## COORDINATED PROGRAM REVIEW REPORT

### Southbridge Public Schools

#### OVERVIEW OF REVIEW PROCEDURES

As one part of its school and school district accountability system, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review system. All reviews include selected requirements in special education under the federal Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 *et seq.* (IDEA-97) and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972) and certain federal civil rights requirements under Titles I and II of the Americans with Disabilities Act of 1990, Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971). Additionally, all reviews include certain standards included under the newly adopted Board of Education Physical Restraint Regulations (603 CMR 46.00). Other monitoring activities in the areas of the state's Transitional Bilingual Education law (M.G.L. Chapter 71A), federal requirements under Title I, the Safe and Drug-Free Schools and Communities Act, the Perkins Vocational and Technical Education Act, and Nutrition Programs and Services will be conducted in some districts during these Coordinated Program Reviews. The school districts and charter schools selected for review in 2001-2002 were notified by the Commissioner of Education in April 2001 of the scheduled visits and were encouraged to assess themselves before the arrival of the Department's visiting team.

#### Coordinated Program Review Elements

- Team: Depending upon the size of a school district and the number of program areas to be reviewed, a team of two to eight members conducts a Coordinated Program Review over two to seven days in a school district or charter school. The team may include Department consultants as well as Department staff members.
- Scope: Approximately sixty school districts and charter schools are scheduled to receive visits in school year 2001-2002. All school districts and charter schools in the Commonwealth are monitored through the Department's Coordinated Program Review system on a six-year cycle with an additional mid-cycle special education follow-up visit.
- Content: The Program Review criteria include certain of the statutory and regulatory requirements for each program area. In the case of special education, the criteria for the FY 2002 reviews contain, at a minimum, those elements required by the federal Office for Special Education Programs (OSEP) and revised requirements under IDEA-97 as described in the Department's Special Education Advisories. Additionally, the 2001-2002 reviews incorporate updated state special education requirements as adopted by the Board of Education, effective December 20, 2000. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993, being intended to promote high standards and achievement for all students.
- Report: The Department's report is based on a review of documentation regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives.
- Other interviews as requested by members of the general public.
- Review of student records in the special education, Transitional Bilingual Education, and Perkins vocational programs. Parents of students with disabilities whose files were selected for the record review are sent a survey that solicits information about their experiences with the district's implementation of special education programs, related services and procedural requirements.
- Observation of classrooms and other facilities. A sample of instructional classrooms and other school facilities used in the delivery of programs and services are visited to determine general levels of compliance with program and accessibility requirements.
- Interviews, review of student records, and observations in the case of collaborative programs and services. Where the district is a member of a collaborative approved by the Department of Education and serves as a site for any programs or services operated by the collaborative, interviews with collaborative staff, review of records of collaborative students, and observations of collaborative facilities are conducted.

Response: An executive summary and detailed findings for each program area describe determinations about the implementation status of each requirement (criterion) reviewed. The findings note those criteria the implementation of which the team found to be commendable. Where criteria were found not to be fully implemented, the local district or charter school must propose corrective actions to bring those areas into compliance with the controlling statutes or regulations. Districts are encouraged to incorporate the corrective action into their district and school improvement plans, including their professional development plan.

The Department of Education believes that the Coordinated Program Review process is a positive experience and that the Final Report should be seen as a helpful planning document for the continuing development of programs and services in the school district or charter school.

## REPORT INTRODUCTION

A six-member Massachusetts Department of Education team visited Southbridge Public Schools during the week of May 13, 2002 to evaluate the implementation of selected criteria in the program areas of Special Education, Transitional Bilingual Education, Title I and Nutrition. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Southbridge Public Schools. These areas are as follows:

*The staff members of the Student Support Services office are to be commended for their commitment to students. The staff have operated the department for almost the entire school year without a director. Students continued to receive Special Education, Transitional Bilingual Education and Title I services uninterrupted. It is clear that the department staff is committed to the success of students enrolled in these programs.*

*The district offers young children excellent services in their comprehensive pre-school program. The district has recently implemented a substantially separate pre-school classroom for students with significant disabilities who have historically been served in out-of-district placements. There is an on-going effort to further integrate these students with their typical peers.*

*Some of the commendations noted above are repeated within the body of the Department's report under the appropriate compliance criteria.*

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of 10 administrative staff. (*Many administrators serve in multiple capacities*)
- Interviews of 76 teaching and support services staff across all levels.
- Interviews of 13 parent advisory council (PAC) representatives, and other interviews as requested by persons from the general public.
- Interviews as requested by persons from the general public.
- Student record reviews: A sample of 44 student records was selected by the Department. Student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.
- Parent surveys: 24 parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. Five of these parent surveys were returned to the Department of Education for review by the onsite team.
- Observation of classrooms and other facilities. A sample of 35 instructional classrooms and other school facilities used in the delivery of programs and services was visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components . These components are listed in the executive summary on the following pages. The findings in each program area explain the "ratings," determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially

“Implemented” or implemented in a “Commendable” manner. (Refer to the “Definition of Terms” section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as “Implemented” but made a specific comment on the district’s implementation methods that also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plan.

## EXECUTIVE SUMMARY

### Southbridge Public Schools

The following summary synthesizes the findings for criteria included in the Coordinated Program Review as they respond to essential questions which the Department has formulated for each of the components of the report. Note that a more detailed discussion of the onsite team's findings, together with the specific legal standards for each program area included in this review, follows this summary.

#### **Component I: Assessment of Student Progress**

*Has the district implemented an assessment system that uses appropriate instruments, is conducted according to the specified timelines, and covers the appropriate content areas to determine instructional needs of students?*

The district uses appropriate instruments to determine instructional needs of students for Special Education, Transitional Bilingual Education and Title I. Assessments are conducted by appropriate and qualified personnel. However, the district does not always complete all required assessments in the area of Special Education. Special Education Teams do not always include parents and general education teachers. Special Education evaluation timelines for eligibility determinations, annual reviews and re-evaluations are not always met. Special Education progress reports are not always given to parents as often as general education progress reports. Additionally, special education progress reports do not always contain all required elements.

#### **Component II: Student Identification and Program Placement**

*Has the district followed procedures for student identification and placement into the program according to the criteria specified in regulations?*

The district has procedures for identifying students who require Special Education, Transitional Bilingual Education and Title I services. However, the evaluative data is not always used to make appropriate placement decisions in the program areas. Students requiring special education services are routinely placed according to program offerings rather than individual need. Limited English proficient students are not placed in the Title I program according to the same standards as their English-only peers.

#### **Component III: Parental Involvement**

*Has the district ensured that parents are notified in the appropriate language and are involved in decisions regarding their children's programs and services? Where appropriate, does the district involve community representatives in shaping programs?*

Parent involvement is inconsistent. While parents of students in special education receive information in their native language, all limited English proficient parents in the district do not. Parents are not always members of Special Education Teams. Parents play a limited role in the development and implementation of the Title I program. There are no informal or formal opportunities for parents of students in the Transitional Bilingual Education program to meet on a regular basis.

#### **Component IV: Curriculum and Instruction**

*Does the district hold all students to high expectations and standards? Are programs designed to maximize student performance and students' participation in the general curriculum? Is curriculum throughout the districts' programs aligned with the Massachusetts Curriculum Frameworks? Has the district provided for coordination across program areas?*

The district's curriculum is aligned with the state frameworks across the grade levels. Students in special education and Title I programs have equal access to instruction in the mandated curriculum. However, students in Special Education are not always instructed in the least restrictive environment. The district has gaps in their continuum of services for students requiring special education services. Students in the Transitional Bilingual Education program do not have equal access to the general curriculum due to overcrowded classrooms and lack of materials and appropriate support staff. There is little coordination between programs across the district.

#### **Component V: Student Support Services**

*Has the district ensured that all students have equal access to programs and services? Does the district provide support to students who need it?*

The district has not ensured that all students have equal access to district programs and services. Students in the Transitional Bilingual Education program do not have equal access to special education services. The district offers little support to students who have been repeatedly suspended. Behavior interventions are not routinely considered or implemented. Monolingual Spanish speaking students do not always receive notice of extracurricular opportunities because the information is provided in English only. Additionally, not all eligible non-public schools are consulted and informed of the availability of Title I services.

#### **Component VI: Faculty, Staff and Administration**

*Does the district maintain certified staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development? Are program leadership and oversight effective? Are the district's personnel procedures non-discriminatory and does it seek to recruit employees from all groups?*

The district's personnel procedures are non-discriminatory. The district advertises in all major Massachusetts newspapers and attends a variety of college job fairs in an effort to recruit a diverse staff. Currently, the majority of district staff are not reflective, either linguistically, culturally or racially, of the student body. Additionally, the district offers few professional development opportunities for staff. Not all district staff members are appropriately certified or hold current certification waivers issued by the Commissioner of Education.

#### **Component VII: School Facilities**

*Does the district maintain accessible facilities that are conducive to learning, facilitate integration, and provide equal opportunity for students to achieve?*

Facilities for students enrolled in Special Education and Transitional Bilingual Education are not equal to those of their general education peers. Special Education classrooms are clustered and separated from the mainstream across the district. Transitional Bilingual Education classrooms, especially at the middle and high schools, are smaller than and isolated from general education classrooms.

**Component VIII: Program Plan and Evaluation**

*Does the District have written program plans where required that are evaluated according to specific regulatory requirements? Does it use the results of its evaluations to improve programs? Do parents have opportunities for input on needs, program implementation, evaluation, and improvement?*

The district has not evaluated its Special Education, Transitional Bilingual Education or Title I programs. Additionally, the district has not evaluated programs and services in accordance with Civil Rights standards.

**Component IX: Record keeping**

*Does the District maintain required records and documentation for each specific program area? Are federal entitlement grants appropriately designed, amended, and monitored?*

The district appropriately maintains the grants in all program areas. Comprehensive student records are kept for students in Special Education and Transitional Bilingual Education programs. However, the district is including students on their Special Education child count that receive no specialized instruction and/or related services.

**DEFINITION OF TERMS**  
**FOR THE RATING OF EACH COMPLIANCE CRITERION**

<b>Commendable</b>	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
<b>Implemented</b>	The requirement is substantially met.
<b>Implementation in Progress</b>	In reference to compliance criterion MOA 17A, new Board of Education requirements became effective on April 2, 2001 regarding the use of physical restraint in publicly funded education programs. The district is currently engaged in staff training and is beginning implementation practices for these new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the 2001-2002 school year.
<b>Partially Implemented</b>	The requirement, in one or several important aspects, is not entirely met.
<b>Not Implemented</b>	The requirement is totally or substantially not met.
<b>Not Applicable</b>	The requirement does not apply to the school district or charter school.

## COMPONENT I: ASSESSMENT OF STUDENT PROGRESS

The criteria in this component examine whether the District has implemented an assessment system that uses appropriate instruments, conducted according to the specified timelines and covering the appropriate content areas to determine instructional needs of students for the program areas listed below:

**Department of Education Findings:**

*Record review, document review, interviews and observations indicate that the district does not have sufficient staff to effectively serve limited English proficient students. Specifically, the district does not employ staff who are qualified to teach upper level courses in Spanish, nor does the district have support staff sufficient to meet the needs of limited English proficient students in the general education program.*

**Department of Education Findings:**

*The school district uses a traditional TBE model to implement the requirements of Chapter 71A except at the Eastford Road school. At that school, there needs to be a greater emphasis on native language literacy. At the high school, students do not receive all of the equivalent courses that are available to mainstream students, and one of the teachers teaches exclusively in Spanish. The school district has the appropriate withdrawal forms should a parent request to have their child removed from the program. Some but not all TBE teachers meet with mainstream teachers periodically to review Curriculum Frameworks requirements and incorporate them into the TBE curriculum. This requirement is not met at all at the Wells Junior High School. TBE teachers have the discretion to use English where appropriate as students' English language skills develop. ESL teachers cover all of the required topics including the history and culture of the United States. However, it does not appear that the history and culture of Puerto Rico is addressed in TBE classes at the high school or at Eastford Road.*

	<b>Rating: Not Implemented</b> <b>District Response Required: Yes</b>

**Department of Education Findings:**

*Rarely are students exited from the TBE program prior to the third year, but when they are exited, there is very little if any follow-up of TBE students in mainstream classes. Grades and progress reports are the only indicators of effective support procedures. There is very little if any collaboration between TBE, ESL, and regular education teachers especially at the junior and senior high levels.*

*Interviews and observation indicate that the district has gaps in their continuum of services. The district cannot serve students with significant behavior concerns across all grade levels. The district*

does not have a bilingual special education program at each level. Each building operates different models of “inclusive” education. However, “inclusion” does not exist at some schools. Inclusion classrooms at the high school have more students on IEPs than not. Placement in an inclusion classroom at West St. School is based solely on test scores.

At the senior high school, during our observation, students were required to pass around the one and only copy of the physical sciences textbook during the class while the teacher was instructing. The students all report being in one very small classroom for most of the day with little or no textbooks to use. An onsite observation of this room confirmed this fact. In addition, the ESL classroom at the high school was inappropriate for the number of students in the room. A similar scarcity of materials was confirmed at the junior high school. Charlton and West St. Schools appeared to have adequate materials for their TBE students. The ESL classroom at Eastford Road was also an inappropriate room for instruction, located beneath the stage area.*

APPENDIX I:  
NUTRITION PROGRAMS AND SERVICES

Code of Federal Regulations:

7 CFR Parts: 210 National School Lunch Program

215 Special Milk Program for Children

220 School Breakfast Program

227 Nutrition Education and Training Program

245 Determining Eligibility for Free and Reduced Price Meals and Free Milk in Schools

The criteria in this component of the Coordinated Program Review examine whether the School Food Authority ensures that the requirements for participation in the National School Lunch, School Breakfast, Special Milk and Commodity School Programs are being implemented. These requirements specify program responsibilities of local officials in the areas of program administration, preparation and service of nutritious meals, use of program funds, program monitoring, reporting and record keeping. The findings included in this section of the report have been made through on-site activities completed by the Department's Nutrition Programs and Services team member.

**APPENDIX II:  
SCHOOL DISTRICT PROFILE INFORMATION**

The information which is provided in this Appendix was drawn from data supplied by the school district. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. This district-wide information, together with more detailed school building data, is periodically updated by the school district and is available in an evercurrent form on the Department's internet web site at <http://profiles.doe.mass.edu/>.

# School and District Profiles

## Definitions of Terms

### Profiles

The Massachusetts Department of Education collects information about schools and districts. Some of the information collected is published in School and District Profiles on DOE web pages. The information provides a snapshot of the educational picture in communities across the state.

Now districts view, add, update and delete their own district and school information over the web to make sure that the information is as up-to-date and accurate as possible. In addition, the general public will be able to view Directory information about each school district in the state. Individuals can retrieve for themselves information such as school personnel, school programs (e.g. School Choice and TBE) and the location of specialized services such as Special Education Collaboratives, and Vocational Training Programs.

The list below provides an explanation of information presented in the Profiles.

## Directory Information

**DOE Code:** The DOE Code, also referred to as the Organization Code, is an eight digit numeric code assigned by the Massachusetts Department of Education to every organization listed in the Directory Profiles, including every district and school in the Commonwealth. For districts and schools, the first four digits represent the District Code and the last four digits represent the School Code. Thus the organization code "02660505" stands for "0266" (Sharon Public Schools) + "0505" (Sharon High). If a form requires the 8-digit DOE school code it is calling for the entire organization code.

Prior to the 2001 school year, organization codes contained six digits (three for the district and three for the school.) With the exception of some special needs schools, the eight digit codes are the same as the six digit codes with one zero added before the district code and another zero added before the school code. Thus, Sharon High's old six digit organizational code was 266505.

Please Note: The Department's Organization Code is not the same as the Institution codes assigned by the College board for SAT and AP results. Nor is it the same as the NCES code assigned to Massachusetts schools by the U.S. Department of Education.

**Grades/Schools\*:** indicates the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "PK" indicates the district has pre-kindergarten. A high school range ending in "13" or "14" indicates the district has a post-graduate program. Kindergarten starting age indicates the age as of a particular date at which children are eligible to begin kindergarten.

**Services:** Services include:

- **Inter-district Choice:** indicates whether students from other districts may enroll in the district through the state school choice program, which is voluntary and on a space-available basis.
- **Intra-district Choice:** indicates whether the district has a school choice program within the school district for students who live in the district.
- **Vocational Education:** indicates whether the district operates a Chapter 74 approved vocational education program.
- **Transitional Bilingual Education (TBE):** indicates whether the district operates a TBE program. Under Massachusetts law, a district must provide a TBE program in a particular language if there are 20 or more limited English proficient students in that particular language group enrolled in the district. Limited English proficient students are students whose first language is not English and who cannot perform ordinary class work in English.
- **METCO:** indicates whether the district participates in the state METCO program, which promotes voluntary desegregation by enrolling minority students from Boston and Springfield in suburban schools.

**Relationships:** Relationships include:

- **Member of Regional Districts\*:** for local school districts, indicates the name(s) of any academic and/or vocational regional district(s) of which the local school district is a member. For regional school districts, indicates the names of member local school districts. A regional school district provides educational services to more than one town.

\* District level data only.

---

## Enrollment

**Enrollment by Grade:** indicates the enrollment for grades Pre-kindergarten (PK), kindergarten through 12, post-graduate grades 13 and 14, and ungraded (u/g) students for the listed school year.

**Race/Ethnicity:** indicates the percent of enrollment by race/ethnicity for the listed school year. The reporting categories are those used by the U.S. Bureau of the Census.

**Selected Populations:** indicates the percent of enrollment represented by students in special education programs\*, students who are limited English proficient, and students eligible to receive free or reduced price lunch\*. Data are for the listed school year.

**Children Attending Public Schools\*:** indicates the percent of school-age children in a city or town attending public schools, for the listed school years.

\* District level data only.

## Test Results

**Massachusetts Comprehensive Assessment System (MCAS):** Click the MCAS link to see MCAS results for the district or school.

For additional information about Massachusetts Comprehensive Assessment System (MCAS), please refer to the Department of Education's MCAS web site at [www.doe.mass.edu/mcas](http://www.doe.mass.edu/mcas).

**SAT:** The district or school's SAT results are displayed for the listed years.

---

## People

A list of people who work in the organization. Each name is linked to contact information for the person.

---

## Finance

**Per Pupil Expenditures\*:** are calculated by dividing a district's operating costs by its average pupil membership. Operating costs include expenditures for administration, instruction, pupil services, transportation, plant maintenance, and fixed charges. These costs do not include capital outlay and long-term interest on school debt.

Average pupil membership includes students who receive services in the district's schools, as well as students receiving home or hospital instruction. Data for regular education, special education, bilingual education and vocational education students are provided in addition to the total for all day programs, for the listed school years.

**Teacher Salary\*:** indicates the minimum and maximum teacher salaries available, for the listed school years.

**Foundation Budget Spending Comparison\*:** The education reform act established a foundation budget for each school district. This budget represents the minimum level of spending needed to provide an adequate education for the district's students. The foundation budget is made up of 19 separate categories. The chart shows the district's actual spending in each category for the listed school year as a percentage of the district's foundation budget. If the percentage exceeds 100%, the district spent more in the category than suggested by the foundation budget. If the percentage is less than 100%, the district spent less. Significant variations between local spending and the foundation budget, or between local spending and the statewide averages, should be reviewed closely. In some cases, the differences may be due to unique circumstances and needs within the district. In other cases, the differences may suggest potential areas for review and improvement.

Click one of the links in the Finance section for more school finance information.

\* District level data only.

## Other Data

**Dropout/Attendance Rates:** indicates the percentage of students in grades 9-12 who dropped out of school between July 1 and June 30 prior to the listed year and who did not return to school by October 1. Dropouts are defined as students who leave school prior to graduation for reasons other than transfer to another school.

**Attendance Rate:** indicates the average percentage of enrolled students present in school for the listed school year.

**Student Exclusions:** indicates the number of student exclusions that occurred during the listed school year. An exclusion is defined as the removal of a student for disciplinary purposes permanently, indefinitely or for more than ten consecutive school days.

**Plans of High School Graduates:** indicates the post-graduate intentions of students for the listed school year.

**Technology:** indicates the number of students for every one computer and the percent of classrooms with Internet access. Data are for the listed school year; "DNR" appears for schools and districts which did not yet report data
