COORDINATED PROGRAM REVIEW REPORT

Sutton Public School District

OVERVIEW OF COORDINATED PROGRAM REVIEW PROCEDURES

As one part of its Accountability System, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review System (CPR). All reviews include the following selected requirements:

- special education under the federal Individuals with Disabilities Education Act (IDEA-2004), and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972). Note that until regulations under IDEA-2004 are final, the Department has the responsibility of enforcing regulations under IDEA-1997 that do not conflict with IDEA-2004; therefore both IDEA-1997 regulations and sections of IDEA-2004 are cited in the special education standards.
- federal civil rights requirements under Title VI of the Civil Rights Act of 1964, the Equal Educational Opportunities Act of 1974, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act of 1990, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971) and other Massachusetts General Laws.
- targeted standards from the Board of Education's Physical Restraint regulations (603 CMR 46.00).
- targeted standards from the Board of Education's Student Learning Time regulations (603 CMR 27.00).
- targeted standards from the federal McKinney-Vento Homeless Education Assistance Improvements Act of 2001 (included in the No Child Left Behind Act of 2001).
- provisions of M.G.L. c. 71A, the state law that governs the provision of education to limited English proficient students. Note that due to the voters' approval in 2002 of an initiative petition entitled "Question 2," M.G.L. c. 71A has been significantly amended. Under the amended Chapter 71A, limited English proficient students, now referred to as "English learners," must be provided instruction in sheltered English immersion or two-way bilingual programs unless they have received a waiver. As a result of this change in the law, the Department's Coordinated Program Review standards under Chapter 71A were significantly revised for the 2003-2004 school year. All districts that enroll limited English proficient students will be reviewed using these updated standards during the 2005-2006 school year.

Additional program areas reviewed during the Coordinated Program Review visits in selected districts may include:

- Title I of the Elementary and Secondary Education Act of 1965, including other related grants funded by the No Child Left Behind Act of 2001;
- Safe and Drug-Free Schools and Communities Act;
- Career and Technical Education requirements under the federal Perkins Vocational and Technical Education Act and M.G.L. c. 74;
- Innovative assistance programs funded under Title V of the No Child Left Behind Act; and
- Nutrition Programs and Services.

The Department's 2005-2006 schedule of Coordinated Program Reviews is posted on the Department's web site at <<<http://www.doe.mass.edu/pqa/review/cpr/schedule.html>>>. The statewide six-year Program Review cycle together with the Department's Mid-cycle Special Education follow-up monitoring schedule is posted at <<<http://www.doe.mass.edu/pqa/review/cpr/6yrcycle.html>>>.

Coordinated Program Review Elements

Team: Depending upon the size of a school district and the number of program areas to be reviewed, a team of two to eight Department staff members, together with any necessary outside consultants, conducts a Coordinated Program Review over two to ten days in a school district or charter school.

Scope: Each school district and charter school in the Commonwealth is scheduled to receive a Coordinated Program Review every six years and a mid-cycle special education follow-up visit three years after the Coordinated Program Review; about seventy school districts and charter schools are scheduled for Coordinated Program Reviews in 2005-2006.

Content: The Program Review criteria encompass the required elements for the specific program areas. In the case of special education, the elements selected for the 2005-2006 reviews contain, at a minimum, those required by the federal Office for Special Education Programs (OSEP) and revised requirements included under IDEA-2004 as described in the Department's Special Education Advisories. Additionally, the 2005-2006 reviews incorporate state special education requirements as adopted by the Board of Education and effective on July 1, 2005. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993 and intended to promote high standards and achievement for all students.

Report: The Department's report is based on a review of written documentation and data regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional, and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives and other interviews as requested by persons from the general public.
- Student record reviews in the program areas of special education, English learner education (c. 71A), Career and Technical Education, and Section 504 (student accommodation plans). A representative sample of student records is selected by the Department. Student records are examined by the onsite team using standard Department student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.

- Parents of students with disabilities whose files are selected for the record review, as well as the parents of an equal number of other students with disabilities, are sent a survey that solicits information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements; parents of students with limited English proficiency whose files are selected for the record review are sent a survey of their experiences with the district's implementation of the English learner education program and related procedural requirements.
- Classroom and facilities observation. The onsite team visits a sample of instructional classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

Collaborative programs and services. Where the district is a member of a collaborative approved by the Department of Education and is a site for programs or services operated by the collaborative, interviews, student record review, and classroom and facility observations are conducted for the collaborative.

Ratings. The onsite team gives a rating for each compliance criterion it reviews; those ratings are "Commendable," "Implemented" (meaning at least substantially implemented), "Implementation in Progress," "Partially Implemented," "Not Implemented" (meaning at least substantially not implemented), and "Not Applicable." "Implementation in Progress" is used for criteria containing new legal requirements and means that the district has implemented any old requirements contained in the criterion and is either training staff or beginning to implement the new requirements in such a way that the onsite team anticipates that the new requirements will be implemented by the end of the school year.

Findings. The onsite team includes a finding for each criterion that it rates "Commendable," "Partially Implemented," or "Not Implemented," explaining the basis for the rating. It may also include findings for other criteria.

Executive Summary. Organized by the report components described on the next page, the Executive Summary summarizes the report's major findings for each program reviewed

Response: Where criteria are not implemented fully, the local district or charter school must propose corrective actions to bring those areas into compliance with the respective statutes or regulations. These corrective actions are subject to the Department's review and approval. **School districts and charter schools must demonstrate effective resolution of noncompliance identified by the Department as soon as possible but in no case later than one year from the issuance of the Department's Final Program Review Report.**

The Department believes that the Coordinated Program Review process is a positive experience and that the Final Report is a helpful planning document for the continued development and improvement of programs and services in each school district, charter school, and educational collaborative.

REPORT INTRODUCTION

A four member Massachusetts Department of Education team visited Sutton Public School District during the week of June 5, 2006 to evaluate the implementation of selected criteria in the program areas of Special Education, Civil Rights, English Learner Education, Title 1 and Nutrition Programs and Services. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Sutton Public School District. These areas are as follows:

- The Sutton Public School District has dedicated staff in all areas of Special Education and related services, as well as paraprofessionals and support staff. Each staff member works diligently and cooperatively with one another to ensure that the District provides effective education services to the students.

- The district has contracted with a consultant to do a formal evaluation of special education services during the last few years. The district works hard to implement the recommendations of the survey and continually works, through ongoing communication among staff and with parents, to improve special education services for students.

- The district holds all students to high expectations and standards. The District is to be commended for its high level of participation and success on the MCAS.

- The district's structured learning time at the middle school (1044 hours) and high school (1062 hours) exceed the required 990 hours. The kindergarten program (765 hours) exceeds the 425 structured learning time requirement.

- The district's provision of special education professional development opportunities is commendable. Professional development offerings have been comprehensive, covering many special education, civil rights and curriculum accommodation topics. The district includes paraprofessionals in all professional development workshops.

Some of the commendations noted above are repeated within the body of the Department's report under the appropriate compliance criteria.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of eight administrative staff.
- Interviews of 27 teaching and support services staff across all levels.
- Interviews of two parent advisory council (PAC) representatives.
- Interviews as requested by persons from the general public.
- Student record reviews: A sample of 35 student records was selected by the Department. Student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.
- Parent surveys: 35 parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. Twenty-nine of these parent surveys were returned to the Department of Education for review by the onsite team.
- Observation of classrooms and other facilities. A sample of 108 instructional classrooms and other school facilities used in the delivery of programs and services were visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components. These components are listed in the executive summary on the following pages. The findings in each program area explain the "ratings," determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially "Implemented" or implemented in a "Commendable" manner. (Refer to the "Definition of Terms" section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as "Implemented" but made a specific comment on the district's implementation methods that also may require response from the district.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plans.

COORDINATED PROGRAM REVIEW REPORT

EXECUTIVE SUMMARY

Sutton Public School District

The following summary organized under each of the nine overarching Coordinated Program Review components synthesizes the findings for criteria included in the Coordinated Program Review as they respond to essential questions that the Department has formulated for each of the components of the report. Note that a more detailed discussion of the onsite team's findings, together with the specific legal standards for each program area included in this review, follows this summary.

Component I: Assessment of Students

Has the district implemented an assessment system that uses appropriate instruments, is conducted according to the specified timelines, and covers the appropriate content areas to determine instructional needs of students?

The district has implemented an assessment system that uses appropriate instruments to assess students in all areas of suspected disability. Assessment reports are thorough and include the procedures employed, the results, the diagnostic impressions and educationally relevant recommendations. The special education Team and staff members work diligently to provide assessments for parent review two days before the Team meeting and they work closely with parents to review the results and recommendations of each evaluation. The district completes its evaluations within the required timeframes.

Progress reports for special education students are issued at least as frequently as those for regular education students and, except for the Middle School, generally address IEP goals. Interviews indicated that some progress reports are given to students, rather than mailed to their home. This procedure does not ensure that parents will receive the progress reports.

All students with disabilities participate in the Massachusetts Comprehensive Assessment System (MCAS) and other district-wide assessment programs. The district's MCAS results among all students are commendable.

Interviews indicated that students would benefit from additional staff to do testing in the Early Learning Center and Sutton Elementary School so that related service providers are not taking time away from their scheduled service delivery. Transition planning must occur throughout the secondary level and not wait until students are entering grade 11.

The district does not have students identified as English Language Learners (ELL) at this time and has not developed appropriate procedures to assess and teach ELL students. State regulations require that all districts have an English Learner Program (program, procedures and staff training) regardless of the incidence of English Language Learners in the district.

Component II: Student Identification and Program Placement

Has the district followed procedures for student identification and placement into the program according to the criteria specified in law and/or regulations?

The district has appropriate procedures in place to ensure that students with special needs are identified. The district promotes outreach and conducts screening to identify, assess and provide services to early childhood and kindergarten students who may be in need of special education services. The district develops Individualized Education Programs (IEPs) that include specially designed instruction and provide related services that meet the needs of students and, to the extent possible, enable them to access the general curriculum. IEPs are implemented without delay and the Team regularly considers the need for extended day or extended school year programs. The district ensures that all staff are apprised of their responsibilities with regard to the IEPs, by signing off that they have received and read them at the beginning of each year.

Document review indicated, however, that IEP goals are not always measurable at the Middle and High School levels (except for the Life Skills Program). Also, the IEP Non-Participation Justification Statements often indicate what type of educational setting is appropriate for the student and not why.

The district has developed and implemented programs at the early childhood and elementary levels that provide a full continuum of support services and programming. The district does not have a full continuum of services in the high school, however, and special education students are most often placed in core subjects in the regular education classroom with inclusion support in Mathematics and English Language Arts only. There is no resource room for core subjects. There is no social skills class at the high school level and the elective options are limited. The vocational-technical option (Blackstone Valley Regional Vocational Technical School) is not adequate to meet student needs. There are significant space limitations at the high school level that prohibit the development of a full continuum of special education services.

Component III: Parental Involvement

Has the district ensured that parents are notified in the appropriate language and are involved in decisions regarding their children's programs and services? Where appropriate, does the district involve community representatives in shaping programs?

The district distributes an introductory letter to parents that includes a statement in French, Spanish and Portuguese asking parents to notify the school if they need documents translated into a language other than English. The district did not provide samples of letters that have already been translated.

Parents are almost always present at Team Meetings and are actively involved as members of their child's special education Team. The district makes commendable efforts to provide parents with Team meeting dates early enough to ensure their presence and re-schedules meetings when parents are unable to attend. The district obtains parental consent before conducting assessments and before implementing a student's IEP.

The district has developed positive relationships with parents of special needs students. Parent surveys indicate that parents are generally pleased with the provision of special education services in the Sutton Public Schools. The district has developed a successful dispute resolution system whereby they reconvene IEP Team meetings to address parental concerns, whenever needed.

The district has recently made efforts to create an active Parent Advisory Council (PAC) for Special Education and has provided several training and informational opportunities for parents. The district PAC Chairperson has reported to the School Committee. Parental input has been encouraged, as the district is in the process of coordinating curriculum across the district. Parents generally view district personnel as responsive and committed to the best interests of their children.

Component IV: Curriculum and Instruction

Does the district hold all students to high expectations and standards? Are programs designed to maximize student performance and students' participation in the general curriculum? Is curriculum throughout the district's programs based on the Massachusetts Curriculum Frameworks? Has the district provided for coordination across program areas?

The district holds all students to high expectations and standards. The District is to be commended for its high level of participation and success on the MCAS. The District's structured learning times are also commendable at the middle and high school levels, where they exceed state requirements.

District programs are designed to provide participation for all students in the general curriculum and are based on the Massachusetts Curriculum Frameworks. However, the district is in the initial stages of coordinating curriculum across the district and is in the process of recruiting a district-wide curriculum coordinator.

Student needs are met, as the Team determines, through classroom support in an inclusion model or through out-of-the-classroom tutorial support. Generally, students are placed in the Least Restrictive Environment. The exception is in the high school, where the continuum of special education settings is limited and where vocational opportunities do not adequately meet student needs.

Extra-curricular activities are available to all students and are non-discriminatory. The district, however, does not provide for students whose families may not be able to pay for athletic fees in the high school.

The district currently does not have an English Learner Education (ELE) program in place. The district must develop ELE policies, procedures and supports even though there are presently no ELE students enrolled in the district. As required by state law, the district must be prepared to identify, assess and instruct any ELL students who enroll.

The district currently services Title I students appropriately.

Component V: Student Support Services

Has the district ensured that all students have equal access to programs and services? Does the district provide support to students who need it?

The district is in the process of implementing policies to ensure that all students have equal access to programs and services. The provision of support services in the Early Learning Center and the Sutton Elementary School is commendable. The Middle and High Schools do not, however, provide sufficient support services to students. The district provides behavioral supports, but there is limited counseling and social skills programs available for students. The students would also benefit from additional study skills and organizational skills programs.

The district has developed policies and procedures for homeless students and for students who may become pregnant. Interviews indicated that policies and procedures to ensure equal access for homeless students, however, are not always communicated to staff. Similarly, district policy regarding Section 504 Student Accommodation Plans is not always explained to staff. Interviews indicated that regular education staff would like more training in reading IEPs and that the district needs more District Curriculum Accommodation Plan support for students who are poorly motivated and/or have attention problems and organizational issues.

There is limited therapeutic counseling in the district. The district often must refer families to outside counseling.

Component VI: Faculty, Staff and Administration

Does the district maintain certified staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development? Are program leadership and oversight effective? Are the district's personnel procedures non-discriminatory and does it seek to recruit employees from all groups?

The district maintains certified staff in all specific program areas. Aides and tutors are supervised by regular and special education teachers and implement curriculum designed by faculty in accordance with the student's IEP and with the Massachusetts Curriculum Frameworks.

The administration, faculty and staff are a strength of the Sutton Public Schools. Their primary focus is the children. The support, collaboration and dedication of the staff is commendable. Interviews overwhelmingly indicate that faculty and staff have positive relationships and communication with one another and with the administration. Parent surveys were generally positive regarding special education services.

The district's provision of special education professional development opportunities is commendable. Professional development offerings have been comprehensive, covering many special education, civil rights and curriculum accommodation topics. The district includes para-professionals in all professional development workshops. The district's attorney and the special education director provide an annual review of federal and state regulations as well as district policies and procedures. Interviews indicated that many staff do not remember all of the information from the Fall training, however, and that additional training later in the year may be beneficial. The district may want to provide a mid-year review and ongoing training for employees who commence work later in the year. The district's personnel policies are non-discriminatory.

Component VII: School Facilities

Does the district maintain accessible facilities that are conducive to learning, facilitate integration, and provide equal opportunity for students to achieve?

While the facilities for special education students at the high school are sub-par, it is noted that the facilities for all students at the high school are sub-par. The bathroom for the life-skills students does not comply fully with ADA standards. The school district is desperately in need of additional programming options for special needs students in the high school to comply with federal and state law regarding providing a full continuum of special education services, but there is no space in the existing building to provide additional programs.

Component VIII: Program Plan and Evaluation

Does the district evaluate its programs in accordance with statutory and regulatory requirements? Does it use the results of its evaluations to improve programs? Do parents have opportunities for input on program needs, program implementation, and program evaluation and improvement?

The district employs a consultant to do an annual review of special education programs and services. The district uses this information to conduct ongoing review and revision of its programs and services to better serve students, although it is unclear if staff are fully apprised of this information and are actively involved in the formal review process.

It is apparent that the district, through its communication and support among staff members, engages in ongoing informal review, however, and this likely contributes to the formal review process.

Component IX: Record keeping

Does the district maintain required records and documentation for each program area? Are entitlement grants appropriately designed, amended, and locally monitored? Does the district use federal grant funds in accordance with statutory fund-use rules, including “supplement not supplant” provisions where applicable? Does the district meet applicable maintenance of effort requirements?

The district has procedures in place to maintain an accurate child count and to ensure that all students have an IEP in place by the start of each academic year. Appropriate staff design and implement the special education entitlement grant.

Title I documentation is maintained and is on file. Review of documentation indicated that the district has rank order lists that determine priority for services and multiple, educationally related criteria for selection. Some of the criteria, however, are not objective. Staff interviews indicated that some instructional services provided to Title I Students result in supplanting classroom instruction.

There are no ELE records, as the district has no ELE students at this time. The district must set up recordkeeping procedures for ELE students to include identification and assessment results, progress reports, ELE instruction, EXIT assessments and monitoring of Former Limited English Proficient (FLEP) students.

DEFINITION OF TERMS FOR COMPLIANCE RATINGS
FOR THE RATING OF EACH COMPLIANCE CRITERION

| | |
|-----------------------------------|---|
| Commendable | Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation. |
| Implemented | The requirement is substantially met in all important aspects. |
| Implementation in Progress | The requirement includes one or more new federal special education (IDEA-2004) requirements that became effective during the 2005-2006 academic year. The district or charter school has substantially implemented any pre-July 1, 2005 requirements also included under the criterion and is currently engaged in staff training and/or is beginning implementation practices for new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the 2005-2006 school year. |
| Partially Implemented | The requirement, in one or several important aspects, is not entirely met. |
| Not Implemented | The requirement is totally or substantially not met. |
| Not Applicable | The requirement does not apply to the school district or charter school. |

Several key areas of compliance with federal special education requirements and one area under civil rights requirements have been highlighted in **SHADED TEXT** in the Program Review Criteria. These shaded areas are being monitored under the Massachusetts Special Education State Performance Plan and/or reported on in the state's Annual Performance Report, both mandated by the Office of Special Education Programs of the U.S. Department of Education. Some of these highlighted areas may also be areas that the Department of Education is closely monitoring because of concerns identified through a statewide special education steering committee needs assessment. School districts are reminded that although CPR activities may focus in certain key areas, the Department has the legal obligation under its general supervisory responsibilities to review any or all special education requirements as it deems necessary.

Department of Education Findings:

The Sutton High School student enrollment form does not request information on home language and parent’s language. All emergency forms refer to “native language” rather than “home language.” The school district does not have an assessment tool in place to determine a student’s English language proficiency. However, the district distributes an introductory letter to all parents that includes a statement in French, Spanish and Portuguese asking parents to notify the school if they need documents translated into a language other than English.

LEGAL STANDARDS, COMPLIANCE RATINGS AND DETAILED FINDINGS

Code of Federal Regulations:

7 CFR Parts: 210 National School Lunch Program

215 Special Milk Program for Children

220 School Breakfast Program

227 Nutrition Education and Training Program

245 Determining Eligibility for Free and Reduced Price Meals and Free Milk in Schools

The criteria in this component of the Coordinated Program Review examine whether the School Food Authority ensures that the requirements for participation in the National School Lunch, School Breakfast, Special Milk and Commodity School Programs are being implemented. These requirements specify program responsibilities of local officials in the areas of program administration, preparation and service of nutritious meals, use of program funds, program monitoring, reporting and record keeping. The findings included in this section of the report have been made through on-site activities completed by the Department's Nutrition Programs and Services team member.

| | Rating: Partially Implemented | District Response Required: Yes |

Department of Education Findings:

Eligibility errors were noted during the review process. A list of students with eligibility errors was left with the School Food Authority for review and correction. On the day of the site reviews at the Elementary/Early Learning Sites, the meals counted on the register did not agree with the number reported on the roster sheet. Inadequate counting and claiming on the day of the review created a Performance Standard #1 violation. Fiscal action may be assessed.

In addition, on the day of the site review, forty-four of the meals observed did not meet the required meal pattern. Due to the nature of the error, the threshold was exceeded for Performance Standard #2. Fiscal action may be assessed.

| | Rating: Partially Implemented | District Response Required: Yes |

Department of Education Findings:

The March 2006 Elementary/Early Learning Center menu, as written, indicates that meals did not contain food items/components as required by regulations on five serving days. On the day of the site review, during the first lunch observed, the menu as written did not meet the meal pattern. Although the food staff began serving fruit by the end of the first lunch, the threshold for Performance Standard #2 was exceeded. Also, the food service staff stated that the “offer versus serve” option is not in place at the elementary/early learning level, therefore all five food components must be taken in order to claim the meal for reimbursement. Several elementary students were observed without milk on their lunch tray. Fiscal action may be assessed.

| | <p>Rating: Partially Implemented District Response Required: Yes</p> |

Department of Education Findings:

While most required records were on file, some records were not being maintained correctly. The supplemental financial statement was not up to date at the time of the review. This record allows the reviewer to determine the actual fund balance of the program, taking into account the value of the inventory and any outstanding accounts receivable or accounts payable.

The documentation provided included copies of checks indicating that \$146,000 and \$98,000, respectively, had been withdrawn from the school lunch account and transferred to the town general fund. The reviewer was unable to reconcile the amounts withdrawn to allowable expenses for the program.

The verification records provided during the review lacked supporting documentation and the process was not completed within the required time frame.

It is recommended that the school food authority provide documentation that the supplemental financial statement was completed through June 2006. It is further recommended that the school fund authority provide documentation that reconciles the amount transferred to the town general fund to the allowable expenses to the school lunch program. Finally, it is recommended that the school food authority develop a procedure that addresses the record verification process, which includes listing the responsible staff, and time frame in which the process will be completed in order to comply with regulations.

Department of Education Findings:

While the district has been working to improve participation with changes in menu offerings, it needs to continue to work toward increasing participation in the elementary/early learning center level so that productivity of staff will increase as well. It is recommended that copies of menus and meal counts be provided for September 2006, verifying an upward trend in participation.

Department of Education Findings:

While most sanitation and health standards are implemented, the school food authority must document that food temperatures are being taken and recorded daily in order to be in compliance with the HACCP regulations. In addition, the district should provide documentation to support the “low temperature” rinse cycle of the dish machine in the elementary/early learning center kitchen.

**APPENDIX:
SCHOOL DISTRICT PROFILE INFORMATION**

The information that is provided in this Appendix was drawn from data supplied by the school district or charter school. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. This district-wide information, together with more detailed school building data, is periodically updated by the school district and is available in an ever current form on the Department's internet web site at <http://profiles.doe.mass.edu/>.

School District Profile Information

Introduction

The Massachusetts Department of Education collects a variety of data from schools and districts in the state. Some of the information collected is published in the School and District Profiles. In addition to profiles, users can also view and download school & district directories and data reports. The data reports provide particular data for all schools & districts and can be sorted and/or exported. A "profile" is a snapshot of the data for a specific school/district or charter school.

Organization Types

| | |
|--|---|
| Approved Special Education Schools | Responsible for providing an education for students with disabilities. A school district (LEA) may place a student in an out-of-state program if it believes that such program is the most appropriate for the student. |
| Charter School | Public schools that are created by parents, teachers, businesses, and community leaders and have the freedom to organize their activities around a core mission, curriculum, or teaching method. Their autonomy gives them the freedom to create their own budgets and to hire and fire teachers and staff. |
| Collaborative | Collaboratives are formed through an agreement among two or more school committees to provide education for their member school systems. Agreements must be filed with the Commissioner of DOE. A Board representative of each member school committee manages them. |
| Private School | A non-publicly funded school that provides educational services directly to attending students. |
| Public School | Public schools are administered by a Public School District, and provide educational services directly to attending students. |
| Public School Districts | An administrative unit responsible for managing primary and secondary school services within a defined geographical boundary. |

About the Data

Data in Profiles is displayed in four sections:

[Directory Information](#)

[Enrollment/Indicators](#)

[Test Results](#)

[Finance](#) - district level only

Directory Information

Districts view, add, update and delete their own directory information to ensure that the information is as up-to-date and accurate as possible.

DOE Code:

The eight-digit DOE Code following the school or district name is assigned by the Massachusetts Department of Education to every organization listed in the Directory Profiles, including every district and school in the Commonwealth. For districts and schools, the first four digits represent the District Code and the last four digits represent the School Code. Thus the DOE code "02660505" stands for "0266" (Sharon Public Schools) + "0505" (Sharon High).

Prior to the 2001 school year, DOE codes contained six digits (three for the district and three for the school.) With the exception of some special needs schools, the eight-digit codes are the same as the six-digit codes with one zero added before the district code and another zero added before the school code. Thus, Sharon High's old six-digit DOE code was 266505.

Please Note: The DOE Code is not the same as the Institution codes assigned by the College board for SAT and AP results or the NCES code assigned to Massachusetts schools by the U.S. Department of Education.

Grades/Schools:

For districts this section displays the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "PK" indicates the district has pre-kindergarten. Kindergarten starting age indicates the age as of a particular date at which children are eligible to begin kindergarten.

Relationships: (for districts only)

- **Membership - Union:** A "school union" is a group of school systems that are administered by one superintendent.
- **Grade Tuition Agreement:** A town may tuition all their students in a particular grade span into another school system.
- **Membership - Academic Regional:** A regional school district provides educational services to more than one town. For a city/town district, this lists the name(s) of any academic regional district(s) of which the local school district is a member. For an academic regional district, this lists the member cities and towns.
- **Membership - Vocational Regional:** A regional school district provides educational services to more than one town. For a city/town district, this lists the name(s) of any vocational regional district(s) of which the local school district is a member. For a vocational regional district, this lists the member cities and towns.
- **Membership - Independent Vocational:** An independent vocational district is administered by a board of trustees. For a city/town district, this lists the name(s) of any independent vocational district(s) of which the local school district is a member. For an independent vocational district, this lists the member cities and towns. Tuition is charged to out-of-town residents.
- **Membership - County Agricultural:** A county agricultural district is administered by a board of trustees. For a city/town district, this lists the name(s) of any county agricultural district(s) of which the local school district is a member. For a county agricultural district, this lists the member cities and towns.
- **Membership - Collaboratives:** Educational Collaboratives are formed through an agreement among two or more school committees to provide educational programs or services for their member school systems. For a district, this lists the name(s) of any collaboratives of which the district is a member. For a collaborative this lists the member districts.
- **Private Schools located in this city/town:** Lists the private schools located in the city/town.

Organization Characteristics

- **Chapter 74 Approved Vocational Technical Program:** Programs that meet the definition of vocational technical education contained in Massachusetts General Law Chapter 74, Section 1 and are approved by the Department of Education pursuant to c. 74 and the Vocational Technical Education Regulations 603 CMR 4.00 are known as "Chapter-74 approved programs".
- **Charter School Type:**
 - Commonwealth-** A public school that is managed by a board of trustees and operates independently of any school committee under a five-year charter granted by the Board of Education. It has the freedom to organize around a core mission, curriculum, theme, and/or teaching method and to control its own budget and hire (and fire) teachers and staff. In return for this freedom, a charter school must attract students and produce positive results within five years or its charter will not be renewed.
 - Horace Mann-** Operates under the same set of rules as described above, with the following exceptions. First, a Horace Mann charter school must have its charter approved by the local school committee and the local teacher's union in addition to the Board of Education. Second, to the extent provided by their charters, Horace Mann charter schools may be exempt from certain provisions in local collective bargaining agreements. Third, employees of a Horace Mann charter school remain members of the local collective bargaining unit; continue to accrue seniority; and receive, at a minimum, the salary and benefits established by the local collective bargaining agreement.
- **District Operating Status:**
 - Non-Operating** - A town that does not directly operate a school district. The town belongs to a regional school district or pays tuition for their students to attend another school district.
 - Operating** - A city/town that operates its own local school district. It may operate as its own district at some grades, and belong to a regional district or tuition out its students at other grades.
- **District Title I Status:** A district that receives federal Title I funding.
- **District Type:**
 - Institutional School** - State institutional schools that are administered by the DOE.
 - County Agricultural** - Agricultural school district that is administered by a board of trustees.
 - Independent Public** - This category includes Commonwealth Charter Schools, Horace Mann Charter Schools and the Massachusetts Academy of Mathematics and Science.
 - Independent Vocational** - Vocational school district that is administered by a board of trustees.
 - Local School** - District that is administered by a city or town school committee.
 - Regional Academic** - District that is administered by a regional school committee.
 - Regional Vocational Tech** - District that is administered by a regional vocational school committee.

- **Inter-District School Choice:**
 - Does Not Offer Choice** - The local school committee has voted not to accept students from other communities under the School Choice regulations.
 - Not Accepting New Enrollments** - The school district participates in the School Choice program, but is not accepting new students at this time.
 - Offers Choice** - The school district is accepting students from other districts as defined under the School Choice regulations.
- **Out of State School** (Only those out-of-state schools which MA students attend with public funds are listed.):
 - Private School** - a non-public school located outside of Massachusetts.
 - Public School** - a public school located outside of Massachusetts.
- **School Title I Status:**
 - Non-Title I School** - School does not have a Title I program.
 - Title I School (SW)** - School has a Schoolwide Title I program.
 - Title I School (TA)** - School has a Targeted Assistance Title I program.
 - Title I School (TAP)** - School has a Targeted Assistance Title I program and is in the planning year to have a Schoolwide program
- **Special Ed Single Source (Unapproved) Program:** The program has not met program and safety requirements as defined under Massachusetts and federal law.
- **Special Education Approved Program:** The program meets program and safety requirements as defined under Massachusetts and federal law.

Finance - District level data only

Per Pupil Expenditures: Calculated by dividing a district's operating costs by its average pupil membership. Operating costs include expenditures for administration, instruction, pupil services, transportation, plant maintenance, and fixed charges. These costs do not include capital outlay and long-term interest on school debt. Average pupil membership includes students who receive services in the district's schools, as well as students receiving home or hospital instruction. Data for regular education, special education, bilingual education and vocational education students are provided in addition to the total for all day programs, for the listed school years.
