MASSACHUSETTS DEPARTMENT OF EDUCATION

COORDINATED PROGRAM REVIEW REPORT

Braintree Public Schools

OVERVIEW OF REVIEW PROCEDURES

As one part of its school and school district accountability system, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review system. All reviews include selected requirements in special education under the federal Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 *et seq.* (IDEA-97) and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972) and certain federal civil rights requirements under Titles I and II of the Americans with Disabilities Act of 1990, Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971). Additionally, all reviews include certain standards included under the newly adopted Board of Education Physical Restraint Regulations (603 CMR 46.00). Other monitoring activities in the areas of the state's Transitional Bilingual Education law (M.G.L. Chapter 71A), federal requirements under Title I, the Safe and Drug-Free Schools and Communities Act, the Perkins Vocational and Technical Education Act, and Nutrition Programs and Services will be conducted in some districts during these Coordinated Program Reviews. The school districts and charter schools selected for review in 2001-2002 were notified by the Commissioner of Education in April 2001 of the scheduled visits and were encouraged to assess themselves before the arrival of the Department's visiting team.

Coordinated Program Review Elements

- Team: Depending upon the size of a school district and the number of program areas to be reviewed, a team of two to eight members conducts a Coordinated Program Review over two to seven days in a school district or charter school. The team may include Department consultants as well as Department staff members.
- Scope: Approximately sixty school districts and charter schools are scheduled to receive visits in school year 2001-2002. All school districts and charter schools in the Commonwealth are monitored through the Department's Coordinated Program Review system on a six-year cycle with an additional mid-cycle special education follow-up visit.
- Content: The Program Review criteria include certain of the statutory and regulatory requirements for each program area. In the case of special education, the criteria for the FY 2002 reviews contain, at a minimum, those elements required by the federal Office for Special Education Programs (OSEP) and revised requirements under IDEA-97 as described in the Department's Special Education Advisories. Additionally, the 2001-2002 reviews incorporate updated state special education requirements as adopted by the Board of Education, effective December 20, 2000. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993, being intended to promote high standards and achievement for all students.
- Report: The Department's report is based on a review of documentation regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives.
- Other interviews as requested by members of the general public.
- Review of student records in the special education, Transitional Bilingual Education, and Perkins vocational programs. Parents of students with disabilities whose files were selected for the record review are sent a survey that solicits information about their experiences with the district's implementation of special education programs, related services and procedural requirements.
- Observation of classrooms and other facilities. A sample of instructional classrooms and other school facilities used in the delivery of programs and services are visited to determine general levels of compliance with program and accessibility requirements.
- Interviews, review of student records, and observations in the case of collaborative programs and services. Where the district is a member of a collaborative approved by the Department of Education and serves as a site for any programs or services operated by the collaborative, interviews with collaborative staff, review of records of collaborative students, and observations of collaborative facilities are conducted.

Response: An executive summary and detailed findings for each program area describe determinations about the implementation status of each requirement (criterion) reviewed. The findings note those criteria the implementation of which the team found to be commendable. Where criteria were found not to be fully implemented, the local district or charter school must propose corrective actions to bring those areas into compliance with the controlling statutes or regulations. Districts are encouraged to incorporate the corrective action into their district and school improvement plans, including their professional development plan.

The Department of Education believes that the Coordinated Program Review process is a positive experience and that the Final Report should be seen as a helpful planning document for the continuing development of programs and services in the school district or charter school.

REPORT INTRODUCTION

A five-member Massachusetts Department of Education team visited Braintree Public Schools during the week of November 5, 2001 to evaluate the implementation of selected criteria in the program areas of Special Education, Civil Rights, Title I and Safe and Drug Free Schools. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Braintree Public Schools. These areas are as follows:

- *The district offers an exemplary continuum of program offerings at the secondary level. Specifically, Braintree High School has developed a unique array of educational programs for students at risk, which effectively combines high expectations and the curriculum standards of the general education program with the individualized supports and instructional methodologies available through special education.*
- *The district's adoption of a system-wide approach to effective discipline through the "Discipline with Dignity" program. This professional development program has involved staff and administration alike in reviewing behavior and disciplinary consequences within the context of individual circumstances. Outcomes such as the development of a Code of Conduct from the student perspective, is one example of this proactive methodology.*
- *The district has engaged administrators, teachers and students in sustained district-wide training in anti-bias leadership. Peer leadership activities, such as those developed by the Fusion Club on the high school level, will be adapted and replicated on the middle and elementary school level.*

Some of the commendations noted above are repeated within the body of the Department's report under the appropriate compliance criteria.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of 15 administrative staff.
- Interviews of 70 teaching and support services staff across all levels.
- Interviews of four parent advisory council (PAC) representatives, and other interviews as requested by persons from the general public.
- Interviews as requested by persons from the general public.
- Student record reviews: A sample of 40 student records was selected by the Department. Student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.
- Parent surveys: 28 parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. Ten of these parent surveys were returned to the Department of Education for review by the onsite team.

- Observation of classrooms and other facilities. A sample of 25 instructional classrooms and other school facilities used in the delivery of programs and services was visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components . These components are listed in the executive summary on the following pages. The findings in each program area explain the “ratings, ”determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially “Implemented” or implemented in a “Commendable” manner. (Refer to the “Definition of Terms” section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as “Implemented” but made a specific comment on the district’s implementation methods that also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plan.

COORDINATED PROGRAM REVIEW REPORT

EXECUTIVE SUMMARY

Braintree Public Schools

The following summary synthesizes the findings for criteria included in the Coordinated Program Review as they respond to essential questions which the Department has formulated for each of the components of the report. Note that a more detailed discussion of the onsite team's findings, together with the specific legal standards for each program area included in this review, follows this summary.

Component I: Assessment of Student Progress

Has the district implemented an assessment system that uses appropriate instruments, is conducted according to the specified timelines, and covers the appropriate content areas to determine instructional needs of students?

The district follows appropriate procedures for the selection of assessments for students referred for special education evaluations. There were inconsistencies noted in the development of information for the Teacher Assessment, as well as the Team's documentation of eligibility based on specific learning disability. Procedures for the provision of assessment results, determination of transition services, independent evaluation, transfer of rights at the age of majority and Team composition are all consistent with the requirements. Progress reports do not always contain sufficient detail for parents to make a determination of progress. The district's analysis of MCAS data and other standardized assessment outcomes informs the direction of instruction for Title I programs and instructional practice overall.

Component II: Student Identification and Program Placement

Has the district followed procedures for student identification and placement into the program according to the criteria specified in regulations?

The district has procedures in place for outreach and screening to assist in the identification of students who may be eligible for services. There is effective liaison with Early Intervention and other groups to ensure the initiation of services for young children at age three. The development of the IEP and placement determination is done consistent with regulation, but the district does not always issue the IEP within the required timelines. The district's procedures for extended evaluation, selection of the least restrictive environment, and implementation of the IEP are compliant. Registration and evaluation procedures for students who may be limited English proficient need some refinement, however, appropriate programs with qualified personnel are available. The district's provision of education opportunities for pregnant students in conjunction with South Shore Collaborative are exemplary. Title I identification and assessment procedures are consistent with federal requirements. All students regardless of identified need have access to the full range of district's educational programs.

Component III: Parental Involvement

Has the district ensured that parents are notified in the appropriate language and are involved in decisions regarding their children's programs and services? Where appropriate, does the district involve community representatives in shaping programs?

The district meets most of the requirements for parent consent, TEAM meeting notices,

provision of parent rights and parental involvement in the IEP process. However, the district did not consistently issue special education notices that contained appropriate content consistent with the federal standards or have procedures in place for parents/guardians who are speakers of languages other than English. The district's Parent Advisory Council (PAC) is well established and provides information sessions for parents, as well as extracurricular activities for students with disabilities. However, the PAC is not involved in advising the School Committee with regard to the planning, development and evaluation of the district's programs. The district has successfully increased the involvement of Title I parents, particularly in school councils. There is a high degree of parent and community participation evident in the development and refinement of SDFSCA programs and activities.

Component IV: Curriculum and Instruction

Does the district hold all students to high expectations and standards? Are programs designed to maximize student performance and students' participation in the general curriculum? Is curriculum throughout the districts' programs aligned with the Massachusetts Curriculum Frameworks? Has the district provided for coordination across program areas?

All students in the district are held to high expectations and the curriculum across program areas has been aligned to the Curriculum Frameworks. The student /teacher ratios for special education programs is exemplary. There were two programs, the SAIL and Prove programs, where the age span was exceeded. The district's pre-school program has been innovative in its efforts to develop an inclusionary program model. The high degree of collaboration and coordination by professional staff is evident across program areas from regular education, to special education, Title I and Safe and Drug Free Schools and Communities. The district supports instructional practices that are differentiated according to individual learning styles.

Component V: Student Support Services

Has the district ensured that all students have equal access to programs and services? Does the district provide support to students who need it?

The district has successfully adopted a multi-faceted approach to dealing with student behaviors that includes proactive interventions with a focus on individual circumstances. The district has updated restraint procedures consistent with the Department's new regulations and provided awareness training to staff, however the School Committee has not yet adopted the new policy. All students have equal opportunity for participation in academic, non-academic and extracurricular activities. The district publishes civil rights notices and grievance procedures, however not all handbooks and study guides contain the complete non-discrimination notice. Review of counseling materials for bias and stereotypes must be expanded to include commercially produced materials.

Component VI: Faculty, Staff and Administration

Does the district maintain certified staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development? Are program leadership and oversight effective? Are the district's personnel procedures non-discriminatory and does it seek to recruit employees from all groups?

The district makes overall efforts to maintain staff who are certified and qualified in their respective program areas. Paraprofessional staff is provided with appropriate supervision and access to professional development opportunities. Each school is in the process of reviewing and adopting the District Curriculum Accommodation Plan (DCAP) to the specific building level. The district's efforts with regard to sustained training for students, faculty and

administration in anti-bias leadership is exemplary. It also acknowledges that recruitment efforts for under represented groups has not been as successful. Title I professional development activities are collaboratively designed and support the district's efforts to promote high achievement for all students.

Component VII: School Facilities

Does the district maintain accessible facilities that are conducive to learning, facilitate integration, and provide equal opportunity for students to achieve?

The district maintains comparable facilities and program spaces for all student groups. There is at least one facility within the district at each level (preschool, elementary and secondary) that is physically accessible. Classrooms and instructional spaces for special populations are for the most part distributed throughout the school buildings and not clustered or isolated.

Component VIII: Program Plan and Evaluation

Does the District have written program plans where required that are evaluated according to specific regulatory requirements? Does it use the results of its evaluations to improve programs? Do parents have opportunities for input on needs, program implementation, evaluation, and improvement?

The district was able to document recent initiatives to evaluate the effectiveness of special education programs and services, however there was a lack of documentation of a regular cycle of program evaluation in prior years. Similarly, the district recently completed a self-assessment and the development of a formal process for review of compliance with civil rights requirements, which will be implemented by staff during the current school year. The Title I and SDFSCA programs are annually reviewed for evidence of effectiveness and the results are used to refine and improve existing programs and services.

Component IX: Record keeping

Does the District maintain required records and documentation for each specific program area? Are federal entitlement grants appropriately designed, amended, and monitored?

The district maintains appropriate record keeping procedures and documentation for special education, Title I and Safe and Drug Free Schools and Communities Act. It is noted that the district had recently hired a designated staff person to update its special education database at the time of the Department's onsite review.

DEFINITION OF TERMS
FOR THE RATING OF EACH COMPLIANCE CRITERION

Commendable	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
Implemented	The requirement is substantially met.
Implementation in Progress	In reference to compliance criterion MOA 17A, new Board of Education requirements became effective on April 2, 2001 regarding the use of physical restraint in publicly funded education programs. The district is currently engaged in staff training and is beginning implementation practices for these new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the 2001-2002 school year.
Partially Implemented	The requirement, in one or several important aspects, is not entirely met.
Not Implemented	The requirement is totally or substantially not met.
Not Applicable	The requirement does not apply to the school district or charter school.

COMPONENT I: ASSESSMENT OF STUDENT PROGRESS

The criteria in this component examine whether the District has implemented an assessment system that uses appropriate instruments, conducted according to the specified timelines and covering the appropriate content areas to determine instructional needs of students for the program areas listed below:

- Special Education (Report Issues # SE 1- SE 14)
 - Title I (Report Issues # TI 1-4)

SE 25	<p>Parental consent In accordance with state and federal law, the school district obtains informed parental consent as follows:</p> <ol style="list-style-type: none"> 1. The school district obtains written parental consent before conducting an initial evaluation or making an initial placement of a student in a special education 	

CRITERION NUMBER	
	<p style="text-align: center;">Legal Standard</p> <p>program. Written parental consent is obtained before conducting a reevaluation and before placing a student in a special education placement subsequent to the initial placement in special education.</p> <ol style="list-style-type: none"> 2. The school district obtains consent before initiating extended evaluation services. 3. The school district obtains consent to the services proposed on a student's IEP before providing such services. 4. The school district obtains consent prior to placing a student in an initial special education placement and for any subsequent placement. 5. A parent is informed that consent may be revoked at any time. Except for initial evaluation and initial placement, consent may not be required as condition of any benefit to the child. 6. When the participation or consent of the parent is required and the parent fails or refuses to participate, the attempts to secure the consent of the parent are implemented through multiple attempts using a variety of methods which are documented by the district. Such efforts may include letters, written notices sent by certified mail, electronic mail (e-mail), telephone calls, or, if appropriate, TTY communications to the home, and home visits at such time as the parent is likely to be home. Efforts may include seeking assistance from a community service agency to secure parental participation. 7. If, subsequent to initial evaluation and initial placement and after following the procedures required by the regulations, the school district is unable to obtain parental consent to a reevaluation or to placement in a special education program subsequent to the initial placement, or the parent revokes consent to such reevaluation or placement, the school district considers with the parent whether such action will result in the denial of a free appropriate public education to the child. If, after consideration, the school district determines that the parent's failure or refusal to consent will result in a denial of a free appropriate public education to the student, it seeks resolution of the dispute through Special Education Appeals <p>State Regulations 28.07(1)</p> <p style="text-align: right;">Federal Requirements 300.500(b)(1)</p>

SDF 2A	The Safe and Drug Free Schools Advisory Council is representative of community agencies. The Council includes parents, students and representatives from the schools and prevention community. Advisory Council activities are directed toward developing appropriate drug abuse and violence awareness and prevention programs. [Title IV Sec. 4115 (b) (2) (E)]
	Rating: Implemented District Response Required: No

Department of Education Findings: *The Advisory Council has representatives from the following segments of the community: local government, business, parents, students, school staff, appropriate state agencies, religious leaders, private schools, law enforcement, the medical profession and other groups with interest or expertise in drug and violence prevention.*

CRITERION NUMBER	
	Legal Standard
SDF 2B	There is evidence of an ongoing role for the Advisory Council in program planning and implementation through a comprehensive set of activities.
	Rating: Implemented District Response Required: No

Department of Education Findings: *Advisory Council activities include the following: Establishing measurable goals and objective for local programs; designing program strategies and activities to meet established goals and objectives; gathering and analysis of data to identify drug and violence problem among local youth; establishing the measurable goals and objectives for the program; designing or selecting programs or strategies to meet the goals and objectives; and reviewing evaluation data to advise the LEA on program improvement or modification.*

CRITERION NUMBER	
	Legal Standard
SDF 3	There are program activities implemented to promote the involvement of parents. [Title IV Sec. 4116 (a)(1)]
	Rating: Implemented District Response Required: Yes

Department of Education Findings: *Based on documentation and interviews, there is evidence that the district promotes parent involvement through attendance at PTO meetings and offering some*

programs for parents. Parent programs should complement the research- based Safe and Drug Free Schools curriculum that is delivered to students.

Parents are surveyed and have participated in focus groups and meetings regarding the prevalence of drug use and violence problems among youth in the community. Parents are aware of the goals and objectives, provided status reports, program outcomes and accomplishments of the local Safe and Drug Free Schools and Communities Act program. This is done in a systematic way via newsletters, cable TV, local newspapers, School Committee meetings, PTO meetings and through a web site pilot.

COMPONENT IV: CURRICULUM AND INSTRUCTION

The criteria in this component examine whether the district holds all students to high expectations and standards and ensures that the program areas reviewed are designed to maximize student performance within regular education and are implemented according to specific regulatory requirements with respect to learning time, class size, staffing ratio, and age spans. The criteria also examine if the district has provided for coordination across the following program areas:

- Special Education (Report Issues # SE 33-42)
- Civil Rights Methods of Administration (MOA) (Report Issues MOA 8-9)
 - Title I (Report Issues # TI 12-14F)
- Safe and Drug Free Schools (Report Issue # SDF 4)

SE 37	<p>Procedures for approved and unapproved out-of-district placements</p> <ol style="list-style-type: none"> 1. <u>Individual student program oversight</u>: The school district monitors the provision of services to and the programs of individual students placed in public and private out-of-district programs. Documentation of monitoring plans and all actual monitoring are placed in the files of every eligible student who has been placed out-of-district. To the extent that this monitoring requires site visits, such site visits are documented and placed in the students' files for review. The duty to monitor out-of-district placements is not delegated to parents or their agents, to the Department of Education, or to the out-of-district placement. 2. <u>Student right to full procedural protections</u>: The school district retains full responsibility for ensuring that the student is receiving all special education and related services in the student's IEP, as well as all procedural protections of law and regulation. Any Team meetings conducted during the time that a student is enrolled in the out-of-district program are initiated by the school district in coordination with the out-of-district placement. 3. <u>Preference to approved programs</u>: The school district, in all circumstances, first seeks to place a student in a program approved by the Department pursuant to the requirements of 603 CMR 28.09. Preference is also given to approved programs located within the Commonwealth of Massachusetts if the choice of such program is consistent with the needs of the student and the choice of such program complies with LRE requirements. When an approved program is available to provide the services on the IEP, the district makes such placement in the approved program in preference to any program not approved by the Department. 4. <u>Written contracts</u>: At a minimum, the school district enters into written contracts with all public and private out-of-district placements. Such contracts meet the content requirements of 28.06(3)(f)(1-5). 5. <u>Use of unapproved programs</u>: A school district that places a student in a program that has not been approved by the Department according to the requirements under 603 CMR 28.09 ensures that such programs and services are provided in appropriate settings by appropriately credentialed staff able to deliver the services on the student's IEP. Students placed by the school district in such programs are entitled to the full protections of state and federal special education law and regulation. 6. <u>Placement documentation</u>: The following documentation is maintained by the school district pursuant to its placement of children in unapproved out-of-district programs: <ol style="list-style-type: none"> a. <u>Search</u>: The Administrator of Special Education documents the search for and unavailability of a program approved by the Department. The Administrator places such documentation in the student record. b. <u>Evaluation of facility</u>: The Administrator of Special Education or his/her designee thoroughly evaluates the appropriateness of any unapproved facility prior to placement of the student in such

CRITERION NUMBER	
	Legal Standard
	<p>program. Such evaluation determines whether the unapproved facility can appropriately implement the student’s IEP in a safe and educationally appropriate environment. Such evaluation additionally determines whether the unapproved facility can and will provide the student with all the rights that are accorded to the student under state and federal special education law. Such evaluation is documented in detail and placed in the student record for review. To the extent that this evaluation requires a site visit, such site visits are documented and placed in the student record for review. The duty to evaluate the appropriateness of any unapproved facility is not delegated to the parents or their agents or the proposed unapproved facility.</p> <p>c. <u>School district approval to operate a private school in Massachusetts</u>: If services in an unapproved program are provided in a school setting, the Administrator of Special Education ensures that such school has received approval from the local school committee under MGL c.76, §1 and a copy of such approval is retained in the student record.</p> <p>d. <u>Pricing</u>: Pursuant to the requirements for Compliance, Reporting and Auditing for Human and Social Services at 808 CMR 1.00, the Administrator obtains pricing forms required to set program prices for programs receiving publicly funded students. Such pricing forms are completed by the proposed placement and document that the price proposed for the student’s tuition is the lowest price charged for similar services to any student in that program.</p> <p>e. <u>Notification of the Department of Education</u>: Prior to placement, if the Team determines that placement in such facility is appropriate, the Administrator notifies the Department of the intent to place the student and the name and location of the proposed placement. In addition, the Administrator forwards the notice of proposed placement and completed pricing forms to the Department along with the information on the proposed terms of the contract that will govern such placement and documentation of a monitoring plan pursuant to 603 CMR 28.06(3)(b). The district maintains any documentation of the Department’s objections to such placement and the steps the district has taken in regard to such objection. The district maintains documentation of the approved price for publicly funded students as set by the state agency responsible for setting program prices.</p> <p>f. <u>Out of state programs</u>: If out-of-district programs are provided in a placement outside of Massachusetts, and such school has not received approval by the Department under 603 CMR 28.09, the Administrator of Special Education ensures that such school has received approval from the host state.</p> <p style="text-align: center;">State Regulations Federal Requirements</p>

The size and composition of instructional groupings for eligible students receiving services outside the general education classroom are compatible with the methods and goals stated in each student's IEP. 2. Instructional grouping size requirements are maximum sizes and the school district exercises judgment in determining appropriate group size and supports for smaller instructional groups serving students with complex special needs. 3. When eligible students are assigned to instructional groupings outside of the general education classroom for 60% or less of the students' school schedule, group size does not exceed eight (8) students with a certified special educator, twelve (12) students if the certified special educator is assisted by one aide, and sixteen (16) students if the certified special educator is assisted by two aides. 4. For eligible students served in settings that are substantially separate, serving solely students with disabilities for more than 60% of the students' school schedule, the district provides instructional groupings that do not exceed eight (8) students to one certified special educator or twelve (12) students to a certified special educator and an aide. 5. After the school year has begun, if instructional groups have reached maximum size as delineated in paragraphs 3 and 4 of this criterion, the Administrator of Special Education and the certified special educator(s) providing services in an instructional group may decide to increase the size of an instructional grouping by no more than two additional students if the additional students have compatible instructional needs and then can receive services in their neighborhood school. 6. In such cases, the Administrator provides written notification to the Department and the parents of all group members of the decision to increase the instructional group size and the reasons for such decision. Such increased instructional group sizes are in effect only for the year in which they are initiated. 7. The district takes all steps necessary to reduce the instructional groups to the sizes outlined in paragraph 3 or 4 of this criterion for subsequent years. Such steps are documented by the district. <p>State Regulations 28.06(6)</p> <p style="text-align: right;">Federal Requirements</p>
	<p>Rating: Commendable District Response Required: No</p>

Department of Education Findings: *The district maintains an exemplary student/teacher ratio for students enrolled in special education programs.*

COMPONENT VI: FACULTY, STAFF AND ADMINISTRATION

The criteria in this component examine whether the district has certified staff, provides supervision of aides and tutors, and provides ongoing professional development in the program areas listed below. Additionally, the component examines whether the district implements an effective system of program leadership and oversight which fosters high standards and performance expectations for all students and staff consistent with the goals of applicable federal and state requirements and Education Reform Act of 1993.

	Legal Standard
SE 50	<p>Responsibilities of the School Principal and Administrator of Special Education Principal:</p> <ol style="list-style-type: none"> 1. <u>Instructional support.</u> The principal in each of the district’s schools promotes instructional practices responsive to student needs and ensures that adequate instructional support is available for students and teachers. Instructional support includes remedial instruction for students, consultative services for teachers, availability of reading instruction at the elementary level, appropriate services for linguistic minority students, and other services consistent with effective educational practices and the requirements of MGL c. 71B, §2. The principal consults with the Administrator of Special Education regarding accommodations and interventions for students. Such efforts and their results are documented and placed in the student record. Additionally, when an individual student is referred for an evaluation to determine eligibility for special education, the principal ensures that documentation on the use of instructional support services for the student is provided as part of the evaluation information reviewed by the Team when determining eligibility. 2. <u>Curriculum Accommodation Plan.</u> The principal implements a curriculum accommodation plan adopted by the district to ensure that all efforts have been made to meet the needs of diverse learners in the general education program. The plan assists the regular classroom teacher in analyzing and accommodating diverse learning styles of all children in the regular classroom and in providing appropriate services and support within the regular education program including, but not limited to, direct and systemic instruction in reading and provision of services to address the needs of children whose behavior may interfere with learning. The Plan includes teacher training in (1) analyzing and accommodating diverse learning styles of all students in order to achieve an objective of inclusion in the regular classroom of students with diverse learning styles; (2) methods of collaboration among teachers, paraprofessionals and teacher assistants to accommodate such styles; and (3) training in the provision of pre-referral services within regular education, teacher mentoring and collaboration and parental involvement. 3. <u>Coordination with special education.</u> The principal with the assistance of the Administrator of Special Education coordinates the delivery and supervision of special education services within each school building. 4. <u>Educational services in home or hospital.</u> Upon receipt of a physician’s written order verifying that any student enrolled in a public school or placed by the public school in a private setting must remain at home or in a hospital on a day or overnight basis, or any combination of both, for medical reasons and for a period of not less than fourteen school days in any school year, the principal arranges for provision of educational services in the home or hospital. Such services are provided with sufficient frequency to allow the student to continue his or her educational program, as long as such services

Department of Education Findings: *Approved and current budget pages are on file at the Department of Education for the fiscal year 2001. The district's 2002 grant was filed subsequent to the onsite visit. Copies of submitted and approved amendment (AMI) forms are on file, as are submitted request for funds (RF1) forms. Time distribution logs are being maintained for individuals employed with SDFSCA funds.*

APPENDIX:
SCHOOL DISTRICT PROFILE INFORMATION

The information which is provided in this Appendix was drawn from data supplied by the school district. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. This district-wide information, together with more detailed school building data, is periodically updated by the school district and is available in an evercurrent form on the Department's internet web site at <<http://profiles.doe.mass.edu/>>.

School and District Profiles

Definitions of Terms

Profiles

The Massachusetts Department of Education collects information about schools and districts. Some of the information collected is published in School and District Profiles on DOE web pages. The information provides a snapshot of the educational picture in communities across the state.

Now districts view, add, update and delete their own district and school information over the web to make sure that the information is as up-to-date and accurate as possible. In addition, the general public will be able to view Directory information about each school district in the state. Individuals can retrieve for themselves information such as school personnel, school programs (e.g. School Choice and TBE) and the location of specialized services such as Special Education Collaboratives, and Vocational Training Programs.

The list below provides an explanation of information presented in the Profiles.

Directory Information

DOE Code: The DOE Code, also referred to as the Organization Code, is an eight digit numeric code assigned by the Massachusetts Department of Education to every organization listed in the Directory Profiles, including every district and school in the Commonwealth. For districts and schools, the first four digits represent the District Code and the last four digits represent the School Code. Thus the organization code "02660505" stands for "0266" (Sharon Public Schools) + "0505" (Sharon High). If a form requires the 8-digit DOE school code it is calling for the entire organization code.

Prior to the 2001 school year, organization codes contained six digits (three for the district and three for the school.) With the exception of some special needs schools, the eight digit codes are the same as the six digit codes with one zero added before the district code and another zero added before the school code. Thus, Sharon High's old six digit organizational code was 266505.

Please Note: The Department's Organization Code is not the same as the Institution codes assigned by the College board for SAT and AP results. Nor is it the same as the NCES code assigned to Massachusetts schools by the U.S. Department of Education.

Grades/Schools*: indicates the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "PK" indicates the district has pre-kindergarten. A high school range ending in "13" or "14" indicates the district has a post-graduate program. Kindergarten starting age indicates the age as of a particular date at which children are eligible to begin kindergarten.

Services: Services include:

- **Inter-district Choice:** indicates whether students from other districts may enroll in the district through the state school choice program, which is voluntary and on a space-available basis.
- **Intra-district Choice:** indicates whether the district has a school choice program within the school district for students who live in the district.
- **Vocational Education:** indicates whether the district operates a Chapter 74 approved vocational education program.
- **Transitional Bilingual Education (TBE):** indicates whether the district operates a TBE program. Under Massachusetts law, a district must provide a TBE program in a particular language if there are 20 or more limited English proficient students in that particular language group enrolled in the district. Limited English proficient students are students whose first language is not English and who cannot perform ordinary class work in English.
- **METCO:** indicates whether the district participates in the state METCO program, which promotes voluntary desegregation by enrolling minority students from Boston and Springfield in suburban schools.

Relationships: Relationships include:

- **Member of Regional Districts*:** for local school districts, indicates the name(s) of any academic and/or vocational regional district(s) of which the local school district is a member. For regional school districts, indicates the names of member local school districts. A regional school district provides educational services to more than one town.

* District level data only.

Enrollment

Enrollment by Grade: indicates the enrollment for grades Pre-kindergarten (PK), kindergarten through 12, post-graduate grades 13 and 14, and ungraded (u/g) students for the listed school year.

Race/Ethnicity: indicates the percent of enrollment by race/ethnicity for the listed school year. The reporting categories are those used by the U.S. Bureau of the Census.

Selected Populations: indicates the percent of enrollment represented by students in special education programs*, students who are limited English proficient, and students eligible to receive free or reduced price lunch*. Data are for the listed school year.

Children Attending Public Schools*: indicates the percent of school-age children in a city or town attending public schools, for the listed school years.

* District level data only.

Test Results

Massachusetts Comprehensive Assessment System (MCAS): Click the MCAS link to see MCAS results for the district or school.

For additional information about Massachusetts Comprehensive Assessment System (MCAS), please refer to the Department of Education's MCAS web site at www.doe.mass.edu/mcas.

SAT: The district or school's SAT results are displayed for the listed years.

People

A list of people who work in the organization. Each name is linked to contact information for the person.

Finance

Per Pupil Expenditures*: are calculated by dividing a district's operating costs by its average pupil membership. Operating costs include expenditures for administration, instruction, pupil services, transportation, plant maintenance, and fixed charges. These costs do not include capital outlay and long-term interest on school debt.

Average pupil membership includes students who receive services in the district's schools, as well as students receiving home or hospital instruction. Data for regular education, special education, bilingual education and vocational education students are provided in addition to the total for all day programs, for the listed school years.

Teacher Salary*: indicates the minimum and maximum teacher salaries available, for the listed school years.

Foundation Budget Spending Comparison*: The education reform act established a foundation budget for each school district. This budget represents the minimum level of spending needed to provide an adequate education for the district's students. The foundation budget is made up of 19 separate categories. The chart shows the district's actual spending in each category for the listed school year as a percentage of the district's foundation budget. If the percentage exceeds 100%, the district spent more in the category than suggested by the foundation budget. If the percentage is less than 100%, the district spent less. Significant variations between local spending and the foundation budget, or between local spending and the statewide averages, should be reviewed closely. In some cases, the differences may be due to unique circumstances and needs within the district. In other cases, the differences may suggest potential areas for review and improvement.

Click one of the links in the Finance section for more school finance information.

* District level data only.

Other Data

Dropout/Attendance Rates: indicates the percentage of students in grades 9-12 who dropped out of school between July 1 and June 30 prior to the listed year and who did not return to school by October 1. Dropouts are defined as students who leave school prior to graduation for reasons other than transfer to another school.

Attendance Rate: indicates the average percentage of enrolled students present in school for the listed school year.

Student Exclusions: indicates the number of student exclusions that occurred during the listed school year. An exclusion is defined as the removal of a student for disciplinary purposes permanently, indefinitely or for more than ten consecutive school days.

Plans of High School Graduates: indicates the post-graduate intentions of students for the listed school year.

Technology: indicates the number of students for every one computer and the percent of classrooms with Internet access. Data are for the listed school year; "DNR" appears for schools and districts which did not yet report data
