MASSACHUSETTS DEPARTMENT OF EDUCATION

COORDINATED PROGRAM REVIEW REPORT

HOPKINTON PUBLIC SCHOOL DISTRICT

OVERVIEW OF REVIEW PROCEDURES

As one part of its Accountability System, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review System (CPR). All reviews include the following selected requirements:

- special education under the federal Individuals with Disabilities Education Act (IDEA-97), and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972);
- federal civil rights requirements under Title VI of the Civil Rights Act of 1964, the Equal Educational Opportunities Act of 1974, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act of 1990, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971) and other Massachusetts General Laws;
- targeted standards from the Board of Education's Physical Restraint regulations (603 CMR 46.00);
- targeted standards from the federal McKinney-Vento Homeless Education Assistance Improvements Act of 2001 (included in the No Child Left Behind Act of 2001); and
- provisions of M.G.L. c. 71A, the state law that governs the provision of education to limited English proficient students. (Note that due to the voters' approval in 2002 of an initiative petition entitled "Question 2," M.G.L. c. 71A has been significantly amended. Under the amended Chapter 71A, limited English proficient students, now referred to as "English learners," must be provided instruction in sheltered English immersion or 2-way bilingual programs unless they have received a waiver. As a result of this change in the law, the Department's Coordinated Program Review standards under Chapter 71A are significantly revised for the 2003-2004 school year. All districts reviewed by the Department during the 2003-2004 Coordinated Program Review cycle and that enroll limited English proficient students have been implementing self-assessment activities using these updated standards. Six school districts throughout the state are participating in pilot monitoring activities to validate their self-assessment results as part of their scheduled Coordinated Program Review.)

Additional program areas reviewed during the Coordinated Program Review visits in selected districts may also include:

- Title I of the Elementary and Secondary Education Act of 1965, including related "No Child Left Behind" requirements in Title IIA;
- Safe and Drug-Free Schools and Communities Act;
- Career and Technical Education requirements under the federal Perkins Vocational and Technical Education Act and state M.G.L. c. 74; and
- Nutrition Programs and Services

The selected school districts for 2003-2004 were notified by the Commissioner of Education in June 2003 of scheduled visits and of requirements to implement self-assessment activities prior to the arrival of the Department's visiting team.

The Department's 2003-2004 schedule of Coordinated Program Reviews is posted on the Department's web site at <<http://www.doe.mass.edu/pqa/review/cpr/schedule.html>>. The state-wide six-year Program Review cycle together with the Department's Mid-cycle Special Education follow-up monitoring schedule are posted at <http://www.doe.mass.edu/pqa/review/cpr/6yrcycle_ad.html>.

Coordinated Program Review Elements

Team: Depending upon the size of a school district and the number of program areas to be reviewed, a team of two to eight Department staff members together with any necessary outside consultants conducts a Coordinated Program Review over two to ten days in a school district or charter school.

Scope: Fifty-four school districts and charter schools are scheduled to receive visits in school year 2003-2004. All school districts and charter schools in the Commonwealth are monitored through the Department's Coordinated Program Review system on a six-year cycle with an additional mid-cycle special education follow-up visit.

Content: The Program Review criteria encompass the required elements for the specific program areas. In the case of special education, the elements selected for the 2003-2004 reviews contain, at a minimum, those required by the federal Office for Special Education Programs (OSEP) and revised requirements included under IDEA-97 as described in the Department's Special Education Advisories. Additionally, the 2003-2004 reviews incorporate updated state special education requirements as adopted by the Board of Education and effective on December 20, 2000. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993, and intended to promote high standards and achievement for all students.

Report: The Department's report is based on a review of written documentation and data regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives and other interviews as requested by persons from the general public.
- Student record reviews in the program areas of special education, English learner education (c. 71A), Career and Technical Education programs, and Section 504 (student accommodation plans). A representative sample of student records is selected by the Department. Student records are examined by the Onsite Team using standard Department student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements. Parents of students with disabilities whose files are selected for the record review are sent a survey that solicits information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements.

- Classroom and facilities observation. A sample of instructional classrooms and other school facilities used in the delivery of programs and services are visited to determine general levels of compliance with program requirements.
- Collaborative Programs and Services. Where the district is a member of a collaborative approved by the Department of Education and is a site for programs or services operated by the collaborative, a sample of interviews, student record reviews and classroom and facility observations are conducted.

An Executive Summary and detailed findings for each program area describe determinations of the Department about the implementation status of each requirement (criterion) reviewed.

Response: The findings included in the Final Report note those criteria the implementation of which the Team found to be commendable or substantially implemented. Where compliance criteria are found to be not fully implemented, the local district, charter school, or educational collaborative must propose corrective actions to bring those areas into compliance with the respective statutes or regulations.

All recently issued Department of Education Coordinated Program Review Reports are posted on the agency's website at <http://www.doe.mass.edu/pqa/review/cpr/reports/> .

The Department believes that the Coordinated Program Review process is a positive experience and that the Final Report is a helpful planning document for the continued development and improvement of programs and services in each school district, charter school and educational collaborative.

REPORT INTRODUCTION

A four-member Massachusetts Department of Education team visited the Hopkinton School District during the week of December 1, 2003 to evaluate the implementation of selected criteria in the program areas of special education, civil rights and Title I. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Hopkinton School District. These areas are as follows:

Hopkinton Public Schools has fostered a positive educational community. Administration and staff are to be commended for their dedication and commitment to high student achievement, as well as to including and integrating special education students throughout all grade levels. The district offers a full range of related services and provides for developmental, corrective and other supportive services as are required to assist students in benefiting from special education and accessing the general curriculum.

The district is to be commended for the initiation of services at age three and their Early Intervention transition procedures. There are a variety of systems in place, including consultation, meetings and program visits, to ensure that parents understand the special education process and that IEPs are implemented by the students' third birthdays. The close coordination with Early Intervention staff enables the students to transition smoothly to the public schools.

Staff have received a significant amount of training on working with students whose behavior impedes their learning or the learning of others. Staff have been trained in conducting functional behavioral assessments and in developing positive behavioral intervention plans. The district has a range of positive behavioral supports that include behavior contracts, behavioral intervention plans, interim plans and emergency plans. Behavioral supports assist all students in the district.

The district is also focused on ensuring that staff, students and parents are made aware of their rights. The district has published on their website information pertaining to civil rights, protective laws, regulations and policies. The district has developed a comprehensive civil rights booklet that includes grievance procedures, non-discrimination policies and contact information for the various civil rights coordinators in the district.

For Title I, the high level of communication between the district's program staff and parents is commendable. Parents of students in the Title I program are regularly provided with information and materials to use with their children at home in order to enhance the progress made in school with the development of literacy skills.

Some of the commendations noted above are repeated within the body of the Department's report under the appropriate compliance criteria.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of 11 administrative staff.
- Interviews of 29 teaching and support services staff across all levels.
- Interviews of 10 parent advisory council (PAC) representatives and interviews as requested by persons from the general public.
- Student record reviews: A sample of 27 student records was selected by the Department. Student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.
- Parent surveys: Twenty-five parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. Thirteen of these parent surveys were returned to the Department of Education for review by the onsite team.
- Observation of classrooms and other facilities. A sample of approximately 48 instructional classrooms and other school facilities used in the delivery of programs and services was visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components . These components are listed in the executive summary on the following pages. The findings in each program area explain the "ratings, "determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially "Implemented" or implemented in a "Commendable" manner. (Refer to the "Definition of Terms" section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as "Implemented" but made a specific comment on the district's implementation methods that also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plans.

COORDINATED PROGRAM REVIEW REPORT

EXECUTIVE SUMMARY

HOPKINTON SCHOOL DISTRICT

The following summary synthesizes the findings for criteria included in the Coordinated Program Review as they respond to essential questions that the Department has formulated for each of the components of the report. Note that a more detailed discussion of the onsite team's findings, together with the specific legal standards for each program area included in this review, follows this summary.

Component I: Assessment of Students

Has the district implemented an assessment system that uses appropriate instruments, is conducted according to the specified timelines, and covers the appropriate content areas to determine instructional needs of students?

The district implements an assessment system that uses appropriate instruments to evaluate students referred for special education evaluations. The district uses a range of assessments to determine the instructional needs of students and assessments are conducted according to the specified timelines.

The district conducts evaluations as required, including initial evaluations, end of school year evaluations, independent educational evaluations, and re-evaluations. The Teams convene at least annually to consider students' progress and to review, revise and develop new IEPs.

Teams determine the appropriate transition services for students. For students who are fourteen years of age, the Team considers their course of study in relation to their future goals. For students who are sixteen years of age, the Team discusses transition services that promote movement of the student from school to post-school activities. Transition services are based on the students' needs and are documented in the IEPs.

Students with disabilities are included in the Massachusetts Comprehensive Assessment System examination.

Component II: Student Identification and Program Placement

Has the district followed procedures for student identification and placement into the program according to the criteria specified in regulations?

The district follows procedures for student identification into the programs according to the criteria specified in the regulations. The district conducts outreach with groups and agencies from which the transfer of students in need of special education may be expected, including professionals in the community, day care facilities, health care agencies and early intervention programs. The district conducts screenings for children three and four years of age to review their development and to assist in identifying children who should be referred for special education evaluations. The district is to be commended for the initiation of services at age three and Early Intervention transition procedures. The district has a number of systems in place to ensure the development and implementation of an IEP by the child's third birthday. Coordination with the Early Intervention staff allows for a smooth transition to the public schools.

The district should be aware that IEPs for students, throughout the grade levels, do not consistently include measurable goals and are not always written in generally understandable language. Although the district has a range of services and programs for students, it appears that the district may propose specially designed instruction and related services according to the availability of such instruction and related services, and not always according to the needs of the student. Additionally, at least one person with the authority to commit resources of the district is not always present at Team meetings and IEPs are not consistently sent to parents immediately following Team meetings.

When IEPs have been accepted by the parent, the district provides the mutually agreed upon services and the district has an IEP in effect for each eligible student at the beginning of the school year. The Teams focus on the least restrictive environment for students and students are not removed from the general education classroom solely because of the need to modify the curriculum.

Although the elementary schools and the middle school have the required amount of structured learning time, the high school has less than the required 990 hours per school year of structured learning time.

The district uses qualified staff, as well as appropriate procedures and assessments, to identify students who are limited English proficient and to assess their levels of English proficiency. The district is currently in the process of developing an English Language Education program of sheltered English immersion. Their current program of immersing children into English classes without sheltering the content or offering explicit language instruction is not an effective model. At this time, there are no mechanisms in place to ensure a systematic acquisition of English language development.

For Title I, multiple, age-appropriate criteria are used to identify students who are eligible for support. Title I services are available to limited English proficient students, but the selection process is less clear for students with special needs. The district must be clear that all students have equal opportunity and access to the Title I program selection. Following that access, decisions based upon multiple, objective, educationally-related criteria can be applied to make decisions that are in the best interest of each student's educational progress.

Component III: Parental Involvement

Has the district ensured that parents are notified in the appropriate language and are involved in decisions regarding their children's programs and services? Where appropriate, does the district involve community representatives in shaping programs?

Parents are notified in the appropriate language and are involved in decisions regarding programs and services. The district obtains parental consent prior to conducting an evaluation or making an initial placement of a student in a special education program. There is a high level of parent participation at Team meetings and parents are informed of their rights and provided with the notification of procedural safeguards. The district also has an active special education Parent Advisory Council.

Although there is an outstanding relationship and high level of communication between Title I teachers and parents, parental involvement policies have not been fully developed or implemented, nor have parents of Title I students been fully involved in the development of those policies.

Component IV: Curriculum and Instruction

Does the district hold all students to high expectations and standards? Are programs designed to maximize student performance and students' participation in the general curriculum? Is curriculum throughout the district's programs aligned with the Massachusetts Curriculum Frameworks? Has the district provided for coordination across program areas?

The district holds students to high expectations and standards. Programs are designed to maximize student performance and participation in the general curriculum. The district has a continuum of services and programs in place to meet the needs of students with disabilities. The district provides specialized materials and assistive technology when determined appropriate by the Team. The curriculum throughout the district's programs is aligned with the Massachusetts Curriculum Frameworks.

The district oversees full implementation of IEPs for students placed in out-of-district programs. The district also provides services to eligible students enrolled in private schools at private expense.

Title I services are targeted at helping at-risk students meet the expectations and standards of the general curriculum. A thoughtful combination of in-class and appropriate pull-out models is employed.

Component V: Student Support Services

Has the district ensured that all students have equal access to programs and services? Does the district provide support to students who need it?

Students have access to programs and services throughout the district. The district provides supports to students and is to be commended for the full range of positive behavioral supports provided to all students. Students have an equal opportunity to participate in educational, nonacademic, extracurricular and ancillary programs. For students found to be eligible for special education, the district provides or arranges for the provision of transportation, as well as such developmental, corrective and other supportive services as the Team determines appropriate. Information and counseling on general curricular and occupational/vocational opportunities is also available to all students.

Although the district has procedures in place to record the number and duration of suspensions, information and procedural safeguards pertaining to the suspension of special education students is not included in the student handbooks.

The district is focused on the rights of students, staff and parents. The district has adopted and published grievance procedures, as well as developed a civil rights handbook. The district has designated specific administrative staff to serve as liaisons for homeless students, as well as coordinators for compliance with the district's responsibilities under Title IX and Section 504. The district's website includes information pertaining to civil rights, protective laws, regulations and policies.

Additionally, the district has developed and implemented staff training on the use of physical restraint consistent with regulatory requirements.

Component VI: Faculty, Staff and Administration

Does the district maintain licensed staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development? Are program leadership and oversight effective? Are district personnel procedures non-discriminatory and does it seek to recruit employees from all groups?

Program leadership and oversight are effective. The district maintains licensed and certified special education staff and provides for a wide range of professional development opportunities. The district considers the needs of staff in developing training opportunities and paraprofessionals take part in the professional development.

The district’s personnel procedures are non-discriminatory and the district seeks to recruit employees from all groups. The district provides in-service training for school personnel regarding civil rights responsibilities, including the prevention of discrimination and harassment.

All Title I staff are appropriately licensed and have met “highly qualified” requirements.

Component VII: School Facilities

Does the district maintain accessible facilities that are conducive to learning, facilitate integration, and provide equal opportunity for students to achieve?

The district maintains accessible facilities that are conducive to learning, facilitate integration and maximize the inclusion of special education students into the life of the school. Programs and services in the district are accessible to students with disabilities.

Component VIII: Program Plan and Evaluation

Does the district evaluate its programs in accordance with regulatory requirements? Does it use the results of its evaluations to improve programs? Do parents have opportunities for input on program needs, program implementation, and program evaluation and improvement?

The district evaluates the special education programs and services. The district also has a process in place to ensure that educational materials are reviewed for simplistic and demeaning generalizations, lacking intellectual merit.

While Title I progress is evaluated annually, a more formal and broad needs assessment, with input from parents, will assure that the most pressing and widely desired needs continue to be addressed.

Component IX: Record keeping

Does the district maintain required records and documentation for each program area? Are entitlement grants appropriately designed, amended, and monitored? Does the district use federal grant funds in accordance with statutory fund-use rules, including supplement not supplant provisions where applicable? Does the district meet applicable maintenance of effort requirements?

The district maintains required records and documentation for special education. It appears that the grant is appropriately designed, amended and monitored. The required records and documentation are maintained for the Title I program also. The district uses Title I funds only to supplement other educational services.

DEFINITION OF TERMS
FOR THE RATING OF EACH COMPLIANCE CRITERION

Commendable	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
Implemented	The requirement is substantially met.
Partially Implemented	The requirement, in one or several important aspects, is not entirely met.
Not Implemented	The requirement is totally or substantially not met.
Not Applicable	The requirement does not apply to the school district or charter school.

Several key areas of compliance with federal special education requirements have been highlighted in **SHADED TEXT** in the Program Review Criteria. These highlighted areas are included in the Massachusetts Continuous Improvement Plan (CIP) that is being used by the U.S. Department of Education, Office of Special Education Programs (OSEP), to track over time this state's compliance in these key areas.

COMPONENT I: ASSESSMENT OF STUDENTS

The criteria in this component examine whether the District has implemented an assessment system that uses appropriate instruments, conducted according to the specified timelines and covering the appropriate content areas to determine instructional needs of students for the program areas listed below:

- Special Education (Report Issues # SE 1- SE 14)

CRITERION NUMBER	SPECIAL EDUCATION I. ASSESSMENT OF STUDENTS
	Legal Standard
<p>SE 1</p>	<p>Assessments are appropriately selected and interpreted for students referred for evaluation</p> <ol style="list-style-type: none"> 1. Tests and other evaluation materials are: <ol style="list-style-type: none"> a. validated b. administered and interpreted by trained individuals c. tailored to assess specific areas of educational need d. selected and administered to reflect aptitude and achievement levels e. as free as possible from cultural and linguistic bias f. provided in the student's native language or other mode of communication where feasible g. not the sole criterion for determining an appropriate educational program h. not only those designed to provide a single general intelligence quotient i. are selected and administered to ensure that when a test is administered to a student with impaired sensory, manual, or speaking skills, the test results accurately reflect the student's aptitude or achievement level or the other factors the test purports to measure j. technically sound instruments that may assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors 2. In interpreting evaluation data and making decisions, the district: <ol style="list-style-type: none"> a. uses information from a variety of sources to gather relevant functional and developmental information, including information provided by the parent b. ensures that information obtained from these sources is considered c. ensures that the placement decision conforms with placement in the least restrictive environment d. includes information related to enabling the student to be involved in and progress in the general curriculum <p>State Regulations 28.04</p> <p style="text-align: right;">Federal Requirements 300.532, 300.535</p>
	<p>Rating: Implemented District Response Required: No</p>

SE 11	<p>School district response to parental request for independent educational evaluation</p> <p>If a parent disagrees with an initial evaluation or re-evaluation completed by the school district, and the parent requests an independent educational evaluation, the district implements the following requirements:</p> <ol style="list-style-type: none"> 1. All independent educational evaluations funded by the district are conducted by qualified persons who are registered, certified, licensed or otherwise approved and who abide by the rates set by the state agency responsible for setting such rates. Unique circumstances of the child are justified when an individual assessment rate is higher than that normally allowed. 2. The school district has procedures to offer parents the option of participating in an income eligibility program for free or reduced cost independent educational evaluations that are equivalent to the types of assessments done by the school district. 3. The district extends the right to a publicly funded independent educational evaluation (only if cost shared or funded for state wards or for students receiving free or reduced cost lunch) for sixteen (16) months from the date of the evaluation with which the parent disagrees. 4. If the parent is requesting an evaluation in an area not assessed by the school district, or if the student does not meet or the parent does not choose to share the financial documentation regarding the income eligibility standards for free or reduced cost independent educational evaluation, then the school district responds in accordance with the requirements of federal law by paying for the independent educational evaluation or, within five school days, proceeding to Special Education Appeals to show that its evaluation was comprehensive and appropriate. Where the Department’s Special Education Appeals finds that the school district’s evaluation was comprehensive and appropriate, the school district does not pay for the independent educational evaluation requested by the parent. 5. Whenever possible, the independent educational evaluation is completed and a written report sent no later than thirty (30) days after the date the parent requests the independent educational evaluation. If publicly funded, the report is sent to the parents and to the school district. The independent evaluator’s report summarizes, in writing, procedures, assessments, results, and diagnostic impressions as well as educationally relevant recommendations for meeting identified needs of the student. The evaluator recommends appropriate types of placements but does not recommend specific classrooms or schools. 6. Within ten (10) school days from the time the school district receives the report of the independent educational evaluation, the Team reconvenes and considers the independent educational evaluation (which may be publicly or privately funded) and whether a new or amended IEP is appropriate. <p>State Regulations 28.04(5)</p> <p>Federal Requirements 300.503(a)(3)(i)</p>

COMPONENT II: STUDENT IDENTIFICATION AND PLACEMENT

The criteria in this component examine whether the district has followed procedures for student identification and placement into the program according to the criteria in regulations for the program areas listed below:

- Special Education (Report Issues # SE 15-23)
- Civil Rights Methods of Administration (MOA)
(Report Issues # MOA 1-6)
 - Title I (Report Issues # TI 19-20)

CRITERION NUMBER	
	Legal Standard
SE 17	<p>Initiation of services at age three and Early Intervention transition procedures</p> <ol style="list-style-type: none"> 1. The school district encourages referrals from the Department of Public Health, other agencies, and individuals for young children when or before the child turns two-and-one-half years old in order to ensure continuity of services and to ensure the development and implementation of an IEP for eligible children by the date of the child's third birthday in accordance with federal requirements. 2. The district implements procedures to ensure the effective transition of young children with disabilities from Early Intervention Programs through participation in transition planning conferences arranged by such programs. <p>State Regulations 28.06(7)(b)</p> <p style="text-align: right;">Federal Requirements 300.24(b)(3); 300.121(c); 300.132; 300.342(c)</p>
	<p>Rating: Commendable District Response Required: No</p>

Department of Education Findings:

The district has a variety of systems in place, including consultation, meetings and visits to programs, to ensure the development and implementation of an IEP by the child's third birthday. Coordination with Early Intervention staff enables children to transition smoothly to the public schools.

CRITERION NUMBER	
	Legal Standard
SE 18A	<p>IEP development and content</p> <ol style="list-style-type: none"> 1. Upon determining that the student is eligible for special education, the Team, including the parent(s), develops an IEP at the Team meeting using the evaluation data to guide development of measurable, annual goals and objectives/benchmarks for the student. If the district chooses to draft any element(s) of the IEP for discussion, the Team Chairperson ensures that those elements are genuinely considered prior to adoption at the Team meeting. All ideas and needs of the child as expressed by all Team members, especially the parents, are genuinely considered by the district prior to proposing the IEP. 2. The IEP includes specially designed instruction to meet the needs of the individual student and related services that are necessary to allow the student

CRITERION NUMBER			
	Legal Standard		
	<p>to benefit from the specially designed instruction, or consists solely of related services that are necessary to allow the student to access the general curriculum, consistent with federal and state requirements.</p> <p>3. In developing the IEP, the Team proposes specially designed instruction and related services according to the needs of the child <u>and not</u> according to the availability of such instruction or related services.</p> <p>4. The IEP is completed addressing all elements of the most current IEP format provided by the Department of Education. Where applicable, the district includes in the IEP, or other notice to the parent, information regarding the implementation of any necessary restraint procedures for students as required under 603 CMR 46.00.</p> <p>5. If the Team members are unable to agree on the IEP, the Team chairperson states the elements of the IEP proposed by the school district.</p> <p>6. The school district ensures that each IEP Team has at least one person with authority to commit the resources of the district and that whatever services are set out in the IEP will actually be provided and that the IEP will not be changed at a higher administrative level within the district.</p> <p>7. The IEP is written in generally understandable language.</p> <p>State Regulations 28.05(3), (4), (6) and (7) 28.06(2)</p>		<p>Federal Requirements 300.340-300.350; 300.343(a) 34 CFR Part 300, Appendix A, Question #22.</p>
	Rating: Partially Implemented		District Response Required: Yes

Department of Education Findings:

A review of student records and parent surveys indicated that IEPs do not consistently include measurable goals and are not always written in generally understandable language. Although the district has a range of services and programs, interviews and parent surveys indicated that the Teams may propose specially designed instruction and related services according to the availability of such instruction or related service and not according to the needs of the students. Additionally, the perspective of Team members is that at least one person with the authority to commit resources of the district was not always present at Team meetings.

MOA 2	<p>Program modifications and support services for limited-English-proficient students The district implements necessary program modifications and support services to serve effectively limited-English-proficient students who need special language assistance. Such program modifications and support services:</p> <ol style="list-style-type: none"> 1. are based on sound education theory; 2. provide for English-language development; 3. provide for the meaningful participation of limited-English-proficient students in the district's educational program; 4. are evaluated and appropriately revised in an ongoing manner; and 5. are demonstrably useful in assisting students receiving such program modifications and services to gain English language proficiency. <p>Title VI: 42 U.S.C. 2000d; 34 CFR 100.3(a),(b); EEOA: 20 U.S.C. 1703(f); M.G.L. c. 71, s. 38Q1/2; 603 CMR 28.03(3)(a); M.G.L. c. 71A, ss. 2(e), 4; 603 CMR 14.04; M.G.L. c. 76, s. 5; 603 CMR 26.03</p>
	Rating: Implementation in Progress District Response Required: Yes

Department of Education Findings:

The district is currently in the process of developing an ELE program of sheltered English immersion. Their current program of immersing children into English classes without sheltering the content or offering explicit language instruction is not an effective model. At this time, there are no mechanisms in place to ensure a systematic acquisition of English language development.

Department regulations require that all teachers of English learners be certified, have taken coursework, or be undergoing intensive professional development in second language acquisition techniques. The district's teachers do not yet have the background or training to provide effective sheltered English instruction.

At this time, the district does not use any specific curriculum or materials that would facilitate the acquisition of English. Teachers providing instruction to LEP students are not yet familiar with the English Learner Benchmarks and Outcomes, which is intended to provide English learners with access to the Massachusetts Curriculum Frameworks in English language arts.

The school district obtains consent before initiating extended evaluation services. 3. The school district obtains consent to the services proposed on a student’s IEP before providing such services. 4. The school district obtains consent prior to placing a student in an initial special education placement and for any subsequent placement. 5. A parent is informed that consent may be revoked at any time. Except for initial evaluation and initial placement, consent may not be required as condition of any benefit to the child. 6. When the participation or consent of the parent is required and the parent fails or refuses to participate, the attempts to secure the consent of the parent are implemented through multiple attempts using a variety of methods which are documented by the district. Such efforts may include letters, written notices sent by certified mail, electronic mail (e-mail), telephone calls, or, if appropriate, TTY communications to the home, and home visits at such time as the parent is likely to be home. Efforts may include seeking assistance from a community service agency to secure parental participation. 7. If, subsequent to initial evaluation and initial placement and after following the procedures required by the regulations, the school district is unable to obtain parental consent to a reevaluation or to placement in a special education program subsequent to the initial placement, or the parent revokes consent to such reevaluation or placement, the school district considers with the parent whether such action will result in the denial of a free appropriate public education to the child. If, after consideration, the school district determines that the parent’s failure or refusal to consent will result in a denial of a free appropriate public education to the student, it seeks resolution of the dispute through Special Education Appeals <p>State Regulations 28.07(1)</p> <p style="text-align: right;">Federal Requirements 300.500(b)(1)</p>

	4. Each school develops jointly with parents a School-Parent Compact that outlines shared responsibilities for improving student achievement and achieving the state's high standards. 1118(d) NCLB
	Rating: Partially Implemented District Response Required: Yes

Department of Education Findings:

Interviews and review of documentation indicated that the participating school has not developed, with parents, a written parent involvement policy (TI 23.1). Once established, the policy will need to be distributed to and reviewed by participating parents (TI 23.2 & 23.3c).

COMPONENT IV: CURRICULUM AND INSTRUCTION

The criteria in this component examine whether the district holds all students to high expectations and standards and ensures that the program areas reviewed are designed to maximize student performance within regular education and are implemented according to specific regulatory requirements with respect to learning time, class size, staffing ratio, and age spans. The criteria also examine if the district has provided for coordination across the following program areas:

- Special Education (Report Issues # SE 33-42)
- Civil Rights Methods of Administration (MOA) (Report Issues MOA 8-9)
 - Title I (Report Issues # TI 24-28)

SE 37	<p>Procedures for approved and unapproved out-of-district placements</p> <ol style="list-style-type: none"> 1. <u>Individual student program oversight</u>: The school district monitors the provision of services to and the programs of individual students placed in public and private out-of-district programs. Documentation of monitoring plans and all actual monitoring are placed in the files of every eligible student who has been placed out-of-district. To the extent that this monitoring requires site visits, such site visits are documented and placed in the students' files for review. The duty to monitor out-of-district placements is not delegated to parents or their agents, to the Department of Education, or to the out-of-district placement. 2. <u>Student right to full procedural protections</u>: The school district retains full responsibility for ensuring that the student is receiving all special education and related services in the student's IEP, as well as all procedural protections of law and regulation. Any Team meetings conducted during the time that a student is enrolled in the out-of-district program are initiated by the school district in coordination with the out-of-district placement. 3. <u>Preference to approved programs</u>: The school district, in all circumstances, first seeks to place a student in a program approved by the Department pursuant to the requirements of 603 CMR 28.09. Preference is also given to approved programs located within the Commonwealth of Massachusetts if the choice of such program is consistent with the needs of the student and the choice of such program complies with LRE requirements. When an approved program is available to provide the services on the IEP, the district makes such placement in the approved program in preference to any program not approved by the Department. 4. <u>Written contracts</u>: At a minimum, the school district enters into written contracts with all public and private out-of-district placements. Such contracts meet the content requirements of 28.06(3)(f)(1-5). 5. <u>Use of unapproved programs</u>: A school district that places a student in a program that has not been approved by the Department according to the requirements under 603 CMR 28.09 ensures that such programs and services are provided in appropriate settings by appropriately credentialed staff able to deliver the services on the student's IEP. Students placed by the school district in such programs are entitled to the full protections of state and federal special education law and regulation. 6. <u>Placement documentation</u>: The following documentation is maintained by the school district pursuant to its placement of children in unapproved out-of-district programs: <ol style="list-style-type: none"> a. <u>Search</u>: The Administrator of Special Education documents the search for and unavailability of a program approved by the Department. The Administrator places such documentation in the student record. b. <u>Evaluation of facility</u>: The Administrator of Special Education or his/her designee thoroughly evaluates the appropriateness of any unapproved facility prior to placement of the student in such program. Such evaluation determines whether the unapproved facility can appropriately

CRITERION NUMBER	SPECIAL EDUCATION VI. FACULTY, STAFF AND ADMINISTRATION
	Legal Standard
SE 50	<p>Responsibilities of the School Principal and Administrator of Special Education Principal:</p> <ol style="list-style-type: none"> 1. <u>Instructional support.</u> The principal in each of the district’s schools promotes instructional practices responsive to student needs and ensures that adequate instructional support is available for students and teachers. Instructional support includes remedial instruction for students, consultative services for teachers, availability of reading instruction at the elementary level, appropriate services for linguistic minority students, and other services consistent with effective educational practices and the requirements of MGL c. 71B, §2. The principal consults with the Administrator of Special Education regarding accommodations and interventions for students. Such efforts and their results are documented and placed in the student record. Additionally, when an individual student is referred for an evaluation to determine eligibility for special education, the principal ensures that documentation on the use of instructional support services for the student is provided as part of the evaluation information reviewed by the Team when determining eligibility. 2. <u>Curriculum Accommodation Plan.</u> The principal implements a curriculum accommodation plan adopted by the district to ensure that all efforts have been made to meet the needs of diverse learners in the general education program. The plan assists the regular classroom teacher in analyzing and accommodating diverse learning styles of all children in the regular classroom and in providing appropriate services and support within the regular education program including, but not limited to, direct and systemic instruction in reading and provision of services to address the needs of children whose behavior may interfere with learning. The Plan includes teacher training in (1) analyzing and accommodating diverse learning styles of all students in order to achieve an objective of inclusion in the regular classroom of students with diverse learning styles; (2) methods of collaboration among teachers, paraprofessionals and teacher assistants to accommodate such styles; and (3) training in the provision of pre-referral services within regular education, teacher mentoring and collaboration and parental involvement. 3. <u>Coordination with special education.</u> The principal with the assistance of the Administrator of Special Education coordinates the delivery and supervision of special education services within each school building. 4. <u>Educational services in home or hospital.</u> Upon receipt of a physician’s written order verifying that any student enrolled in a public school or placed by the public school in a private setting must remain at home or in a hospital on a day or overnight basis, or any combination of both, for medical reasons and for a period of not less than fourteen school days in any school year, the principal arranges for provision of educational services in the home or hospital. Such services are provided with sufficient frequency to allow the student to continue his or her educational program, as long as such services

**APPENDIX:
SCHOOL DISTRICT PROFILE INFORMATION**

The information which is provided in this Appendix was drawn from data supplied by the school district. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. This district-wide information, together with more detailed school building data, is periodically updated by the school district and is available in an evercurrent form on the Department's internet web site at <<http://profiles.doe.mass.edu/>>.

School District Profile Information

Definitions of Terms

Profiles

Introduction

The Massachusetts Department of Education collects information about schools and districts. Some of the information collected is published in the School and District Profiles. The information provides a snapshot of the educational picture in communities across the state.

Districts view, add, update and delete their own district and school information over the web to make sure that the information is as up-to-date and accurate as possible. In addition, the general public will be able to view Directory information about each school district in the state. Individuals can retrieve for themselves information such as school personnel, school programs (e.g. School Choice and TBE) and the location of specialized services such as Special Education Schools, Collaboratives, and Vocational Training Programs.

The list below provides an explanation of information presented in the Profiles.

The electronic version of this district's or charter school's profile information is available at:
<http://profiles.doe.mass.edu/home.asp?mode=ot&view=&ot=5>

Organization Types

Approved Special Education Schools	Responsible for providing an education for students with disabilities. A school district (LEA) may place a student in an out-of-state program if it believes that such program is the most appropriate for the student.
Charter School	Public schools that are created by parents, teachers, businesses, and community leaders and have the freedom to organize their activities around a core mission, curriculum, or teaching method. Their autonomy gives them the freedom to create their own budgets and to hire and fire teachers and staff.
Collaborative	Collaboratives are formed through an agreement among two or more school committees to provide education for their member school systems. Agreements must be filed with the Commissioner of DOE. A Board representative of each member school committee manages them.
Collaborative Programs	Regardless of the size of the individual collaborative, each school provides programs that its member districts demand.
Private School	A non-publicly funded school that provides educational services directly to attending students.
Public School	Public schools are administered by a Public School District, and provide educational services directly to attending students. Expenses are paid by state

appropriation.

Public School Districts	An administrative unit responsible for managing primary and secondary school services within a defined geographical boundary. There can be two types of School Districts, Operational and Non-Operational district, and expenses are paid by state appropriation.
--------------------------------	---

The Data Directory Information

DOE Code:

The DOE Code, also referred to as the Organization Code, is an eight digit numeric code assigned by the Massachusetts Department of Education to every organization listed in the Directory Profiles, including every district and school in the Commonwealth. For districts and schools, the first four digits represent the District Code and the last four digits represent the School Code. Thus the organization code "02660505" stands for "0266" (Sharon Public Schools) + "0505" (Sharon High). If a form requires the 8-digit DOE school code it is calling for the entire organization code.

Prior to the 2001 school year, organization codes contained six digits (three for the district and three for the school.) With the exception of some special needs schools, the eight digit codes are the same as the six digit codes with one zero added before the district code and another zero added before the school code. Thus, Sharon High's old six digit organizational code was 266505.

Please Note: The Department's Organization Code is not the same as the Institution codes assigned by the College board for SAT and AP results. Nor is it the same as the NCES code assigned to Massachusetts schools by the U.S. Department of Education.

Grades/Schools:

This section displays the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "PK" indicates the district has pre-kindergarten. A high school range ending in "13" or "14" indicates the district has a post-graduate program. Kindergarten starting age indicates the age as of a particular date at which children are eligible to begin kindergarten. **NOTE:** District level data only.

Services:

- **Inter-district Choice:** indicates whether students from other districts may enroll in the district through the state school choice program, which is voluntary and on a space-available basis.
- **Intra-district Choice:** indicates whether the district has a school choice program within the school district for students who live in the district.
- **Vocational Education:** indicates whether the district operates a Chapter 74 approved vocational education program.
- **Transitional Bilingual Education (TBE):** indicates whether the district operates a TBE program. Under Massachusetts law, a district must provide a TBE program in a particular language if there are 20 or more limited English proficient students in that particular language group enrolled in the district. Limited English proficient students are students whose first language is not English and who cannot perform ordinary class work in English.

- **METCO:** indicates whether the district participates in the state METCO program, which promotes voluntary desegregation by enrolling minority students from Boston and Springfield in suburban schools.

Relationships:

- **Member of Regional Districts:**For local school districts, indicates the name(s) of any academic and/or vocational regional district(s) of which the local school district is a member. For regional school districts, indicates the names of member local school districts. A regional school district provides educational services to more than one town. **NOTE:** District level data only.

Enrollment/Indicators

Enrollment by Grade

Indicates the enrollment for students in grades Pre-kindergarten (PK), kindergarten through 12, Special Education beyond grade 12 (SP), Career and Technical Education beyond grade 12 (CT) for the listed school year.

Enrollment by Race/Ethnicity

Indicates the percent of enrollment by race/ethnicity for the listed school year. The reporting categories are those used by the U.S. Bureau of the Census.

Selected Populations

Indicates the percent of enrollment represented by students in special education programs*, students who are limited English proficient, and students eligible to receive free or reduced price lunch*. Data are for the listed school year.

Dropout Rate:

Indicates the percentage of students in grades 9-12 who dropped out of school between July 1 and June 30 prior to the listed year and who did not return to school by October 1. Dropouts are defined as students who leave school prior to graduation for reasons other than transfer to another school.

Children Attending Public Schools

Indicates the percent of school-age children in a city or town attending public schools, for the listed school years. **NOTE:** District level data only.

Attendance/Exclusions:

Attendance rate indicates the average percentage of enrolled students, (grades 1-12), present in school for the listed school year. Student Exclusion (count) indicates the number of student exclusions that occurred during the listed school year. An exclusion is defined as the removal of a student for disciplinary purposes permanently, indefinitely or for more than ten consecutive school days. Student Exclusion (rate) indicates the rate of exclusions per 1000 students.

Technology:

Indicates the number of students for every one computer and the percent of classrooms with Internet access. Data are for the listed school year; "DNR" appears for schools and districts which did not yet report data.

Plans of High School Graduates:

Indicates the post-graduate intentions of students for the listed school year.
Test Results

Massachusetts Comprehensive Assessment System (MCAS):

- Shows percentage of students at each performance level for the current year
- Select a year to view past year's performance level data
- Select annual comparisons or the  icon for a graphical display of MCAS results
- For 2002 only: view Cycle II Performance Rating Reports
- For 2001 only: select a 'Grade and Subject' to view test item analysis data

SAT: The district or school's SAT results are displayed for the listed years.

Finance - District level data only.

Per Pupil Expenditures: are calculated by dividing a district's operating costs by its average pupil membership. Operating costs include expenditures for administration, instruction, pupil services, transportation, plant maintenance, and fixed charges. These costs do not include capital outlay and long-term interest on school debt. Average pupil membership includes students who receive services in the district's schools, as well as students receiving home or hospital instruction. Data for regular education, special education, bilingual education and vocational education students are provided in addition to the total for all day programs, for the listed school years.

Teacher Salary: total teaching salaries, divided by the number of full-time equivalent teachers, equals the average teacher salary.

Foundation Budget Spending Comparison: The education reform act established a foundation budget for each school district. This budget represents the minimum level of spending needed to provide an adequate education for the district's students. The foundation budget is made up of 19 separate categories. The chart shows the district's actual spending in each category for the listed school year as a percentage of the district's foundation budget. If the percentage exceeds 100%, the district spent more in the category than suggested by the foundation budget. If the percentage is less than 100%, the district spent less. Significant variations between local spending and the foundation budget, or between local spending and the statewide averages, should be reviewed closely. In some cases, the differences may be due to unique circumstances and needs within the district. In other cases, the differences may suggest potential areas for review and improvement.
