**COORDINATED PROGRAM REVIEW REPORT**  
**CHESTERFIELD-GOSHEN REGIONAL SCHOOL DISTRICT**

**OVERVIEW OF REVIEW PROCEDURES**

As one part of its school and school district accountability system, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review system. All reviews include selected requirements in special education under the federal Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 *et seq.* (IDEA-97) and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972) and certain federal civil rights requirements under Titles I and II of the Americans with Disabilities Act of 1990, Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971). Additionally, all reviews include certain standards included under the newly adopted Board of Education Physical Restraint Regulations (603 CMR 46.00). Other monitoring activities in the areas of the state's Transitional Bilingual Education law (M.G.L. Chapter 71A), federal requirements under Title I, the Safe and Drug-Free Schools and Communities Act, the Perkins Vocational and Technical Education Act, and Nutrition Programs and Services will be conducted in some districts during these Coordinated Program Reviews. The school districts and charter schools selected for review in 2001-2002 were notified by the Commissioner of Education in April 2001 the of scheduled visits and were encouraged to assess themselves before the arrival of the Department's visiting team.

**Coordinated Program Review Elements**

- Team:** Depending upon the size of a school district and the number of program areas to be reviewed, a team of two to eight members conducts a Coordinated Program Review over two to seven days in a school district or charter school. The team may include Department consultants as well as Department staff members.
- Scope:** Approximately sixty school districts and charter schools are scheduled to receive visits in school year 2001-2002. All school districts and charter schools in the Commonwealth are monitored through the Department's Coordinated Program Review system on a six-year cycle with an additional mid-cycle special education follow-up visit.
- Content:** The Program Review criteria include certain of the statutory and regulatory requirements for each program area. In the case of special education, the criteria for the FY 2002 reviews contain, at a minimum, those elements required by the federal Office for Special Education Programs (OSEP) and revised requirements under IDEA-97 as described in the Department's Special Education Advisories. Additionally, the 2001-2002 reviews incorporate updated state special education requirements as adopted by the Board of Education, effective December 20, 2000. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993, being intended to promote high standards and achievement for all students.
- Report:** The Department's report is based on a review of documentation regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives.
- Other interviews as requested by members of the general public.
- Review of student records in the special education, Transitional Bilingual Education, and Perkins vocational programs. Parents of students with disabilities whose files were selected for the record review are sent a survey that solicits information about their experiences with the district's implementation of special education programs, related services and procedural requirements.
- Observation of classrooms and other facilities. A sample of instructional classrooms and other school facilities used in the delivery of programs and services are visited to determine general levels of compliance with program and accessibility requirements.
- Interviews, review of student records, and observations in the case of collaborative programs and services. Where the district is a member of a collaborative approved by the Department of Education and serves as a site for any programs or services operated by the collaborative, interviews with collaborative staff, review of records of collaborative students, and observations of collaborative facilities are conducted.

Response: An executive summary and detailed findings for each program area describe determinations about the implementation status of each requirement (criterion) reviewed. The findings note those criteria the implementation of which the team found to be commendable. Where criteria were found not to be fully implemented, the local district or charter school must propose corrective actions to bring those areas into compliance with the controlling statutes or regulations. Districts are encouraged to incorporate the corrective action into their district and school improvement plans, including their professional development plan.

The Department of Education believes that the Coordinated Program Review process is a positive experience and that the Final Report should be seen as a helpful planning document for the continuing development of programs and services in the school district or charter school.

## REPORT INTRODUCTION

A three-member Massachusetts Department of Education team visited the Chesterfield-Goshen Regional School District during the week of January 7, 2002 to evaluate the implementation of selected criteria in the program areas of Special Education, Civil Rights Methods of Administration, and Title 1. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of three administrative staff.
- Interviews of nine teaching and support services staff across all levels.
- Interviews of three parent advisory council (PAC) representatives, and other interviews as requested by persons from the general public.
- Student record reviews: the Department selected a sample of 12 student records. Student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.
- Parent surveys: 20 parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. Three of these parent surveys were returned to the Department of Education for review by the onsite team.
- Observation of classrooms and other facilities. A sample of seven instructional classrooms and other school facilities used in the delivery of programs and services was visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components . These components are listed in the executive summary on the following pages. The findings in each program area explain the "ratings, "determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially "Implemented" or implemented in a "Commendable" manner. (Refer to the "Definition of Terms" section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as "Implemented" but made a specific comment on the district's implementation methods that also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plan.

# COORDINATED PROGRAM REVIEW REPORT

## EXECUTIVE SUMMARY

### CHESTERFIELD-GOSHEN REGIONAL SCHOOL DISTRICT

The following summary synthesizes the findings for criteria included in the Coordinated Program Review as they respond to essential questions which the Department has formulated for each of the components of the report. Note that a more detailed discussion of the onsite team's findings, together with the specific legal standards for each program area included in this review, follows this summary.

#### **Component I: Assessment of Student Progress**

*Has the District implemented an assessment system that uses appropriate instruments, conducted according to the specified timelines and covering the appropriate content areas to determine instructional needs of students?*

The district has an assessment system in place to determine students eligible for special education. Appropriate tests and evaluation materials and information from a variety of sources are used, and placements are made in conformance with the principle of least restrictive environment. The district has implemented the new requirements regarding evaluating a student suspected of having a specific learning disability. Teams are composed of the appropriate members. Timelines for evaluations and Team meetings are not consistently met. While Individual Education Programs (IEPs) are sent to parents within the required timeframe following Team meetings, progress reports are not consistently sent to parents within required timelines.

The district undertakes an analysis of the results of MCAS and other assessment data to identify students eligible for Title I support and to provide appropriate services to students most at risk.

#### **Component II: Student Identification and Program Placement**

*Has the District followed procedures for student identification and placement into the program according to the criteria specified in regulations?*

The district has procedures for the identification and placement of students eligible for special education services. Screening to identify children who need special education supports is conducted for three- and four-year-olds and for all kindergartners in the district. Special education services are begun at age three for all eligible children, with continuous outreach and liaison between the district and Early Intervention agencies serving its town. Special education Teams are developing IEPs with all of the required elements. Teams are implementing requirements regarding extended evaluations when the Team finds evaluation information insufficient to develop a student's IEP.

All students have access to the general education program. Teams consistently select the least restrictive program possible for students, and all IEP services are provided once consent is provided by the parent(s).

Multiple criteria are used to identify students who are eligible for Title I support, and Title I services are available to students with special needs.

### **Component III: Parental Involvement**

*Has the District ensured that parents are notified, in the appropriate language, and are involved in decisions regarding their children's programs and services?*

The district has procedures in place to ensure involvement of parents of special needs students in the education of their children. Parents are notified of their rights and are involved in all decisions regarding their children. While IEPs are sent to parents, the required form N1 is not always completed and enclosed with them. Although an active Parent Advisory Council does not currently exist, the district continues its attempts to organize and support one. Almost all parents regularly participate in Team meetings.

Parent involvement exists in Title I program planning and review. All policies and procedures regarding parental involvement in the Title I program are in writing and available to parents in a language and form that is understandable. The district provides materials and training to Title I parents to enable them to improve their children's achievement.

### **Component IV: Curriculum and Instruction**

*Does the District hold all students to high expectations and standards and ensure that programs are designed to maximize student performance within regular education and are implemented according to the specific regulatory requirements with respect to learning time, class size, staffing ratio, and age spans? Has the District provided for coordination across program areas?*

The district has aligned its general curriculum with the Massachusetts Curriculum Frameworks and ensures that all students with disabilities have access to the general curriculum. A full continuum of services exists to meet the needs of students with disabilities. All required specialized materials and equipment are provided, and IEPs are implemented without delay, with ongoing oversight throughout the year. Appropriate procedures are followed to ensure that all programs used for out-of-district placements are approved by the Department of Education. The district follows the requirements regarding the evaluation and provision of services to students with special needs who are enrolled in private schools at private expense. Class sizes and age-spans are within regulatory limits, and an extensive developmentally appropriate service delivery system exists for children three and four years of age. All programs and activities sponsored by the district are offered to all students in a non-discriminatory manner.

Title I services are targeted at helping at-risk students meet the expectations and standards of the general curriculum. Efforts are made to minimize pullout models, and there is an established process for the coordination of Title I services with the instructional and assessment programs provided in regular education and special education. Students receiving Title I services are provided opportunities to participate in extended-day, extended-week, and extended-year programs and activities.

### **Component V: Student Support Services**

*Has the District ensured that all students have equal opportunity and access to programs or services?*

Disabled students have equal opportunity to participate in all programs and supportive and remedial services that are available as part of the general education program, including non-academic and extracurricular programs of the district. The district ensures that students whose behavior impedes their learning or the learning of others are provided procedural safeguards according to federal law (IDEA). Suspension procedures of the district are consistent with federal requirements.

Required notifications of non-discrimination to staff, students, and the general public are not made each year, and the district's grievance procedure for students and staff who believe they have been discriminated against is neither developed nor published. Counseling materials, activities, and scholarships and awards are free from bias and stereotypes. The district does not have required policies and procedures on the use of restraint, nor has staff been trained in accordance with regulatory requirements, which became effective April 2, 2001.

The Title I program is supplementing other educational services in the district.

### **Component VI: Faculty, Staff and Administration**

*Does the District maintain certified staff in the specific program areas, provides supervision of aides and tutors, and provides ongoing professional development?*

Many staff are unaware of the District Curriculum Accommodation Plan. Not all special education and special education related services providers are appropriately certified and licensed. Paraprofessional staff used to support special education and Title I services are appropriately supervised by certified teachers.

Professional development in the area of Title I is adequately addressed; however, professional development regarding special education policies and procedures and confidentiality of student records is only provided to new staff. Staff training regarding civil rights responsibilities is not conducted on an annual basis, nor has staff been trained regarding restraint policies and procedures.

Of the 34 building teachers, aides, specialists, and administrator, 33 are female. The only male is the physical education teacher.

### **Component VII: School Facilities**

*Does the District maintain facilities that are conducive to learning, facilitate integration, and provide equal access and opportunity for students to achieve?*

The district provides special education and Title I services in classrooms which maximize inclusion and are equal in all physical respects to general education classrooms.

The district is in compliance with Section 504 as all educational programs and services offered are located in the district's one building, which is entirely accessible to students with limited physical mobility.

**Component VIII: Program Plan and Evaluation**

*Does the District have written program plans that are evaluated according to specific regulatory requirements? Do parents have opportunities for input on needs, program implementation, evaluation, and improvement?*

The district regularly evaluates all special education and Title I programs, services and administrative areas. The district did not document processes in place to ensure that educational materials, programs, and policies are not biased or show discriminatory activity.

**Component IX: Record keeping**

*Does the District maintain required records and documentation for each specific program area?*

Required records and documentation are maintained for the special education and Title I program.

**DEFINITION OF TERMS**  
**FOR THE RATING OF EACH COMPLIANCE CRITERION**

<b>Commendable</b>	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
<b>Implemented</b>	The requirement is substantially met.
<b>Implementation in Progress</b>	In reference to compliance criterion MOA 17A, new Board of Education requirements became effective on April 2, 2001 regarding the use of physical restraint in publicly funded education programs. The district is currently engaged in staff training and is beginning implementation practices for these new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the 2001-2002 school year.
<b>Partially Implemented</b>	The requirement, in one or several important aspects, is not entirely met.
<b>Not Implemented</b>	The requirement is totally or substantially not met.
<b>Not Applicable</b>	The requirement does not apply to the school district or charter school.

### COMPONENT I: ASSESSMENT OF STUDENT PROGRESS

The criteria in this component examine whether the District has implemented an assessment system that uses appropriate instruments, conducted according to the specified timelines and covering the appropriate content areas to determine instructional needs of students for the program areas listed below:

- Special Education (Report Issues # SE 1- SE 14)
  - Title I (Report Issues # TI 1-4)

### COMPONENT III: PARENTAL INVOLVEMENT

The criteria in this component examine whether the district has ensured that parents are notified, in the appropriate language, and are involved in decisions regarding their children's programs and services for the program areas listed below:

- Special Education (Report Issues # SE 24-32)
- Civil Rights Methods of Administration (MOA) (Report Issue # MOA 7)
  - Title I (Report Issues # TI 10-11B)

CRITERION NUMBER	SPECIAL EDUCATION III. PARENTAL INVOLVEMENT	
	Legal Standard	
SE 24	<p><b>Notice to parent regarding proposal or refusal to initiate or change the identification, evaluation, or educational placement of the child or the provision of FAPE</b></p> <ol style="list-style-type: none"> <li>1. A student may be referred for an evaluation by a parent or any person in a caregiving or professional position concerned with the student's development.</li> <li>2. When a student is referred for an evaluation to determine eligibility for special education, the school district sends written notice to the child's parent(s) within 5 school days of receipt of the referral.</li> <li>3. Notice is given by the district within a reasonable time for all other actions.</li> <li>4. The school district provides the student's parent(s) with an opportunity to consult with the Special Education Administrator or his/her designee to discuss the reasons for the referral and the nature of the proposed evaluation</li> <li>5. The district provides parents with an opportunity to consult with the Administrator of Special Education or his/her designee regarding the evaluators to be used and the proposed content of all required and optional assessments</li> <li>6. The school district does not limit a parent's right to refer a student for timely special education evaluation because the district has not fully explored and/or attempted some or all of the available instructional support programs or other interventions available in general education that may be described in the district's Curriculum Accommodation Plan, including any pre-referral program.</li> <li>7. The school district refuses to conduct an initial evaluation only when the circumstances of a student make clear that there is no suspicion of a disability and that there is no concern about the student's development.</li> </ol> <p><b>State Regulations</b> 28.04(1)</p> <p><b>Federal Requirements</b> 300.503(a)</p>

If, prior to the disciplinary action, a district had knowledge that the student may be a student with a disability, then the district makes all protections available to the student until and unless the student is subsequently determined not to be eligible. The district may be considered to have prior knowledge if:</p> <p style="margin-left: 40px;">a. The parent had expressed concern in writing; or</p> <p style="margin-left: 40px;">b. The parent had requested an evaluation; or</p> <p style="margin-left: 40px;">c. School district staff had expressed concern that the student had a disability.</p> <p>2. If the district had no reason to consider the student disabled, and the parent requests an evaluation subsequent to the disciplinary action, the district must have procedures to conduct an expedited evaluation to determine eligibility. If the student is found eligible, then he/she receives all procedural protections subsequent to the finding of eligibility.</p> <p>3. The school district has developed procedures consistent with federal requirements to expedite evaluations.</p> <p><b>State Regulations</b> <span style="float: right;"><b>Federal Requirements</b> 20 U.S.C. ## COMPONENT VI: FACULTY, STAFF AND ADMINISTRATION

The criteria in this component examine whether the district has certified staff, provides supervision of aides and tutors, and provides ongoing professional development in the program areas listed below. Additionally, the component examines whether the district implements an effective system of program leadership and oversight which fosters high standards and performance expectations for all students and staff consistent with the goals of applicable federal and state requirements and Education Reform Act of 1993.

CRITERION NUMBER	SPECIAL EDUCATION VI. FACULTY, STAFF AND ADMINISTRATION
	<b>Legal Standard</b>
SE 50	<p><b>Responsibilities of the School Principal and Administrator of Special Education</b> <u>Principal:</u></p> <ol style="list-style-type: none"> <li>1. <u>Instructional support.</u> The principal in each of the district's schools promotes instructional practices responsive to student needs and ensures that adequate instructional support is available for students and teachers. Instructional support includes remedial instruction for students, consultative services for teachers, availability of reading instruction at the elementary level, appropriate services for linguistic minority students, and other services consistent with effective educational practices and the requirements of MGL c. 71B, §2. The principal consults with the Administrator of Special Education regarding accommodations and interventions for students. Such efforts and their results are documented and placed in the student record. Additionally, when an individual student is referred for an evaluation to determine eligibility for special education, the principal ensures that documentation on the use of instructional support services for the student is provided as part of the evaluation information reviewed by the Team when determining eligibility.</li> <li>2. <u>Curriculum Accommodation Plan.</u> The principal implements a curriculum accommodation plan adopted by the district to ensure that all efforts have been made to meet the needs of diverse learners in the general education program. The plan assists the regular classroom teacher in analyzing and accommodating diverse learning styles of all children in the regular classroom and in providing appropriate services and support within the regular education program including, but not limited to, direct and systemic instruction in reading and provision of services to address the needs of children whose behavior may interfere with learning. The Plan includes teacher training in (1) analyzing and accommodating diverse learning styles of all students in order to achieve an objective of inclusion in the regular classroom of students with diverse learning styles; (2) methods of collaboration among teachers, paraprofessionals and teacher assistants to accommodate such styles; and (3) training in the provision of pre-referral services within regular education, teacher mentoring and collaboration and parental involvement.</li> <li>3. <u>Coordination with special education.</u> The principal with the assistance of the Administrator of Special Education coordinates the delivery and supervision of special education services within each school building.</li> <li>4. <u>Educational services in home or hospital.</u> Upon receipt of a physician's written order verifying that any student enrolled in a public school or placed by the public school in a private setting must remain at home or in a hospital on a day or overnight basis, or any combination of both, for medical reasons and for a period of not less than fourteen school days in any school year, the principal arranges for provision of educational services in the home or hospital. Such services are provided with sufficient frequency to allow the student to continue his or her educational program, as long as such services</li> </ol>

APPENDIX:  
SCHOOL DISTRICT PROFILE INFORMATION

The school district information which is provided in this Appendix was drawn from data supplied by the school district. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. The information is periodically updated by the school district and is available in an evercurrent form on the Department's Internet web site at <http://profiles.doe.mass.edu/>. More detailed information on each school within the district is also available at this Web site.

# School and District Profiles

## Definitions of Terms

### Profiles

The Massachusetts Department of Education collects information about schools and districts. Some of the information collected is published in School and District Profiles on DOE web pages. The information provides a snapshot of the educational picture in communities across the state.

Now districts view, add, update and delete their own district and school information over the web to make sure that the information is as up-to-date and accurate as possible. In addition, the general public will be able to view Directory information about each school district in the state. Individuals can retrieve for themselves information such as school personnel, school programs (e.g. School Choice and TBE) and the location of specialized services such as Special Education Collaboratives, and Vocational Training Programs.

The list below provides an explanation of information presented in the Profiles.

---

## Directory Information

**DOE Code:** The DOE Code, also referred to as the Organization Code, is an eight digit numeric code assigned by the Massachusetts Department of Education to every organization listed in the Directory Profiles, including every district and school in the Commonwealth. For districts and schools, the first four digits represent the District Code and the last four digits represent the School Code. Thus the organization code "02660505" stands for "0266" (Sharon Public Schools) + "0505" (Sharon High). If a form requires the 8-digit DOE school code it is calling for the entire organization code.

Prior to the 2001 school year, organization codes contained six digits (three for the district and three for the school.) With the exception of some special needs schools, the eight digit codes are the same as the six digit codes with one zero added before the district code and another zero added before the school code. Thus, Sharon High's old six digit organizational code was 266505.

Please Note: The Department's Organization Code is not the same as the Institution codes assigned by the College board for SAT and AP results. Nor is it the same as the NCES code assigned to Massachusetts schools by the U.S. Department of Education.

**Grades/Schools\*:** indicates the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "PK" indicates the district has pre-kindergarten. A high school range ending in "13" or "14" indicates the district has a post-graduate program. Kindergarten starting age indicates the age as of a particular date at which children are eligible to begin kindergarten.

**Services:** Services include:

- **Inter-district Choice:** indicates whether students from other districts may enroll in the district through the state school choice program, which is voluntary and on a space-available basis.
- **Intra-district Choice:** indicates whether the district has a school choice program within the school district for students who live in the district.
- **Vocational Education:** indicates whether the district operates a Chapter 74 approved vocational education program.
- **Transitional Bilingual Education (TBE):** indicates whether the district operates a TBE program. Under Massachusetts law, a district must provide a TBE program in a particular language if there are 20 or more limited English proficient students in that particular language group enrolled in the district. Limited English proficient students are students whose first language is not English and who cannot perform ordinary class work in English.
- **METCO:** indicates whether the district participates in the state METCO program, which promotes voluntary desegregation by enrolling minority students from Boston and Springfield in suburban schools.

**Relationships:** Relationships include:

- **Member of Regional Districts\*:** for local school districts, indicates the name(s) of any academic and/or vocational regional district(s) of which the local school district is a member. For regional school districts, indicates the names of member local school districts. A regional school district provides educational services to more than one town.

\* District level data only.

---

## Enrollment

**Enrollment by Grade:** indicates the enrollment for grades Pre-kindergarten (PK), kindergarten through 12, post-graduate grades 13 and 14, and ungraded (u/g) students for the listed school year.

**Race/Ethnicity:** indicates the percent of enrollment by race/ethnicity for the listed school year. The reporting categories are those used by the U.S. Bureau of the Census.

**Selected Populations:** indicates the percent of enrollment represented by students in special education programs\*, students who are limited English proficient, and students eligible to receive free or reduced price lunch\*. Data are for the listed school year.

**Children Attending Public Schools\*:** indicates the percent of school-age children in a city or town attending public schools, for the listed school years.

\* District level data only.

---

## Test Results

**Massachusetts Comprehensive Assessment System (MCAS):** Click the MCAS link to see MCAS results for the district or school.

For additional information about Massachusetts Comprehensive Assessment System (MCAS), please refer to the Department of Education's MCAS web site at [www.doe.mass.edu/mcas](http://www.doe.mass.edu/mcas).

**SAT:** The district or school's SAT results are displayed for the listed years.

---

## People

A list of people who work in the organization. Each name is linked to contact information for the person.

---

## Finance

**Per Pupil Expenditures\*:** are calculated by dividing a district's operating costs by its average pupil membership. Operating costs include expenditures for administration, instruction, pupil services, transportation, plant maintenance, and fixed charges. These costs do not include capital outlay and long-term interest on school debt. Average pupil membership includes students who receive services in the district's schools, as well as students receiving home or hospital instruction. Data for regular education, special education, bilingual education and vocational education students are provided in addition to the total for all day programs, for the listed school years.

**Teacher Salary\*:** indicates the minimum and maximum teacher salaries available, for the listed school years.

**Foundation Budget Spending Comparison\*:** The education reform act established a foundation budget for each school district. This budget represents the minimum level of spending needed to provide an adequate education for the district's students. The foundation budget is made up of 19 separate categories. The chart shows the district's actual spending in each category for the listed school year as a percentage of the district's foundation budget. If the percentage exceeds 100%, the district spent more in the category than suggested by the foundation budget. If the percentage is less than 100%, the district spent less. Significant variations between local spending and the foundation budget, or between local spending and the statewide averages, should be reviewed closely. In some cases, the differences may be due to unique circumstances and needs within the district. In other cases, the differences may suggest potential areas for review and improvement.

Click one of the links in the Finance section for more school finance information.

\* District level data only.

---

## Other Data

**Dropout/Attendance Rates:** indicates the percentage of students in grades 9-12 who dropped out of school between July 1 and June 30 prior to the listed year and who did not return to school by October 1. Dropouts are defined as students who leave school prior to graduation for reasons other than transfer to another school.

**Attendance Rate:** indicates the average percentage of enrolled students present in school for the listed school year.

**Student Exclusions:** indicates the number of student exclusions that occurred during the listed school year. An exclusion is defined as the removal of a student for disciplinary purposes permanently, indefinitely or for more than ten consecutive school days.

**Plans of High School Graduates:** indicates the post-graduate intentions of students for the listed school year.

**Technology:** indicates the number of students for every one computer and the percent of classrooms with Internet access. Data are for the listed school year; "DNR" appears for schools and districts which did not yet report data
