.
- **Early Childhood Education:** indicates whether the district provides no-cost early childhood (preschool) education to three and/or four year-old children.
- **Kindergarten Starting Age:** indicates the age as of a particular date at which children are eligible to begin kindergarten.
- **Vocational Education:** indicates whether the district operates a Chapter 74 approved vocational education program.
- **Transitional Bilingual Education (TBE):** indicates whether the district operates a TBE program. Under Massachusetts law, a district must provide a TBE program in a particular language if there are 20 or more limited English proficient students in that particular language group enrolled in the district. Limited English proficient students are students whose first language is not English and who cannot perform ordinary classwork in English.
- **METCO:** indicates whether the district participates in the state METCO program, which promotes voluntary desegregation by enrolling minority students from Boston and Springfield in suburban schools.

**Member(s) of Regional District(s)\*:** for local school districts, indicates the name(s) of any academic and/or vocational regional district(s) of which the local school district is a member. For regional school districts, indicates the names of member local school districts. A regional school district provides educational services to more than one town.

**Technology:** indicates the number of students for every one computer and the percent of classrooms with Internet access. Data are 1998-99 data; "DNR" appears for schools and districts which did not yet report data.

---

## Student Test Results

Massachusetts Comprehensive Assessment System (MCAS): The Massachusetts Comprehensive Assessment System is the Commonwealth's statewide assessment program for public schools. MCAS measures the performance of students, schools and districts on the academic learning standards contained in the Massachusetts Curriculum Frameworks, fulfilling requirements of the Massachusetts Education Reform Law of 1993. In May 1999, students in grades four, eight and ten took the MCAS tests in English Language Arts, Mathematics, and Science & Technology.

---

Additionally, an MCAS test in History and Social Science was administered for the first time in 1999 to students in grade 8.

Results from the first two administrations of the MCAS tests provide a clear picture of statewide performance. Based on these results, we can identify areas of strength and weakness statewide. The focus at the state and local levels should be on identifying programs that will maintain the progress in areas where performance is strong and eliminate weak performance in the other areas. With results from two MCAS administrations, the temptation is to focus on changes from 1998 to 1999. However, it takes more than two years of results to identify trends in performance. Over time, results from the MCAS tests will allow students, schools, and districts to measure their progress in achieving the challenging state standards. Single-year improvements or declines in performance should not be over-interpreted.

Results on the MCAS tests are reported as the percentage of students attaining each performance level for each subject area and grade tested. Results are shown for all students and are also disaggregated by student group. The performance levels describe student performance in relation to the state standards. There are four performance levels: Advanced, Proficient, Needs Improvement, and Failing. Students' performance level classification is based on their total scaled score for each test completed. The scaled score range is 200-280. Students who were absent during the testing period received a minimum score of 200 for each content area test not attempted; this score is counted in computing average scores for schools and districts. Students included in scores for 1999 include tested students and students absent without a medical excuse. Students not included in scores for 1999 were reported as either medically documented absent or other not tested. Further information can be found in The Massachusetts Comprehensive Assessment System: Guide to Interpreting the 1999 MCAS Reports for Schools and Districts, which is available on the Internet at the Department of Education's web site at [www.doe.mass.edu/mcas](http://www.doe.mass.edu/mcas). Percentages may not add to 100 due to rounding.

To ensure the confidentiality of individual student results, performance data (performance level percentages and scaled score) are not reported for a particular student population/grade/subject if the number of students tested plus the number of students absent is fewer than 10. Results for schools and districts that do not have one or more of the grades tested are shown as "NA" for those grades.

For additional information, please refer to reports of statewide results and guides to interpreting the reports, which are available on the Internet at the Department of Education's web site at [www.doe.mass.edu/mcas](http://www.doe.mass.edu/mcas).

**Iowa Grade 3 Reading Test:** indicates the percent of third-graders at each performance level on the reading comprehension section of the test, from Spring 1999. Results are not included for schools or districts for which fewer than six students participated.

**SAT:** indicates the average scores on the math and verbal sections of the SAT I, administered by the College Board, and the percentage of students taking the test, for the classes of 1995 and 1999. All data are for public school students only. Results are not included for schools or districts for which fewer than 10 students participated. For students who took the SAT I more than once, their latest score is used by the College Board in determining school and district average scores. Beginning with 1996 scores, the College Board recentered the score scale of the SAT I to reestablish the original mean score of 500. The 1995 scores shown in the Profiles have been recentered to be comparable to the 1999 scores. All data were obtained from the College Board.

**Advanced Placement:** indicates the number of exams taken, the number and percent of exams that scored 3 or higher (possible score range is from 1 to 5), and the number and percentage of students in the class of 1997 who participated (students may take more than one exam). Data are included for all AP exams taken by any students in the class of 1997 who took an AP exam in their senior year. District and statewide data are for public school students, and national data are for public and non-public school students. Results are not included for schools or districts for which fewer than 10 students participated.

---

## Enrollment and Staff

**Enrollment by Grade:** indicates the enrollment for grades kindergarten through 12 for the 1994-95 and 1998-99 school years.

**Race/Ethnicity:** indicates the percent of enrollment by race/ethnicity for the 1998-99 school year. The reporting categories are those used by the U.S. Bureau of the Census.

**Selected Populations:** indicates the percent of enrollment represented by students in special education programs\*, students who are limited English proficient, and students eligible to receive free or reduced price lunch\*. Data are for the 1998-99 school year.

**Children Attending Public Schools\*:** indicates the percent of school-age children in a city or town attending public schools, for the 1994-95 and 1997-98 school years.

**Staff (FTE)\*:** indicates the number of students per teacher for the 1998-99 school year. This figure is calculated by dividing the regular education instructional staff by the total student enrollment. The staff figure is in full-time equivalents (FTE), and the student figure is a headcount. The number of students per teacher reported here does not represent average class size and is usually lower than that found in most typical classes.

---

## Finance

**Per Pupil Expenditures\*:** are calculated by dividing a district's operating costs by its average pupil membership. Operating costs include expenditures for administration, instruction, pupil services, transportation, plant maintenance, and fixed charges. These costs do not include capital outlay and long-term interest on school debt. Average pupil membership includes students who receive services in the district's schools, as well as students receiving home or hospital instruction. Data for regular education, special education, bilingual education and vocational education students are provided in addition to the total for all day programs, for the 1993-94 and 1997-98 school years.

**Teacher Salary\*:** indicates the minimum and maximum teacher salaries available, for the 1994-95 and 1998-99 school years.

**Foundation Budget Spending Comparison\*:** The education reform act established a foundation budget for each school district. This budget represents the minimum level of spending needed to provide an adequate education for the district's students. The foundation budget is made up of 19 separate categories. The chart shows the district's actual spending in each category for the 1997-98 school year as a percentage of the district's foundation budget. If the percentage exceeds 100%, the district spent more in the category than suggested by the foundation budget. If the percentage is less than 100%, the district spent less. Significant variations between local spending and the foundation budget, or between local spending and the statewide averages, should be reviewed closely. In some cases, the differences may be due to unique circumstances and needs within the district. In other cases, the differences may suggest potential areas for review and improvement.

---

## Other Data

**Annual Dropout Rate:** indicates the percentage of students in grades 9-12 who dropped out of school between July 1, 1997, and June 30, 1998, and who did not return to school by October 1, 1998. The rate for 1994-95 is also provided. Dropouts are defined as students who leave school prior to graduation for reasons other than transfer to another school.

**Attendance Rate:** indicates the average percentage of enrolled students present in school for the 1997-98 school year.

**Student Exclusions:** indicates the number of student exclusions that occurred during the 1997-98 school year. An exclusion is defined as the removal of a student for disciplinary purposes permanently, indefinitely or for more than ten consecutive school days.

**Plans of High School Graduates:** indicates the post-graduate intentions of students in the Class of 1998.

\* District level data only.
