MASSACHUSETTS DEPARTMENT OF EDUCATION

COORDINATED PROGRAM REVIEW REPORT

North Attleborough Public Schools

OVERVIEW OF REVIEW PROCEDURES

As one part of its Accountability System, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review System (CPR). All reviews include the following selected requirements:

- special education under the federal Individuals with Disabilities Education Act (IDEA-97), and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972);
- federal civil rights requirements under Title VI of the Civil Rights Act of 1964, the Equal Educational Opportunities Act of 1974, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act of 1990, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971) and other Massachusetts General Laws;
- targeted standards from the Board of Education's Physical Restraint regulations (603 CMR 46.00);
- targeted standards from the federal McKinney-Vento Homeless Education Assistance Improvements Act of 2001 (included in the No Child Left Behind Act of 2001); and
- provisions of M.G.L. c. 71A, the state law that governs the provision of education to limited English proficient students. (Note that due to the voters' approval in 2002 of an initiative petition entitled "Question 2," M.G.L. c. 71A has been significantly amended. Under the amended Chapter 71A, limited English proficient students, now referred to as "English learners," must be provided instruction in sheltered English immersion or 2-way bilingual programs unless they have received a waiver. As a result of this change in the law, the Department's Coordinated Program Review standards under Chapter 71A are significantly revised for the 2003-2004 school year. All districts reviewed by the Department during the 2003-2004 Coordinated Program Review cycle and that enroll limited English proficient students have been implementing self-assessment activities using these updated standards. Six school districts throughout the state are participating in pilot monitoring activities to validate their self-assessment results as part of their scheduled Coordinated Program Review.)

Additional program areas reviewed during the Coordinated Program Review visits in selected districts may also include:

- Title I of the Elementary and Secondary Education Act of 1965, including related "No Child Left Behind" requirements in Title IIA;
- Safe and Drug-Free Schools and Communities Act;
- Career and Technical Education requirements under the federal Perkins Vocational and Technical Education Act and state M.G.L. c. 74; and
- Nutrition Programs and Services

The selected school districts for 2003-2004 were notified by the Commissioner of Education in June 2003 of scheduled visits and of requirements to implement self-assessment activities prior to the arrival of the Department's visiting team.

The Department's 2003-2004 schedule of Coordinated Program Reviews is posted on the Department's web-site at <<http://www.doe.mass.edu/pqa/review/cpr/schedule.html>>. The state-wide six-year Program

Review cycle together with the Department's Mid-cycle Special Education follow-up monitoring schedule are posted at <http://www.doe.mass.edu/pqa/review/cpr/6yrcycle_ad.html>.

Coordinated Program Review Elements

Team: Depending upon the size of a school district and the number of program areas to be reviewed, a team of two to eight Department staff members together with any necessary outside consultants conducts a Coordinated Program Review over two to ten days in a school district or charter school.

Scope: Fifty-four school districts and charter schools are scheduled to receive visits in school year 2003-2004. All school districts and charter schools in the Commonwealth are monitored through the Department's Coordinated Program Review system on a six-year cycle with an additional mid-cycle special education follow-up visit.

Content: The Program Review criteria encompass the required elements for the specific program areas. In the case of special education, the elements selected for the 2003-2004 reviews contain, at a minimum, those required by the federal Office for Special Education Programs (OSEP) and revised requirements included under IDEA-97 as described in the Department's Special Education Advisories. Additionally, the 2003-2004 reviews incorporate updated state special education requirements as adopted by the Board of Education and effective on December 20, 2000. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993, and intended to promote high standards and achievement for all students.

Report: The Department's report is based on a review of written documentation and data regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives and other interviews as requested by persons from the general public.
- Student record reviews in the program areas of special education, English learner education (c. 71A), Career and Technical Education programs, and Section 504 (student accommodation plans). A representative sample of student records is selected by the Department. Student records are examined by the Onsite Team using standard Department student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements. Parents of students with disabilities whose files are selected for the record review are sent a survey that solicits information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements.
- Classroom and facilities observation. A sample of instructional classrooms and other school facilities used in the delivery of programs and services are visited to determine general levels of compliance with program requirements.
- Collaborative Programs and Services. Where the district is a member of a collaborative approved by the Department of Education and is a site for programs or services operated

by the collaborative, a sample of interviews, student record reviews and classroom and facility observations are conducted.

An Executive Summary and detailed findings for each program area describe determinations of the Department about the implementation status of each requirement (criterion) reviewed.

Response: The findings included in the Final Report note those criteria the implementation of which the Team found to be commendable or substantially implemented. Where compliance criteria are found to be not fully implemented, the local district, charter school, or educational collaborative must propose corrective actions to bring those areas into compliance with the respective statutes or regulations.

All recently issued Department of Education Coordinated Program Review Reports are posted on the agency's website at <http://www.doe.mass.edu/pqa/review/cpr/reports/> .

The Department believes that the Coordinated Program Review process is a positive experience and that the Final Report is a helpful planning document for the continued development and improvement of programs and services in each school district, charter school and educational collaborative.

REPORT INTRODUCTION

A seven-member Massachusetts Department of Education team visited North Attleborough Public Schools during the week of March 1, 2004 to evaluate the implementation of selected criteria in the program areas of Special Education, Civil Rights Methods of Administration, Title I, Safe and Drug Free Schools, and English Language Education. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the North Attleborough Public Schools. These areas are as follows:

The North Attleborough school district goes to great lengths to identify and meet the needs of individual students. There is effective leadership from the administrative staff members beginning with the Superintendent that communicates a commitment to do whatever they can to ensure student success. Staff members and parents consistently related that the Director of Special Education is supportive, committed to the students and open to all concerns. The district utilizes a wide array of service providers or consultants such as: adjustment counselors, vision specialists, mobility specialists, audiologists and an assistive technology specialist to analyze what is required to best help a student learn. A career counselor provides pre-vocational and vocational training utilizing career fairs, job shadow day, vocational counseling, transition planning and school-to-work opportunities to help prepare students with and without disabilities for the future. The district puts the needs of the student first when they complete assessments during the summer so that services can be in place by the beginning of the school year. Programs and services provided during the extended school year also demonstrate the district's emphasis on providing programs based on students' needs, and the English Language Learner program has been specifically designed to meet the needs of this immigrating population. The district demonstrates that they continually evaluate the effectiveness of their programs and are willing to make the changes needed to support the changing demands of their students.

The district's use of a wide variety of assistive technology is exemplary. The district wrote and received grant funds and training was provided on the use of assistive technology with students from pre-school through high school. The district has a staff member who is responsible for assessments and is available for training consults for both staff and students. Each classroom has been supplied with a "tool kit" that includes basic low technology devices such as highlighting tape, magnetic strips for picture calendars and colored films. The district has purchased a variety of assistive technology devices that has aided students' ability to make effective progress.

The Team found the pre-school program commendable based on its effective procedure to help students transition into the program, its screening process, its evaluation procedures, the parent involvement and the variety of programs created to meet a range of disabilities. The principal is involved in the evaluation process as she sits in on the last meeting with the Early Intervention Team and makes home visits. There is effective collaboration among administrators, teachers, service providers, and para-professionals and an openness to parental input at all junctures.

The district is commended for its development of a thoughtful protocol for the identification, assessment and placement of limited English proficient students. Entrance and exit criteria are clearly explicated and are based on reaching performance benchmarks.

The Safe and Drug Free Schools program is commended for their efforts to integrate activities with other federal programs under No Child Left Behind, and for meaningful consultation with community agencies, parents, students and representatives from the community. They are also commended for a well-developed process in place for assessing the nature and extent of youth drug use and violence problems.

The Title I program is commended for their comprehensive data analysis used to determine programs and services to be provided to Title I students and for their detailed record keeping of the Title I program requirements and services.

Some of the commendations noted above are repeated within the body of the Department's report under the appropriate compliance criteria.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of 18 administrative staff.
- Interviews of 62 teaching and support services staff across all levels.
- Interviews of two Special Education Parent Advisory Council (PAC) representatives, four Safe and Drug Free Health Advisory Council representatives, four community representatives, three parents and six students.
- Two interviews as requested by persons from the general public.
- Student record reviews: the Department selected a sample of 30 student records. Student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.
- Parent surveys: 30 parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. 12 of these parent surveys were returned to the Department of Education for review by the onsite team.
 - Observation of classrooms and other facilities. A sample of 17 instructional classrooms and other school facilities used in the delivery of programs and services was visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components . These components are listed in the executive summary on the following pages. The findings in each program area explain the "ratings, "determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially "Implemented" or implemented in a "Commendable" manner. (Refer to the "Definition of Terms" section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as "Implemented" but made a specific comment on the district's implementation methods that also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plans.

COORDINATED PROGRAM REVIEW REPORT

EXECUTIVE SUMMARY

North Attleborough Public Schools

The following summary synthesizes the findings for criteria included in the Coordinated Program Review as they respond to essential questions that the Department has formulated for each of the components of the report. Note that a more detailed discussion of the onsite team's findings, together with the specific legal standards for each program area included in this review, follows this summary.

Component I: Assessment of Students

Has the district implemented an assessment system that uses appropriate instruments, is conducted according to the specified timelines, and covers the appropriate content areas to determine instructional needs of students?

The district has an assessment system in place to determine students eligible for special education. Appropriate tests are used, information from a variety of sources is considered and placements are made in conformance with the principles of educating each student in the least restrictive setting. The district meets all requirements when determining that a student has a specific learning disability and Teams are composed of the appropriate Team members. The district was commended for assessing students during the summer when consent was received at the end of the school year thus ensuring that the provision of services is not delayed. Progress reports are issued at required intervals but they did not always indicate if the progress was sufficient to enable the student to achieve the goals by the end of the year. The district has effective procedures in place to assess preschool children so that services are in place on or before the child's third birthday. The district does not always reevaluate a student where it is suspected that the student is no longer eligible for special education or a related service.

The district currently assesses all limited English proficient students and the district is in the process of providing training for English language educators in the Massachusetts English Language Assessment-Oral.

Component II: Student Identification and Program Placement

Has the district followed procedures for student identification and placement into the program according to the criteria specified in regulations?

The district follows procedures to ensure the appropriate identification of students with special education needs. The district does appropriate outreach to the community to locate and screen pre-schoolers and kindergartners and begins needed services immediately after assessment and parental consent. The district is commended for their facilitation of the transition of students with disabilities from Early Intervention program to the district's preschool program.

There is evidence that limited English proficient students are identified as eligible and are selected for Title I services on the same basis as other students. The submitted criteria on the checklist for the selection and identification of Title I students most at risk of failing reading are not consistent with the multiple assessments and academic performance standards used by staff to determine who is at risk.

The district is commended for their student centered policy of evaluating a student's English proficiency at any time during the school year using language benchmarks, multiple assessments, grades, teacher recommendations and portfolios and for moving students in and out of the English Learner Education program as needed.

Component III: Parental Involvement

Has the district ensured that parents are notified in the appropriate language and are involved in decisions regarding their children's programs and services? Where appropriate, does the district involve community representatives in shaping programs?

The district ensures that parents are involved in decisions regarding their child's program and services. The district provides notice to parents at required junctures; however, all required elements of the notices are not always addressed. The district works well with agencies that provide services through Early Intervention. The district meets all Title I requirements regarding parental and community involvement and mechanisms are in place to ensure that parents of students with limited English proficiency are involved in their children's education. The Safe and Drug Free School Program is commended for the development of their application through timely meaningful consultation with the local programs for drug abuse and violence prevention, and for the activities implemented to promote parent involvement.

Component IV: Curriculum and Instruction

Does the district hold all students to high expectations and standards? Are programs designed to maximize student performance and students' participation in the general curriculum? Is curriculum throughout the districts' programs aligned with the Massachusetts Curriculum Frameworks? Has the district provided for coordination across program areas?

Curriculum and instructional standards in the district are maintained at high levels for all students. A full array of special education services and programs is available to meet diverse needs of all students in the district. Special education programs are implemented according to specific regulatory requirements with respect to class size, age spans within classes and staffing ratios. Exemplary collaboration and communication among teachers and service providers was noted in the programs for young children three and four years of age. The district meets all applicable Title I criteria regarding curriculum and instruction and the district meets the requirements regarding instructional grouping of limited English proficient students. They have translated parental notification letters and program descriptions and they are in the process of translating the student code of conduct and progress reports. The Safe and Drug Free Schools coordinator integrates activities and collaborates with the administrators of federal programs under No Child Left Behind.

Component V: Student Support Services

Has the district ensured that all students have equal access to programs and services? Does the district provide support to students who need it?

The district ensures that students have equal opportunity and access to programs and services in all cases where it has been recommended by the student's special education Team. The district is commended for the wide array of service providers or consultants available to provide services or to analyze what is required to best help a student learn. The district has policies for student conduct and discipline which delineate procedures and safeguards to ensure that due process is observed. The district meets the requirements of notification regarding nondiscrimination and they have published grievance procedures for employees and students. The district meets all Title I criteria regarding student support services and limited

English proficient students have access to all academic programs and services as well as nonacademic and extracurricular programs.

Component VI: Faculty, Staff and Administration

Does the district maintain licensed staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development? Are program leadership and oversight effective? Are the district's personnel procedures non-discriminatory and does it seek to recruit employees from all groups?

District staff are in general appropriately certified or credentialed in their specific areas of responsibility but review of documentation indicated that one Title I teacher does not have the required Massachusetts license. Although certified teachers who have done coursework in teaching English as a second language provide the majority of instruction to limited English proficient students, additional training is needed for content teachers at the high school level in sheltered English instruction. Not all staff members have received training in all required special education topics; there was an identified need for additional staff training in accommodating diverse learning styles of all students to support the inclusion in the regular classroom of students with diverse learning styles. The district uses a portion of Title I funds for professional development as required.

Component VII: School Facilities

Does the district maintain accessible facilities that are conducive to learning, facilitate integration, and provide equal opportunity for students to achieve?

The facilities within the district are maintained to be conducive to learning and provide equal access and opportunity for students to achieve. All instructional spaces being used for special education instruction are comparable to spaces used for regular education instruction; however, classes used by the Bi-County Collaborative at the Community School are clustered and do not maximize inclusion of such students into the life of the school. Students in the collaborative Secondary Education class at the high school have limited opportunities to be a part of the life of the school and there was no indication that reverse integration takes place.

Component VIII: Program Plan and Evaluation

Does the district evaluate its programs in accordance with regulatory requirements? Does it use the results of its evaluations to improve programs? Do parents have opportunities for input on program needs, program implementation, and program evaluation and improvement?

Special education programs are evaluated to ensure effectiveness and compliance with regulatory requirements. The North Attleborough School District and the Title 1 program conduct a comprehensive data analysis to determine programs and services to be provided to Title I students. The program director implements program changes to reflect identified needs of Title I students. The district submits all required data to the Department regarding the English language learners and their programs. The effectiveness of the SDFS programs is evaluated and the results are used to refine and improve programs. The district is commended for the process in place to determine the current level of substance abuse and violence amongst the student population in the community.

Component IX: Record keeping

Does the District maintain required records and documentation for each program area? Are entitlement grants appropriately designed, amended, and monitored? Does the district use federal grant funds in

accordance with statutory fund-use rules, including supplement not supplant provisions where applicable? Does the district meet applicable maintenance of effort requirements?

Entitlement grants are appropriately designed, amended and monitored as required. The district meets the Title I fiscal requirements and submitted detailed documentation of the general Title I program requirements and services. The district keeps the required information in the records of the limited English proficient students and appropriate accounting and budget procedures are in place for Safe and Drug Free Schools funds.

Bi-County Collaborative

Bi-County Collaborative has three programs located in North Attleborough Public Schools. The Elementary Therapeutic Program has three classrooms at the Community School with students from kindergarten to grade five. This program provides a therapeutic approach to behavior management and individualized educational services to students who need a structured setting and predictable routines. Each class has six-seven students, one certified teacher, and two paraprofessionals. The program director, a teacher and two paraprofessionals were interviewed, the classrooms were visited and records were reviewed.

The Work Lab II program has three groups of students from 16-22 years of age and is located at North Attleborough High School. Each group has six-eight students, and a teacher, instructional aide and paraprofessional. This program has a strong vocational component but also teaches functional academics, social skills, and behavior management. The program director, a teacher and a paraprofessional were interviewed, classes were visited and records were reviewed.

The Secondary Educational Program has from 12-13 students age 16-22 and is also located at North Attleborough High School. There is a large classroom space with smaller attached rooms used for therapy and office spaces. Students in this program receive individualized instruction and structured programming focused on communication, self-help skills, functional and enrichment academics, social skills, and pre-vocational skills. There are two teachers, instructional assistants, and nurses assigned to this program to meet students' daily medical care needs. This class was visited and records were reviewed.

According to a review of records of students in the Bi-County Collaborative, the Team found that some IEPs contained goals that were not measurable. Interviews indicate that Bi-County Collaborative students at the Community School do not always have lunch with age appropriate students and the location of the Bi-County Collaborative classes at the Community School does not maximize inclusion of such students into the life of the school. Students in the Secondary Education Program have limited opportunities to be included in the life of the school and there was no indication that opportunities for reverse integration were fostered.

DEFINITION OF TERMS
FOR THE RATING OF EACH COMPLIANCE CRITERION

Commendable	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
Implemented	The requirement is substantially met.
Implementation in Progress	The criterion includes one or more new state English Learner Education requirements (G.L. c 71A), the substantive provisions of which went into effect at the beginning of the 2003-2004 school year. The district is currently engaged in staff training and/or is beginning implementation practices for these new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the current school year.
Partially Implemented	The requirement, in one or several important aspects, is not entirely met.
Not Implemented	The requirement is totally or substantially not met.
Not Applicable	The requirement does not apply to the school district or charter school.

Several key areas of compliance with federal special education requirements have been highlighted in **SHADED TEXT** in the Program Review Criteria. These highlighted areas are included in the Massachusetts Continuous Improvement Plan (CIP) that is being used by the U.S. Department of Education, Office of Special Education Programs (OSEP), to track over time this state's compliance in these key areas.

COMPONENT I: ASSESSMENT OF STUDENTS

The criteria in this component examine whether the District has implemented an assessment system that uses appropriate instruments, conducted according to the specified timelines and covering the appropriate content areas to determine instructional needs of students for the program areas listed below:

- Special Education (Report Issues # SE 1- SE 14)
- Career and Technical Education (Report Issues # P 1-4)
- English Learner Education (Report Issues # ELE 1-2)

CRITERION NUMBER	SPECIAL EDUCATION I. ASSESSMENT OF STUDENTS
	Legal Standard

SE 11	<p>School district response to parental request for independent educational evaluation</p> <p>If a parent disagrees with an initial evaluation or re-evaluation completed by the school district, and the parent requests an independent educational evaluation, the district implements the following requirements:</p> <ol style="list-style-type: none"> 1. All independent educational evaluations funded by the district are conducted by qualified persons who are registered, certified, licensed or otherwise approved and who abide by the rates set by the state agency responsible for setting such rates. Unique circumstances of the child are justified when an individual assessment rate is higher than that normally allowed. 2. The school district has procedures to offer parents the option of participating in an income eligibility program for free or reduced cost independent educational evaluations that are equivalent to the types of assessments done by the school district. 3. The district extends the right to a publicly funded independent educational evaluation (only if cost shared or funded for state wards or for students receiving free or reduced cost lunch) for sixteen (16) months from the date of the evaluation with which the parent disagrees. 4. If the parent is requesting an evaluation in an area not assessed by the school district, or if the student does not meet or the parent does not choose to share the financial documentation regarding the income eligibility standards for free or reduced cost independent educational evaluation, then the school district responds in accordance with the requirements of federal law by paying for the independent educational evaluation or, within five school days, proceeding to Special Education Appeals to show that its evaluation was comprehensive and appropriate. Where the Department’s Special Education Appeals finds that the school district’s evaluation was comprehensive and appropriate, the school district does not pay for the independent educational evaluation requested by the parent. 5. Whenever possible, the independent educational evaluation is completed and a written report sent no later than thirty (30) days after the date the parent requests the independent educational evaluation. If publicly funded, the report is sent to the parents and to the school district. The independent evaluator’s report summarizes, in writing, procedures, assessments, results, and diagnostic impressions as well as educationally relevant recommendations for meeting identified needs of the student. The independent evaluator recommends appropriate types of placements but does not recommend specific classrooms or schools. 6. Within ten (10) school days from the time the school district receives the report of the independent educational evaluation, the Team reconvenes and considers the independent educational evaluation (which may be publicly or privately funded) and whether a new or amended IEP is appropriate.

SE 21	<p>School day and school year requirements</p> <ol style="list-style-type: none"> 1. The school district ensures that every eligible elementary level student is scheduled to receive a minimum of 900 hours per school year of structured learning time and every secondary school student is scheduled to receive a minimum of 990 hours per school year of structured learning time unless otherwise provided for below. 2. The Team routinely considers the need for an educational program that is less than or more than the regular school day or school year, including extended day, or year, and/or residential services and indicates on the IEP why the shorter or longer program is necessary. 3. The daily duration of the child’s program is equal to that of the regular school day unless the Team states that a different duration is necessary to provide a free appropriate public education to the child. 4. Specialized transportation schedules do not impede a student’s access to a full school day and program of instruction. 5. An extended day or year program is identified if the student has demonstrated or is likely to demonstrate substantial regression in his or her learning skills and/or substantial difficulty in relearning such skills if an extended program is not provided. 6. If residential services are required, the IEP clearly specifies the reasons for such determination and how such services will be coordinated with the day education services provided to the student. Additionally, the annual goals and services on the student’s IEP reflect the comprehensive nature of the educational program required. 7. Camping or recreation programs provided solely for recreational purposes and with no corresponding IEP goals or specially designed instruction are not to be considered for extended year programs.

ELE 4	<p>Waiver Procedures</p> <ol style="list-style-type: none"> 1. Waivers may be granted based on parent request, providing the parent annually visits the school and provides written informed consent. Parents must be provided with program descriptions <i>in a language they can understand</i>. 2. Students who are under age 10, may only be granted waivers if, (a) the student has been placed in an English language classroom for at least 30 calendar days, (b) the school certifies in no less than 250 words that the student “has special and individual physical or psychological needs, separate from lack of English proficiency” that requires an alternative program, and (c) the waiver is authorized by both the school superintendent and principal. All approved and unapproved waivers must be placed in the student’s permanent school record. For students under age 10, both the superintendent and the principal must authorize the waiver, and it must be made under guidelines established by, and subject to the review of the local school committee. These guidelines may, but are not required to, contain an appeals process. Students who are over age 10 may be granted waivers when it is the informed belief of the school principal and educational staff that an alternative program would be better for the student’s overall educational progress. Students receiving waivers may be transferred to other bilingual programs. See 603 CMR 14.04 on the Department’s website. <p>Authority: G.L. c. 71A, § 5</p>

CRITERION NUMBER	SAFE AND DRUG FREE SCHOOLS III. PARENTAL INVOLVEMENT
	Legal Standard
SDF 1	The Safe and Drug Free Schools program develops its application through timely and meaningful consultation with community agencies, parents, students and representatives from the schools and prevention community. [Title IV Sec. 4115 (b) (2) (E)]
	Rating: Commendable District Response Required: No

Department of Education Findings:

Based on interviews and documentation there is strong evidence of meaningful consultation with community agencies and participation by community agencies in focus groups and meetings regarding the prevalence of drugs and violence problems in the community. North Attleboro has established an Advisory Council that meets bi-monthly with additional meetings scheduled for various workgroups. This network of community-wide members has a very active and involved role in the planning, delivery and evaluation of the program. A few of the community people/agencies involved include, but are not limited to: Representative Elizabeth Poirier, Norfolk D.A.'s Office, Police and Fire Department, private school, parents, New Hope Inc., Sturdy Memorial Hospital, Big Brother & Big Sister, YMCA, Norfolk Council Consortium, cable station, school staff and students.

SDF 2A	The local education agency coordinates such agency’s programs and projects with other federal, state and local programs for drug-abuse and violence prevention. [Title IV Sec. 4114 (c) (1) (B)]
	Rating: Implemented DISTRICT RESPONSE REQUIRED: No

Department of Education Findings:

Based on interviews and documentation there is evidence that North Attleboro has an effective partnership with all applicable local programs and projects for drug abuse and violence prevention. Partnership with the police department, fire department, the youth commission, YMCA and New Hope Inc. is significant.

CRITERION NUMBER	
	Legal Standard
SDF 3	There are program activities implemented to promote the involvement of parents. [Title IV Sec. 4116 (a)(1)]
	Rating: Commendable DISTRICT RESPONSE REQUIRED: No

Department of Education Findings:

Based on documentation and interviews, there is evidence that the district promotes and maintains a strong parent component. This was evident with the attendance of the SDFS Coordinator and other staff to the schools’ PTO’s council meetings at least once a year. Parents have participated in focus groups and/or meetings regarding the prevalence of drug use and violence problems among the youth in the community. The parents are aware of the goals and objectives of the SDFS program and are provided with status reports and information regarding program outcomes and accomplishments. This is done via newsletters from the superintendent, principals and SDFS coordinator. Announcements are also made on local cable TV, the Attleboro Schools’ web site, in local newspapers (the Sun Chronicle and Free Press) and church bulletins, and posted in the library and at school committee meetings. Parents from the public and private schools were offered training in Second Step, Bullying, Drugs Awareness, and Living with 10-15 Year Olds. In addition some of the presentations of the SDFS Coordinator were available on local cable.

COMPONENT IV: CURRICULUM AND INSTRUCTION

The criteria in this component examine whether the district holds all students to high expectations and standards and ensures that the program areas reviewed are designed to maximize student performance within regular education and are implemented according to specific regulatory requirements with respect to learning time, class size, staffing ratio, and age spans. The criteria also examine if the district has provided for coordination across the following program areas:

- Special Education (Report Issues # SE 33-42)
- Civil Rights Methods of Administration (MOA) (Report Issues MOA 8-9)
 - Title I (Report Issues # TI 24-28)
- Safe and Drug Free Schools (Report Issue # SDF 4)
- English Learner Education (Report Issues #8-10)

SE 37	<p>Procedures for approved and unapproved out-of-district placements</p> <ol style="list-style-type: none"> 1. <u>Individual student program oversight</u>: The school district monitors the provision of services to and the programs of individual students placed in public and private out-of-district programs. Documentation of monitoring plans and all actual monitoring are placed in the files of every eligible student who has been placed out-of-district. To the extent that this monitoring requires site visits, such site visits are documented and placed in the students' files for review. The duty to monitor out-of-district placements is not delegated to parents or their agents, to the Department of Education, or to the out-of-district placement. 2. <u>Student right to full procedural protections</u>: The school district retains full responsibility for ensuring that the student is receiving all special education and related services in the student's IEP, as well as all procedural protections of law and regulation. Any Team meetings conducted during the time that a student is enrolled in the out-of-district program are initiated by the school district in coordination with the out-of-district placement. 3. <u>Preference to approved programs</u>: The school district, in all circumstances, first seeks to place a student in a program approved by the Department pursuant to the requirements of 603 CMR 28.09. Preference is also given to approved programs located within the Commonwealth of Massachusetts if the choice of such program is consistent with the needs of the student and the choice of such program complies with LRE requirements. When an approved program is available to provide the services on the IEP, the district makes such placement in the approved program in preference to any program not approved by the Department. 4. <u>Written contracts</u>: At a minimum, the school district enters into written contracts with all public and private out-of-district placements. Such contracts meet the content requirements of 28.06(3)(f)(1-5). 5. <u>Use of unapproved programs</u>: A school district that places a student in a program that has not been approved by the Department according to the requirements under 603 CMR 28.09 ensures that such programs and services are provided in appropriate settings by appropriately credentialed staff able to deliver the services on the student's IEP. Students placed by the school district in such

CRITERION NUMBER	
	Legal Standard
	<p>programs are entitled to the full protections of state and federal special education law and regulation.</p> <p>6. <u>Placement documentation</u>: The following documentation is maintained by the school district pursuant to its placement of children in unapproved out-of-district programs:</p> <ol style="list-style-type: none"> a. <u>Search</u>: The Administrator of Special Education documents the search for and unavailability of a program approved by the Department. The Administrator places such documentation in the student record. b. <u>Evaluation of facility</u>: The Administrator of Special Education or his/her designee thoroughly evaluates the appropriateness of any unapproved facility prior to placement of the student in such program. Such evaluation determines whether the unapproved facility can appropriately implement the student’s IEP in a safe and educationally appropriate environment. Such evaluation additionally determines whether the unapproved facility can and will provide the student with all the rights that are accorded to the student under state and federal special education law. Such evaluation is documented in detail and placed in the student record for review. To the extent that this evaluation requires a site visit, such site visits are documented and placed in the student record for review. The duty to evaluate the appropriateness of any unapproved facility is not delegated to the parents or their agents or the proposed unapproved facility. c. <u>School district approval to operate a private school in Massachusetts</u>: If services in an unapproved program are provided in a school setting, the Administrator of Special Education ensures that such school has received approval from the local school committee under MGL c.76, §1 and a copy of such approval is retained in the student record. d. <u>Pricing</u>: Pursuant to the requirements for Compliance, Reporting and Auditing for Human and Social Services at 808 CMR 1.00, the Administrator obtains pricing forms required to set program prices for programs receiving publicly funded students. Such pricing forms are completed by the proposed placement and document that the price proposed for the student’s tuition is the lowest price charged for similar services to any student in that program. e. <u>Notification of the Department of Education</u>: Prior to placement, if the Team determines that placement in such facility is appropriate, the Administrator notifies the Department of the intent to place the student and the name and location of the proposed placement. In addition, the Administrator forwards the notice of proposed placement and completed pricing forms to the Department along with the information on the proposed terms of the contract that will govern such placement and documentation of a monitoring plan pursuant to 603 CMR 28.06(3)(b). The district maintains any

Substantially separate programs adhere to the following standards:</p> <ul style="list-style-type: none"> a. Substantially separate programs are programs in which more than 50% of the children have disabilities. b. Substantially separate programs operated by the district limit class sizes to nine (9) students with one teacher and one aide. 		
	<p>State Regulations 28.06(7)</p>	<p>Federal Requirements 300.342(c)</p>	<p>DISTRICT RESPONSE REQUIRED: No</p>
	<p>Rating: Commendable</p>		

Department of Education Findings:

The district evaluates the needs of young children, they create a variety of effective programs, and they provide a range of services based on identified needs. The district works well with agencies that provide services through Early Intervention to ensure that services are in place on or before a child's third birthday. The service providers often work in the classroom and there is excellent collaboration and communication among teachers and service providers. Class sizes are well within the limits set by regulations.

SE 50	<p>Responsibilities of the School Principal and Administrator of Special Education Principal:</p> <ol style="list-style-type: none"> 1. <u>Instructional support.</u> The principal in each of the district’s schools promotes instructional practices responsive to student needs and ensures that adequate instructional support is available for students and teachers. Instructional support includes remedial instruction for students, consultative services for teachers, availability of reading instruction at the elementary level, appropriate services for linguistic minority students, and other services consistent with effective educational practices and the requirements of MGL c. 71B, §2. The principal consults with the Administrator of Special Education regarding accommodations and interventions for students. Such efforts and their results are documented and placed in the student record. Additionally, when an individual student is referred for an evaluation to determine eligibility for special education, the principal ensures that documentation on the use of instructional support services for the student is provided as part of the evaluation information reviewed by the Team when determining eligibility. 2. <u>Curriculum Accommodation Plan.</u> The principal implements a curriculum accommodation plan adopted by the district to ensure that all efforts have been made to meet the needs of diverse learners in the general education program. The plan assists the regular classroom teacher in analyzing and accommodating diverse learning styles of all children in the regular classroom and in providing appropriate services and support within the regular education program including, but not limited to, direct and systemic instruction in reading and provision of services to address the needs of children whose behavior may interfere with learning. The Plan includes teacher training in (1) analyzing and accommodating diverse learning styles of all students in order to achieve an objective of inclusion in the regular classroom of students with diverse learning styles; (2) methods of collaboration among teachers, paraprofessionals and teacher assistants to accommodate such styles; and (3) training in the provision of pre-referral services within regular education, teacher mentoring and collaboration and parental involvement. 3. <u>Coordination with special education.</u> The principal with the assistance of the Administrator of Special Education coordinates the delivery and supervision of special education services within each school building. 4. <u>Educational services in home or hospital.</u> Upon receipt of a physician’s written order verifying that any student enrolled in a public school or placed by the public school in a private setting must remain at home or in a hospital on a day or overnight basis, or any combination of both, for medical reasons and for a period of not less than fourteen school days in any school year, the principal arranges for provision of educational services in the home or hospital. Such services are provided with sufficient frequency to allow the student to continue his or her educational program, as long as such services

CRITERION NUMBER	SPECIAL EDUCATION VI. FACULTY, STAFF AND ADMINISTRATION		
	Legal Standard		
	<p>do not interfere with the medical needs of the student. The principal coordinates such services with the Administrator for Special Education for eligible students. Such educational services are not be considered special education unless the student has been determined eligible for such services, and the services include services on the student's IEP.</p> <p><u>Administrator of Special Education:</u></p> <p>5. The school district has an appointed person to be its Administrator of Special Education. The Administrator supervises all special education for the school district and ensures compliance with all federal and state special education laws. As appropriate, and in accordance with the requirements of MGL c.71B, §3A, the Administrator may designate other school district personnel to carry out some of the duties of the Administrator.</p>		
	<p>State Regulations 28.03(3) Chapter 71, sec. 38Q and 38Q ½</p>	<p>Federal Requirements</p>	
	Rating: Partially Implemented	District Response Required: Yes	

Department of Education Findings:

Although the district has developed a DCAP not all teachers were versed in the continuum of general education instructional supports available to meet the needs of diverse learners in regular education. Some teachers required addition instruction on analyzing and accommodating the diverse needs of all students.

CRITERION NUMBER	SAFE AND DRUG FREE SCHOOLS VIII. PROGRAM PLAN AND EVALUATION		
	Legal Standard		
SDF 5	<p>Each recipient bases its programs on a thorough assessment of objective data about the drug and violence problems in the schools and communities served. Each SDFSCA grant recipient conducts a through assessment of the nature and extent of youth drug use and violence problems.</p> <p>[Title IV Secs. 4111 – 4116]</p>		
	Rating: Commendable	District Response Required:	No

Department of Education Findings:

Based on documentation and interviews, there is evidence that North Attleboro has a well developed

process in place to determine the current level of substance abuse and violence amongst the student population in the community. In addition to the Johnson Institute Survey, the Michigan Survey for Adolescent Behavior and Youth Risk Behavior Survey funded under other sources, the process includes focus groups in the community with parents, community leaders, teachers, administrators and advisory council members. Furthermore, schools' disciplinary records at all levels, nurse's logs, middle school safe schools survey, law enforcement incident reports and data from health agencies and community agencies are reviewed and analyzed. There is appropriate documentation to support the statistical and incident information reported in the objective analysis section of the district's most recent grant application. Lastly, there is evidence that the objective analysis was based upon ongoing local assessment of activities and programs.

CRITERION NUMBER	
	Legal Standard
SDF 6	Each recipient establishes a set of performance measures and designs its programs to meet those measures. [Title IV Sections 4114, (d) (B) (i) (I) (II) (ii) (C)]
	Rating: Implemented DISTRICT RESPONSE REQUIRED: No

Department of Education Findings:

The design of the substance and violence prevention programs and strategies are based on a thorough and well-defined need assessment of the objective data about drug and violence problems among youth in the district. North Attleboro has established goals, measurable objectives and activities for its prevention programs. These stated goals, objectives, and activities address the needs identified by the objective analysis.

CRITERION NUMBER	
	Legal Standard
SDF 7	Each recipient designs and implements its programs for youth based on research or evaluation that provides evidence that programs used are based on scientifically based research that provides evidence that the program to be used will reduce violence and illegal drug use. [NCLB, Title IV Section 4115, (a) (C)]
	Rating: Implemented DISTRICT RESPONSE REQUIRED: No

Department of Education Findings:

Based on interviews and documentation, selected programs and activities respond to identified needs. These programs are based on scientifically based research that complies with the Principles of

Effectiveness. Some of these programs are Second Step, Bullying and Project Alert. All students participate in all activities and all programs are adapted for language limited students and/or special needs students when needed. North Attleboro has a Zero Tolerance Policy with very clear expectations against violence and illegal use of drugs with appropriate and enforced consequences in place for policy violations.

CRITERION NUMBER	
	Legal Standard
SDF 8	Each recipient shall conduct a periodic evaluation to assess its progress toward reducing violence and illegal drug use in schools to be served based on performance measures. [NCLB, Title IV Secs. 4115 (2) (A),(B)]
	Rating: Implemented DISTRICT RESPONSE REQUIRED: No

Department of Education Findings:

Based on documentation and interviews, the district’s evaluation design includes process, outcome and impact assessment. An evaluation process is employed to measure the district’s progress towards achieving its goals and objectives. The SDFS Coordinator, Advisory Council, Teachers, Administrators and other Program Coordinators have developed an assessment to evaluate the effectiveness of the programs. There is documentation that some evaluation results are used to refine, improve and strengthen programming and implementation. Evaluation results and the goals and objectives of the SDFS program are reported publicly and consistently throughout the year. This information is available and disseminated via the North Attleboro web site, the local community access channel, newsletters, PTO meetings and sponsored events, church bulletins, the Sun Chronicle and Free Press newspapers, notices posted at the library, and letters sent home to parents.

COMPONENT IX: RECORD KEEPING

The criteria in this component examine whether the district maintains required records and documentation for each program area, whether entitlement grants are appropriately designed, amended, and locally monitored, whether the use federal grant funds is in accordance with statutory fund-use rules, including supplement not supplant provisions and maintenance of effort requirements where applicable for the program areas listed below:

- Special Education (Report Issues # SE 57-58)
- Title I (Report Issues # TI 39-40 General Requirements and TI 1-18 Fiscal Requirements)
- Safe and Drug Free Schools (Report Issue # SDF 9-10)
- English Learner Education (Report Issue # 18)

Rating: Implemented	DISTRICT RESPONSE REQUIRED:	No		

Department of Education Findings:

Based on documentation and interviews, the district conveys a very clear and consistent message of zero tolerance and they convey that acts of violence and the illegal use of drugs are wrong and harmful. The set of assurances includes all the required information for keeping schools safe and drug-free. They have provided training to the staff and parents on the crisis management plan and the information is available in every classroom and room visited as well as in the school web site. The schools' discipline policies are disseminated at the beginning of the school year to parents and students and are easily available in the students' agendas and on the schools' web site.

**APPENDIX:
SCHOOL DISTRICT PROFILE INFORMATION**

The information which is provided in this Appendix was drawn from data supplied by the school district. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. This district-wide information, together with more detailed school building data, is periodically updated by the school district and is available in an evercurrent form on the Department's internet web site at <<http://profiles.doe.mass.edu/>>.

School District Profile Information

Definitions of Terms

Profiles

Introduction

The Massachusetts Department of Education collects information about schools and districts. Some of the information collected is published in the School and District Profiles. The information provides a snapshot of the educational picture in communities across the state.

Districts view, add, update and delete their own district and school information over the web to make sure that the information is as up-to-date and accurate as possible. In addition, the general public will be able to view Directory information about each school district in the state. Individuals can retrieve for themselves information such as school personnel, school programs (e.g. School Choice and TBE) and the location of specialized services such as Special Education Schools, Collaboratives, and Vocational Training Programs.

The list below provides an explanation of information presented in the Profiles.

The electronic version of this district's or charter school's profile information is available at:
<http://profiles.doe.mass.edu/home.asp?mode=ot&view=&ot=5>

Organization Types

Approved Special Education Schools	Responsible for providing an education for students with disabilities. A school district (LEA) may place a student in an out-of-state program if it believes that such program is the most appropriate for the student.
Charter School	Public schools that are created by parents, teachers, businesses, and community leaders and have the freedom to organize their activities around a core mission, curriculum, or teaching method. Their autonomy gives them the freedom to create their own budgets and to hire and fire teachers and staff.
Collaborative	Collaboratives are formed through an agreement among two or more school committees to provide education for their member school systems. Agreements must be filed with the Commissioner of DOE. A Board representative of each member school committee manages them.
Collaborative Programs	Regardless of the size of the individual collaborative, each school provides programs that its member districts demand.
Private School	A non-publicly funded school that provides educational services directly to attending students.
Public School	Public schools are administered by a Public School District, and provide educational services directly to attending students. Expenses are paid by state appropriation.
Public School Districts	An administrative unit responsible for managing primary and secondary school services within a defined geographical boundary. There can be two types of School Districts, Operational and Non-Operational district, and expenses are paid by state

The Data Directory Information

DOE Code:

The DOE Code, also referred to as the Organization Code, is an eight digit numeric code assigned by the Massachusetts Department of Education to every organization listed in the Directory Profiles, including every district and school in the Commonwealth. For districts and schools, the first four digits represent the District Code and the last four digits represent the School Code. Thus the organization code "02660505" stands for "0266" (Sharon Public Schools) + "0505" (Sharon High). If a form requires the 8-digit DOE school code it is calling for the entire organization code.

Prior to the 2001 school year, organization codes contained six digits (three for the district and three for the school.) With the exception of some special needs schools, the eight digit codes are the same as the six digit codes with one zero added before the district code and another zero added before the school code. Thus, Sharon High's old six digit organizational code was 266505.

Please Note: The Department's Organization Code is not the same as the Institution codes assigned by the College board for SAT and AP results. Nor is it the same as the NCES code assigned to Massachusetts schools by the U.S. Department of Education.

Grades/Schools:

This section displays the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "PK" indicates the district has pre-kindergarten. A high school range ending in "13" or "14" indicates the district has a post-graduate program. Kindergarten starting age indicates the age as of a particular date at which children are eligible to begin kindergarten. **NOTE:** District level data only.

Services:

- **Inter-district Choice:** indicates whether students from other districts may enroll in the district through the state school choice program, which is voluntary and on a space-available basis.
- **Intra-district Choice:** indicates whether the district has a school choice program within the school district for students who live in the district.
- **Vocational Education:** indicates whether the district operates a Chapter 74 approved vocational education program.
- **Transitional Bilingual Education (TBE):** indicates whether the district operates a TBE program. Under Massachusetts law, a district must provide a TBE program in a particular language if there are 20 or more limited English proficient students in that particular language group enrolled in the district. Limited English proficient students are students whose first language is not English and who cannot perform ordinary class work in English.
- **METCO:** indicates whether the district participates in the state METCO program, which promotes voluntary desegregation by enrolling minority students from Boston and Springfield in suburban schools.

Relationships:

- **Member of Regional Districts:** For local school districts, indicates the name(s) of any academic and/or vocational regional district(s) of which the local school district is a member. For regional

school districts, indicates the names of member local school districts. A regional school district provides educational services to more than one town. **NOTE:** District level data only.

Enrollment/Indicators

Enrollment by Grade

Indicates the enrollment for students in grades Pre-kindergarten (PK), kindergarten through 12, Special Education beyond grade 12 (SP), Career and Technical Education beyond grade 12 (CT) for the listed school year.

Enrollment by Race/Ethnicity

Indicates the percent of enrollment by race/ethnicity for the listed school year. The reporting categories are those used by the U.S. Bureau of the Census.

Selected Populations

Indicates the percent of enrollment represented by students in special education programs*, students who are limited English proficient, and students eligible to receive free or reduced price lunch*. Data are for the listed school year.

Dropout Rate:

Indicates the percentage of students in grades 9-12 who dropped out of school between July 1 and June 30 prior to the listed year and who did not return to school by October 1. Dropouts are defined as students who leave school prior to graduation for reasons other than transfer to another school.

Children Attending Public Schools

Indicates the percent of school-age children in a city or town attending public schools, for the listed school years. **NOTE:** District level data only.

Attendance/Exclusions:

Attendance rate indicates the average percentage of enrolled students, (grades 1-12), present in school for the listed school year. Student Exclusion (count) indicates the number of student exclusions that occurred during the listed school year. An exclusion is defined as the removal of a student for disciplinary purposes permanently, indefinitely or for more than ten consecutive school days. Student Exclusion (rate) indicates the rate of exclusions per 1000 students.

Technology:

Indicates the number of students for every one computer and the percent of classrooms with Internet access. Data are for the listed school year; "DNR" appears for schools and districts which did not yet report data.

Plans of High School Graduates:

Indicates the post-graduate intentions of students for the listed school year.
Test Results

Massachusetts Comprehensive Assessment System (MCAS):

- Shows percentage of students at each performance level for the current year
- Select a year to view past year's performance level data
- Select annual comparisons or the  icon for a graphical display of MCAS results
- For 2002 only: view Cycle II Performance Rating Reports

- For 2001 only: select a 'Grade and Subject' to view test item analysis data

SAT: The district or school's SAT results are displayed for the listed years.

Finance - District level data only.

Per Pupil Expenditures: are calculated by dividing a district's operating costs by its average pupil membership. Operating costs include expenditures for administration, instruction, pupil services, transportation, plant maintenance, and fixed charges. These costs do not include capital outlay and long-term interest on school debt. Average pupil membership includes students who receive services in the district's schools, as well as students receiving home or hospital instruction. Data for regular education, special education, bilingual education and vocational education students are provided in addition to the total for all day programs, for the listed school years.

Teacher Salary: total teaching salaries, divided by the number of full-time equivalent teachers, equals the average teacher salary.

Foundation Budget Spending Comparison: The education reform act established a foundation budget for each school district. This budget represents the minimum level of spending needed to provide an adequate education for the district's students. The foundation budget is made up of 19 separate categories. The chart shows the district's actual spending in each category for the listed school year as a percentage of the district's foundation budget. If the percentage exceeds 100%, the district spent more in the category than suggested by the foundation budget. If the percentage is less than 100%, the district spent less. Significant variations between local spending and the foundation budget, or between local spending and the statewide averages, should be reviewed closely. In some cases, the differences may be due to unique circumstances and needs within the district. In other cases, the differences may suggest potential areas for review and improvement.
