MASSACHUSETTS DEPARTMENT OF EDUCATION

COORDINATED PROGRAM REVIEW REPORT

HADLEY PUBLIC SCHOOLS

OVERVIEW OF REVIEW PROCEDURES

As one part of its Accountability System, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review System (CPR). Most reviews include selected requirements in special education under the federal Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 *et seq.* (IDEA-97), and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972) and certain federal civil rights requirements under Titles I and II of the Americans with Disabilities Act of 1990, Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971) and other related Massachusetts General Laws. Additionally, all reviews include certain standards included under the Board of Education's Physical Restraint regulations (603 CMR 46.00). Other monitoring activities in the areas of Title I, Safe and Drug-Free Schools and Communities Act, the Perkins Vocational and Technical Education Act, and Nutrition Programs and Services are conducted in some districts during these Coordinated Program Review procedures. The selected school districts for 2002-2003 were notified by the Commissioner of Education in June 2002 of scheduled visits and were required to implement self-assessment activities prior to the arrival of the Department's visiting team.

Coordinated Program Review Elements

Team: Depending upon the size of a school district and the number of program areas to be reviewed, a team of approximately two to eight Department staff members together with any necessary outside consultants conducts a Coordinated Program Review over two to ten days in a school district or charter school.

Scope: Approximately fifty-three school districts and charter schools are scheduled to receive visits in school year 2002-2003. All school districts and charter schools in the Commonwealth are monitored through the Department's Coordinated Program Review system on a six-year cycle with an additional mid-cycle special education follow-up visit.

Content: The Program Review criteria encompass the required elements for the specific program areas. In the case of special education, the elements selected for the 2002-2003 reviews contain, at a minimum, those required by the federal Office for Special Education Programs (OSEP) and revised requirements included under IDEA-97 as described in the Department's Special Education Advisories. Additionally, the 2002-2003 reviews incorporate updated state special education requirements as adopted by the Board of Education and effective on December 20, 2000. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993, and intended to promote high standards and achievement for all students.

Report: The Department's report is based on a review of written documentation and data regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives and other interviews as requested by persons from the general public.
- Student record reviews in the program areas of special education, Perkins vocational programs, and Section 504 (student accommodation plans). A sample of student records is selected by the Department. Student records are examined by the onsite team using standard Department student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements. Parents of students with disabilities whose files are selected for the record review are sent a survey that solicits information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements.
- Classroom and facilities observation. A sample of instructional classrooms and other school facilities used in the delivery of programs and services are visited to determine general levels of compliance with program requirements.
- Collaborative Programs and Services. Where the district is a member of a collaborative approved by the Department of Education and is a site for programs or services operated by the collaborative, a sample of interviews, student record reviews and classroom and facility observations are conducted.

An Executive Summary and detailed findings for each program area describe determinations of the Department of Education about the implementation status of each requirement (criterion) reviewed.

Response: The findings included in the Final Report note those criteria the implementation of which the team found to be commendable or substantially implemented. Where criteria are found not to be fully implemented, the local district or charter school must propose corrective actions to bring those areas into compliance with the respective statutes or regulations. Districts are encouraged to incorporate the corrective action into their district and school improvement plans, including the district professional development plan.

* * * * *

The Department of Education believes that the Coordinated Program Review process is a positive experience and that the Final Report should be seen as a helpful planning document for the continuing development of programs and services in the school district or charter school.

REPORT INTRODUCTION

A four-member Massachusetts Department of Education team visited Hadley Public Schools during the week of January 27, 2003 to evaluate the implementation of selected criteria in the program areas of Special Education, Methods of Administration—Civil Rights, Title I, and Safe and Drug-Free Schools. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Hadley Public Schools. These areas are as follows:

-The highly demonstrative, supportive, enthusiastic and caring spirit among administrators and staff toward students, exhibited through the daily greeting of all students by the Principal in the morning and afternoon; an emphasis on teaching respect, including respectful assertiveness, self-control, sharing, empathy, kindness, attitude, etc; several large bulletin boards/signs throughout the school displaying messages emphasizing these values and the commitment of staff toward children as their first priority.

-The commitment of all teachers and administrators to a student-centered learning community with high standards for all students as evidenced by their regular attendance at Team meetings before and after school hours rather than during students' class time; frequent meetings with colleagues, specialists and administrators during lunch and prep periods to discuss students' needs; the provision of individual tutorial support for all students at the Middle/High School; numerous collegial and collaborative interactions and trainings among the special and regular education staff and administrators, increasing effective instructional practices and student achievement. All members of the Class of 2003 passed the MCAS tests.

-The District's collaborative and participative form of management and decision-making, supported and encouraged by the administration. Teamwork is emphasized, with the Middle School Team meeting daily, and common planning time for elementary teachers being scheduled for next year. The elementary school Principal writes a weekly newsletter ("Staff Notes From The Principal") to all his staff, keeping them informed of daily/weekly events, meetings, helpful educational articles/information of interest for teachers/classrooms, encouraging participation, and expressing appreciation and positive feedback for specific staff efforts.

-The high level of communication and involvement between the District and parents, as evidenced by 100% parent attendance at Team meetings, and a significant increase in attendance at Special Education Parent Advisory Council meetings.

-The high quality and comprehensive nature of Team evaluations conducted by District staff, as evidenced by very thorough and helpful assessments, Individualized Educational Plans, and progress reports. These well-written documents provide effective instructional guidance, recommendations and understanding to teachers and parents.

-The District's Preschool Program is designed to meet the diverse needs of all students, being developmentally-based and providing flexible programming through morning, afternoon, and full-day sessions.

Some of the commendations noted above are repeated within the body of the Department's report under the appropriate compliance criteria.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of four administrative staff.
- Interviews of 23 teaching and support services staff across all levels.
- Interviews of five parent advisory council (PAC) representatives.
- Interviews as requested by persons from the general public.
- Student record reviews: A sample of 19 student records was selected by the Department. Student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.
- Parent surveys: 21 parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. Ten of these parent surveys were returned to the Department of Education for review by the onsite team.
- Observation of classrooms and other facilities. A sample of nine instructional classrooms and other school facilities used in the delivery of programs and services was visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components . These components are listed in the executive summary on the following pages. The findings in each program area explain the “ratings, ”determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially “Implemented” or implemented in a “Commendable” manner. (Refer to the “Definition of Terms” section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as “Implemented” but made a specific comment on the district’s implementation methods that also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plan.

COORDINATED PROGRAM REVIEW REPORT

HADLEY PUBLIC SCHOOLS

EXECUTIVE SUMMARY

The following information synthesizes the findings for specific program criteria included in the Coordinated Program Review as they respond to essential questions, which the Department has formulated for each of the major component areas of the report. Note that a more detailed discussion of the Onsite Team's findings, which are represented in this Executive Summary, together with the specific legal standards for each program area included in this review, follows this summary.

Component I: Assessment of Student Progress

Has the District implemented an assessment system that uses appropriate instruments, conducted according to the specified timelines and covering the appropriate content areas to determine instructional needs of students?

The district has an assessment system in place to determine students eligible for special education. Appropriate tests and evaluation materials and information from a variety of sources are used, and placements are made in conformance with the principle of least restrictive environment. The district has consistently implemented all requirements regarding evaluating a student suspected of having a specific learning disability. Teams are determining the student's needs for transition services as required, and are composed of the appropriate members. All students are involved in the MCAS program. Timelines for evaluations and team meetings are substantially met, as they are for IEPs and progress reports sent to parents.

Component II: Student Identification and Program Placement

Has the District followed procedures for student identification and placement into the program according to the criteria specified in regulations?

The district has procedures for the identification and placement of students eligible for special education services. Screening to identify children who need special education supports is conducted for three- and four-year-olds and for all kindergartners in the district. Special education services are begun at age three for all eligible children, with continuous outreach and liaison between the district and Early Intervention agencies serving its town. Special education Teams are developing IEPs with all of the required elements. Teams are implementing requirements regarding extended evaluations when necessary.

All students have access to the general education program. Teams consistently select the least restrictive program possible for students, and all IEP services are provided once consented to by the parent. The district has implemented services based solely on parental verbal approval in the past.

Multiple criteria are used to identify students who are eligible for Title I support, and Title I services are available to students with special needs and limited-English proficient students.

Component III: Parental Involvement

Has the District ensured that parents are notified, in the appropriate language, and are involved in decisions regarding their children's programs and services?

The district has procedures in place to ensure involvement of parents of special needs students in the education of their children. Parents are notified of their rights and are involved in all decisions regarding their children. A very active Parent Advisory Council exists, and 100% of all parents regularly participate in Team meetings.

General information and notices to parents with limited English language skills are translated when required.

Title I parent involvement policies have not been fully developed or implemented, nor have parents of Title I students been fully involved in the development of those policies. The district provides materials and training to Title I parents to enable them to improve their children's achievement.

The district coordinates activities with parents to their involvement in the Safe and Drug Free Schools program. Coordination with community agencies and their representation on the district's SDFS Advisory Council need further development.

Component IV: Curriculum and Instruction

Does the District hold all students to high expectations and standards and ensure that programs are designed to maximize student performance within regular education and are implemented according to the specific regulatory requirements with respect to learning time, class size, staffing ratio, and age spans? Has the District provided for coordination across program areas?

The district has aligned its general curriculum with the Massachusetts Curriculum Frameworks and ensures that all students with disabilities have access to the general curriculum. A full continuum of services exists to meet the needs of students with disabilities. All required specialized materials and equipment are provided, and signed IEPs are implemented without delay, with ongoing oversight throughout the year. Appropriate procedures are followed for all public and private out-of-district placements. Class sizes and age-spans are within regulatory limits, and an extensive developmentally appropriate service delivery system exists for children three and four years of age.

All programs and activities sponsored by the district are integrated and offered to all students in a non-discriminatory manner.

Title I services are targeted at helping at-risk students meet the expectations and standards of the general curriculum. Efforts are made to minimize pull-out models, and there is an established process for the coordination of Title I services with the instructional and assessment programs provided in regular education and special education. Students receiving Title I services are provided opportunities to participate in extended day/week/year programs and activities.

Component V: Student Support Services

Has the District ensured that all students have equal opportunity and access to programs or services?

Disabled students have equal opportunity to participate in all programs and supportive and remedial services that are available as part of the general education program, including non-academic and extracurricular programs of the district. The district ensures that students whose behavior impedes their learning or the learning of others are provided procedural safeguards according to federal law (IDEA). Suspension procedures of the district are consistent with federal requirements. Procedural safeguards and program options are provided to students

who have left or are about to leave school without obtaining a high school diploma.

Notifications of non-discrimination to staff, students, and the general public are made each year, and the district has a grievance procedure in place for students and staff who believe they have been discriminated against. Counseling materials, activities, and scholarships and awards are free from bias and stereotypes. The district has developed policies and procedures and implemented staff training on the use of physical restraint.

Component VI: Faculty, Staff and Administration

Does the District maintain certified staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development?

All special education and Title I staff are appropriately certified and licensed. Paraprofessional staff used to support special education and Title I services are appropriately supervised by certified teachers.

Professional development in the areas of special education, Title I and civil rights training is adequately addressed.

The district's employee recruitment activities, application and interview procedures, and personnel policies and procedures are free of discrimination and bias.

Component VII: School Facilities

Does the District maintain facilities that are conducive to learning, facilitate integration, and provide equal access and opportunity for students to achieve?

The district provides special education and Title I services in classrooms which maximize inclusion and are equal in all physical respects to general education classrooms.

The district is in compliance with Section 504 as all educational programs and services are offered at each level in at least one building accessible to students with limited physical mobility.

Component VIII: Program Plan and Evaluation

Does the District have written program plans that are evaluated according to specific regulatory requirements? Do parents have opportunities for input on needs, program implementation, evaluation, and improvement?

The district regularly evaluates all special education programs, services and administrative areas. The district ensures that educational programs, materials and policies are not discriminatory. While Title I progress is evaluated annually, a needs assessment and data analysis is not conducted annually to determine the types of programs and services to be provided to Title I students.

The district's Safe and Drug Free Schools program plan and evaluation processes do not include sufficient community data or input.

Component IX: Record keeping

Does the District maintain required records and documentation for each specific program area?

Required records and documentation are maintained for the special education and Title I programs. The district uses Title I funds only to supplement other educational services. Accounting records for the Safe and Drug Free Schools program are not in place to document time distribution logs for staff employed with SDFS funds.

DEFINITION OF TERMS
FOR THE RATING OF EACH COMPLIANCE CRITERION

Commendable	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
Implemented	The requirement is substantially met.
Implementation in Progress	The criterion includes one or more new federal Title I requirements that became effective during the 2002-2003 academic year. The district has substantially implemented any pre-September 1, 2002 requirements also included under the criterion and is currently engaged in staff training and/or is beginning implementation practices for new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the 2002-2003 school year.
Partially Implemented	The requirement, in one or several important aspects, is not entirely met.
Not Implemented	The requirement is totally or substantially not met.
Not Applicable	The requirement does not apply to the school district or charter school.

Several key areas of compliance with federal special education requirements have been highlighted in **SHADED TEXT** in the Program Review Criteria. These highlighted areas are included in the Massachusetts Continuous Improvement Plan (CIP) that is being used by the U.S. Department of Education, Office of Special Education Programs (OSEP), to track over time this state's compliance in these key areas.

COMPONENT I: ASSESSMENT OF STUDENT PROGRESS

The criteria in this component examine whether the District has implemented an assessment system that uses appropriate instruments, conducted according to the specified timelines and covering the appropriate content areas to determine instructional needs of students for the program areas listed below:

- Special Education (Report Issues # SE 1- SE 14)

CRITERION NUMBER	SPECIAL EDUCATION I. ASSESSMENT OF STUDENT PROGRESS

SE 11	School district response to parental request for independent educational

CRITERION NUMBER		
	Legal Standard	
	<p>evaluation If a parent disagrees with an initial evaluation or re-evaluation completed by the school district, and the parent requests an independent educational evaluation, the district implements the following requirements:</p> <ol style="list-style-type: none"> 1. All independent educational evaluations funded by the district are conducted by qualified persons who are registered, certified, licensed or otherwise approved and who abide by the rates set by the state agency responsible for setting such rates. Unique circumstances of the child are justified when an individual assessment rate is higher than that normally allowed. 2. The school district has procedures to offer parents the option of participating in an income eligibility program for free or reduced cost independent educational evaluations that are equivalent to the types of assessments done by the school district. 3. The district extends the right to a publicly funded independent educational evaluation (only if cost shared or funded for state wards or for students receiving free or reduced cost lunch) for sixteen (16) months from the date of the evaluation with which the parent disagrees. 4. If the parent is requesting an evaluation in an area not assessed by the school district, or if the student does not meet or the parent does not choose to share the financial documentation regarding the income eligibility standards for free or reduced cost independent educational evaluation, then the school district responds in accordance with the requirements of federal law by paying for the independent educational evaluation or, within five school days, proceeding to Special Education Appeals to show that its evaluation was comprehensive and appropriate. Where the Department’s Special Education Appeals finds that the school district’s evaluation was comprehensive and appropriate, the school district does not pay for the independent educational evaluation requested by the parent. 5. Whenever possible, the independent educational evaluation is completed and a written report sent no later than thirty (30) days after the date the parent requests the independent educational evaluation. If publicly funded, the report is sent to the parents and to the school district. The independent evaluator’s report summarizes, in writing, procedures, assessments, results, and diagnostic impressions as well as educationally relevant recommendations for meeting identified needs of the student. The independent evaluator recommends appropriate types of placements but does not recommend specific classrooms or schools. 6. Within ten (10) school days from the time the school district receives the report of the independent educational evaluation, the Team reconvenes and considers the independent educational evaluation (which may be publicly or privately funded) and whether a new or amended IEP is appropriate. <p>State Regulations 28.04(5)</p> <p>Federal Requirements 300.503(a)(3)(i)</p>

SE 37	<p>Procedures for approved and unapproved out-of-district placements</p> <ol style="list-style-type: none"> 1. <u>Individual student program oversight</u>: The school district monitors the provision of services to and the programs of individual students placed in public and private out-of-district programs. Documentation of monitoring plans and all actual monitoring are placed in the files of every eligible student who has been placed out-of-district. To the extent that this monitoring requires site visits, such site visits are documented and placed in the students' files for review. The duty to monitor out-of-district placements is not delegated to parents or their agents, to the Department of Education, or to the out-of-district placement. 2. <u>Student right to full procedural protections</u>: The school district retains full responsibility for ensuring that the student is receiving all special education and related services in the student's IEP, as well as all procedural protections of law and regulation. Any Team meetings conducted during the time that a student is enrolled in the out-of-district program are initiated by the school district in coordination with the out-of-district placement. 3. <u>Preference to approved programs</u>: The school district, in all circumstances, first seeks to place a student in a program approved by the Department pursuant to the requirements of 603 CMR 28.09. Preference is also given to approved programs located within the Commonwealth of Massachusetts if the choice of such program is consistent with the needs of the student and the choice of such program complies with LRE requirements. When an approved program is available to provide the services on the IEP, the district makes such placement in the approved program in preference to any program not approved by the Department. 4. <u>Written contracts</u>: At a minimum, the school district enters into written contracts with all public and private out-of-district placements. Such contracts meet the content requirements of 28.06(3)(f)(1-5). 5. <u>Use of unapproved programs</u>: A school district that places a student in a program that has not been approved by the Department according to the requirements under 603 CMR 28.09 ensures that such programs and services are provided in appropriate settings by appropriately credentialed staff able to deliver the services on the student's IEP. Students placed by the school district in such programs are entitled to the full protections of state and federal special education law and regulation. 6. <u>Placement documentation</u>: The following documentation is maintained by the

CRITERION NUMBER	
	Legal Standard
	<p>school district pursuant to its placement of children in unapproved out-of-district programs:</p> <ul style="list-style-type: none"> a. <u>Search</u>: The Administrator of Special Education documents the search for and unavailability of a program approved by the Department. The Administrator places such documentation in the student record. b. <u>Evaluation of facility</u>: The Administrator of Special Education or his/her designee thoroughly evaluates the appropriateness of any unapproved facility prior to placement of the student in such program. Such evaluation determines whether the unapproved facility can appropriately implement the student's IEP in a safe and educationally appropriate environment. Such evaluation additionally determines whether the unapproved facility can and will provide the student with all the rights that are accorded to the student under state and federal special education law. Such evaluation is documented in detail and placed in the student record for review. To the extent that this evaluation requires a site visit, such site visits are documented and placed in the student record for review. The duty to evaluate the appropriateness of any unapproved facility is not delegated to the parents or their agents or the proposed unapproved facility. c. <u>School district approval to operate a private school in Massachusetts</u>: If services in an unapproved program are provided in a school setting, the Administrator of Special Education ensures that such school has received approval from the local school committee under MGL c.76, §1 and a copy of such approval is retained in the student record. d. <u>Pricing</u>: Pursuant to the requirements for Compliance, Reporting and Auditing for Human and Social Services at 808 CMR 1.00, the Administrator obtains pricing forms required to set program prices for programs receiving publicly funded students. Such pricing forms are completed by the proposed placement and document that the price proposed for the student's tuition is the lowest price charged for similar services to any student in that program. e. <u>Notification of the Department of Education</u>: Prior to placement, if the Team determines that placement in such facility is appropriate, the Administrator notifies the Department of the intent to place the student and the name and location of the proposed placement. In addition, the Administrator forwards the notice of proposed placement and completed pricing forms to the Department along with the information on the proposed terms of the contract that will govern such placement and documentation of a monitoring plan pursuant to 603 CMR 28.06(3)(b). The district maintains any documentation of the Department's objections to such placement and the steps the district has taken in regard to such objection. SE 39	<p>Procedures used to provide services to eligible students enrolled in private schools at private expense</p> <ol style="list-style-type: none"> 1. On or before December 1, the district determines the number of eligible private school students in consultation with private school representatives. 2. To the extent that the school district provides and pays for special education services for eligible students enrolled in private schools at private expense, the following requirements and procedures are implemented: <ol style="list-style-type: none"> a. The district provides special education and/or related services designed to meet the needs of eligible children who are attending private schools at private expense and whose parents reside in the jurisdiction of the school district. The school district provides to such children genuine opportunities to participate in the public school special education program consistent with state constitutional limitations. b. The district provides or arranges for the provision of evaluation services and an IEP for any eligible private school child whose parent resides in the jurisdiction of the school district. The evaluation may take place in the public school, the private school, or an appropriate contracted facility, and the school district ensures that a representative of the child's private school is invited to participate as a member of the Team pursuant to §28.05. c. The district provides or arranges for the provision of the special education and/or related services described by the child's IEP and the district ensures that special education services funded with state or local funds are provided in a public school facility or other public or neutral site. When services are provided using only federal funds, services are provided on public or private school grounds. d. The district does not withdraw or withhold services from a child solely because the school district has met the spending requirements of federal law. 3. Special education services and/or related services provided by the district to a private school child are comparable in quality, scope, and opportunity for participation to that provided to public school children with needs of equal importance. 4. The district ensures that programs in which both public and private school children participate do not include classes that are separated on the basis of school enrollment or the religious affiliation of the children. <p>State Regulations 28.03(e)</p> <p>Federal Requirements 300.450-300.462</p>

SE 40	<p>Instructional grouping requirements for students aged five and older</p> <ol style="list-style-type: none"> 1. The size and composition of instructional groupings for eligible students receiving services outside the general education classroom are compatible with the methods and goals stated in each student's IEP. 2. Instructional grouping size requirements are maximum sizes and the school district exercises judgment in determining appropriate group size and supports for smaller instructional groups serving students with complex special needs. 3. When eligible students are assigned to instructional groupings outside of the general education classroom for 60% or less of the students' school schedule, group size does not exceed eight (8) students with a certified special educator, twelve (12) students if the certified special educator is assisted by one aide, and sixteen (16) students if the certified special educator is assisted by two aides. 4. For eligible students served in settings that are substantially separate, serving solely students with disabilities for more than 60% of the students' school schedule, the district provides instructional groupings that do not exceed eight (8) students to one certified special educator or twelve (12) students to a certified special educator and an aide. 5. After the school year has begun, if instructional groups have reached maximum size as delineated in paragraphs 3 and 4 of this criterion, the Administrator of Special Education and the certified special educator(s) providing services in an instructional group may decide to increase the size of an instructional grouping by no more than two additional students if the additional students have compatible instructional needs and then can receive services in their neighborhood school. 6. In such cases, the Administrator provides written notification to the Department and the parents of all group members of the decision to increase the instructional group size and the reasons for such decision. Such increased instructional group sizes are in effect only for the year in which they are initiated. 7. The district takes all steps necessary to reduce the instructional groups to the sizes outlined in paragraph 3 or 4 of this criterion for subsequent years. Such steps are documented by the district. <p>State Regulations 28.06(6)</p> <p>Federal Requirements</p>

Department of Education Findings: *Although private schools have been informed of the availability of Title I services, the District's letter does not provide the private school the choice to accept or decline those services.*

COMPONENT VI: FACULTY, STAFF AND ADMINISTRATION

The criteria in this component examine whether the district has certified staff, provides supervision of aides and tutors, and provides ongoing professional development in the program areas listed below. Additionally, the component examines whether the district implements an effective system of program leadership and oversight which fosters high standards and performance expectations for all students and staff consistent with the goals of applicable federal and state requirements and Education Reform Act of 1993.
:

- Special Education (Report Issues # SE 50-54)
- Civil Rights Methods of Administration (MOA) (Report Issues MOA 18-21)

	Legal Standard
SE 50	<p>Responsibilities of the School Principal and Administrator of Special Education</p> <p><u>Principal:</u></p> <ol style="list-style-type: none"> 1. <u>Instructional support.</u> The principal in each of the district's schools promotes instructional practices responsive to student needs and ensures that adequate instructional support is available for students and teachers. Instructional support includes remedial instruction for students, consultative services for teachers, availability of reading instruction at the elementary level, appropriate services for linguistic minority students, and other services consistent with effective educational practices and the requirements of MGL c. 71B, §2. The principal consults with the Administrator of Special Education regarding accommodations and interventions for students. Such efforts and their results are documented and placed in the student record. Additionally, when an individual student is referred for an evaluation to determine eligibility for special education, the principal ensures that documentation on the use of instructional support services for the student is provided as part of the evaluation information reviewed by the Team when determining eligibility. 2. <u>Curriculum Accommodation Plan.</u> The principal implements a curriculum accommodation plan adopted by the district to ensure that all efforts have been made to meet the needs of diverse learners in the general education program. The plan assists the regular classroom teacher in analyzing and accommodating diverse learning styles of all children in the regular classroom and in providing appropriate services and support within the regular education program including, but not limited to, direct and systemic instruction in reading and provision of services to address the needs of children whose behavior may interfere with learning. The Plan includes teacher training in (1) analyzing and accommodating diverse learning styles of all students in order to achieve an objective of inclusion in the regular classroom of students with diverse learning styles; (2) methods of collaboration among teachers, paraprofessionals and teacher assistants to accommodate such styles; and (3) training in the provision of pre-referral services within regular education, teacher mentoring and collaboration and parental involvement. 3. <u>Coordination with special education.</u> The principal with the assistance of the Administrator of Special Education coordinates the delivery and supervision of special education services within each school building. 4. <u>Educational services in home or hospital.</u> Upon receipt of a physician's written order verifying that any student enrolled in a public school or placed by the public school in a private setting must remain at home or in a hospital on a day or overnight basis, or any combination of both, for medical reasons and for a period of not less than fourteen school days in any school year, the principal arranges for provision of educational services in the home or hospital. Such services are provided with sufficient frequency to allow the student to continue his or her educational program, as long as such services

CRITERION NUMBER	SAFE AND DRUG FREE SCHOOLS VIII. PROGRAM PLAN AND EVALUATION
	Legal Standard
SDF 5	Each recipient bases its programs on a thorough assessment of objective data about the drug and violence problems in the schools and communities served. Each SDFSCA grant recipient conducts a thorough assessment of the nature and extent of youth drug use and violence problems. [Title IV Sections 4111 – 4116, 20 U.S.C. 7111 – 7116]
	Rating: Partially Implemented District Response Required: Yes

Department of Education Findings:

Documentation and interviews indicate that the District has a process in place to determine the current use and level of substance abuse and violence among students who attend public and private schools. However, there is no evidence that the process includes a review of school disciplinary (i.e., expulsion and suspension) records, the collection, review, and analysis of community data, or surveys or interviews with local law enforcement, health and hospital, and community agency representatives.

CRITERION NUMBER	Legal Standard
SDF 6	Each recipient, with the assistance of a local or regional advisory council, establishes a set of measurable goals and objectives and designs its programs to meet those goals and objectives. [Title IV Sections 4111 – 4116, 20 U.S.C. 7111 – 7116]
	Rating: Partially Implemented DISTRICT RESPONSE REQUIRED: Yes

Department of Education Findings:

Documentation and interviews indicate that the design of substance abuse and violence prevention programs and strategies was not based on a sufficient assessment of objective data about the drug and violence problems among youth. There is no evidence that the assessment included the collection, review, and analysis of community data, or surveys or interviews with local law enforcement, health and hospital, and community agency representatives.

CRITERION NUMBER	Legal Standard
SDF 7	Each recipient designs and implements its programs for youth based on research or

CRITERION NUMBER	
	Legal Standard
	evaluation that provides evidence that programs used actually prevent or reduce drug use, violence or disruptive behavior among youth. [Title IV Sections 4111 – 4116, 20 U.S.C. 7111 – 7116]
	Rating: Partially Implemented DISTRICT RESPONSE REQUIRED: Yes

Department of Education Findings:

Documentation and interviews indicate that the selected programs and/or activities do not respond to the identified needs, and that selected programs and/or activities are not based on research or evaluation that provides evidence of program effectiveness in reducing or preventing drug use, violence, or disruptive behavior among youth. There is no evidence that a process is in place to determine the effectiveness of the locally developed program.

CRITERION NUMBER	
	Legal Standard
SDF 8	Each recipient evaluates its programs periodically to assess its progress toward achieving its goals and objectives, and uses its evaluation results to refine, improve and strengthen its programs, and to refine its goals and objectives as appropriate.
	Rating: Implemented DISTRICT RESPONSE REQUIRED: No

	Legal Standard
SDF 9	<p>Appropriate accounting and budget procedures are being implemented to insure that program expenditures are related to the purpose and intent of the Safe and Drug Free Schools and Communities Act.</p> <p>[(EDGAR 76.730 TO 734)]</p>
	<p>Rating: Partially Implemented District Response Required: Yes</p>

Department of Education Findings:

Documentation shows no evidence of time distribution logs for staff employed with SDFSCA funds.

**APPENDIX:
SCHOOL DISTRICT PROFILE INFORMATION**

The information which is provided in this Appendix was drawn from data supplied by the school district. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. This district-wide information, together with more detailed school building data, is periodically updated by the school district and is available in an ever current form on the Department's internet web site at <<http://profiles.doe.mass.edu/>>.

School and District Profiles

Definitions of Terms

Profiles

The Massachusetts Department of Education collects information about schools and districts. Some of the information collected is published in School and District Profiles on DOE web pages. The information provides a snapshot of the educational picture in communities across the state.

Now districts view, add, update and delete their own district and school information over the web to make sure that the information is as up-to-date and accurate as possible. In addition, the general public will be able to view Directory information about each school district in the state. Individuals can retrieve for themselves information such as school personnel, school programs (e.g. School Choice) and the location of specialized services such as Special Education Collaboratives, and Vocational Training Programs.

The list below provides an explanation of information presented in the Profiles.

Directory Information

DOE Code: The DOE Code, also referred to as the Organization Code, is an eight digit numeric code assigned by the Massachusetts Department of Education to every organization listed in the Directory Profiles, including every district and school in the Commonwealth. For districts and schools, the first four digits represent the District Code and the last four digits represent the School Code. Thus the organization code "02660505" stands for "0266" (Sharon Public Schools) + "0505" (Sharon High). If a form requires the 8-digit DOE school code it is calling for the entire organization code.

Prior to the 2001 school year, organization codes contained six digits (three for the district and three for the school.) With the exception of some special needs schools, the eight digit codes are the same as the six digit codes with one zero added before the district code and another zero added before the school code. Thus, Sharon High's old six digit organizational code was 266505.

Please Note: The Department's Organization Code is not the same as the Institution codes assigned by the College Board for SAT and AP results. Nor is it the same as the NCES code assigned to Massachusetts schools by the U.S. Department of Education.

Grades/Schools*: indicates the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "PK" indicates the district has pre-kindergarten. A high school range ending in "13" or "14" indicates the district has a post-graduate program. Kindergarten starting age indicates the age as of a particular date at which children are eligible to begin kindergarten.

Services: Services include:

- **Inter-district Choice:** indicates whether students from other districts may enroll in the district through the state school choice program, which is voluntary and on a space-available basis.
- **Intra-district Choice:** indicates whether the district has a school choice program within the school district for students who live in the district.
- **Vocational Education:** indicates whether the district operates a Chapter 74 approved vocational education program.
- **Transitional Bilingual Education (TBE):** indicates whether the district operates a TBE program. Under Massachusetts law, a district must provide a TBE program in a particular language if there are 20 or more limited English proficient students in that particular language group enrolled in the district. Limited English proficient students are students whose first language is not English and who cannot perform ordinary class work in English.
- **METCO:** indicates whether the district participates in the state METCO program, which promotes voluntary desegregation by enrolling minority students from Boston and Springfield in suburban schools.

Relationships: Relationships include:

- **Member of Regional Districts*:** for local school districts, indicates the name(s) of any academic and/or vocational regional district(s) of which the local school district is a member. For regional school districts, indicates the names of member local school districts. A regional school district provides educational services to more than one town.

* District level data only.

Enrollment

Enrollment by Grade: indicates the enrollment for grades Pre-kindergarten (PK), kindergarten through 12, post-graduate grades 13 and 14, and ungraded (u/g) students for the listed school year.

Race/Ethnicity: indicates the percent of enrollment by race/ethnicity for the listed school year. The reporting categories are those used by the U.S. Bureau of the Census.

Selected Populations: indicates the percent of enrollment represented by students in special education programs*, students who are limited English proficient, and students eligible to receive free or reduced price lunch*. Data are for the listed school year.

Children Attending Public Schools*: indicates the percent of school-age children in a city or town attending public schools, for the listed school years.

* District level data only.

Test Results

Massachusetts Comprehensive Assessment System (MCAS): Click the MCAS link to see MCAS results for the district or school.

For additional information about Massachusetts Comprehensive Assessment System (MCAS), please refer to the Department of Education's MCAS web site at www.doe.mass.edu/mcas.

SAT: The district or school's SAT results are displayed for the listed years.

People

A list of people who work in the organization. Each name is linked to contact information for the person.

Finance

Per Pupil Expenditures*: are calculated by dividing a district's operating costs by its average pupil membership. Operating costs include expenditures for administration, instruction, pupil services, transportation, plant maintenance, and fixed charges. These costs do not include capital outlay and long-term interest on school debt. Average pupil membership includes students who receive services in the district's schools, as well as students receiving home or hospital instruction. Data for regular education, special education, bilingual education and vocational education students are provided in addition to the total for all day programs, for the listed school years.

Teacher Salary*: indicates the minimum and maximum teacher salaries available, for the listed school years.

Foundation Budget Spending Comparison*: The education reform act established a foundation budget for each school district. This budget represents the minimum level of spending needed to provide an adequate education for the district's students. The foundation budget is made up of 19 separate categories. The chart shows the district's actual spending in each category for the listed school year as a percentage of the district's foundation budget. If the percentage exceeds 100%, the district spent more in the category than suggested by the foundation budget. If the percentage is less than 100%, the district spent less. Significant variations between local spending and the foundation budget, or between local spending and the statewide averages, should be reviewed closely. In some cases, the differences may be due to unique circumstances and needs within the district. In other cases, the differences may suggest potential areas for review and improvement.

Click one of the links in the Finance section for more school finance information.

* District level data only.

Other Data

Dropout/Attendance Rates: indicates the percentage of students in grades 9-12 who dropped out of school between July 1 and June 30 prior to the listed year and who did not return to school by October 1. Dropouts are defined as students who leave school prior to graduation for reasons other than transfer to another school.

Attendance Rate: indicates the average percentage of enrolled students present in school for the listed school year.

Student Exclusions: indicates the number of student exclusions that occurred during the listed school year. An exclusion is defined as the removal of a student for disciplinary purposes permanently, indefinitely or for more than ten consecutive school days.

Plans of High School Graduates: indicates the post-graduate intentions of students for the listed school year.

Technology: indicates the number of students for every one computer and the percent of classrooms with Internet access. Data are for the listed school year; "DNR" appears for schools and districts which did not yet report data
