MASSACHUSETTS DEPARTMENT OF EDUCATION

COORDINATED PROGRAM REVIEW REPORT

ROCKLAND PUBLIC SCHOOL DISTRICT

OVERVIEW OF REVIEW PROCEDURES

As one part of its school and school district accountability system, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review system. All reviews include selected requirements in special education under the federal Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 *et seq.* (IDEA-97) and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972) and certain federal civil rights requirements under Titles I and II of the Americans with Disabilities Act of 1990, Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971). Additionally, all reviews include certain standards included under the newly adopted Board of Education Physical Restraint Regulations (603 CMR 46.00). Other monitoring activities in the areas of the state's Transitional Bilingual Education law (M.G.L. Chapter 71A), federal requirements under Title I, the Safe and Drug-Free Schools and Communities Act, the Perkins Vocational and Technical Education Act, and Nutrition Programs and Services will be conducted in some districts during these Coordinated Program Reviews. The school districts and charter schools selected for review in 2001-2002 were notified by the Commissioner of Education in April 2001 of the scheduled visits and were encouraged to assess themselves before the arrival of the Department's visiting team.

Coordinated Program Review Elements

- Team: Depending upon the size of a school district and the number of program areas to be reviewed, a team of two to eight members conducts a Coordinated Program Review over two to seven days in a school district or charter school. The team may include Department consultants as well as Department staff members.
- Scope: Approximately sixty school districts and charter schools are scheduled to receive visits in school year 2001-2002. All school districts and charter schools in the Commonwealth are monitored through the Department's Coordinated Program Review system on a six-year cycle with an additional mid-cycle special education follow-up visit.
- Content: The Program Review criteria include certain of the statutory and regulatory requirements for each program area. In the case of special education, the criteria for the FY 2002 reviews contain, at a minimum, those elements required by the federal Office for Special Education Programs (OSEP) and revised requirements under IDEA-97 as described in the Department's Special Education Advisories. Additionally, the 2001-2002 reviews incorporate updated state special education requirements as adopted by the Board of Education, effective December 20, 2000. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993, being intended to promote high standards and achievement for all students.
- Report: The Department's report is based on a review of documentation regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives.
- Other interviews as requested by members of the general public.
- Review of student records in the special education, Transitional Bilingual Education, and Perkins vocational programs. Parents of students with disabilities whose files were selected for the record review are sent a survey that solicits information about their experiences with the district's implementation of special education programs, related services and procedural requirements.
- Observation of classrooms and other facilities. A sample of instructional classrooms and other school facilities used in the delivery of programs and services are visited to determine general levels of compliance with program and accessibility requirements.
- Interviews, review of student records, and observations in the case of collaborative programs and services. Where the district is a member of a collaborative approved by the Department of Education and serves as a site for any programs or services operated by the collaborative, interviews with collaborative staff, review of records of collaborative students, and observations of collaborative facilities are conducted.

Response: An executive summary and detailed findings for each program area describe determinations about the implementation status of each requirement (criterion) reviewed. The findings note those criteria the implementation of which the team found to be commendable. Where criteria were found not to be fully implemented, the local district or charter school must propose corrective actions to bring those areas into compliance with the controlling statutes or regulations. Districts are encouraged to incorporate the corrective action into their district and school improvement plans, including their professional development plan.

The Department of Education believes that the Coordinated Program Review process is a positive experience and that the Final Report should be seen as a helpful planning document for the continuing development of programs and services in the school district or charter school.

REPORT INTRODUCTION

A four-member Massachusetts Department of Education team visited Rockland Public School District during the week of February 11, 2002 to evaluate the implementation of selected criteria in the program areas of special education, civil rights and Title I. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Rockland Public Schools. These areas are as follows:

The Department's Team commends the district for its administrative coordination and collaboration. The administrative staff's collaboration has led to several exemplary practices. The curriculum across the district is well coordinated. All of the district's curriculum is aligned with the Massachusetts Curriculum Frameworks. In addition, the district does a commendable job in updating its curricula and policies through monthly curriculum meetings across the district. Further, each of the principals has a system within their schools to check weekly on the lessons and which strands within the Curriculum Frameworks are being addressed in the lessons. This allows all students, including students with disabilities to receive instruction based on the Curriculum Frameworks. Further, the teachers are updated monthly on new curriculum alignment and school policies.

Another example of the district's exemplary coordination could be seen in the District Curriculum Accommodation Plan (DCAP). The DCAP, which was developed cooperatively by the Assistant Superintendent of Schools and the principals is comprehensive, including provisions for teacher training and professional development, curriculum review, student services, teacher consultation and collaboration, teacher mentoring and parent involvement. In addition, the district has incorporated their student success plans for the MCAS into their DCAP. Further, each of the principals is working with their individual school councils to tailor the DCAP to the specialized services offered in each of the school buildings.

The Department's Team commends the district for its programs and practices in its pre-school programs. The district is pro-active in its approach to transitioning children from Early Intervention to the pre-school program. Transition starts early (usually by age 2 ½), and the pre-school staff members visit several local pre-school and Early Intervention programs to ensure that the transition to the public school will be smooth. In addition, the district offers a variety of options for pre-school students, including inclusion pre-school classes and a pre-school class specializing in serving students with pervasive developmental disabilities and autism. The specialized pre-school classroom is in the same building as the integrated pre-school classes, allowing for maximum inclusion possibilities while providing specialized services, thereby lowering the need for out-of-district placements.

The Department's Team commends the district for its evaluations of Specific Learning Disabilities. Not only does the district complete all required elements of the Specific Learning Disabilities (SLD) evaluations, the district also provides specialized assessments in SLD. The district provided specialized training in SLD assessments to staff members in each school building. If a student is suspected of having a specific learning disability, the student participates in the district's regular assessment program as well as the specialized SLD evaluation.

The Department's Team commends the district on their efforts to involve parents in the special education programs. The district makes extensive efforts to ensure that parents are included in Team meetings and have input into their children's education programs. In addition to sending parent notices well ahead of the Team meeting to ensure that parents can participate in meetings (or can reschedule as needed) the district sends copies of assessment reports to parents prior to Team meetings in which evaluations will be

discussed. In addition, the district sends parents a blank copy of the parent concerns/vision statement page to parents prior to Team meetings, so that parent will have an opportunity to consider what they would like to add to the IEP. Additionally, the district maintains contact logs for all contact with parents in order to document the district's attempts to facilitate parents' participation.

The district is further commended for their efforts in supporting the Parent Advisory Council (PAC). The district supports the PAC by providing multiple trainings to the PAC throughout the year, providing staff members to attend PAC meetings and consult with PAC members as needed, copying and distributing the PAC newsletter and information and sending letters announcing all PAC meetings to all parents of children with special needs. In addition, the district provides updates to the school committee regarding PAC activities at all school committee meetings. Further, the parents of the PAC are commended for their outstanding PAC programs. In addition to developing well-structured PAC by-laws, the parents have developed a newsletter, the "Parent to Parent Advisor" which has been sent out to parents for more than 15 years. Further, the PAC has developed a successful scholarship program through fundraising and securing sponsorships from local businesses.

The Department's Team commends the district for its wide range of services offered to students in the district. In addition to strong inclusion programs at all levels, the district has a range programs for students with different educational needs. The district has resource services for students with developmental delays, severe language needs, behavior issues, autism, and ADL/vocational needs. While these programs are offered in resource settings because of the severity of needs of the students, the district does an exemplary job of ensuring that students are included with their age-peers in academic, non-academic and special classes whenever possible. Further, the district offers a variety of services and programs for students with behavioral needs. In addition to behavioral plans, the district offers counseling to students when appropriate. The district also has contracted with a behavioral specialist who works in the district four days a week to provide ongoing behavioral support, consultation to teachers and training to staff in issues related to behavioral needs of students.

In addition, the district and the North River Collaborative are commended for their strong partnership in providing North River Collaborative programs in the district. Because of this partnership, the district is able to offer four collaborative programs in the district. By providing numerous options for students with significant special needs, the district and the collaborative are not only enhancing the educational opportunities for students in the least restrictive environment, but they are also diminishing the need for out-of-district placements.

Some of the commendations noted above are repeated within the body of the Department's report under the appropriate compliance criteria.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of 12 administrative staff.
- Interviews of 36 teaching and support services staff across all levels.
- Interviews of seven parent advisory council (PAC) representatives, and other interviews as requested by persons from the general public.
- Interviews as requested by persons from the general public.
- Student record reviews: A sample of 31 student records was selected by the Department. Student records were first examined by local staff, whose findings were then verified by the onsite team using

standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.

- Parent surveys: 31 parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. Thirteen of these parent surveys were returned to the Department of Education for review by the onsite team.
- Observation of classrooms and other facilities. A sample of 17 instructional classrooms and other school facilities used in the delivery of programs and services was visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components . These components are listed in the executive summary on the following pages. The findings in each program area explain the "ratings, "determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially "Implemented" or implemented in a "Commendable" manner. (Refer to the "Definition of Terms" section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as "Implemented" but made a specific comment on the district's implementation methods that also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plan.

COORDINATED PROGRAM REVIEW REPORT

EXECUTIVE SUMMARY

ROCKLAND PUBLIC SCHOOL DISTRICT

The following summary synthesizes the findings for criteria included in the Coordinated Program Review as they respond to essential questions which the Department has formulated for each of the components of the report. Note that a more detailed discussion of the onsite team's findings, together with the specific legal standards for each program area included in this review, follows this summary.

Component I: Assessment of Student Progress

Has the district implemented an assessment system that uses appropriate instruments, is conducted according to the specified timelines, and covers the appropriate content areas to determine instructional needs of students?

The district has assessment procedures in place to ensure that students with disabilities are appropriately identified. Required assessments are conducted and students with disabilities participate in MCAS. The district has procedures in place to provide evaluations for students suspected of having special needs who may need to be evaluated in languages other than English. An area of concern is the need for participation of key personnel, in particular high school regular education teachers and a school psychologist/evaluator at the high school in Team meetings. Regular education teachers are critical to decisions regarding the placement of students with disabilities in the least restrictive environment and access to the general curriculum. School psychologists/evaluators are critical to ensure that evaluation results are appropriately interpreted so that educationally relevant recommendations can be incorporated into the IEPs of eligible students.

Component II: Student Identification and Program Placement

Has the district followed procedures for student identification and placement into the program according to the criteria specified in regulations?

The district's assessment of Specific Learning Disabilities is commendable. The district follows procedures for assessment to ensure the appropriate identification of students with special needs. However, a concern is the lack of participation of a school psychologist/evaluator at the Team meetings at the high school. A school psychologist/evaluator is critical at Team meetings so that students will be correctly determined to be eligible for special education services. The district's efforts to provide access to the general education curriculum is commendable, as are the district's outreach and transition for students in pre-school programs. Specialized materials and assistive technology is provided by the district in most cases, however this needs to be routinely considered for students in the district with mild special needs. The collaborative provides specialized materials and assistive technology, however there are at times delays in the implementation of the technology devices.

Component III: Parental Involvement

Has the district ensured that parents are notified in the appropriate language and are involved in decisions regarding their children's programs and services? Where appropriate, does the district involve community representatives in shaping programs?

The district's efforts to involve parents in decisions regarding their children's educational programs is commendable. The district complies with all the notification requirements of the state and federal regulations and the district provides interpreters for parents who are limited English proficient. The district's efforts in supporting the Parent Advisory Committee are also commendable. An area of improvement would be the district's continued exploration of options for translating district documents and notices (not related to special education) into languages other than English.

Component IV: Curriculum and Instruction

Does the district hold all students to high expectations and standards? Are programs designed to maximize student performance and students' participation in the general curriculum? Is curriculum throughout the districts' programs aligned with the Massachusetts Curriculum Frameworks? Has the district provided for coordination across program areas?

Curriculum and instructional standards in the district are maintained at high levels for all students and are well coordinated across the district. A full array of special education services and programs is available to meet the diverse needs of all students in the district. Special education programs are implemented according to the specific regulatory requirements with respect to class size, age spans within classes and staffing ratios. The District Curriculum Accommodation Plan (DCAP) outlines student support services, teacher support services and parent participation. The district devotes extensive effort to ensuring that its curriculum is aligned with the Massachusetts Curriculum Frameworks. The district's efforts to coordinate the curriculum across the district is commendable.

Component V: Student Support Services

Has the district ensured that all students have equal access to programs and services? Does the district provide support to students who need it?

The district ensures that all students have equal opportunity and access to programs and services. Student with disabilities have equal access to all aspects of school life, educational, nonacademic, extracurricular and ancillary programs. The district provides related services (e.g. speech therapy, occupational therapy, physical therapy) in all cases where it has been recommended by the student's special education Team. The district's efforts to provide support for students with behavioral needs and support for students with vocational/occupational needs are commendable. The district has policies for student conduct and discipline which delineate procedures and safeguards to ensure that due process is observed. These policies and procedures are outlined in the handbooks. Notices of non-discrimination were in all of the district's publications. The names of the district's Title VI, Title IX and Section 504 Coordinators are posted in all of the buildings, however the corresponding addresses and phone numbers are not posted. The district has appropriate grievance procedures for issues related to harassment and other areas of discrimination.

Component VI: Faculty, Staff and Administration

Does the district maintain certified staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development? Are program leadership and oversight effective? Are the district's personnel procedures non-discriminatory and does it seek to recruit employees from all groups?

District staff are appropriately certified or credentialed in their specific areas of responsibility. Personnel policies and procedures are non-discriminatory including staff recruitment and

hiring practices. The district and the collaborative provide appropriate supervision for their teacher's aides. The district's Professional Development Plan is thorough, offering a variety of professional development opportunities to all staff members. Program leadership is commendable, as is the district's coordination and oversight of programs.

Component VII: School Facilities

Does the district maintain accessible facilities that are conducive to learning, facilitate integration, and provide equal opportunity for students to achieve?

All facilities within the district are maintained to be conducive to learning, facilitate integration and provide equal access and opportunity for students to achieve. All instructional spaces being used for special education instruction are comparable to spaces used for general education instruction. While some of the buildings in the district are aging, the district has made extensive efforts to ensure that all buildings are handicapped accessible with appropriate ramps and railings and all parking lots have spaces appropriately designated for handicapped accessibility.

Component VIII: Program Plan and Evaluation

Does the District have written program plans where required that are evaluated according to specific regulatory requirements? Does it use the results of its evaluations to improve programs? Do parents have opportunities for input on needs, program implementation, evaluation, and improvement?

Special education programs are evaluated regularly both internally and by outside consultants to ensure effectiveness and compliance with regulatory requirements. The district uses the result of program evaluation to update policies and practices as needed, further ensuring that the district is in compliance with regulatory requirements. The district uses needs assessment, regular contact with the special education PAC and regular contact with parents to ensure that parents have the opportunity to provide input into program needs. The district has ongoing, continuous review of all curricular areas. Curricular materials are reviewed regularly to ensure that they fairly present different races and cultures.

Component IX: Record keeping

Does the District maintain required records and documentation for each specific program area? Are federal entitlement grants appropriately designed, amended, and monitored?

The district maintains a register of students receiving special education services and the district maintains appropriate documentation regarding the Federal Special Education Child Count and the federal entitlement grants. The grants are appropriately monitored both within the district and by outside consultants as needed. The Title I grant currently indicates that some of the funds are being used for a staff member who is no longer employed by the district. The district has not yet filed an appropriate amendment regarding the use of those funds as a result of the staffing change.

North River Collaborative:

The North River Collaborative has four classrooms within the Rockland Public Schools. In addition, the North River Collaborative has a Public Day School Program in the town of Rockland. The program coordinator, the director of the North River Public Day School program, two teachers and a teaching assistant were interviewed. Four classroom observations and a tour of the Public Day Program were also conducted. Results of the review of the North River Collaborative programs have been included in the report

introduction and in the body of the report.

DEFINITION OF TERMS
FOR THE RATING OF EACH COMPLIANCE CRITERION

Commendable	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
Implemented	The requirement is substantially met.
Implementation in Progress	In reference to compliance criterion MOA 17A, new Board of Education requirements became effective on April 2, 2001 regarding the use of physical restraint in publicly funded education programs. The district is currently engaged in staff training and is beginning implementation practices for these new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the 2001-2002 school year.
Partially Implemented	The requirement, in one or several important aspects, is not entirely met.
Not Implemented	The requirement is totally or substantially not met.
Not Applicable	The requirement does not apply to the school district or charter school.

COMPONENT I: ASSESSMENT OF STUDENT PROGRESS

The criteria in this component examine whether the District has implemented an assessment system that uses appropriate instruments, conducted according to the specified timelines and covering the appropriate content areas to determine instructional needs of students for the program areas listed below:

- Special Education (Report Issues # SE 1- SE 14)
 - Title I (Report Issues # TI 1-4)

CRITERION NUMBER	SPECIAL EDUCATION I. ASSESSMENT OF STUDENT PROGRESS
	Legal Standard
SE 1	<p>Assessments are appropriately selected and interpreted for students referred for evaluation</p> <ol style="list-style-type: none"> 1. Tests and other evaluation materials are: <ol style="list-style-type: none"> a. validated b. administered and interpreted by trained individuals c. tailored to assess specific areas of educational need d. selected and administered to reflect aptitude and achievement levels e. as free as possible from cultural and linguistic bias f. provided in the student's native language or other mode of communication where feasible g. not the sole criterion for determining an appropriate educational program h. not only those designed to provide a single general intelligence quotient i. are selected and administered to ensure that when a test is administered to a student with impaired sensory, manual, or speaking skills, the test results accurately reflect the student's aptitude or achievement level or the other factors the test purports to measure j. technically sound instruments that may assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors 2. In interpreting evaluation data and making decisions, the district: <ol style="list-style-type: none"> a. uses information from a variety of sources to gather relevant functional and developmental information, including information provided by the parent b. ensures that information obtained from these sources is considered c. ensures that the placement decision conforms with placement in the least restrictive environment d. includes information related to enabling the student to be involved in and progress in the general curriculum <p>State Regulations 28.04</p> <p style="text-align: right;">Federal Requirements 300.532, 300.535</p>

Department of Education Findings:

The district completes all required elements of the Specific Learning Disabilities (SLD) evaluations. In addition, the district has provided specialized training in conducting SLD assessments to staff members in each school building. If a student is suspected of having a specific learning disability, the student participates in the district's regular assessment program as well as the specialized SLD evaluation. The specialized SLD assessments provided by the district are exemplary.

SE 17	<p>Initiation of services at age three and Early Intervention transition procedures</p> <ol style="list-style-type: none"> 1. The school district encourages referrals from the Department of Public Health, other agencies, and individuals for young children when or before the child turns two-and-one-half years old in order to ensure continuity of services and to ensure the development and implementation of an IEP for eligible children by the date of the child's third birthday in accordance with federal requirements. 2. The district implements procedures to ensure the effective transition of young children with disabilities from Early Intervention Programs through participation in transition planning conferences arranged by such programs. <p>State Regulations 28.06(7)(b)</p> <p>Federal Requirements 300.24(b)(3); 300.121(c); 300.132; 300.342(c)</p>
	<p>Rating: Commendable District Response Required: No</p>

Department of Education Findings:

The district's early childhood program is an exemplary program. The district is pro-active in its approach to transitioning children from Early Intervention to the pre-school program. Transition starts early (usually by age 2 ½), and the pre-school staff members visit several local pre-school and Early Intervention programs to ensure that the transition to the public school will be smooth. In addition, the district offers a variety of options for pre-school students, including inclusion pre-school classes and a pre-school class specializing in serving students with pervasive developmental disabilities and autism. The specialized pre-school classroom is in the same building as the integrated pre-school classes, allowing for maximum inclusion possibilities while providing specialized services, thereby lowering the need for out-of-district placements.

Department of Education Findings:

The district makes extensive efforts to ensure that parents are included in Team meetings and have input into their children's education programs. In addition to sending parent notices well ahead of the Team meeting to ensure that parents can participate in meetings (or can reschedule as needed) the district sends copies of assessment reports to parents prior to Team meetings in which evaluations will be discussed. In addition, the district sends parents a blank copy of the parent concerns/vision statement page to parents prior to Team meetings, so that parent will have an opportunity to consider what they would like to add to the IEP. Additionally, the district maintains contact logs for all contact with parents in order to document the district's attempts to facilitate parents' participation.

The parent advisory council receives assistance from the school committee without charge, upon reasonable notice, and subject to the availability of staff and resources. 6. The school district conducts, in cooperation with the parent advisory council, at least one workshop annually within the district on the rights of students and their parents and guardians under the state and federal special education laws and makes written materials explaining such rights available upon request. <p>State Regulations Chapter 71B, sec. 1C; 28.07(4)</p> <p style="text-align: center;">Federal Requirements</p>
	<p>Rating: Commendable District Response Required: No</p>

Department of Education Findings:

The district is commended for their efforts in supporting the Parent Advisory Committee (PAC). The district supports the PAC by providing multiple trainings to the PAC throughout the year, providing staff members to attend PAC meetings and consult with PAC member as needed, copying and distributing the PAC newsletter and information and sending letters announcing all PAC meetings to all parents of children with special needs. In addition, the district provides updates to the school committee regarding PAC activities at all school committee meetings. Further, the parents of the PAC are commended for their outstanding PAC programs. In addition to developing well-structured PAC by-laws, the parents have developed a newsletter, the “Parent to Parent Advisor” which has been sent out to parents for more than 15 years. Further, the PAC has developed a successful scholarship program through fundraising and securing sponsorships from local businesses.

SE 33	<p>Involvement in the general curriculum</p> <ol style="list-style-type: none"> 1. The district has aligned its general curriculum with the Massachusetts Curriculum Frameworks and at least one member of all IEP Teams is familiar with the Curriculum Frameworks such that the Team is able to discuss an eligible student’s appropriate access to the general curriculum. 2. The district ensures that all students with disabilities have access to the general curriculum that is available to all other students and receive instruction in the content areas of this curriculum. 3. In the IEP the district documents the student’s participation in the general curriculum. 	
	State Regulations 28.05(4)(a) and (b)	Federal Requirements 300.347(a)(1)(i); 300.137
	Rating: Commendable	District Response Required: No

Department of Education Findings:

All of the district’s curricula is aligned with the Massachusetts Curriculum Frameworks. To maintain this alignment, the district has monthly articulation groups that meet to review the district’s curriculum and make updates based on updates in the Curriculum Frameworks. The district also maintains a “Work in Progress” curriculum guide, which is updated monthly. The monthly updates are distributed to all teachers in the district. In addition, the administrators in the district meet regularly with each other and the teaching staff to ensure the ongoing alignment. The district uses a comprehensive cycle of review, implementation and accountability for each student and their instruction based on the Curriculum Frameworks. The teachers fill out data sheets weekly to keep the principals apprised of which of the Frameworks have been addressed in their weekly lessons.

	Legal Standard	
SE 34	<p>Continuum of alternative services and placements</p> <p>The district provides or arranges for the provision of each of the elements of the IEPs of students in need of special education from the ages of three through twenty-one, ensuring that a continuum of services and alternative placements is available to meet the needs of all students with disabilities, and takes all steps necessary to ensure compliance with all elements of the IEPs, including vocational education.</p>	
	State Regulations	Federal Requirements 300.551;300.305; 300.123
	Rating: Commendable	District Response Required: No

Department of Education Findings:

The district is commended for its wide range of services offered to students in the district. In addition to strong inclusion programs at all levels, the district has a range of programs for students with different educational needs. The district has resource services for students with developmental delays, severe language needs, behavior issues, autism, and ADL/vocational needs. While these programs are offered in resource settings because of the severity of needs of the students, the district does an exemplary job of ensuring that students are included with their age-peers in academic, non-academic and special classes whenever possible. In addition, the district and the North River Collaborative are commended for their strong partnership in providing North River Collaborative programs in the district. Because of this partnership, the district is able to offer four collaborative programs in the district. By providing numerous options for students with significant special needs, the district and the collaborative are not only enhancing the educational opportunities for students in the least restrictive environment, but they are also diminishing the need for out-of-district placements.

CRITERION NUMBER			
	Legal Standard		
SE 35	<p>Specialized materials and assistive technology</p> <ol style="list-style-type: none"> 1. Specialized materials and equipment specified in IEPs are provided, are of good quality and are suitable for the role they play in the IEP. 2. The school district provides evidence that assistive technology is considered for each eligible student and, if necessary, described in the IEP and provided by the district. 	State Regulations	Federal Requirements 34 CFR 300.308, 34 CFR 300.346
	Rating: Partially Implemented	District and Collaborative Responses Required:	Yes

Department of Education Findings:

While the district routinely considers and purchases specialized materials for students with severe special needs, some district staff reported that assistive technology is not routinely considered for students with milder needs. Collaborative staff indicated that specialized materials and assistive technology is routinely considered for all students. However, collaborative staff reported that there is a delay in getting the specialized materials and equipment into the classrooms, and training is not always provided to the staff in a timely manner.

<p>SE 37</p>	<p>Procedures for approved and unapproved out-of-district placements</p> <p>1. <u>Individual student program oversight</u>: The school district monitors the provision of services to and the programs of individual students placed in public and private out-of-district programs. Documentation of monitoring plans and all actual monitoring are placed in the files of every eligible student who has been placed out-of-district. To the extent that this monitoring requires site visits, such site visits are documented and placed in the students' files for review. The duty to monitor out-of-district placements is not delegated to parents or their agents, to the Department of Education, or to the out-of-district placement.</p> <p>2. <u>Student right to full procedural protections</u>: The school district retains full responsibility for ensuring that the student is receiving all special education and related services in the student's IEP, as well as all procedural protections of law and regulation. Any Team meetings conducted during the time that a student is enrolled in the out-of-district program are initiated by the school district in coordination with the out-of-district placement.</p> <p>3. <u>Preference to approved programs</u>: The school district, in all circumstances, first seeks to place a student in a program approved by the Department pursuant to the requirements of 603 CMR 28.09. Preference is also given to approved programs located within the Commonwealth of Massachusetts if the choice of such program is consistent with the needs of the student and the choice of such program complies with LRE requirements. When an approved program is</p>

CRITERION NUMBER	
	Legal Standard
	<p>available to provide the services on the IEP, the district makes such placement in the approved program in preference to any program not approved by the Department.</p> <p>4. <u>Written contracts</u>: At a minimum, the school district enters into written contracts with all public and private out-of-district placements. Such contracts meet the content requirements of 28.06(3)(f)(1-5).</p> <p>5. <u>Use of unapproved programs</u>: A school district that places a student in a program that has not been approved by the Department according to the requirements under 603 CMR 28.09 ensures that such programs and services are provided in appropriate settings by appropriately credentialed staff able to deliver the services on the student’s IEP. Students placed by the school district in such programs are entitled to the full protections of state and federal special education law and regulation.</p> <p>6. <u>Placement documentation</u>: The following documentation is maintained by the school district pursuant to its placement of children in unapproved out-of-district programs:</p> <ul style="list-style-type: none"> a. <u>Search</u>: The Administrator of Special Education documents the search for and unavailability of a program approved by the Department. The Administrator places such documentation in the student record. b. <u>Evaluation of facility</u>: The Administrator of Special Education or his/her designee thoroughly evaluates the appropriateness of any unapproved facility prior to placement of the student in such program. Such evaluation determines whether the unapproved facility can appropriately implement the student’s IEP in a safe and educationally appropriate environment. Such evaluation additionally determines whether the unapproved facility can and will provide the student with all the rights that are accorded to the student under state and federal special education law. Such evaluation is documented in detail and placed in the student record for review. To the extent that this evaluation requires a site visit, such site visits are documented and placed in the student record for review. The duty to evaluate the appropriateness of any unapproved facility is not delegated to the parents or their agents or the proposed unapproved facility. c. <u>School district approval to operate a private school in Massachusetts</u>: If services in an unapproved program are provided in a school setting, the Administrator of Special Education ensures that such school has received approval from the local school committee under MGL c.76, §1 and a copy of such approval is retained in the student record. d. <u>Pricing</u>: Pursuant to the requirements for Compliance, Reporting and Auditing for Human and Social Services at 808 CMR 1.00, the Administrator obtains pricing forms required to set program prices for programs receiving publicly funded students. Such pricing forms are completed by the proposed placement and document that

CRITERION NUMBER		
	Legal Standard	
	<p>the price proposed for the student’s tuition is the lowest price charged for similar services to any student in that program.</p> <p>e. <u>Notification of the Department of Education</u>: Prior to placement, if the Team determines that placement in such facility is appropriate, the Administrator notifies the Department of the intent to place the student and the name and location of the proposed placement. In addition, the Administrator forwards the notice of proposed placement and completed pricing forms to the Department along with the information on the proposed terms of the contract that will govern such placement and documentation of a monitoring plan pursuant to 603 CMR 28.06(3)(b). The district maintains any documentation of the Department’s objections to such placement and the steps the district has taken in regard to such objection. The district maintains documentation of the approved price for publicly funded students as set by the state agency responsible for setting program prices.</p> <p>f. <u>Out of state programs</u>: If out-of-district programs are provided in a placement outside of Massachusetts, and such school has not received approval by the Department under 603 CMR 28.09, the Administrator of Special Education ensures that such school has received approval from the host state.</p>	
	<p>State Regulations 28.02(13), 28.06(3)</p>	<p>Federal Requirements 300.2(c)</p>
	<p>Rating: Implemented District Response Required: No</p>	

Department of Education Findings:

The district has developed an out-of-district monitoring form to assist them in monitoring out of district placements. While the district is monitoring all of its out-of-district placements, it would be helpful to keep copies of the monitoring forms for the specific programs each student attends in the students’ records.

Rating: Commendable	District Response Required: No				

Department of Education Findings:

The district's early childhood program is an exemplary program. The district is pro-active in its approach to transitioning children from Early Intervention to the pre-school program. Transition

starts early—usually by age 2-6, and the pre-school staff members visit several local pre-school and Early Intervention programs to ensure that the transition to the public school will be smooth. In addition, the district offers a variety of options for pre-school students, including inclusion pre-school classes and a pre-school class specializing in serving students with pervasive developmental disabilities and autism. The specialized pre-school classroom is in the same building as the integrated pre-school classes, allowing for maximum inclusion possibilities while providing specialized services, thereby lowering the need for out-of-district placements.

SE 50	<p>Responsibilities of the School Principal and Administrator of Special Education Principal:</p> <ol style="list-style-type: none"> 1. <u>Instructional support.</u> The principal in each of the district’s schools promotes instructional practices responsive to student needs and ensures that adequate instructional support is available for students and teachers. Instructional support includes remedial instruction for students, consultative services for teachers, availability of reading instruction at the elementary level, appropriate services for linguistic minority students, and other services consistent with effective educational practices and the requirements of MGL c. 71B, §2. The principal consults with the Administrator of Special Education regarding accommodations and interventions for students. Such efforts and their results are documented and placed in the student record. Additionally, when an individual student is referred for an evaluation to determine eligibility for special education, the principal ensures that documentation on the use of instructional support services for the student is provided as part of the evaluation information reviewed by the Team when determining eligibility. 2. <u>Curriculum Accommodation Plan.</u> The principal implements a curriculum accommodation plan adopted by the district to ensure that all efforts have been made to meet the needs of diverse learners in the general education program. The plan assists the regular classroom teacher in analyzing and accommodating diverse learning styles of all children in the regular classroom and in providing appropriate services and support within the regular education program including, but not limited to, direct and systemic instruction in reading and provision of services to address the needs of children whose behavior may interfere with learning. The Plan includes teacher training in (1) analyzing and accommodating diverse learning styles of all students in order to achieve an objective of inclusion in the regular classroom of students with diverse learning styles; (2) methods of collaboration among teachers, paraprofessionals and teacher assistants to accommodate such styles; and (3) training in the provision of pre-referral services within regular education, teacher mentoring and collaboration and parental involvement. 3. <u>Coordination with special education.</u> The principal with the assistance of the Administrator of Special Education coordinates the delivery and supervision of special education services within each school building. 4. <u>Educational services in home or hospital.</u> Upon receipt of a physician’s written order verifying that any student enrolled in a public school or placed by the public school in a private setting must remain at home or in a hospital on a day or overnight basis, or any combination of both, for medical reasons and for a period of not less than fourteen school days in any school year, the principal arranges for provision of educational services in the home or hospital. Such services are provided with sufficient frequency to allow the student to continue his or her educational program, as long as such services

Department of Education Findings:

The District Curriculum Accommodation Plan, which was developed cooperatively by the Pupil Personnel Director and the principals is comprehensive, including provisions for teacher training and professional development, curriculum review, student services, teacher consultation and collaboration, teacher mentoring and parent involvement. In addition, the district has incorporated their student success plans for the MCAS into their DCAP. Further, each of the principals is working with their individual school councils to further tailor the DCAP to the specialized services offered in each of the school buildings.

Department of Education Findings:

While the district has appropriately completed their Title I grant, the district reduced its staff by one staff member in December 2001 who was funded by the Title I grant. The district has not yet filed the appropriate amendment to their Title I grant.

APPENDIX:
SCHOOL DISTRICT PROFILE INFORMATION

The school district information which is provided in this Appendix was drawn from data supplied by the school district. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. The information is periodically updated by the school district and is available in an evercurrent form on the Department's Internet web site at <http://profiles.doe.mass.edu/>. More detailed information on each school within the district is also available at this Web site.

School and District Profiles

Definitions of Terms

Profiles

The Massachusetts Department of Education collects information about schools and districts. Some of the information collected is published in School and District Profiles on DOE web pages. The information provides a snapshot of the educational picture in communities across the state.

Now districts view, add, update and delete their own district and school information over the web to make sure that the information is as up-to-date and accurate as possible. In addition, the general public will be able to view Directory information about each school district in the state. Individuals can retrieve for themselves information such as school personnel, school programs (e.g. School Choice and TBE) and the location of specialized services such as Special Education Collaboratives, and Vocational Training Programs.

The list below provides an explanation of information presented in the Profiles.

Directory Information

DOE Code: The DOE Code, also referred to as the Organization Code, is an eight digit numeric code assigned by the Massachusetts Department of Education to every organization listed in the Directory Profiles, including every district and school in the Commonwealth. For districts and schools, the first four digits represent the District Code and the last four digits represent the School Code. Thus the organization code "02660505" stands for "0266" (Sharon Public Schools) + "0505" (Sharon High). If a form requires the 8-digit DOE school code it is calling for the entire organization code.

Prior to the 2001 school year, organization codes contained six digits (three for the district and three for the school.) With the exception of some special needs schools, the eight digit codes are the same as the six digit codes with one zero added before the district code and another zero added before the school code. Thus, Sharon High's old six digit organizational code was 266505.

Please Note: The Department's Organization Code is not the same as the Institution codes assigned by the College board for SAT and AP results. Nor is it the same as the NCES code assigned to Massachusetts schools by the U.S. Department of Education.

Grades/Schools*: indicates the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "PK" indicates the district has pre-kindergarten. A high school range ending in "13" or "14" indicates the district has a post-graduate program. Kindergarten starting age indicates the age as of a particular date at which children are eligible to begin kindergarten.

Services: Services include:

- **Inter-district Choice:** indicates whether students from other districts may enroll in the district through the state school choice program, which is voluntary and on a space-available basis.
- **Intra-district Choice:** indicates whether the district has a school choice program within the school district for students who live in the district.
- **Vocational Education:** indicates whether the district operates a Chapter 74 approved vocational education program.
- **Transitional Bilingual Education (TBE):** indicates whether the district operates a TBE program. Under Massachusetts law, a district must provide a TBE program in a particular language if there are 20 or more limited English proficient students in that particular language group enrolled in the district. Limited English proficient students are students whose first language is not English and who cannot perform ordinary class work in English.
- **METCO:** indicates whether the district participates in the state METCO program, which promotes voluntary desegregation by enrolling minority students from Boston and Springfield in suburban schools.

Relationships: Relationships include:

- **Member of Regional Districts*:** for local school districts, indicates the name(s) of any academic and/or vocational regional district(s) of which the local school district is a member. For regional school districts, indicates the names of member local school districts. A regional school district provides educational services to more than one town.

* District level data only.

Enrollment

Enrollment by Grade: indicates the enrollment for grades Pre-kindergarten (PK), kindergarten through 12, post-graduate grades 13 and 14, and ungraded (u/g) students for the listed school year.

Race/Ethnicity: indicates the percent of enrollment by race/ethnicity for the listed school year. The reporting categories are those used by the U.S. Bureau of the Census.

Selected Populations: indicates the percent of enrollment represented by students in special education programs*, students who are limited English proficient, and students eligible to receive free or reduced price lunch*. Data are for the listed school year.

Children Attending Public Schools*: indicates the percent of school-age children in a city or town attending public schools, for the listed school years.

* District level data only.

Test Results

Massachusetts Comprehensive Assessment System (MCAS): Click the MCAS link to see MCAS results for the district or school.

For additional information about Massachusetts Comprehensive Assessment System (MCAS), please refer to the Department of Education's MCAS web site at www.doe.mass.edu/mcas.

SAT: The district or school's SAT results are displayed for the listed years.

People

A list of people who work in the organization. Each name is linked to contact information for the person.

Finance

Per Pupil Expenditures*: are calculated by dividing a district's operating costs by its average pupil membership. Operating costs include expenditures for administration, instruction, pupil services, transportation, plant maintenance, and fixed charges. These costs do not include capital outlay and long-term interest on school debt.

Average pupil membership includes students who receive services in the district's schools, as well as students receiving home or hospital instruction. Data for regular education, special education, bilingual education and vocational education students are provided in addition to the total for all day programs, for the listed school years.

Teacher Salary*: indicates the minimum and maximum teacher salaries available, for the listed school years.

Foundation Budget Spending Comparison*: The education reform act established a foundation budget for each school district. This budget represents the minimum level of spending needed to provide an adequate education for the district's students. The foundation budget is made up of 19 separate categories. The chart shows the district's actual spending in each category for the listed school year as a percentage of the district's foundation budget. If the percentage exceeds 100%, the district spent more in the category than suggested by the foundation budget. If the percentage is less than 100%, the district spent less. Significant variations between local spending and the foundation budget, or between local spending and the statewide averages, should be reviewed closely. In some cases, the differences may be due to unique circumstances and needs within the district. In other cases, the differences may suggest potential areas for review and improvement.

Click one of the links in the Finance section for more school finance information.

* District level data only.

Other Data

Dropout/Attendance Rates: indicates the percentage of students in grades 9-12 who dropped out of school between July 1 and June 30 prior to the listed year and who did not return to school by October 1. Dropouts are defined as students who leave school prior to graduation for reasons other than transfer to another school.

Attendance Rate: indicates the average percentage of enrolled students present in school for the listed school year.

Student Exclusions: indicates the number of student exclusions that occurred during the listed school year. An exclusion is defined as the removal of a student for disciplinary purposes permanently, indefinitely or for more than ten consecutive school days.

Plans of High School Graduates: indicates the post-graduate intentions of students for the listed school year.

Technology: indicates the number of students for every one computer and the percent of classrooms with Internet access. Data are for the listed school year; "DNR" appears for schools and districts which did not yet report data
