## COORDINATED PROGRAM REVIEW REPORT

### Greater Lowell Technical School

#### OVERVIEW OF REVIEW PROCEDURES

As one part of its school and school district accountability system, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review system. All reviews include selected requirements in special education under the federal Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 *et seq.* (IDEA-97) and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972) and certain federal civil rights requirements under Titles I and II of the Americans with Disabilities Act of 1990, Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971). Additionally, all reviews include certain standards included under the newly adopted Board of Education Physical Restraint Regulations (603 CMR 46.00). Other monitoring activities in the areas of the state's Transitional Bilingual Education law (M.G.L. Chapter 71A), federal requirements under Title I, the Safe and Drug-Free Schools and Communities Act, the Perkins Vocational and Technical Education Act, and Nutrition Programs and Services will be conducted in some districts during these Coordinated Program Reviews. The school districts and charter schools selected for review in 2001-2002 were notified by the Commissioner of Education in April 2001 of the scheduled visits and were encouraged to assess themselves before the arrival of the Department's visiting team.

#### Coordinated Program Review Elements

- Team: Depending upon the size of a school district and the number of program areas to be reviewed, a team of two to eight members conducts a Coordinated Program Review over two to seven days in a school district or charter school. The team may include Department consultants as well as Department staff members.
- Scope: Approximately sixty school districts and charter schools are scheduled to receive visits in school year 2001-2002. All school districts and charter schools in the Commonwealth are monitored through the Department's Coordinated Program Review system on a six-year cycle with an additional mid-cycle special education follow-up visit.
- Content: The Program Review criteria include certain of the statutory and regulatory requirements for each program area. In the case of special education, the criteria for the FY 2002 reviews contain, at a minimum, those elements required by the federal Office for Special Education Programs (OSEP) and revised requirements under IDEA-97 as described in the Department's Special Education Advisories. Additionally, the 2001-2002 reviews incorporate updated state special education requirements as adopted by the Board of Education, effective December 20, 2000. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993, being intended to promote high standards and achievement for all students.
- Report: The Department's report is based on a review of documentation regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives.
- Other interviews as requested by members of the general public.
- Review of student records in the special education, Transitional Bilingual Education, and Perkins vocational programs. Parents of students with disabilities whose files were selected for the record review are sent a survey that solicits information about their experiences with the district's implementation of special education programs, related services and procedural requirements.
- Observation of classrooms and other facilities. A sample of instructional classrooms and other school facilities used in the delivery of programs and services are visited to determine general levels of compliance with program and accessibility requirements.
- Interviews, review of student records, and observations in the case of collaborative programs and services. Where the district is a member of a collaborative approved by the Department of Education and serves as a site for any programs or services operated by the collaborative, interviews with collaborative staff, review of records of collaborative students, and observations of collaborative facilities are conducted.

Response: An executive summary and detailed findings for each program area describe determinations about the implementation status of each requirement (criterion) reviewed. The findings note those criteria the implementation of which the team found to be commendable. Where criteria were found not to be fully implemented, the local district or charter school must propose corrective actions to bring those areas into compliance with the controlling statutes or regulations. Districts are encouraged to incorporate the corrective action into their district and school improvement plans, including their professional development plan.

The Department of Education believes that the Coordinated Program Review process is a positive experience and that the Final Report should be seen as a helpful planning document for the continuing development of programs and services in the school district or charter school.

## REPORT INTRODUCTION

A six-member Massachusetts Department of Education team visited Greater Lowell Technical School during the week of March 11, 2002 to evaluate the implementation of selected criteria in the program areas of Special Education, Civil Rights Methods of Administration, Title I, Safe and Drug Free Schools, Perkins Vocational and Transitional Bilingual Education. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Greater Lowell Technical School. These areas are as follows:

- *Dedicated staff committed to the best interests of all students, including those with Special Education needs*
- *Records and district documentation were professionally presented*
- *Use of creative approaches to problem solving*
- *Strong systemic student centered focus*
- *Well-defined competency based reporting for Perkins technical and academic programs*
- *Solid Transitional Bilingual Education program with strong ESL supports and comprehensive tracking of students entering and exiting the system*
- *The Title I program is well organized and is strongly aligned with the standards of the Massachusetts Curriculum Frameworks*

*Some of the commendations noted above are repeated within the body of the Department's report under the appropriate compliance criteria.*

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of 13 administrative staff.
- Interviews of 61 teaching and support services staff across all levels.
- Interviews of two parent advisory council (PAC) representatives, three Title I parents and other interviews as requested by persons from the general public.
- Interviews as requested by persons from the general public.
- Student record reviews: A sample of 64 student records was selected by the Department. Student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.
- Parent surveys: Twenty-four (24) parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. Seven of these parent surveys were returned to the Department of Education for review by the onsite team.

- Observation of classrooms and other facilities. A sample of five instructional classrooms and other school facilities used in the delivery of programs and services was visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components . These components are listed in the executive summary on the following pages. The findings in each program area explain the “ratings, ”determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially “Implemented” or implemented in a “Commendable” manner. (Refer to the “Definition of Terms” section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as “Implemented” but made a specific comment on the district’s implementation methods that also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plan.

# COORDINATED PROGRAM REVIEW REPORT

## EXECUTIVE SUMMARY

### Greater Lowell Regional Vocational Technical School

The following summary synthesizes the findings for criteria included in the Coordinated Program Review as they respond to essential questions which the Department has formulated for each of the components of the report. Note that a more detailed discussion of the onsite team's findings, together with the specific legal standards for each program area included in this review, follows this summary.

#### **Component I: Assessment of Student Progress**

*Has the district implemented an assessment system that uses appropriate instruments, is conducted according to the specified timelines, and covers the appropriate content areas to determine instructional needs of students?*

Required state and local assessments are conducted and students with disabilities participate in MCAS with appropriate modifications. Regulatory timelines for special education procedures are being satisfactorily met. However, student career plans that demonstrate the use of assessment in planning students' vocational programs of study have not been developed. Student records contained minimal evidence of individualized use of student career assessments. The development of a more comprehensive vision statement and more specific consideration of post school needs is recommended.

#### **Component II: Student Identification and Program Placement**

*Has the district followed procedures for student identification and placement into the program according to the criteria specified in regulations?*

Assessment procedures are in place to ensure that students with disabilities are appropriately identified and the district is committed to placing students in the least restrictive environment. Initial assessments are usually provided by the sending school districts. The district provides a variety of related services. A system is in place for the identification of limited English proficient students and programs are appropriate to the needs of students. However, the district does not provide courses in the native language. TBE teachers instruct students in the native language as needed. The school's procedures for the transfer of students from the bilingual to the monolingual program are exemplary.

#### **Component III: Parental Involvement**

*Has the district ensured that parents are notified in the appropriate language and are involved in decisions regarding their children's programs and services? Where appropriate, does the district involve community representatives in shaping programs?*

Parents are involved in all aspects of their children's programs and services and the director meets on a regular basis with some parent groups. However, although the district has established a Special Education Parent Advisory Council, the Parent Advisory Council does not participate in the planning, development and evaluation of the school committee's special education programs. Also, the district's Safe and Drug Free Advisory Council only meets twice each year and is not adequately involved in the development of the goals and objectives and the evaluation portion of the program.

#### **Component IV: Curriculum and Instruction**

*Does the district hold all students to high expectations and standards? Are programs designed to maximize student performance and students' participation in the general curriculum? Is curriculum throughout the districts' programs aligned with the Massachusetts Curriculum Frameworks? Has the district provided for coordination across program areas?*

The Department commends the Title I staff for its extra efforts in providing services that are designed to assist students to meet the expectations of the regular curriculum and of the state Curriculum Frameworks. However, although there were a few examples of integration between academic and technical instruction, there was little evidence that career and technical curriculum and "related" curriculum are aligned with the academic standards of the Massachusetts Curriculum Frameworks in the areas of English Language Arts and Math. Staff interviews also indicated that rigorous courses are not provided to all students and interviews with students and instructors indicated that homework is not always assigned. Computer application software is not being used consistently by faculty and students in academic classes to increase students' technology skill in all shop areas and career and technical shops/laboratories are not consistently equipped with state-of-the-art computers and software. Also, supplies are limited and some shop equipment does not meet the demands of the workplace. Vocational programs need continued evaluation and need to acquire and maintain state-of-the-art technology to ensure that technical skills are incorporated into each course. Additionally, the district's policy for admission differs from the Admission Policy approved by the Department. In the area of Transitional Bilingual Education, notice to parents upon placement is mailed 20 days after each student's enrollment and does not reflect the current model of service delivery.

#### **Component V: Student Support Services**

*Has the district ensured that all students have equal access to programs and services? Does the district provide support to students who need it?*

Students are provided with equal access to all extracurricular services free of bias or discrimination and the district provides related services as indicated on each student's IEP. The district takes extra efforts to increase the independence of students with special needs in the area of transportation. Appropriate procedures are in place to ensure that students whose behavior impedes their learning or the learning of others are provided procedural guidelines according to federal law. The name of the Title VI coordinator is not provided in the school handbook and not all staff are aware of the appropriate person to contact. Appropriate grievance procedures are in place in the area of discrimination based on race and disability. However, review of documentation did not provide evidence of counseling materials that support non-traditional educational and occupational pursuits. Also, the nontraditional definition contained in the Incoming Student Orientation Handbook is incorrect and contains bias.

#### **Component VI: Faculty, Staff and Administration**

*Does the district maintain certified staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development? Are program leadership and oversight effective? Are the district's personnel procedures non-discriminatory and does it seek to recruit employees from all groups?*

District staff have appropriate credentials for their areas of responsibility. Personnel policies and procedures dealing with staff recruitment, job applications and hiring are non-

discriminatory, as are those dealing with equity in pay, tenure and the accrual of other benefits. Review of district documentation and staff interviews indicated that the current administrative structure is not in full compliance with the intent of the regulatory requirements pertaining to the responsibilities for a school principal. Also, the district's Curriculum Accommodation Plan is in need of further development. Staff interviews indicated some instances of regular education teachers providing supervision to special education aides. Although some staff are aware of issues pertaining to mandatory training topics, the district needs to provide and document in-service training opportunities for staff and parents for all mandatory topics.

**Component VII: School Facilities**

*Does the district maintain accessible facilities that are conducive to learning, facilitate integration, and provide equal opportunity for students to achieve?*

The school is fully accessible in all program areas to students with limited mobility. Facilities provided for the implementation of special education services are at least comparable to those for non-disabled students. The school provides an inclusive environment for all students and maximizes integration of all students into the life of the school. However, some modifications are needed to make door handles accessible to students with physical limitations and signage in Braille was not evident.

**Component VIII: Program Plan and Evaluation**

*Does the District have written program plans where required that are evaluated according to specific regulatory requirements? Does it use the results of its evaluations to improve programs? Do parents have opportunities for input on needs, program implementation, evaluation, and improvement?*

Review of district documentation and interviews with administrators and staff indicated that a process for the evaluation of Special Education programs and services has not been fully developed or documented.

**Component IX: Record keeping**

*Does the District maintain required records and documentation for each specific program area? Are federal entitlement grants appropriately designed, amended, and monitored?*

The school's maintenance of records and documentation in all the reviewed program areas was mostly commendable. However, some Perkins student records did not contain complete, up-to-date, specific and relevant documentation.

**DEFINITION OF TERMS**  
**FOR THE RATING OF EACH COMPLIANCE CRITERION**

<b>Commendable</b>	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
<b>Implemented</b>	The requirement is substantially met.
<b>Implementation in Progress</b>	In reference to compliance criterion MOA 17A, new Board of Education requirements became effective on April 2, 2001 regarding the use of physical restraint in publicly funded education programs. The district is currently engaged in staff training and is beginning implementation practices for these new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the 2001-2002 school year.
<b>Partially Implemented</b>	The requirement, in one or several important aspects, is not entirely met.
<b>Not Implemented</b>	The requirement is totally or substantially not met.
<b>Not Applicable</b>	The requirement does not apply to the school district or charter school.

## COMPONENT I: ASSESSMENT OF STUDENT PROGRESS

The criteria in this component examine whether the District has implemented an assessment system that uses appropriate instruments, conducted according to the specified timelines and covering the appropriate content areas to determine instructional needs of students for the program areas listed below:

- Special Education (Report Issues # SE 1- SE 14)
  - Title I (Report Issues # TI 1-4)
- Perkins Vocational and Technical Education (Report Issues # P 1-4)
  - Transitional Bilingual Education (Report Issues # 1-2A)

For a student who is 14 years of age, the Team considers the student's course of study in relation to the student's future goals and document this in the IEP.</li> <li>2. For a student who is 16 years of age, or younger if appropriate, the Team includes in the IEP services that promote movement of the student from school to post-school activities, including post-secondary education, vocational training, integrated employment (including supported employment), continuing and adult education, adult services, independent living, or community participation.</li> <li>3. The transition services are based upon the student's needs, taking into account the student's preferences and interests and includes specially designed instruction, community experiences, the development of employment or other post-school adult living objectives, and, if appropriate, the acquisition of daily living skills and functional vocational evaluation.</li> <li>4. For any student approaching graduation or the age of twenty-two, the Team determines whether the student is likely to require continuing services from adult human service agencies. In such circumstances, the Administrator of Special Education makes a referral to the Bureau of Transitional Planning in the Executive Office of Health and Human Services in accordance with the requirements of M.G.L. c.71, §12A-§12C (known as Chapter 688).</li> <li>5. *Although the district does not currently teach courses in the native language, courses are taught using two-way content instruction and English texts. ESL support is also provided. Reading and writing are not taught in the native language. Some students complete and submit homework assignments in Spanish to Spanish speaking teachers. The district does not offer courses in the history and culture of the native land of parents. The district utilizes ESL and bilingual aides (Khmer) to educate low-incidence English language learners. An ESL model with bilingual support in math, history and science and taught by bilingual teachers is employed. Bilingual aides support students in other academic areas and shops. ESL support and tutoring is available to students. Although the district has not received any requests to remove a student from the TBE program, such a request would be documented and honored. The district believes a full time program of TBE instruction is offered because the language needs of all students are considered and supported. The entire curriculum for all students (including ESL/TBE students) is aligned with the Massachusetts Curriculum Frameworks. In the two-way content areas, TBE teachers instruct students in the native language as needed. TBE teachers provide instruction in English according to the language needs of students. Aides provide bilingual assistance in Spanish in the ESL classroom. The amount of instructional time provided in a student's native language is determined through ongoing assessment by teachers and TBE/ESL staff and is based on the individual language needs of each student. Interviews indicated that where the district determines that instruction in any of the required curriculum areas would be dependent upon native language instruction, the district stands prepared to offer such instruction.*

**Comment:**

*When a student exits the TBE program, policies and procedures are implemented to ensure that students are successfully achieving in all curricular areas. The TBE/ESL department monitors report cards quarterly and the bilingual counselor provides follow-up for the student and his or her family. Students and parents can confer with the TBE/ESL staff and additional ESL support may be offered and provided. Report cards and monitoring of daily student performance indicate the effectiveness of additional supports. If necessary, a student can return to the TBE/ESL program. There is ongoing collaboration between TBE, ESL regular education and shop teachers. Strategies and resources are shared; for example, if a shop curriculum has multiple components, a collaborative decision might be made to drop one the components to ensure the success of the student in the other areas.*

### COMPONENT III: PARENTAL INVOLVEMENT

The criteria in this component examine whether the district has ensured that parents are notified, in the appropriate language, and are involved in decisions regarding their children's programs and services for the program areas listed below:

Documentation of monitoring plans and all actual monitoring are placed in the files of every eligible student who has been placed out-of-district. To the extent that this monitoring requires site visits, such site visits are documented and placed in the students' files for review. The duty to monitor out-of-district placements is not delegated to parents or their agents, to the Department of Education, or to the out-of-district placement.</li> <li>2. <u>Student right to full procedural protections</u>: The school district retains full responsibility for ensuring that the student is receiving all special education and related services in the student's IEP, as well as all procedural protections of law and regulation. Any Team meetings conducted during the time that a student is enrolled in the out-of-district program are initiated by the school district in coordination with the out-of-district placement.</li> <li>3. <u>Preference to approved programs</u>: The school district, in all circumstances, first seeks to place a student in a program approved by the Department pursuant to the requirements of 603 CMR 28.09. Preference is also given to approved programs located within the Commonwealth of Massachusetts if the choice of such program is consistent with the needs of the student and the choice of such program complies with LRE requirements. When an approved program is available to provide the services on the IEP, the district makes such placement in the approved program in preference to any program not approved by the Department.</li> <li>4. <u>Written contracts</u>: At a minimum, the school district enters into written contracts with all public and private out-of-district placements. Such contracts meet the content requirements of 28.06(3)(f)(1-5).</li> <li>5. <u>Use of unapproved programs</u>: A school district that places a student in a program that has not been approved by the Department according to the requirements under 603 CMR 28.09 ensures that such programs and services are provided in appropriate settings by appropriately credentialed staff able to deliver the services on the student's IEP. Students placed by the school district in such programs are entitled to the full protections of state and federal special education law and regulation.</li> <li>6. <u>Placement documentation</u>: The following documentation is maintained by the school district pursuant to its placement of children in unapproved out-of-district programs: <ol style="list-style-type: none"> <li>a. <u>Search</u>: The Administrator of Special Education documents the search for and unavailability of a program approved by the Department. Such evaluation additionally determines whether the unapproved facility can and will provide the student with all the rights that are accorded to the student under state and federal special education law. Such evaluation is documented in detail and placed in the student record for review. To the extent that this evaluation requires a site visit, such site visits are documented and placed in the student record for review. The duty to evaluate the appropriateness of any unapproved facility is not delegated to the parents or their agents or the proposed unapproved facility.</p> <p>c. <u>School district approval to operate a private school in Massachusetts</u>: If services in an unapproved program are provided in a school setting, the Administrator of Special Education ensures that such school has received approval from the local school committee under MGL c.76, §1 and a copy of such approval is retained in the student record.</p> <p>d. <u>Pricing</u>: Pursuant to the requirements for Compliance, Reporting and Auditing for Human and Social Services at 808 CMR 1.00, the Administrator obtains pricing forms required to set program prices for programs receiving publicly funded students. Such pricing forms are completed by the proposed placement and document that the price proposed for the student’s tuition is the lowest price charged for similar services to any student in that program.</p> <p>e. <u>Notification of the Department of Education</u>: Prior to placement, if the Team determines that placement in such facility is appropriate, the Administrator notifies the Department of the intent to place the student and the name and location of the proposed placement. In addition, the Administrator forwards the notice of proposed placement and completed pricing forms to the Department along with the information on the proposed terms of the contract that will govern such placement and documentation of a monitoring plan pursuant to 603 CMR 28.06(3)(b). The district maintains any documentation of the Department’s objections to such placement and the steps the district has taken in regard to such objection. **Department of Education Findings:** *Review of documentation indicated that notice to parents upon placement in the TBE program is mailed to the parents 20 days after each student's enrollment. A copy of the letters is placed in the student's file and recorded in a tracking system. If the letter is returned due to a change of address or is undeliverable, the TBE/ESL department handles follow-up. However, the content of the letter pertaining to the explanation of the TBE program does not reflect the current model (no native language reading/writing, etc) The district plans to revise the letter to reflect the model currently being used.*

The program is attuned to the emotional needs of the family and TBE/ESL staff are involved in after-school activities. The TBE/ESL program has identified a need to expand parental involvement. Thus far this school year, there have been two Parent Advisory Council (PAC) meetings and only a few parents attended. One of the meetings was held in downtown Lowell to encourage parents that find it difficult to get to the campus in Tyngsborough to attend. The district has added additional math classes with bilingual support and has doubled the ESL classes. A Wilson reading program taught by TBE/ES staff has also been established. .*

**APPENDIX:  
SCHOOL DISTRICT PROFILE INFORMATION**

The information which is provided in this Appendix was drawn from data supplied by the school district. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. This district-wide information, together with more detailed school building data, is periodically updated by the school district and is available in an evercurrent form on the Department's internet web site at <<http://profiles.doe.mass.edu/>>.

# School and District Profiles

## Definitions of Terms

### Profiles

The Massachusetts Department of Education collects information about schools and districts. Some of the information collected is published in School and District Profiles on DOE web pages. The information provides a snapshot of the educational picture in communities across the state.

Now districts view, add, update and delete their own district and school information over the web to make sure that the information is as up-to-date and accurate as possible. In addition, the general public will be able to view Directory information about each school district in the state. Individuals can retrieve for themselves information such as school personnel, school programs (e.g. School Choice and TBE) and the location of specialized services such as Special Education Collaboratives, and Vocational Training Programs.

The list below provides an explanation of information presented in the Profiles.

---

## Directory Information

**DOE Code:** The DOE Code, also referred to as the Organization Code, is an eight digit numeric code assigned by the Massachusetts Department of Education to every organization listed in the Directory Profiles, including every district and school in the Commonwealth. For districts and schools, the first four digits represent the District Code and the last four digits represent the School Code. Thus the organization code "02660505" stands for "0266" (Sharon Public Schools) + "0505" (Sharon High). If a form requires the 8-digit DOE school code it is calling for the entire organization code.

Prior to the 2001 school year, organization codes contained six digits (three for the district and three for the school.) With the exception of some special needs schools, the eight digit codes are the same as the six digit codes with one zero added before the district code and another zero added before the school code. Thus, Sharon High's old six digit organizational code was 266505.

Please Note: The Department's Organization Code is not the same as the Institution codes assigned by the College board for SAT and AP results. Nor is it the same as the NCES code assigned to Massachusetts schools by the U.S. Department of Education.

**Grades/Schools\*:** indicates the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "PK" indicates the district has pre-kindergarten. A high school range ending in "13" or "14" indicates the district has a post-graduate program. Kindergarten starting age indicates the age as of a particular date at which children are eligible to begin kindergarten.

**Services:** Services include:

- **Inter-district Choice:** indicates whether students from other districts may enroll in the district through the state school choice program, which is voluntary and on a space-available basis.
- **Intra-district Choice:** indicates whether the district has a school choice program within the school district for students who live in the district.
- **Vocational Education:** indicates whether the district operates a Chapter 74 approved vocational education program.
- **Transitional Bilingual Education (TBE):** indicates whether the district operates a TBE program. Under Massachusetts law, a district must provide a TBE program in a particular language if there are 20 or more limited English proficient students in that particular language group enrolled in the district. Limited English proficient students are students whose first language is not English and who cannot perform ordinary class work in English.
- **METCO:** indicates whether the district participates in the state METCO program, which promotes voluntary desegregation by enrolling minority students from Boston and Springfield in suburban schools.

**Relationships:** Relationships include:

- **Member of Regional Districts\*:** for local school districts, indicates the name(s) of any academic and/or vocational regional district(s) of which the local school district is a member. For regional school districts, indicates the names of member local school districts. A regional school district provides educational services to more than one town.

\* District level data only.

---

## Enrollment

**Enrollment by Grade:** indicates the enrollment for grades Pre-kindergarten (PK), kindergarten through 12, post-graduate grades 13 and 14, and ungraded (u/g) students for the listed school year.

**Race/Ethnicity:** indicates the percent of enrollment by race/ethnicity for the listed school year. The reporting categories are those used by the U.S. Bureau of the Census.

**Selected Populations:** indicates the percent of enrollment represented by students in special education programs\*, students who are limited English proficient, and students eligible to receive free or reduced price lunch\*. Data are for the listed school year.

**Children Attending Public Schools\*:** indicates the percent of school-age children in a city or town attending public schools, for the listed school years.

\* District level data only.

---

## Test Results

**Massachusetts Comprehensive Assessment System (MCAS):** Click the MCAS link to see MCAS results for the district or school.

For additional information about Massachusetts Comprehensive Assessment System (MCAS), please refer to the Department of Education's MCAS web site at [www.doe.mass.edu/mcas](http://www.doe.mass.edu/mcas).

**SAT:** The district or school's SAT results are displayed for the listed years.

---

## People

A list of people who work in the organization. Each name is linked to contact information for the person.

---

## Finance

**Per Pupil Expenditures\*:** are calculated by dividing a district's operating costs by its average pupil membership. Operating costs include expenditures for administration, instruction, pupil services, transportation, plant maintenance, and fixed charges. These costs do not include capital outlay and long-term interest on school debt.

Average pupil membership includes students who receive services in the district's schools, as well as students receiving home or hospital instruction. Data for regular education, special education, bilingual education and vocational education students are provided in addition to the total for all day programs, for the listed school years.

**Teacher Salary\*:** indicates the minimum and maximum teacher salaries available, for the listed school years.

**Foundation Budget Spending Comparison\*:** The education reform act established a foundation budget for each school district. This budget represents the minimum level of spending needed to provide an adequate education for the district's students. The foundation budget is made up of 19 separate categories. The chart shows the district's actual spending in each category for the listed school year as a percentage of the district's foundation budget. If the percentage exceeds 100%, the district spent more in the category than suggested by the foundation budget. If the percentage is less than 100%, the district spent less. Significant variations between local spending and the foundation budget, or between local spending and the statewide averages, should be reviewed closely. In some cases, the differences may be due to unique circumstances and needs within the district. In other cases, the differences may suggest potential areas for review and improvement.

Click one of the links in the Finance section for more school finance information.

\* District level data only.

## Other Data

**Dropout/Attendance Rates:** indicates the percentage of students in grades 9-12 who dropped out of school between July 1 and June 30 prior to the listed year and who did not return to school by October 1. Dropouts are defined as students who leave school prior to graduation for reasons other than transfer to another school.

**Attendance Rate:** indicates the average percentage of enrolled students present in school for the listed school year.

**Student Exclusions:** indicates the number of student exclusions that occurred during the listed school year. An exclusion is defined as the removal of a student for disciplinary purposes permanently, indefinitely or for more than ten consecutive school days.

**Plans of High School Graduates:** indicates the post-graduate intentions of students for the listed school year.

**Technology:** indicates the number of students for every one computer and the percent of classrooms with Internet access. Data are for the listed school year; "DNR" appears for schools and districts which did not yet report data
