COORDINATED PROGRAM REVIEW REPORT Hull Public Schools

OVERVIEW OF REVIEW PROCEDURES

As one part of its Accountability System, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review System (CPR). Most reviews include selected requirements in special education under the federal Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 *et seq.* (IDEA-97), and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972) and certain federal civil rights requirements under Titles I and II of the Americans with Disabilities Act of 1990, Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971) and other related Massachusetts General Laws. Additionally, all reviews include certain standards included under the Board of Education's Physical Restraint regulations (603 CMR 46.00). Other monitoring activities in the areas of Title I, Safe and Drug-Free Schools and Communities Act, the Perkins Vocational and Technical Education Act, and Nutrition Programs and Services are conducted in some districts during these Coordinated Program Review procedures. The selected school districts for 2002-2003 were notified by the Commissioner of Education in June 2002 of scheduled visits and were required to implement self-assessment activities prior to the arrival of the Department's visiting team.

Coordinated Program Review Elements

Team: Depending upon the size of a school district and the number of program areas to be reviewed, a team of approximately two to eight Department staff members together with any necessary outside consultants conducts a Coordinated Program Review over two to ten days in a school district or charter school.

Scope: Approximately fifty-three school districts and charter schools are scheduled to receive visits in school year 2002-2003. All school districts and charter schools in the Commonwealth are monitored through the Department's Coordinated Program Review system on a six-year cycle with an additional mid-cycle special education follow-up visit.

Content: The Program Review criteria encompass the required elements for the specific program areas. In the case of special education, the elements selected for the 2002-2003 reviews contain, at a minimum, those required by the federal Office for Special Education Programs (OSEP) and revised requirements included under IDEA-97 as described in the Department's Special Education Advisories. Additionally, the 2002-2003 reviews incorporate updated state special education requirements as adopted by the Board of Education and effective on December 20, 2000. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993, and intended to promote high standards and achievement for all students.

Report: The Department's report is based on a review of written documentation and data regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional and support staff across all grade levels.

- Interviews of parent advisory council (PAC) representatives and other interviews as requested by persons from the general public.
- Student record reviews in the program areas of special education, Perkins vocational programs, and Section 504 (student accommodation plans). A sample of student records is selected by the Department. Student records are examined by the onsite team using standard Department student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements. Parents of students with disabilities whose files are selected for the record review are sent a survey that solicits information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements.
- Classroom and facilities observation. A sample of instructional classrooms and other school facilities used in the delivery of programs and services are visited to determine general levels of compliance with program requirements.
- Collaborative Programs and Services. Where the district is a member of a collaborative approved by the Department of Education and is a site for programs or services operated by the collaborative, a sample of interviews, student record reviews and classroom and facility observations are conducted.

An Executive Summary and detailed findings for each program area describe determinations of the Department of Education about the implementation status of each requirement (criterion) reviewed.

Response: The findings included in the Final Report note those criteria the implementation of which the team found to be commendable or substantially implemented. Where criteria are found not to be fully implemented, the local district or charter school must propose corrective actions to bring those areas into compliance with the respective statutes or regulations. Districts are encouraged to incorporate the corrective action into their district and school improvement plans, including the district professional development plan.

* * * * *

The Department of Education believes that the Coordinated Program Review process is a positive experience and that the Final Report should be seen as a helpful planning document for the continuing development of programs and services in the school district or charter school.

REPORT INTRODUCTION

A four-member Massachusetts Department of Education team visited the Hull Public Schools during the week of March 24th to evaluate the implementation of selected criteria in the program areas of Special Education, Civil Rights and Title I. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Hull Public Schools. These areas are as follows:

- *The Hull Public Schools is strongly committed to the provision of special education services to students with disabilities in the least restrictive environment. This is evident in the continuum of supports, services and programs from the networking with agencies for families of children at risk as well as those with disabilities; to the integrated therapies and inclusive program options for three and four year olds; through to the provision of instructional and behavioral supports and interventions across all grade levels within the regular education setting. The district's early literacy initiative, support for regular education and special education staff collaboration through common planning time and a climate of achievement for all students is distinctive.*

Some of the commendations noted above are repeated within the body of the Department's report under the appropriate compliance criteria.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of seven administrative staff.
- Interviews of 29 teaching and support services staff across all levels.
- Interviews of three parent advisory council (PAC) representatives.
- Interviews as requested by persons from the general public.
- Student record reviews: A sample of twenty-three student records was selected by the Department. Student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.
- Twenty-five parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. Nine of these parent surveys were returned to the Department of Education for review by the onsite team.
- Observation of classrooms and other facilities. A sample of five instructional classrooms and other school facilities used in the delivery of programs and services was visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components . These components are listed in the executive summary on the following pages. The findings in each program area explain the "ratings, "determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially "Implemented" or implemented in a "Commendable" manner. (Refer to the "Definition of Terms"

section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as "Implemented" but made a specific comment on the district's implementation methods that also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plan.

COORDINATED PROGRAM REVIEW REPORT

EXECUTIVE SUMMARY

Hull Public Schools

The following summary synthesizes the findings for criteria included in the Coordinated Program Review as they respond to essential questions which the Department has formulated for each of the components of the report. Note that a more detailed discussion of the onsite team's findings, together with the specific legal standards for each program area included in this review, follows this summary.

Component I: Assessment of Student Progress

Has the district implemented an assessment system that uses appropriate instruments, is conducted according to the specified timelines, and covers the appropriate content areas to determine instructional needs of students?

The district appropriately selects and interprets assessments, both required and optional, for students referred for an evaluation. Re-evaluations are scheduled every three years. However the district requires that requests for initial evaluations and independent evaluations be made in writing. End of the school year evaluations are provided consistent with the timelines. Teams use a checklist format to guide their decision-making for Specific Learning Disability, however the format does not adequately represent the student specific data. Assessment results are made available to parents and all students with disabilities participate in MCAS. While IEP teams give consideration to the transitional needs of students with disabilities, there is concern regarding the temporary lack of occupational/vocational experiences at the high school level. Annual reviews and progress reports are provided within the appropriate timeframe; however, special education liaisons do not have the authority to commit the district's resources when they assume the role of Team Chairperson.

Component II: Student Identification and Program Placement

Has the district followed procedures for student identification and placement into the program according to the criteria specified in regulations?

The district conducts child find activities and screening for three and four year olds. The district's continuum of programs and supports for young children at risk, as well as those identified with disabilities, are exemplary. In addition, IEPs clearly and thoroughly articulate the student's needs, accommodations, and instructional requirements particularly with regard to their participation in the general curriculum. Inconsistencies were sometimes noted with regard to dates on IEPs and accompanying notices. The district's efforts to increase opportunities for students with disabilities to be placed in the least restrictive environment are ongoing. IEPs are implemented upon consent and Teams consider individual student needs for extended school day and school year services. The district's Student Records Policy needs to be updated. Procedures are not in place for the appropriate identification of students who may be limited English Proficient (LEP). A plan for offering an appropriate instructional program must be designed as well. The district-based opportunities for occupation-vocational education have been temporarily suspended. Access to regular education opportunities is available to pregnant students.

Component III: Parental Involvement

Has the district ensured that parents are notified in the appropriate language and are involved in decisions regarding their children's programs and services? Where appropriate, does the district involve community representatives in shaping programs?

Required notices to parents at key junctures under federal special education law do not always contain complete information. The district obtains consent prior to implementing evaluations, services, or placements. Extra efforts are taken to maximize parent attendance at Team meetings. Team meeting notices contain the required content and parents are provided with parent's rights, as well as essential written information at the conclusion of the meeting where the IEP is developed. The district does not have a systematic means for identifying parents or guardians who may require interpreters or translations of information in languages other than English. The district has procedures in place for securing educational surrogate parents and has established a Parent Advisory Council.

Component IV: Curriculum and Instruction

Does the district hold all students to high expectations and standards? Are programs designed to maximize student performance and students' participation in the general curriculum? Is curriculum throughout the districts' programs aligned with the Massachusetts Curriculum Frameworks? Has the district provided for coordination across program areas?

The district's commitment to ensuring that students with disabilities have access to the general curriculum is clearly evident in the effective collaboration between regular and special education staff, the availability of common planning time, a strongly supported full inclusion model and well articulated IEPs. Students with disabilities have access to assistive technology. Procedures for oversight are in place for students placed in out-of-district programs. The district is working toward expanding its district-based program options for students who may require more restrictive placements. The district limits IEP service options for eligible students enrolled in private schools at private expense. Age span and instructional group size requirements are met. The district's array of programs and services to young children at risk and those with disabilities is exemplary. Extra curricular opportunities are available to all groups. Existing work-study agreements do not contain signed statements of non-discriminatory practice.

Component V: Student Support Services

Has the district ensured that all students have equal access to programs and services? Does the district provide support to students who need it?

The district employs skilled personnel, implements behavior intervention strategies and adopts regular education curriculum initiatives in an effort to address the social, emotional and behavioral needs of all its students. Some refinements are needed to the current tracking system for suspensions. Key personnel have a clear understanding of the federal disciplinary procedures for students with disabilities, however not all of the district's handbooks contain these procedures. Students with disabilities are provided with equal opportunities to participate in educational, non-academic and extracurricular activities as their non-disabled peers. The district makes provisions for related services and special transportation needs. The district identifies the coordinators and contact information for the respective civil rights areas, but does not provide the notice to the parents and public. Grievance procedures are in place for sexual harassment, but not Title VI, Title IX and Section 504. The district has reviewed its awards and scholarships to ensure non-discriminatory practice, but does not have formal procedures in place to review counseling materials and activities, as well as curriculum.

Students who leave high school without attaining a diploma are provided with appropriate notice and guidance. The district has a policy and procedures regarding the use of physical restraint, but not a means for making it available to parents.

Component VI: Faculty, Staff and Administration

Does the district maintain certified staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development? Are program leadership and oversight effective? Are the district's personnel procedures non-discriminatory and does it seek to recruit employees from all groups?

The district has clear procedures in place for providing instructional and behavioral supports for students in need, however, it has not as yet completed a District Curriculum Accommodation Plan (DCAP). Some special education staff have current licenses or waivers pending. All related service staff are currently certified. The district appropriately trains and supervises paraprofessional staff. Professional development opportunities on special education and related topics are available both in district and through other venues. The district's personnel policies and procedures are non-discriminatory and staff are provided training on their civil rights responsibilities. The district's employment application needs some revision and employee recruitment activities are aimed all groups.

Component VII: School Facilities

Does the district maintain accessible facilities that are conducive to learning, facilitate integration, and provide equal opportunity for students to achieve?

The district makes provisions to ensure that special education programs are located in proximity to general education programs and that students with limited mobility have access to educational programs and services. The district provides comparable facilities for all students.

Component VIII: Program Plan and Evaluation

Does the district evaluate its programs in accordance with regulatory requirements? Does it use the results of its evaluations to improve programs? Do parents have opportunities for input on program needs, program implementation, and program evaluation and improvement?

While the district conducts self-assessment activities, it needs to engage in systematic evaluation of its special education programs and services. The district needs to conduct a comprehensive review of its policies and programs with regard to civil rights.

Component IX: Record keeping

Does the District maintain required records and documentation for each program area? Are entitlement grants appropriately designed, amended, and monitored?

The district's child count is based upon students with current, accepted IEPs. The district implements appropriate administrative procedures for the district's Federal Special Education Entitlement Grant.

DEFINITION OF TERMS
FOR THE RATING OF EACH COMPLIANCE CRITERION

Commendable	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
Implemented	The requirement is substantially met.
Implementation in Progress	The criterion includes one or more new federal Title I requirements that became effective during the 2002-2003 academic year. The district has substantially implemented any pre-September 1, 2002 requirements also included under the criterion and is currently engaged in staff training and/or is beginning implementation practices for new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the 2002-2003 school year.
Partially Implemented	The requirement, in one or several important aspects, is not entirely met.
Not Implemented	The requirement is totally or substantially not met.
Not Applicable	The requirement does not apply to the school district or charter school.

Several key areas of compliance with federal special education requirements have been highlighted in **SHADED TEXT** in the Program Review Criteria. These highlighted areas are included in the Massachusetts Continuous Improvement Plan (CIP) which is being used by the U.S. Department of Education, Office of Special Education Programs (OSEP), to track over time this state's compliance in these key areas.

COMPONENT I: ASSESSMENT OF STUDENT PROGRESS

The criteria in this component examine whether the District has implemented an assessment system that uses appropriate instruments, conducted according to the specified timelines and covering the appropriate content areas to determine instructional needs of students for the program areas listed below:

COMPONENT IV: CURRICULUM AND INSTRUCTION

The criteria in this component examine whether the district holds all students to high expectations and standards and ensures that the program areas reviewed are designed to maximize student performance within regular education and are implemented according to specific regulatory requirements with respect to learning time, class size, staffing ratio, and age spans. The criteria also examine if the district has provided for coordination across the following program areas:

**APPENDIX:
SCHOOL DISTRICT PROFILE INFORMATION**

The information which is provided in this Appendix was drawn from data supplied by the school district. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. This district-wide information, together with more detailed school building data, is periodically updated by the school district and is available in an evercurrent form on the Department's internet web site at <<http://profiles.doe.mass.edu/>>.

School and District Profiles

Definitions of Terms

Profiles

The Massachusetts Department of Education collects information about schools and districts. Some of the information collected is published in School and District Profiles on DOE web pages. The information provides a snapshot of the educational picture in communities across the state.

Now districts view, add, update and delete their own district and school information over the web to make sure that the information is as up-to-date and accurate as possible. In addition, the general public will be able to view Directory information about each school district in the state. Individuals can retrieve for themselves information such as school personnel, school programs (e.g. School Choice) and the location of specialized services such as Special Education Collaboratives, and Vocational Training Programs.

The list below provides an explanation of information presented in the Profiles.

Directory Information

DOE Code: The DOE Code, also referred to as the Organization Code, is an eight digit numeric code assigned by the Massachusetts Department of Education to every organization listed in the Directory Profiles, including every district and school in the Commonwealth. For districts and schools, the first four digits represent the District Code and the last four digits represent the School Code. Thus the organization code "02660505" stands for "0266" (Sharon Public Schools) + "0505" (Sharon High). If a form requires the 8-digit DOE school code it is calling for the entire organization code.

Prior to the 2001 school year, organization codes contained six digits (three for the district and three for the school.) With the exception of some special needs schools, the eight digit codes are the same as the six digit codes with one zero added before the district code and another zero added before the school code. Thus, Sharon High's old six digit organizational code was 266505.

Please Note: The Department's Organization Code is not the same as the Institution codes assigned by the College board for SAT and AP results. Nor is it the same as the NCES code assigned to Massachusetts schools by the U.S. Department of Education.

Grades/Schools*: indicates the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "PK" indicates the district has pre-kindergarten. A high school range ending in "13" or "14" indicates the district has a post-graduate program. Kindergarten starting age indicates the age as of a particular date at which children are eligible to begin kindergarten.

Services: Services include:

- **Inter-district Choice:** indicates whether students from other districts may enroll in the district through the state school choice program, which is voluntary and on a space-available basis.
- **Intra-district Choice:** indicates whether the district has a school choice program within the school district for students who live in the district.
- **Vocational Education:** indicates whether the district operates a Chapter 74 approved vocational education program.
- **Transitional Bilingual Education (TBE):** indicates whether the district operates a TBE program. Under Massachusetts law, a district must provide a TBE program in a particular language if there are 20 or more limited English proficient students in that particular language group enrolled in the district. Limited English proficient students are students whose first language is not English and who cannot perform ordinary class work in English.
- **METCO:** indicates whether the district participates in the state METCO program, which promotes voluntary desegregation by enrolling minority students from Boston and Springfield in suburban schools.

Relationships: Relationships include:

- **Member of Regional Districts*:** for local school districts, indicates the name(s) of any academic and/or vocational regional district(s) of which the local school district is a member. For regional school districts, indicates the names of member local school districts. A regional school district provides educational services to more than one town.

* District level data only.

Enrollment

Enrollment by Grade: indicates the enrollment for grades Pre-kindergarten (PK), kindergarten through 12, post-graduate grades 13 and 14, and ungraded (u/g) students for the listed school year.

Race/Ethnicity: indicates the percent of enrollment by race/ethnicity for the listed school year. The reporting categories are those used by the U.S. Bureau of the Census.

Selected Populations: indicates the percent of enrollment represented by students in special education programs*, students who are limited English proficient, and students eligible to receive free or reduced price lunch*. Data are for the listed school year.

Children Attending Public Schools*: indicates the percent of school-age children in a city or town attending public schools, for the listed school years.

SAT: The district or school's SAT results are displayed for the listed years.

People

A list of people who work in the organization. Each name is linked to contact information for the person.

Finance

Per Pupil Expenditures*: are calculated by dividing a district's operating costs by its average pupil membership. Operating costs include expenditures for administration, instruction, pupil services, transportation, plant maintenance, and fixed charges. These costs do not include capital outlay and long-term interest on school debt. Average pupil membership includes students who receive services in the district's schools, as well as students receiving home or hospital instruction. Data for regular education, special education, bilingual education and vocational education students are provided in addition to the total for all day programs, for the listed school years.

Teacher Salary*: indicates the minimum and maximum teacher salaries available, for the listed school years.

Foundation Budget Spending Comparison*: The education reform act established a foundation budget for each school district. This budget represents the minimum level of spending needed to provide an adequate education for the district's students. The foundation budget is made up of 19 separate categories. The chart shows the district's actual spending in each category for the listed school year as a percentage of the district's foundation budget. If the percentage exceeds 100%, the district spent more in the category than suggested by the foundation budget. If the percentage is less than 100%, the district spent less. Significant variations between local spending and the foundation budget, or between local spending and the statewide averages, should be reviewed closely. In some cases, the differences may be due to unique circumstances and needs within the district. In other cases, the differences may suggest potential areas for review and improvement.

Click one of the links in the Finance section for more school finance information.

* District level data only.

Other Data

Dropout/Attendance Rates: indicates the percentage of students in grades 9-12 who dropped out of school between July 1 and June 30 prior to the listed year and who did not return to school by October 1. Dropouts are defined as students who leave school prior to graduation for reasons other than transfer to another school.

Attendance Rate: indicates the average percentage of enrolled students present in school for the listed school year.

Student Exclusions: indicates the number of student exclusions that occurred during the listed school year. An exclusion is defined as the removal of a student for disciplinary purposes permanently, indefinitely or for more than ten consecutive school days.

Plans of High School Graduates: indicates the post-graduate intentions of students for the listed school year.

Technology: indicates the number of students for every one computer and the percent of classrooms with Internet access. Data are for the listed school year; "DNR" appears for schools and districts which did not yet report data

MASSACHUSETTS DEPARTMENT OF EDUCATION

COORDINATED PROGRAM REVIEW REPORT

Hull Public Schools

OVERVIEW OF REVIEW PROCEDURES

As one part of its Accountability System, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review System (CPR). Most reviews include selected requirements in special education under the federal Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 *et seq.* (IDEA-97), and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972) and certain federal civil rights requirements under Titles I and II of the Americans with Disabilities Act of 1990, Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971) and other related Massachusetts General Laws. Additionally, all reviews include certain standards included under the Board of Education's Physical Restraint regulations (603 CMR 46.00). Other monitoring activities in the areas of Title I, Safe and Drug-Free Schools and Communities Act, the Perkins Vocational and Technical Education Act, and Nutrition Programs and Services are conducted in some districts during these Coordinated Program Review procedures. The selected school districts for 2002-2003 were notified by the Commissioner of Education in June 2002 of scheduled visits and were required to implement self-assessment activities prior to the arrival of the Department's visiting team.

Coordinated Program Review Elements

Team: Depending upon the size of a school district and the number of program areas to be reviewed, a team of approximately two to eight Department staff members together with any necessary outside consultants conducts a Coordinated Program Review over two to ten days in a school district or charter school.

Scope: Approximately fifty-three school districts and charter schools are scheduled to receive visits in school year 2002-2003. All school districts and charter schools in the Commonwealth are monitored through the Department's Coordinated Program Review system on a six-year cycle with an additional mid-cycle special education follow-up visit.

Content: The Program Review criteria encompass the required elements for the specific program areas. In the case of special education, the elements selected for the 2002-2003 reviews contain, at a minimum, those required by the federal Office for Special Education Programs (OSEP) and revised requirements included under IDEA-97 as described in the Department's Special Education Advisories. Additionally, the 2002-2003 reviews incorporate updated state special education requirements as adopted by the Board of Education and effective on December 20, 2000. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993, and intended to promote high standards and achievement for all students.

Report: The Department's report is based on a review of written documentation and data regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives and other interviews as requested by persons from the general public.
- Student record reviews in the program areas of special education, Perkins vocational programs, and Section 504 (student accommodation plans). The Department selects a sample of student records. Student records are examined by the onsite team using standard Department student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements. Parents of students with disabilities whose files are selected for the record review are sent a survey that solicits information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements.
- Classroom and facilities observation. A sample of instructional classrooms and other school facilities used in the delivery of programs and services are visited to determine general levels of compliance with program requirements.
- Collaborative Programs and Services. Where the district is a member of a collaborative approved by the Department of Education and is a site for programs or services operated by the collaborative, a sample of interviews, student record reviews and classroom and facility observations are conducted.

An Executive Summary and detailed findings for each program area describe determinations of the Department of Education about the implementation status of each requirement (criterion) reviewed.

Response: The findings included in the Final Report note those criteria the implementation of which the team found to be commendable or substantially implemented. Where criteria are found not to be fully implemented, the local district or charter school must propose corrective actions to bring those areas into compliance with the respective statutes or regulations. Districts are encouraged to incorporate the corrective action into their district and school improvement plans, including the district professional development plan.

* * * * *

The Department of Education believes that the Coordinated Program Review process is a positive experience and that the Final Report should be seen as a helpful planning document for the continuing development of programs and services in the school district or charter school.

TITLE I APPENDIX INTRODUCTION

A five-member Massachusetts Department of Education team visited the Hull Public Schools during the week of March 24, 2003 to evaluate the implementation of selected criteria in the program areas of Special Education, Civil Rights and Title I. This Appendix of Title I Findings supplements additional Department of Education Findings regarding other regulated program areas included in the district's Coordinated Program Review Report. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Hull Public Schools. These areas are as follows:

Some of the commendations noted above are repeated within the body of the Department's report under the appropriate compliance criteria.

The Department is submitting the following Title I Appendix to the district's Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this Title I Appendix, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of one Title I administrative staff.
- Interviews of three Title I teaching and support services staff across all levels.
- Interviews of two Title I parent advisory council representatives.
- Interviews as requested by persons from the general public.
- Observation of facilities.

The report includes findings in the program areas reviewed organized under nine components . These components are listed in the executive summary on the following pages. The findings in each program area explain the "ratings, "determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially "Implemented" or implemented in a "Commendable" manner. (Refer to the "Definition of Terms" section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as "Implemented" but made a specific comment on the district's implementation methods that also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plan.

COORDINATED PROGRAM REVIEW REPORT

TITLE I EXECUTIVE SUMMARY

Hull Public Schools

The following summary synthesizes the findings for criteria included in the Title I portion of the Coordinated Program Review as they respond to essential questions which the Department has formulated for each of the components of the report. Note that a more detailed discussion of the onsite team's findings, together with the specific legal standards for each program area included in this review, follows this summary.

Component II: Student Identification and Program Placement

Has the district followed procedures for student identification and placement into the program according to the criteria specified in regulations?

The district utilizes a variety of assessments to identify students who are eligible for title I services. Data gleaned from the Marie Clay Observations Surveys, Running Records, DRA and Star Reading/Math are analyzed to determine the students who are at greatest risk.

Component III: Parental Involvement

Has the district ensured that parents are notified in the appropriate language and are involved in decisions regarding their children's programs and services? Where appropriate, does the district involve community representatives in shaping programs?

The district is to be commended for its effective Title I parental involvement. The district ensures that Title I parents are involved in decisions in the planning, implementation and design of the Title I program and parent workshops by having a Title I Parent Representative on the School Council. The district also builds parents' capacity for helping their children at home by conducting literacy and mathematics workshops for parents.

Component IV: Curriculum and Instruction

Does the district hold all students to high expectations and standards? Are programs designed to maximize student performance and students' participation in the general curriculum? Is curriculum throughout the districts' programs aligned with the Massachusetts Curriculum Frameworks? Has the district provided for coordination across program areas?

The district holds all students to high expectations and standards. The in-class model maximizes student performance and students' participation in the general curriculum. The district also provides for coordination across program areas.

Component V: Student Support Services

Has the district ensured that all students have equal access to programs and services? Does the district provide support to students who need it?

The district ensures that all students have equal access to the Title I programs and services.

Component VI: Faculty, Staff and Administration

Does the district maintain certified staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development? Are program leadership and oversight effective?

Are the district's personnel procedures non-discriminatory and does it seek to recruit employees from all groups?

The Title I program leadership and supervision is effective. The district also provides on-going professional development for teachers and paraprofessionals.

Component VIII: Program Plan and Evaluation

Does the district evaluate its programs in accordance with regulatory requirements? Does it use the results of its evaluations to improve programs? Do parents have opportunities for input on program needs, program implementation, and program evaluation and improvement?

The district evaluates the Title I program in accordance with Title I regulatory requirements. It uses the results of its evaluations to improve programs. Parents have frequent opportunities for input on program needs, program implementation, and program evaluation and improvement.

Component IX: Record keeping

Does the District maintain required records and documentation for each program area? Are entitlement grants appropriately designed, amended, and monitored?

The Title I grant is appropriately designed, amended, and monitored by the Title I Director. The district maintains required records and documentation for each Title I program area.

DEFINITION OF TERMS
FOR THE RATING OF EACH COMPLIANCE CRITERION

Commendable	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
Implemented	The requirement is substantially met.
Implementation in Progress	The criterion includes one or more new federal Title I requirements that became effective during the 2002-2003 academic year. The district has substantially implemented any pre-September 1, 2002 requirements also included under the criterion and is currently engaged in staff training and/or is beginning implementation practices for new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the 2002-2003 school year.
Partially Implemented	The requirement, in one or several important aspects, is not entirely met.
Not Implemented	The requirement is totally or substantially not met.
Not Applicable	The requirement does not apply to the school district or charter school.
