## COORDINATED PROGRAM REVIEW REPORT

### AVON PUBLIC SCHOOLS

#### OVERVIEW OF REVIEW PROCEDURES

As one part of its school and school district accountability system, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review system. All reviews include selected requirements in special education under the federal Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 *et seq.* (IDEA-97) and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972) and certain federal civil rights requirements under Titles I and II of the Americans with Disabilities Act of 1990, Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971). Additionally, all reviews include certain standards included under the newly adopted Board of Education Physical Restraint Regulations (603 CMR 46.00). Other monitoring activities in the areas of the state's Transitional Bilingual Education law (M.G.L. Chapter 71A), federal requirements under Title I, the Safe and Drug-Free Schools and Communities Act, the Perkins Vocational and Technical Education Act, and Nutrition Programs and Services will be conducted in some districts during these Coordinated Program Reviews. The school districts and charter schools selected for review in 2001-2002 were notified by the Commissioner of Education in April 2001 of the scheduled visits and were encouraged to assess themselves before the arrival of the Department's visiting team.

#### Coordinated Program Review Elements

- Team: Depending upon the size of a school district and the number of program areas to be reviewed, a team of two to eight members conducts a Coordinated Program Review over two to seven days in a school district or charter school. The team may include Department consultants as well as Department staff members.
- Scope: Approximately sixty school districts and charter schools are scheduled to receive visits in school year 2001-2002. All school districts and charter schools in the Commonwealth are monitored through the Department's Coordinated Program Review system on a six-year cycle with an additional mid-cycle special education follow-up visit.
- Content: The Program Review criteria include certain of the statutory and regulatory requirements for each program area. In the case of special education, the criteria for the FY 2002 reviews contain, at a minimum, those elements required by the federal Office for Special Education Programs (OSEP) and revised requirements under IDEA-97 as described in the Department's Special Education Advisories. Additionally, the 2001-2002 reviews incorporate updated state special education requirements as adopted by the Board of Education, effective December 20, 2000. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993, being intended to promote high standards and achievement for all students.
- Report: The Department's report is based on a review of documentation regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives.
- Other interviews as requested by members of the general public.
- Review of student records in the special education, Transitional Bilingual Education, and Perkins vocational programs. Parents of students with disabilities whose files were selected for the record review are sent a survey that solicits information about their experiences with the district's implementation of special education programs, related services and procedural requirements.
- Observation of classrooms and other facilities. A sample of instructional classrooms and other school facilities used in the delivery of programs and services are visited to determine general levels of compliance with program and accessibility requirements.
- Interviews, review of student records, and observations in the case of collaborative programs and services. Where the district is a member of a collaborative approved by the Department of Education and serves as a site for any programs or services operated by the collaborative, interviews with collaborative staff, review of records of collaborative students, and observations of collaborative facilities are conducted.

Response: An executive summary and detailed findings for each program area describe determinations about the implementation status of each requirement (criterion) reviewed. The findings note those criteria the implementation of which the team found to be commendable. Where criteria were found not to be fully implemented the local district or charter school must propose corrective actions to bring those areas into compliance with the controlling statutes or regulations. Districts are encouraged to incorporate the corrective action into their district and school improvement plans, including their professional development plan.

The Department of Education believes that the Coordinated Program Review process is a positive experience and that the Final Report should be seen as a helpful planning document for the continuing development of programs and services in the school district or charter school.

## REPORT INTRODUCTION

A five-member Massachusetts Department of Education team visited Avon Public Schools during the week of May 20, 2002 to evaluate the implementation of selected criteria in the program areas of Special Education, Civil Rights, Title I and Safe and Drug-Free Schools. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Avon Public Schools. These areas are as follows:

*At all levels, after-school extracurricular activities such as sports, cooking, art, life skills, team games and drama are offered to all students. The district offers noncompetitive team options and has special educators run some of the programs, which is an effective way to encourage the participation of students receiving special education services.*

*The establishment of a clinical specialist/psychiatric nurse position provides invaluable support to students at risk, in both special and regular education, as well as their families. This staff person coordinates all counseling referrals for students, conducts outreach and home visits, runs support groups for both special education and regular education students, and assists with crisis intervention. The clinical specialist is an integral part of the process for meeting the diverse needs of students and preventing the need for special education referrals.*

*Some of the commendations noted above are repeated within the body of the Department's report under the appropriate compliance criteria.*

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of five administrative staff.
- Interviews of 40 teaching and support services staff across all levels.
- Interviews of eight parent advisory council (PAC) representatives, and other interviews as requested by persons from the general public.
- Interviews as requested by persons from the general public.
- Student record reviews: A sample of 21 student records was selected by the Department. Student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.
- Parent surveys: 21 parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. Four of these parent surveys were returned to the Department of Education for review by the onsite team.
- Observation of classrooms and other facilities. A sample of ten instructional classrooms and other school facilities used in the delivery of programs and services was visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components. These components are listed in the executive summary on the following pages. The findings in each program

area explain the “ratings, ”determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially “Implemented” or implemented in a “Commendable” manner. (Refer to the “Definition of Terms” section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as “Implemented” but made a specific comment on the district’s implementation methods that also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plan.

# COORDINATED PROGRAM REVIEW REPORT

## EXECUTIVE SUMMARY

### Avon Public Schools

The following summary synthesizes the findings for criteria included in the Coordinated Program Review as they respond to essential questions, which the Department has formulated for each of the components of the report. Note that a more detailed discussion of the onsite team's findings, together with the specific legal standards for each program area included in this review, follows this summary.

#### **Component I: Assessment of Student Progress**

*Has the district implemented an assessment system that uses appropriate instruments, is conducted according to the specified timelines, and covers the appropriate content areas to determine instructional needs of students?*

The district has implemented an assessment system that uses appropriate instruments and covers the appropriate content areas to determine instructional needs of students. Assessment reports are thorough and well developed. However, the requirements for determination of specific learning disabilities are not always implemented and IEPs are not always provided to parents within forty-five school working days after receipt of parental consent for evaluation. All students with disabilities participate in state and district-wide assessments. IEP Teams routinely consider transition services and the district routinely implements the transfer of parental rights at the age of majority. The district also responds to parental requests for independent educational evaluations in accordance with state and federal regulations. Re-evaluations are conducted every three years. However, IEP Teams do not always convene annually. Also, signed Team meeting attendance sheets are not always documented in the student record. Parents of students with disabilities attending Avon Middle/High School and out of district placements do not always receive progress reports as often as parents are informed of the progress of non-disabled students. Additionally, progress reports do not always include information about the student's progress toward annual goals.

MCAS testing is used to measure the progress of schools and the school district, to determine program needs and to evaluate the impact of Title I programs on student achievement. All Title I eligible students are being served.

#### **Component II: Student Identification and Program Placement**

*Has the district followed procedures for student identification and placement into the program according to the criteria specified in regulations?*

The district has an outreach procedure in place to find and include students in the community who may be in need of special education but, outreach is not conducted to all necessary groups. The district has a procedure in place to screen three and four year olds during the 2002-2003 school year but, it did not screen three and four year olds during the 2001-2002 school year. However, the district works with Early Intervention Programs to ensure effective transitions. Teams develop IEPs that contain most of the required content. However, some IEP goals for Avon Middle/High School and out of district students are not annual or measurable. IEP Teams determine placement for eligible students based on the IEP and students are placed in the least restrictive environment. However, IEPs and placement

determinations are not always provided to the parent immediately following their development. IEPs are implemented immediately upon receipt of the parent's acceptance of the IEP and placement

The district uses qualified staff and appropriate procedures to identify limited English proficient students and the district makes necessary program modifications to effectively serve limited English proficient students. All students have access to the full range of education programs.

The district has multiple, objective, and educationally relevant criteria to appropriately identify students eligible for Title I services.

### **Component III: Parental Involvement**

*Has the district ensured that parents are notified in the appropriate language and are involved in decisions regarding their children's programs and services? Where appropriate, does the district involve community representatives in shaping programs?*

The district provides notice to parents regarding proposals or refusals to conduct evaluations or change the identification or educational placement of special education students. However, the district does not always obtain written parental consent prior to conducting evaluations. The district provides written Team meeting notices to parents in advance of Team meetings and parents are active participants in Team meetings. Communications with parents are both in English and in the native language of the home. The district has an established and active parent advisory council. However, the parent advisory council does not advise the school committee or meet regularly with school officials.

General district information and materials are available in languages other than English.

Parents of Title I students are provided materials and training and have equal opportunity to be represented on local School Councils.

Community agencies participate in the Safe and Drug-Free Schools and Communities Act Program. The Safe and Drug Free Schools Program is coordinated with related programs and projects. The advisory council is involved in establishing measurable goals and objectives for the program. However, there is no evidence that the district has program activities that promote parental involvement.

### **Component IV: Curriculum and Instruction**

*Does the district hold all students to high expectations and standards? Are programs designed to maximize student performance and students' participation in the general curriculum? Is curriculum throughout the districts' programs aligned with the Massachusetts Curriculum Frameworks? Has the district provided for coordination across program areas?*

The district holds all students to high expectations and standards. The district's curriculum is aligned with the Massachusetts Curriculum Frameworks. A full continuum of services and placements are available to meet the needs of all students with disabilities. IEP Teams consider assistive technology for eligible students. The district has appropriate procedures for placing students in approved and unapproved out of district placements. However, documentation of monitoring plans and actual monitoring were not always included in student records. The size and composition of instructional groupings meet state requirements.

The district ensures that all extra curricular activities are accessible to students with disabilities by offering noncompetitive team options, by having special educators run some programs and by encouraging all students to participate in extra curricular offerings. Recruitment and employment materials aimed at students are free of bias and discrimination. However, the district does not require employers recruiting at the school to sign a statement that they do not discriminate in hiring or employment practices.

Title I services are designed to assist students in meeting the standards of the regular education curriculum. The district has an established process for coordinating Title I services with other district services and programs. Efforts are made to minimize pull out services. Title I students have opportunities to participate in extended day/week/year programs and activities.

The Safe and Drug Free School program is not integrated with the district's Title I and Title II programs.

### **Component V: Student Support Services**

*Has the district ensured that all students have equal access to programs and services? Does the district provide support to students who need it?*

Special education students receive a free appropriate public education and the district provides the required related services for each eligible student. The district has a procedure to record the number and duration of suspensions. However, the district's code of conduct does not comport with the provisions of IDEA-97 and does not include the necessary procedural safeguards. The district does not have disciplinary procedures for students not yet found eligible for special education services. Also, IEP Teams do not always consider positive behavioral interventions for students whose behavior impedes learning.

School district staff and the general public are notified that all district programs, activities and employment opportunities are offered in a non-discriminatory manner. Staff and the public are also notified of the identity and contact information for the Title VI, Title IX and Section 504 coordinators. The district has a grievance procedure for Section 504, but it does not have grievance procedures for Titles VI or IX. Counseling activities are free from bias and discrimination and all students receive counseling on the full range of curricular and vocational opportunities available to them. Scholarships, prizes and athletic awards sponsored or administered by the district are non-discriminatory. The district provides a notice to special students who have left or are about to leave school without a diploma but, it does not contain all of the required elements. The district has a physical restraint policy and procedures; however, not all staff is trained annually on these procedures.

The Title I program supplements other district programs. Representatives from non-public schools are consulted and informed about Title I services. Additional assistance is provided through teacher-parent conferences for any students not meeting the standards.

### **Component VI: Faculty, Staff and Administration**

*Does the district maintain certified staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development? Are program leadership and oversight effective? Are the district's personnel procedures non-discriminatory and does it seek to recruit employees from all groups?*

The district's curriculum accommodation plan was being developed at the time of the onsite visit. Special education teachers and related service providers are appropriately certified and

licensed. Paraprofessionals are not always appropriately supervised or adequately trained. The district provides the required special education professional development opportunities for special education staff. However, general education staff does not have the opportunity to participate in training on all special education topics.

School district employee recruitment activities are aimed at reaching all groups of people. The employment application and interview procedures are free of bias and discrimination. Personnel policies and procedures are non-discriminatory. Some staff does not receive annual training on civil rights responsibilities.

Title I aides work under the direct supervision and in close proximity of certified teachers. Professional development activities are provided to all staff who serve Title I eligible students and the activities support instructional practices that are conducive to high achievement and the challenging content expectations of the state's Curriculum Frameworks. These professional development activities are designed by staff to ensure that Title I students' needs are addressed.

### **Component VII: School Facilities**

*Does the district maintain accessible facilities that are conducive to learning, facilitate integration, and provide equal opportunity for students to achieve?*

Special education facilities and classrooms maximize the inclusion of special education students into the life of the school and are at least equal in all physical respects to the average standards of general education facilities and classrooms. None of three school buildings are fully accessible for students with limited physical mobility. The district has plans for a renovation project to address these accessibility problems; however, the district does not have an interim plan to ensure program accessibility.

Where the district provides separate facilities or programs for members of a specific group such facilities and programs are comparable to those offered to other students.

### **Component VIII: Program Plan and Evaluation**

*Does the District have written program plans where required that are evaluated according to specific regulatory requirements? Does it use the results of its evaluations to improve programs? Do parents have opportunities for input on needs, program implementation, evaluation, and improvement?*

The district conducted a special education program evaluation during the 2000-2001 school year. However, the district does not regularly evaluate all of its special education programs and services.

The district has a process for curriculum review; however, there is no documentation of a completed review. Similarly, the district has a process for an institutional self-evaluation but there is no documentation regarding its implementation.

The district annually assesses its Title I programs and services.

The district has a process in place to determine the current level of substance abuse and violence among all students. The district has goals, measurable objectives and activities for its prevention program, but the advisory council is not fully involved in establishing these goals and objectives. Some programs do not respond to the identified needs or carry out the Principles of Effectiveness. Also, the district does not have a plan or process for evaluating its

Safe and Drug Free program.

**Component IX: Record keeping**

*Does the District maintain required records and documentation for each specific program area? Are federal entitlement grants appropriately designed, amended, and monitored?*

The district maintains an accurate special education child count. The special education federal entitlement grant is appropriately designed, amended and monitored.

The district maintains appropriate logs verifying the time each split-funded staff member spends on Title I activities. The district has submitted all required reports to the Department of Education and maintains appropriate Title I records in the district. The district's Title I grant is appropriately designed, amended and monitored.

Appropriate accounting and budget procedures are implemented for the Safe and Drug Free Schools and Communities Act.

**DEFINITION OF TERMS**  
**FOR THE RATING OF EACH COMPLIANCE CRITERION**

<b>Commendable</b>	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
<b>Implemented</b>	The requirement is substantially met.
<b>Implementation in Progress</b>	In reference to compliance criterion MOA 17A, new Board of Education requirements became effective on April 2, 2001 regarding the use of physical restraint in publicly funded education programs. The district is currently engaged in staff training and is beginning implementation practices for these new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the 2001-2002 school year.
<b>Partially Implemented</b>	The requirement, in one or several important aspects, is not entirely met.
<b>Not Implemented</b>	The requirement is totally or substantially not met.
<b>Not Applicable</b>	The requirement does not apply to the school district or charter school.

## COMPONENT I: ASSESSMENT OF STUDENT PROGRESS

The criteria in this component examine whether the District has implemented an assessment system that uses appropriate instruments, conducted according to the specified timelines and covering the appropriate content areas to determine instructional needs of students for the program areas listed below:

**Department of Education Findings:**

*Documentation and administrative staff interviews indicated that there are procedures for determination of specific learning disabilities. However, record review and staff interviews indicated inconsistent implementation of procedures. The majority of student records did not include the criteria used by the Team for determining a specific learning disability, documentation of the required observation, or written certification of Team members whether they are in agreement with the report. Most non-administrative staff members were not familiar with this process.*

#### COMPONENT IV: CURRICULUM AND INSTRUCTION

The criteria in this component examine whether the district holds all students to high expectations and standards and ensures that the program areas reviewed are designed to maximize student performance within regular education and are implemented according to specific regulatory requirements with respect to learning time, class size, staffing ratio, and age spans. The criteria also examine if the district has provided for coordination across the following program areas:

- Special Education (Report Issues # SE 33-42)
- Civil Rights Methods of Administration (MOA) (Report Issues MOA 8-9)
  - Title I (Report Issues # TI 12-14F)

APPENDIX  
SCHOOL DISTRICT PROFILE INFORMATION

The information which is provided in this Appendix was drawn from data supplied by the school district. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. This district-wide information, together with more detailed school building data, is periodically updated by the school district and is available in an evercurrent form on the Department's internet web site at <<http://profiles.doe.mass.edu/>>.

# School and District Profiles

## Definitions of Terms

### Profiles

The Massachusetts Department of Education collects information about schools and districts. Some of the information collected is published in School and District Profiles on DOE web pages. The information provides a snapshot of the educational picture in communities across the state.

Now districts view, add, update and delete their own district and school information over the web to make sure that the information is as up-to-date and accurate as possible. In addition, the general public will be able to view Directory information about each school district in the state. Individuals can retrieve for themselves information such as school personnel, school programs (e.g. School Choice and TBE) and the location of specialized services such as Special Education Collaboratives, and Vocational Training Programs.

The list below provides an explanation of information presented in the Profiles.

---

## Directory Information

**DOE Code:** The DOE Code, also referred to as the Organization Code, is an eight digit numeric code assigned by the Massachusetts Department of Education to every organization listed in the Directory Profiles, including every district and school in the Commonwealth. For districts and schools, the first four digits represent the District Code and the last four digits represent the School Code. Thus the organization code "02660505" stands for "0266" (Sharon Public Schools) + "0505" (Sharon High). If a form requires the 8-digit DOE school code it is calling for the entire organization code.

Prior to the 2001 school year, organization codes contained six digits (three for the district and three for the school.) With the exception of some special needs schools, the eight digit codes are the same as the six digit codes with one zero added before the district code and another zero added before the school code. Thus, Sharon High's old six digit organizational code was 266505.

Please Note: The Department's Organization Code is not the same as the Institution codes assigned by the College board for SAT and AP results. Nor is it the same as the NCES code assigned to Massachusetts schools by the U.S. Department of Education.

**Grades/Schools\*:** indicates the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "PK" indicates the district has pre-kindergarten. A high school range ending in "13" or "14" indicates the district has a post-graduate program. Kindergarten starting age indicates the age as of a particular date at which children are eligible to begin kindergarten.

**Services:** Services include:

- **Inter-district Choice:** indicates whether students from other districts may enroll in the district through the state school choice program, which is voluntary and on a space-available basis.
- **Intra-district Choice:** indicates whether the district has a school choice program within the school district for students who live in the district.
- **Vocational Education:** indicates whether the district operates a Chapter 74 approved vocational education program.
- **Transitional Bilingual Education (TBE):** indicates whether the district operates a TBE program. Under Massachusetts law, a district must provide a TBE program in a particular language if there are 20 or more limited English proficient students in that particular language group enrolled in the district. Limited English proficient students are students whose first language is not English and who cannot perform ordinary class work in English.
- **METCO:** indicates whether the district participates in the state METCO program, which promotes voluntary desegregation by enrolling minority students from Boston and Springfield in suburban schools.

**Relationships:** Relationships include:

- **Member of Regional Districts\*:** for local school districts, indicates the name(s) of any academic and/or vocational regional district(s) of which the local school district is a member. For regional school districts, indicates the names of member local school districts. A regional school district provides educational services to more than one town.

## Finance

**Per Pupil Expenditures\*:** are calculated by dividing a district's operating costs by its average pupil membership. Operating costs include expenditures for administration, instruction, pupil services, transportation, plant maintenance, and fixed charges. These costs do not include capital outlay and long-term interest on school debt. Average pupil membership includes students who receive services in the district's schools, as well as students receiving home or hospital instruction. Data for regular education, special education, bilingual education and vocational education students are provided in addition to the total for all day programs, for the listed school years.

**Teacher Salary\*:** indicates the minimum and maximum teacher salaries available, for the listed school years.

**Foundation Budget Spending Comparison\*:** The education reform act established a foundation budget for each school district. This budget represents the minimum level of spending needed to provide an adequate education for the district's students. The foundation budget is made up of 19 separate categories. The chart shows the district's actual spending in each category for the listed school year as a percentage of the district's foundation budget. If the percentage exceeds 100%, the district spent more in the category than suggested by the foundation budget. If the percentage is less than 100%, the district spent less. Significant variations between local spending and the foundation budget, or between local spending and the statewide averages, should be reviewed closely. In some cases, the differences may be due to unique circumstances and needs within the district. In other cases, the differences may suggest potential areas for review and improvement.
