## MASSACHUSETTS DEPARTMENT OF EDUCATION

### COORDINATED PROGRAM REVIEW REPORT

#### MARSHFIELD PUBLIC SCHOOLS

#### OVERVIEW OF COORDINATED PROGRAM REVIEW PROCEDURES

As one part of its Accountability System, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review System (CPR). All reviews include the following selected requirements:

- special education under the federal Individuals with Disabilities Education Act (IDEA-2004), and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972). Note that until regulations under IDEA-2004 are final, the Department has the responsibility of enforcing regulations under IDEA-1997 that do not conflict with IDEA-2004; therefore both IDEA-1997 regulations and sections of IDEA-2004 are cited in the special education standards.
- federal civil rights requirements under Title VI of the Civil Rights Act of 1964, the Equal Educational Opportunities Act of 1974, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act of 1990, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971) and other Massachusetts General Laws.
- targeted standards from the Board of Education's Physical Restraint regulations (603 CMR 46.00).
- targeted standards from the Board of Education's Student Learning Time regulations (603 CMR 27.00).
- targeted standards from the federal McKinney-Vento Homeless Education Assistance Improvements Act of 2001 (included in the No Child Left Behind Act of 2001).
- provisions of M.G.L. c. 71A, the state law that governs the provision of education to limited English proficient students. Note that due to the voters' approval in 2002 of an initiative petition entitled "Question 2," M.G.L. c. 71A has been significantly amended. Under the amended Chapter 71A, limited English proficient students, now referred to as "English learners," must be provided instruction in sheltered English immersion or two-way bilingual programs unless they have received a waiver. As a result of this change in the law, the Department's Coordinated Program Review standards under Chapter 71A were significantly revised for the 2003-2004 school year. All districts that enroll limited English proficient students will be reviewed using these updated standards during the 2005-2006 school year.

Additional program areas reviewed during the Coordinated Program Review visits in selected districts may include:

- Title I of the Elementary and Secondary Education Act of 1965, including other related grants funded by the No Child Left Behind Act of 2001;
- Safe and Drug-Free Schools and Communities Act;
- Career and Technical Education requirements under the federal Perkins Vocational and Technical Education Act and M.G.L. c. 74;
- Innovative assistance programs funded under Title V of the No Child Left Behind Act; and
- Nutrition Programs and Services.

The Department's 2005-2006 schedule of Coordinated Program Reviews is posted on the Department's web site at <<<http://www.doe.mass.edu/pqa/review/cpr/schedule.html>>>. The statewide six-year

Program Review cycle together with the Department's Mid-cycle Special Education follow-up monitoring schedule is posted at <<<http://www.doe.mass.edu/pqa/review/cpr/6yrcycle.html>>>.

### **Coordinated Program Review Elements**

**Team:** Depending upon the size of a school district and the number of program areas to be reviewed, a team of two to eight Department staff members, together with any necessary outside consultants, conducts a Coordinated Program Review over two to ten days in a school district or charter school.

**Scope:** Each school district and charter school in the Commonwealth is scheduled to receive a Coordinated Program Review every six years and a mid-cycle special education follow-up visit three years after the Coordinated Program Review; about seventy school districts and charter schools are scheduled for Coordinated Program Reviews in 2005-2006.

**Content:** The Program Review criteria encompass the required elements for the specific program areas. In the case of special education, the elements selected for the 2005-2006 reviews contain, at a minimum, those required by the federal Office for Special Education Programs (OSEP) and revised requirements included under IDEA-2004 as described in the Department's Special Education Advisories. Additionally, the 2005-2006 reviews incorporate state special education requirements as adopted by the Board of Education and effective on July 1, 2005. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993 and intended to promote high standards and achievement for all students.

**Report:** The Department's report is based on a review of written documentation and data regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional, and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives and other interviews as requested by persons from the general public.
- Student record reviews in the program areas of special education, English learner education (c. 71A), Career and Technical Education, and Section 504 (student accommodation plans). A representative sample of student records is selected by the Department. Student records are examined by the onsite team using standard Department student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements. Parents of students with disabilities whose files are selected for the record review, as well as the parents of an equal number of other students with disabilities, are sent a survey that solicits information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements; parents of students with limited English proficiency whose files are selected for the record review are sent a survey of their experiences with the district's implementation of the English learner education program and related procedural requirements.

- Classroom and facilities observation. The onsite team visits a sample of instructional classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

*Collaborative programs and services.* Where the district is a member of a collaborative approved by the Department of Education and is a site for programs or services operated by the collaborative, interviews, student record review, and classroom and facility observations are conducted for the collaborative.

*Ratings.* The onsite team gives a rating for each compliance criterion it reviews; those ratings are “Commendable,” “Implemented” (meaning at least substantially implemented), “Implementation in Progress,” “Partially Implemented,” “Not Implemented” (meaning at least substantially not implemented), and “Not Applicable.” “Implementation in Progress” is used for criteria containing new legal requirements and means that the district has implemented any old requirements contained in the criterion and is either training staff or beginning to implement the new requirements in such a way that the onsite team anticipates that the new requirements will be implemented by the end of the school year.

*Findings.* The onsite team includes a finding for each criterion that it rates “Commendable,” “Partially Implemented,” or “Not Implemented,” explaining the basis for the rating. It may also include findings for other criteria.

*Executive Summary.* Organized by the report components described on the next page, the Executive Summary summarizes the report’s major findings for each program reviewed

**Response:** Where criteria are not implemented fully, the local district or charter school must propose corrective actions to bring those areas into compliance with the respective statutes or regulations. These corrective actions are subject to the Department’s review and approval.

The Department believes that the Coordinated Program Review process is a positive experience and that the Final Report is a helpful planning document for the continued development and improvement of programs and services in each school district, charter school, and educational collaborative.

## REPORT INTRODUCTION

A five-member Massachusetts Department of Education team visited Marshfield Public Schools during the week of December 5, 2005 to evaluate the implementation of selected criteria in the program areas of Special Education, Civil Rights, English Learner Education, Title I, Career Vocational Technical Education, and Safe and Drug Free Schools. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Marshfield Public Schools. These areas are as follows:

*The Marshfield School District operates a variety of programs to meet students' needs. In particular, the Autism Spectrum Disorder program at the elementary grade levels is worthy of commendation due to the array of services designed to promote student skills in the classroom, community and home. The program for homeless students has a long history of strong community connections and an array of seamless services are offered to students who are homeless. The district made strides in the implementation of the least restrictive environment requirements by bringing students who were placed out-of-district back to their schools. Additionally, the district develops an Individual Curriculum Accommodation Plan for each student brought to the Teacher Assistance Team for instructional support. Several schools have preventative school-wide positive behavioral plans. The screening, outreach and early childhood programs are exemplary. The Parent Advisory Council operates collaboratively with the district to improve the services offered to students with disabilities. The district offers an extensive array of professional development opportunities to staff.*

*Some of the commendations noted above are repeated within the body of the Department's report under the appropriate compliance criteria.*

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of 21 administrative staff.
- Interviews of 51 teaching and support services staff across all levels.
- Interviews of 37 students.
- Interviews of 12 parents.
- Interviews of four community members.
- Interviews of one parent advisory council (PAC) representatives.
- Interviews as requested by two persons from the general public.
- Student record reviews: A sample of 60 student records was selected by the Department. Student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.
- Parent surveys: 74 parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. 14 of these parent surveys were returned to the Department of Education for review by the onsite team.

- Observation of classrooms and other facilities. A sample of 28 instructional classrooms and other school facilities used in the delivery of programs and services was visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components . These components are listed in the executive summary on the following pages. The findings in each program area explain the “ratings, ”determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially “Implemented” or implemented in a “Commendable” manner. (Refer to the “Definition of Terms” section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as “Implemented” but made a specific comment on the district’s implementation methods that also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plans.

# COORDINATED PROGRAM REVIEW REPORT

## EXECUTIVE SUMMARY

### MARSHFIELD PUBLIC SCHOOLS

The following summary organized under each of the nine overarching Coordinated Program Review components synthesizes the findings for criteria included in the Coordinated Program Review as they respond to essential questions that the Department has formulated for each of the components of the report. Note that a more detailed discussion of the onsite team's findings, together with the specific legal standards for each program area included in this review, follows this summary.

#### **Component I: Assessment of Students**

*Has the district implemented an assessment system that uses appropriate instruments, is conducted according to the specified timelines, and covers the appropriate content areas to determine instructional needs of students?*

The Marshfield Public Schools implements an assessment system that uses a variety of appropriate, valid and reliable instruments that are conducted by professional staff. Additional assessments are used to identify all areas of suspected need. The reports of assessment results are automatically provided to parents prior to the Team meeting. The assessment results are used to develop the Individualized Education Plan (IEP). The summary of assessment results on the IEP is individualized.

The Title 1 program implements an effective assessment system that is comprehensive and specific in determining the instructional needs of Title 1 students.

Marshfield assesses incoming students using reports sent from the middle school and also identifies areas that need attention in reading through the Gates-McGinity Reading test. MCAS and previous academic records are used as a guide for academic placements. There is no assessment of career/vocational technical education interests or aptitudes provided to students.

#### **Component II: Student Identification and Program Placement**

*Has the district followed procedures for student identification and placement into the program according to the criteria specified in law and/or regulations?*

The Marshfield Public Schools provide outreach to the community to conduct child find. The Homeless Coordinator has long standing relationships throughout the community that facilitate support in locating and serving any homeless students. The Early Childhood Program is commended for the extensive outreach it conducts throughout the community. A strong collaboration with Community Partnerships members has strengthened the services available for young children. The Early Childhood Program is commended for the comprehensive screenings and assessments it conducts. Screening is available monthly for three and four year olds. The Early Childhood Program is National Association for the Education of Young Children accredited and operates in a responsive manner for young children and their parents. Children enter the program and are provided services by age three. The sending early intervention programs have a strong relationship with the Early Childhood

Program. Observations are always conducted in the natural environment for children prior to entry into the preschool program.

The Marshfield Public Schools provide a variety of service delivery options to meet the needs of students. Some of the programs are: the Autism Spectrum Disorder (ASD) program, Project Reach, Orton-Gillingham, and tutorials. The process for the determination of eligibility and development of the IEP is based on assessment results. The documentation of each procedure is not always consistent. The district implements a predominantly inclusive program. Students receive supports both in and out of the regular classroom environment as specified by their IEP Team.

The Title 1 program in Math and English Language Arts follows appropriate procedures for student identification and placement.

The district identifies students for certain academic levels within the same courses. All students receive the same instruction in academics regardless of program placement. There is an alternative high school for students with severe special needs located within the high school. Students may transition to and from this program as they adjust to coursework. All students cover the same academic subjects regardless of whether they are enrolled in a career/vocational technical education program or any other program in the district. No methodology exists for assessing and placing students in career/vocational technical education programs. There is no system in place to determine student placements for oversubscribed programs.

### **Component III: Parental Involvement**

*Has the district ensured that parents are notified in the appropriate language and are involved in decisions regarding their children's programs and services? Where appropriate, does the district involve community representatives in shaping programs?*

Marshfield Public Schools have a Parent Advisory Council that has by-laws, has conducted in collaboration with the district the workshop on parent and student rights, and meets regularly to provide the district with input on special education programs. PAC members have been included on the hiring committee for the Superintendent and the Special Education Director. The district provides parents with an Input Form to secure their concerns and vision for their son or daughter in developing the IEP. The ASD program is commended for the level of parental involvement and participation. Parents and students participate in community and school events in order to facilitate children's entry into a variety of activities and to support parents in managing behavior in new environments. The district has strong community connections that serve to supplement the services provided at school. Parents are generally highly involved with their child's education and a high rate of parent attendance was noted for IEP meetings.

Through Title I the district provides a series of effective training opportunities on effective parenting skills and informational sessions on how parents can assist their child. There is however, an insufficient involvement of parents in developing, and agreeing with, the written parent involvement policy and lack of communication about the description and explanations of curriculum and assessment procedures.

The district has created an exemplary model for consultation with community agencies, parents, students, police and fire departments, Board of Health, DA's Office, staff, counselors,

administrators, and parents in the development and implementation of the Safe and Drug Free Schools program and activities. It is evident that the district promotes and maintains a strong parent component with weekly newsletters from principals, monthly reports from the Superintendent and through the Ed-Connect notification system.

The district has parental and community involvement through its School Council. Technical teachers obtain industry input through local employers and industry experts. There is no advisory committee devoted to the Marketing Program, even though this is a Chapter 74 approved program and is required to have its own advisory committee. The district uses a general advisory committee that oversees all career/vocational technical education programs. The current committee is not in compliance with Chapter 74 Advisory Committee membership standards.

#### **Component IV: Curriculum and Instruction**

*Does the district hold all students to high expectations and standards? Are programs designed to maximize student performance and students' participation in the general curriculum? Is curriculum throughout the district's programs based on the Massachusetts Curriculum Frameworks? Has the district provided for coordination across program areas?*

The Marshfield Public Schools have an extensive Instructional Support system. Each student that is experiencing difficulties has an Individual Curriculum Accommodation Plan (ICAP). Building-based support teams have regularly scheduled times to meet to identify supports for regular education teachers that are individualized for the student. Students on 504 Plans are supported in the regular education classrooms with accommodations. The district maintains and monitors 504 Plans with the same software that is used for IEPs.

Instruction is based on the Massachusetts curriculum frameworks for all students. However, the Program of Studies for the high school inappropriately has all special education classes at the back of the book rather than by subject area as other courses were listed.

The Title 1 program provides commendable instructional practices observed in their co-teaching model. The instructional time in the math program has been substantially increased from last year to address the needs of the students. The Title I program utilizes coaches to provide support to teachers in the instruction of math and language arts. Coaches assist teachers and district coordinators with the development of a district wide curriculum.

The SDFS coordinator provides an exemplary level of coordination with all program directors/coordinators, administrators and others members of the community to address specific needs in the development and implementation of all programs and activities for students, staff and parents.

All of the academic coursework is derived from the curriculum frameworks, but career/vocational technical education programs are not currently aligned with the draft Career/Vocational Technical Education Curriculum Frameworks. The district is in the preliminary stages of developing online competency recording using Edline and Grade Quick.

### **Component V: Student Support Services**

*Has the district ensured that all students have equal access to programs and services? Does the district provide support to students who need it?*

The Marshfield Public Schools provide equal access to programs and services. The elementary schools have a positive behavioral system that operates school-wide. The methods and procedures for suspension are presented in the student handbook. The district has appropriate procedures for conducting a manifestation determination for students with disabilities. The district is encouraged to begin the process to conduct a Functional Behavioral Assessment earlier. The district does not have a means of documenting school-to-work for the purpose of assigning credits to students.

The Title 1 program ensures that all students have equal access to the Title I program and services. The Title 1 program is designed to provide intensive academic support to eligible students.

The district reported several instances of Section 504 accommodation during the visit, but there are some gaps in service, especially in communications with parents who are limited English proficient. There is no ELE teacher at the high school certified to instruct students who are Limited English Proficient.

### **Component VI: Faculty, Staff and Administration**

*Does the district maintain certified staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development? Are program leadership and oversight effective? Are the district's personnel procedures non-discriminatory and does it seek to recruit employees from all groups?*

The Marshfield Public Schools have certified staff or staff that have an approved waiver in the area of special education. Teaching assistants receive regular supervision from both the special education teacher and the regular education teacher with whom they work. The district has a commendable system for personnel development that supports initiatives in the school improvement plan, the DCAP and the building identified needs. Personnel policies are non-discriminatory.

The English as a Second Language consultant does not have certification for grades 10-12.

The two principals, as Title 1 Co-Directors maximize the coordination of the program planning and oversight. The Title 1 staff and classroom teachers are committed to students and their collegiality positively impacts coordination of services. Professional development activities are planned by highly qualified Title 1 staff. Tutors are committed in providing support to students and participate in several professional development activities.

Staff in career/vocational technical education programs are appropriately licensed.

### **Component VII: School Facilities**

*Does the district maintain accessible facilities that are conducive to learning, facilitate integration, and provide equal opportunity for students to achieve?*

The Marshfield Public Schools maintain accessible facilities at the elementary and middle

---

school levels. The high school does not have physically accessible locker rooms. The high school also clusters classrooms for students with disabilities on the second floor.

The Title 1 services are provided within the regular classroom in an environment that is conducive to learning.

There are safety issues that need to be resolved at the high school. Specific areas that need to be addressed are contained in this report. One major concern is the size of the shop space available for the programs. Some shops are below the recommended minimum square footage for Chapter 74-approved vocational technical education programs. This creates inadequate distance between students' workspaces and is a safety issue. There is a school wide safety plan. Safety instruction is provided in career/vocational technical education classes.

### **Component VIII: Program Plan and Evaluation**

*Does the district evaluate its programs in accordance with statutory and regulatory requirements? Does it use the results of its evaluations to improve programs? Do parents have opportunities for input on program needs, program implementation, and program evaluation and improvement?*

The Marshfield Public Schools do evaluate special education programs on a regular basis. The district is encouraged to use more outcome-based measures in determining the effectiveness of the special education programs and services. The Parent Advisory Committee does have opportunities to participate in the program and services evaluations.

The district uses appropriate procedures to evaluate its Title I programs and uses the results to improve programs.

Marshfield has an exemplary process in place to determine the current level of substance abuse and violence problems among youth in the community. The district has established goals, measurable objectives and activities for its prevention programs that address needs identified by the objective analysis. Programs are crafted on scientifically based research and evaluation that demonstrate evidence of program effectiveness in reducing and preventing drug use and disruptive behavior among youth. Curricula being implemented include: Second Step, Teen Health Teaching Modules, Growing Healthy, Life Skills, Teen Dating Violence, Project Alert and Aggressors Victims and Bystanders. The district needs to fully implement an evaluation process to measure the progress toward achieving its goals and objectives

There is no formal system of evaluation in place for career vocational technical education programs. However, the district met or exceeded all of the Perkins and Chapter 74 performance goals in FY 2005.

### **Component IX: Record keeping**

*Does the district maintain required records and documentation for each program area? Are entitlement grants appropriately designed, amended, and locally monitored? Does the district use federal grant funds in accordance with statutory fund-use rules, including "supplement not supplant" provisions where applicable? Does the district meet applicable maintenance of effort requirements?*

Marshfield Public Schools maintain required records and data submission for special education, including grants.

The records for English language learners did not contain all the required elements.

The district maintains required records and documentation for the Title 1 program.

Appropriate accounting documentation was found for the Safe and Drug Free Schools grant, budget procedures are in place and approved budgets and amendments are on file for fiscal years 2005 and 2006. Expenditures are strictly related to the intent of the grant. Time distribution logs are maintained for individuals funded under SDFSCA funds. Marshfield conveys a clear message that acts of violence and illegal drug use are wrong and harmful. The set of assurances, school discipline policies, security procedures and crisis management plan all include the required information for keeping schools safe and drug free.

Student records lack essential components necessary for career planning and the delivery of supportive services. Fund use controls seemed adequate. However, the district did not spend the required 15% grant money on professional development, which is one of the Perkins' requirements.

**DEFINITION OF TERMS FOR COMPLIANCE RATINGS  
FOR THE RATING OF EACH COMPLIANCE CRITERION**

<b>Commendable</b>	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
<b>Implemented</b>	The requirement is substantially met in all important aspects.
<b>Implementation in Progress</b>	The requirement includes one or more new federal special education (IDEA-2004) requirements that became effective during the 2005-2006 academic year. The district or charter school has substantially implemented any pre-July 1, 2005 requirements also included under the criterion and is currently engaged in staff training and/or is beginning implementation practices for new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the 2005-2006 school year.
<b>Partially Implemented</b>	The requirement, in one or several important aspects, is not entirely met.
<b>Not Implemented</b>	The requirement is totally or substantially not met.
<b>Not Applicable</b>	The requirement does not apply to the school district or charter school.

Several key areas of compliance with federal special education requirements and one area under civil rights requirements have been highlighted in **SHADED TEXT** in the Program Review Criteria. These shaded areas are being monitored under the Massachusetts Special Education State Performance Plan and/or reported on in the state's Annual Performance Report, both mandated by the Office of Special Education Programs of the U.S. Department of Education. Some of these highlighted areas may also be areas that the Department of Education is closely monitoring because of concerns identified through a

statewide special education steering committee needs assessment. School districts are reminded that although CPR activities may focus in certain key areas, the Department has the legal obligation under its general supervisory responsibilities to review any or all special education requirements as it deems necessary.

Screening for preschoolers is typically conducted by a group of providers with a variety of expertise. Screening and observations occur in an environment where the child can exhibit current levels of performance that are valid and reliable. Some screenings are conducted in the home if necessary. On occasion children are re-screened in a few months to ensure valid results. All screenings include a parental component. Parents always receive results verbally as they leave the screening and in writing within a short time period. The kindergarten screening is conducted by a team and includes all aspects of development. Again, results are shared with parents verbally and in writing within a short period of time. of potentially eligible children for whom they have consent. *Marshfield Public Schools operate several inclusion preschool programs for all preschool students with disabilities. Students who need additional specialized programming participate in extended day programs in addition to the inclusion preschool. The curriculum is developmentally appropriate and the programs are National Association for the Education of Young Children (NAEYC) accredited. The ratios for staff to students are generally exceeded. The early childhood program is commended for the practices it uses to communicate with parents and early intervention programs. The referral and assessment procedures are sensitive to the student and family. Each student receives a visit in the natural environment. Preschool staff frequently participate in the last assessment conducted by early intervention staff. Mutual home visits are also made by early intervention and preschool staff. The assessment tools used match the developmentally appropriate curriculum. In some elementary schools the developmentally appropriate preschool curriculum is evident in the kindergartens as well.*

*Documentation and staff interviews indicated that the district offers a wide variety of professional development opportunities available to professional and paraprofessional staff. The professional development is provided through various means such as with district staff, contracted providers, conferences and in-services offered by professional organizations. Professional development options were determined by the district goals and a needs assessment that was conducted by the professional development committee. The district coordinates professional development through early release days for consistency. Content offerings are organized in district-wide professional development and through building-based offerings. The wide array of training for professionals and paraprofessionals included diverse learning, behavior intervention, disability types, social pragmatics, confidentiality, IDEA 2004, Project READ, Collins Writing, Make it and Take it workshop, Boardmaker, positive behavioral intervention, and many other topics. *The district has an extensive instructional support program that results in fewer referrals to special education. Each student brought before the Student Teacher Assistance Team (STAT) is placed on an Individual Curriculum Accommodation Plan. Teachers and other participants have a regular meeting time for the purpose of instructional support. The district curriculum accommodation plan (DCAP) is aligned with the district initiatives within the school improvement plan and professional development plans for individual staff.*

**Department of Education Findings:**

*Based on interviews and documentation, an exemplary level of consultation and collaboration occurs with community agencies, parents, students, state and local law enforcement, DA's Office, principals, administrators, teachers, nurses, guidance counselors and groups with expertise in drug and violence prevention in the development of the Safe and Drug Free Schools and Community (SDFSC) application. Marshfield has established an Advisory Task Force consisting of greater than 20 members and a Safe Schools Task force that meet on a monthly basis with additional meetings for individual workgroups. This diverse network of communitywide members has a very active and involved role in the planning and delivery of the substance and violence prevention programs for the school system, as well as in the community. Ongoing collaboration provides a very clear and consistent safe and drug free message to school staff, students and parents. The SDFS Coordinator and other school staff are members of several community and school task forces/council/committees that assist in the formulation of the application through their expertise and resources and ensure ongoing continuity, collaboration and communication.*

*Based on documentation and interviews, Marshfield has an exemplary process in place to determine the current level of substance abuse and violence among the student population in the community. The process includes parent focus groups, student and staff surveys, community focus groups, and meetings with parents, community leaders, teachers, advisory councils, students and task force members. School disciplinary records and nursing logs are reviewed and analyzed at all levels. *Interviews and review of student records revealed that the district does not use any career/vocational assessment prior to a student being assigned to a career/vocational technical education program. This is not in compliance with the provisions of Section 135(c)(1) and (2) of the Perkins Act designed to “enable informed and effective participation” in programs and “career guidance” to students and under Chapter 74 603 CMR 4.03 (4)(d)(e). **Department of Education Findings:**

*Interviews revealed that teachers are using EDLINE and GRADE QUICK to record student competency gain, but this is being done on a trial basis. Student progress reports are distributed to parents only if the student is achieving a grade of C or less. Some teachers did specify that they distribute progress reports on all of their students. This indicates that the school does not have a uniform process for notifying parents/guardians for each student's attainment of academic, technical and employability competencies for each course and shop. *Large pieces of machinery were placed in the center of the laboratory creating a potential exit obstruction.*

*Machinery cluttered the entire shop, space is extremely cramped.*

*No MSDS sheets visible (see MGL Chapter 111F).*

*No Eyewash stations available: this is required under state law 527.CMR.10.*

*Several classrooms were overcrowded, presenting a safety concern. Although there is only one approved Chapter 74-approved vocational technical education program, it is suggested the district review the “Recommended Minimum Square Footage Requirements” contained on pages 12-14 of the Chapter 74 Manual for Vocational Technical Education Programs located at <http://www.doe.mass.edu/cte/programs/manual.doc> and compare these recommendations to the square footage in Marshfield’s programs.*

CRITERION NUMBER	CAREER AND TECHNICAL EDUCATION VIII. PROGRAM PLAN AND EVALUATION
	<b>Legal Standard</b>
<b>CVTE 18</b>	<p>The school has developed and implemented a system of program evaluation that includes, at a minimum, the following four core indicators and program outcomes. <i>Perkins Section 113; Chapter 74 603 CMR 4.05)</i></p> <p><b>Perkins Act Core Indicators:</b></p> <ol style="list-style-type: none"> <li>(1) Student attainment of challenging State established academic and technical skill proficiencies;</li> <li>(2) Student attainment of a secondary school diploma or its recognized equivalent, a proficiency credential in conjunction with a secondary school diploma, or a post secondary degree or credential;</li> <li>(3) Placement in, retention in, and completion of postsecondary education or advanced training, placement in military service, or placement or retention in employment; and</li> <li>(4) Student participation in and completion of career and technical education programs that lead to nontraditional training and employment.</li> </ol> <p><b>Chapter 74 Outcomes:</b></p> <ol style="list-style-type: none"> <li>1. 	<p><b>Rating: Partially Implemented</b>                      <b>District Response Required: Yes</b></p>

Department of Education Findings:

*Although the district met or exceeded all applicable performance measures, no formalized system exists to evaluate career vocational technical education programs.*

CRITERION NUMBER	CAREER AND TECHNICAL EDUCATION IX. RECORD KEEPING
	<b>Legal Standard</b>
<b>CVTE 19</b>	Student records contain the items listed in the Student Record Review Checklist. <i>Perkins Section 5; Chapter 74 603 CMR 4.03 (4)©(d); 603 CMR 23.00.</i>
	<b>Rating: Partially Implemented</b> <b>District Response Required: Yes</b>

**Department of Education Findings:**

*Based upon a review of student records, there was little evidence of active counseling for students who were not members of the students with disabilities population. Record reviews showed notable patterns of inconsistent documentation for the following Record Review Checklist items: 2- Career Plans/Portfolios, 3- Scheduled Guidance Activities, 5- Standardized Tests/Assessments, 10- Programs Explored/Schedule, 11- Assessment/Progress Report/Placement.*

	<b>Rating: Partially Implemented</b> <b>District Response Required: Yes</b>

**Department of Education Findings:**

*Based on interviews, over the past few years the district failed to spend the 15% required for professional development. The Perkins Act, Section 135, (4), (A-D), which identifies professional development as required use of funds.. All other aspects of this standard were in compliance.*

<b>CVTE 23</b>	The district uses Perkins funds in accordance with statutory fund-use rules including supplement not supplant provisions. <i>Perkins Sections 135, 3114</i>
	<b>Rating: Partially Implemented</b> <b>District Response Required: Yes</b>

**Department of Education Findings:**

*Based on interviews, the district failed to spend the 15% required for professional development.*

<b>CRITERION NUMBER</b>	
	<b>Legal Standard</b>
<b>CVTE 24</b>	The district has adequate resources to enable the programs to meet current industry and Occupational Safety and Health Administration (OSHA) regulations with respect to facilities, safety, equipment and supplies. <i>Chapter 74 603 CMR 4.03 (8)</i>
	<b>Rating: Partially Implemented                      District Response Required: Yes</b>

**Department of Education Findings:**

*Based upon interviews, the district allocates resources for safety concerns as it is made aware of these. Based upon observations, classroom size is insufficient to meet student demand. Students were observed working within close proximity in all career/vocational technical classrooms. As noted in Criterion 17, it is strongly suggested that the district review the “Recommended Minimum Square Footage Requirements” contained on pages 12-14 of the Chapter 74 Manual for Vocational Technical Education Programs located at <http://www.doe.mass.edu/cte/programs/manual.doc>. A comparative analysis of the square footage of the districts Chapter 74 and Perkins programs is warranted.*

**APPENDIX:  
SCHOOL DISTRICT PROFILE INFORMATION**

The information that is provided in this Appendix was drawn from data supplied by the school district or charter school. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. This district-wide information, together with more detailed school building data, is periodically updated by the school district and is available in an ever current form on the Department's internet web site at <http://profiles.doe.mass.edu/>.

# School District Profile Information

## Introduction

The Massachusetts Department of Education collects a variety of data from schools and districts in the state. Some of the information collected is published in the School and District Profiles. In addition to profiles, users can also view and download school & district directories and data reports. The data reports provide particular data for all schools & districts and can be sorted and/or exported. A "profile" is a snapshot of the data for a specific school/district or charter school.

## Organization Types

<a href="#">Approved Special Education Schools</a>	Responsible for providing an education for students with disabilities. A school district (LEA) may place a student in an out-of-state program if it believes that such program is the most appropriate for the student.
<a href="#">Charter School</a>	Public schools that are created by parents, teachers, businesses, and community leaders and have the freedom to organize their activities around a core mission, curriculum, or teaching method. Their autonomy gives them the freedom to create their own budgets and to hire and fire teachers and staff.
<a href="#">Collaborative</a>	Collaboratives are formed through an agreement among two or more school committees to provide education for their member school systems. Agreements must be filed with the Commissioner of DOE. A Board representative of each member school committee manages them.
<a href="#">Private School</a>	A non-publicly funded school that provides educational services directly to attending students.
<a href="#">Public School</a>	Public schools are administered by a Public School District, and provide educational services directly to attending students.
<a href="#">Public School Districts</a>	An administrative unit responsible for managing primary and secondary school services within a defined geographical boundary.

## About the Data

Data in Profiles is displayed in four sections:

[Directory Information](#)

[Enrollment/Indicators](#)

[Test Results](#)

[Finance](#) - district level only

### Directory Information

Districts view, add, update and delete their own directory information to ensure that the information is as up-to-date and accurate as possible.

#### DOE Code:

The eight-digit DOE Code following the school or district name is assigned by the Massachusetts Department of Education to every organization listed in the Directory Profiles, including every district and school in the Commonwealth. For districts and schools, the first four digits represent the District Code and the last four digits represent the School Code. Thus the DOE code "02660505" stands for "0266" (Sharon Public Schools) + "0505" (Sharon High).

Prior to the 2001 school year, DOE codes contained six digits (three for the district and three for the school.) With the exception of some special needs schools, the eight-digit codes are the same as the six-digit codes with one zero added before the district code and another zero added before the school code. Thus, Sharon High's old six-digit DOE code was 266505.

Please Note: The DOE Code is not the same as the Institution codes assigned by the College board for SAT and AP results or the NCES code assigned to Massachusetts schools by the U.S. Department of Education.

**Grades/Schools:**

For districts this section displays the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "PK" indicates the district has pre-kindergarten. Kindergarten starting age indicates the age as of a particular date at which children are eligible to begin kindergarten.

**Relationships:** (for districts only)

- **Membership - Union:** A "school union" is a group of school systems that are administered by one superintendent.
- **Grade Tuition Agreement:** A town may tuition all their students in a particular grade span into another school system.
- **Membership - Academic Regional:** A regional school district provides educational services to more than one town. For a city/town district, this lists the name(s) of any academic regional district(s) of which the local school district is a member. For an academic regional district, this lists the member cities and towns.
- **Membership - Vocational Regional:** A regional school district provides educational services to more than one town. For a city/town district, this lists the name(s) of any vocational regional district(s) of which the local school district is a member. For a vocational regional district, this lists the member cities and towns.
- **Membership - Independent Vocational:** An independent vocational district is administered by a board of trustees. For a city/town district, this lists the name(s) of any independent vocational district(s) of which the local school district is a member. For an independent vocational district, this lists the member cities and towns. Tuition is charged to out-of-town residents.
- **Membership - County Agricultural:** A county agricultural district is administered by a board of trustees. For a city/town district, this lists the name(s) of any county agricultural district(s) of which the local school district is a member. For a county agricultural district, this lists the member cities and towns.
- **Membership - Collaboratives:** Educational Collaboratives are formed through an agreement among two or more school committees to provide educational programs or services for their member school systems. For a district, this lists the name(s) of any collaboratives of which the district is a member. For a collaborative this lists the member districts.
- **Private Schools located in this city/town:** Lists the private schools located in the city/town.

**Organization Characteristics**

- **Chapter 74 Approved Vocational Technical Program:** Programs that meet the definition of vocational technical education contained in Massachusetts General Law Chapter 74, Section 1

and are approved by the Department of Education pursuant to c. 74 and the Vocational Technical Education Regulations 603 CMR 4.00 are known as "Chapter-74 approved programs".

- **Charter School Type:**

**Commonwealth-** A public school that is managed by a board of trustees and operates independently of any school committee under a five-year charter granted by the Board of Education. It has the freedom to organize around a core mission, curriculum, theme, and/or teaching method and to control its own budget and hire (and fire) teachers and staff. In return for this freedom, a charter school must attract students and produce positive results within five years or its charter will not be renewed.

**Horace Mann-** Operates under the same set of rules as described above, with the following exceptions. First, a Horace Mann charter school must have its charter approved by the local school committee and the local teacher's union in addition to the Board of Education. Second, to the extent provided by their charters, Horace Mann charter schools may be exempt from certain provisions in local collective bargaining agreements. Third, employees of a Horace Mann charter school remain members of the local collective bargaining unit; continue to accrue seniority; and receive, at a minimum, the salary and benefits established by the local collective bargaining agreement.

- **District Operating Status:**

**Non-Operating** - A town that does not directly operate a school district. The town belongs to a regional school district or pays tuition for their students to attend another school district.

**Operating** - A city/town that operates its own local school district. It may operate as its own district at some grades, and belong to a regional district or tuition out its students at other grades.

- **District Title I Status:** A district that receives federal Title I funding.

- **District Type:**

**Institutional School** - State institutional schools that are administered by the DOE.

**County Agricultural** - Agricultural school district that is administered by a board of trustees.

**Independent Public** - This category includes Commonwealth Charter Schools, Horace Mann Charter Schools and the Massachusetts Academy of Mathematics and Science.

**Independent Vocational** - Vocational school district that is administered by a board of trustees.

**Local School** - District that is administered by a city or town school committee.

**Regional Academic** - District that is administered by a regional school committee.

**Regional Vocational Tech** - District that is administered by a regional vocational school committee.

- **Inter-District School Choice:**

**Does Not Offer Choice** - The local school committee has voted not to accept students from other communities under the School Choice regulations.

**Not Accepting New Enrollments** - The school district participates in the School Choice program, but is not accepting new students at this time.

**Offers Choice** - The school district is accepting students from other districts as defined under the School Choice regulations.

- **Out of State School** (Only those out-of-state schools which MA students attend with public funds are listed.):  
**Private School** - a non-public school located outside of Massachusetts.  
**Public School** - a public school located outside of Massachusetts.
- **School Title I Status:**  
**Non-Title I School** - School does not have a Title I program.  
**Title I School (SW)** - School has a Schoolwide Title I program.  
**Title I School (TA)** - School has a Targeted Assistance Title I program.  
**Title I School (TAP)** - School has a Targeted Assistance Title I program and is in the planning year to have a Schoolwide program
- **Special Ed Single Source (Unapproved) Program:** The program has not met program and safety requirements as defined under Massachusetts and federal law.
- **Special Education Approved Program:** The program meets program and safety requirements as defined under Massachusetts and federal law.

## Enrollment/Indicators

### Enrollment

**Enrollment by Grade:** Indicates the total number of students by grade, including pre-kindergarten (PK), kindergarten (K) and special education beyond grade 12 (SP).

source: [SIMS](#)

data as of: October 1

**Enrollment by Race/Ethnicity:** Indicates the percent of enrollment by race/ethnicity.

source: [SIMS](#)

data as of: October 1

**Enrollment by Gender:** Indicates the count of students by gender.

source: [SIMS](#)

data as of: October 1

### Indicators

**Dropout Rate:** Indicates the percentage of students in grades 9-12 who dropped out of school between July 1 and June 30 prior to the listed year and who did not return to school by the following October 1. Dropouts are defined as students who leave school prior to graduation for reasons other than transfer to another school.

source: [SIMS](#)

data as of: end of year, October 1

**Attendance:** Attendance rate indicates the average percentage of days in attendance for students enrolled in grades 1 - 12.

source: [SIMS](#)

data as of: end of year

**In-School Suspension Rate:** The percentage of enrolled students who received one or more in-school suspensions.

### Test Results

#### Massachusetts Comprehensive Assessment System (MCAS):

For all years of the MCAS:

- **Percent of Students at Each Performance Level**, (default view) - Shows percent of students at each performance level for the current year. Select a year to view historical performance level data.
- **MCAS Annual Comparisons** - Shows a graphical display comparing MCAS performance level results over time. Select the icon , or select "MCAS Annual Comparisons" from More MCAS Reports

For 2001 and subsequent years:

- **Participation Results by Grade, Subject** - Shows the number and percent of students participating in the MCAS by each grade and subgroup including regular education students,

students with disabilities, limited English proficient students. (listed under "More MCAS Reports")

- **Results by Race, Gender, Special Education, Low Income & Migratory Status** - Shows number and the percent of students participating in each subgroup by school/district and the percent of students at each performance level. (listed under "More MCAS Reports")
- **Test Item Analysis Data** - Shows average test item score for school/district and state, percent of students answering items correctly, percent of responses for each choice, and the correct multiple-choice answer. (select a "Grade and Subject" from the Percent of Students at Each Performance Level).

#### **Adequate Yearly Progress and Accountability Data**

- **For 2003: Cycle III Mid-cycle AYP Determinations**
- **For 2004: Cycle III Accountability Report** - Performance and improvement ratings for public schools

---

#### **Finance - District level data only**

**Per Pupil Expenditures:** Calculated by dividing a district's operating costs by its average pupil membership. Operating costs include expenditures for administration, instruction, pupil services, transportation, plant maintenance, and fixed charges. These costs do not include capital outlay and long-term interest on school debt. Average pupil membership includes students who receive services in the district's schools, as well as students receiving home or hospital instruction. Data for regular education, special education, bilingual education and vocational education students are provided in addition to the total for all day programs, for the listed school years.

source: [End of Year Pupil and Financial Report](#)  
data as of: June 30

**Teacher Salary:** Total teaching salaries, divided by the number of full-time equivalent teachers, equals the average teacher salary.
