COORDINATED PROGRAM REVIEW REPORT

CITY OF A HILL CHARTER SCHOOL

OVERVIEW OF COORDINATED PROGRAM REVIEW PROCEDURES

As one part of its Accountability System, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review System (CPR). All reviews include the following selected requirements:

- special education under the federal Individuals with Disabilities Education Act (IDEA-2004), and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972). Note that until regulations under IDEA-2004 are final, the Department has the responsibility of enforcing regulations under IDEA-1997 that do not conflict with IDEA-2004; therefore both IDEA-1997 regulations and sections of IDEA-2004 are cited in the special education standards.
- federal civil rights requirements under Title VI of the Civil Rights Act of 1964, the Equal Educational Opportunities Act of 1974, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act of 1990, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971) and other Massachusetts General Laws.
- targeted standards from the Board of Education’s Physical Restraint regulations (603 CMR 46.00).
- targeted standards from the Board of Education’s Student Learning Time regulations (603 CMR 27.00).
- targeted standards from the federal McKinney-Vento Homeless Education Assistance Improvements Act of 2001 (included in the No Child Left Behind Act of 2001).
- provisions of M.G.L. c. 71A, the state law that governs the provision of education to limited English proficient students. Note that due to the voters’ approval in 2002 of an initiative petition entitled “Question 2,” M.G.L. c. 71A has been significantly amended. Under the amended Chapter 71A, limited English proficient students, now referred to as “English learners,” must be provided instruction in sheltered English immersion or two-way bilingual programs unless they have received a waiver. As a result of this change in the law, the Department’s Coordinated Program Review standards under Chapter 71A were significantly revised for the 2003-2004 school year. All districts that enroll limited English proficient students will be reviewed using these updated standards during the 2005-2006 school year.

Additional program areas reviewed during the Coordinated Program Review visits in selected districts may include:

- Title I of the Elementary and Secondary Education Act of 1965, including other related grants funded by the No Child Left Behind Act of 2001;
- Safe and Drug-Free Schools and Communities Act;
- Career and Technical Education requirements under the federal Perkins Vocational and Technical Education Act and M.G.L. c. 74;
- Innovative assistance programs funded under Title V of the No Child Left Behind Act; and
- Nutrition Programs and Services.

The Department's 2005-2006 schedule of Coordinated Program Reviews is posted on the Department's web site at <<<http://www.doe.mass.edu/pqa/review/cpr/schedule.html>>>. The statewide six-year Program Review cycle together with the Department's Mid-cycle Special Education follow-up monitoring schedule is posted at <<<http://www.doe.mass.edu/pqa/review/cpr/6yrcycle.html>>>.

Coordinated Program Review Elements{ TC "COORDINATED PROGRAM REVIEW ELEMENTS" \f C \l "1" }

Team: Depending upon the size of a school district and the number of program areas to be reviewed, a team of two to eight Department staff members, together with any necessary outside consultants, conducts a Coordinated Program Review over two to ten days in a school district or charter school.

Scope: Each school district and charter school in the Commonwealth is scheduled to receive a Coordinated Program Review every six years and a mid-cycle special education follow-up visit three years after the Coordinated Program Review; about seventy school districts and charter schools are scheduled for Coordinated Program Reviews in 2005-2006.

Content: The Program Review criteria encompass the required elements for the specific program areas. In the case of special education, the elements selected for the 2005-2006 reviews contain, at a minimum, those required by the federal Office for Special Education Programs (OSEP) and revised requirements included under IDEA-2004 as described in the Department's Special Education Advisories. Additionally, the 2005-2006 reviews incorporate state special education requirements as adopted by the Board of Education and effective on July 1, 2005. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993 and intended to promote high standards and achievement for all students.

Report: The Department's report is based on a review of written documentation and data regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional, and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives and other interviews as requested by persons from the general public.
- Student record reviews in the program areas of special education, English learner education (c. 71A), Career and Technical Education, and Section 504 (student accommodation plans). A representative sample of student records is selected by the Department. Student records are examined by the onsite team using standard Department student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements. Parents of students with disabilities whose files are selected for the record review, as well as the parents of an equal number of other students with disabilities, are sent a survey that solicits information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements; parents of students with limited English

proficiency whose files are selected for the record review are sent a survey of their experiences with the district's implementation of the English learner education program and related procedural requirements.

- Classroom and facilities observation. The onsite team visits a sample of instructional classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

Collaborative programs and services. Where the district is a member of a collaborative approved by the Department of Education and is a site for programs or services operated by the collaborative, interviews, student record review, and classroom and facility observations are conducted for the collaborative.

Ratings. The onsite team gives a rating for each compliance criterion it reviews; those ratings are “Commendable,” “Implemented” (meaning at least substantially implemented), “Implementation in Progress,” “Partially Implemented,” “Not Implemented” (meaning at least substantially not implemented), and “Not Applicable.” “Implementation in Progress” is used for criteria containing new legal requirements and means that the district has implemented any old requirements contained in the criterion and is either training staff or beginning to implement the new requirements in such a way that the onsite team anticipates that the new requirements will be implemented by the end of the school year.

Findings. The onsite team includes a finding for each criterion that it rates “Commendable,” “Partially Implemented,” or “Not Implemented,” explaining the basis for the rating. It may also include findings for other criteria.

Executive Summary. Organized by the report components described on the next page, the Executive Summary summarizes the report’s major findings for each program reviewed

Response: Where criteria are not implemented fully, the local district or charter school must propose corrective actions to bring those areas into compliance with the respective statutes or regulations. These corrective actions are subject to the Department’s review and approval. **School districts and charter schools must demonstrate effective resolution of noncompliance identified by the Department as soon as possible but in no case later than one year from the issuance of the Department’s Final Program Review Report.**

The Department believes that the Coordinated Program Review process is a positive experience and that the Final Report is a helpful planning document for the continued development and improvement of programs and services in each school district, charter school, and educational collaborative.

REPORT INTRODUCTION{ TC "REPORT INTRODUCTION" \f C \l "1" }

A five-member Massachusetts Department of Education team visited City on a Hill Public Charter School during the week of February 27 through March 2, 2006 to evaluate the implementation of selected criteria in the program areas of Special Education, Civil Rights, English Language Education, McKinney-Vento Homeless Education, and Title 1 Services. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the City on a Hill Charter School. These areas are as follows:

- *The faculty, staff and administration are eager to provide whatever services are necessary for the students to achieve and succeed academically.*
- *The school makes excellent use of the many educational and cultural opportunities available to students in the Northeastern University/Huntington Avenue area.*
- *Staff members have high expectations of the students and work hard to make college attendance a viable opportunity for all students.*
- *There are many opportunities for parents to voluntarily attend meetings and become involved in the Parent and School Site Councils.*
- *Because the school offers Title I services to students at the end of the day, students don't miss any classes. This program model appears to be effective and beneficial to students.*

Some of the commendations noted above are repeated within the body of the Department's report under the appropriate compliance criteria.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of eight administrative staff.
- Interviews of 12 teaching and support services staff across all levels.
- Interviews of two parent advisory council (PAC) representatives.
- Interviews as requested by persons from the general public.
- Student record reviews: A sample of 21 student records was selected by the Department. Student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.
- Parent surveys: Twenty-five parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. Four of these parent surveys were returned to the Department of Education for review by the onsite team.
- Observation of classrooms and other facilities. A sample of three instructional classrooms and other school facilities used in the delivery of programs and services was visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components . These components are listed in the executive summary on the following pages. The findings in each program area explain the “ratings, ”determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially “Implemented” or implemented in a “Commendable” manner. (Refer to the “Definition of Terms” section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as “Implemented” but made a specific comment on the district’s implementation methods that also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plans.

COORDINATED PROGRAM REVIEW REPORT{ TC "EXECUTIVE SUMMARY OF REPORT"
\\FC\l "1" }

EXECUTIVE SUMMARY

CITY ON A HILL PUBLIC CHARTER SCHOOL

The following summary organized under each of the nine overarching Coordinated Program Review components synthesizes the findings for criteria included in the Coordinated Program Review as they respond to essential questions that the Department has formulated for each of the components of the report. Note that a more detailed discussion of the onsite team's findings, together with the specific legal standards for each program area included in this review, follows this summary.

Component I: Assessment of Students{ TC "**Component I: Assessment of Students**" \\FC\l "2" }

Has the district implemented an assessment system that uses appropriate instruments, is conducted according to the specified timelines, and covers the appropriate content areas to determine instructional needs of students?

City on a Hill contracts all evaluations and assessments; these evaluations and assessments are appropriately conducted, generally completed within the 45 day timeline, and made available to parents at least 2 days prior to the IEP meeting. Although the school has a means by which to track timelines, evaluations sometimes took longer than 45 school working days to complete. Additionally, the school's consent to evaluate form does not include Educational Assessment as an option for the parent to consider.

Educational assessments are not conducted and therefore not considered during the evaluation and re-evaluation process for students with disabilities. Additionally, assessment reports did not always include recommendations to explicitly meet identified student needs.

All City on a Hill's students take the MCAS, including LEP students.

While City on a Hill emphasizes college attendance for all students, IEPs for students with disabilities do not include measurable transition goals.

Most IEP Team meetings were comprised of the appropriate staff; however, some Team meetings were not appropriately documented. Additionally, Team meetings were chaired by staff members who did not have authority to commit school resources. Some evaluations take longer than 45 school working days to complete. Students have been found ineligible without the staff first conducting re-evaluations, and the school does not consistently implement re-evaluation procedures when it is suspected that a student is no longer eligible. Additionally, several students did not have review meetings on or before the anniversary date of their IEPs.

Progress reports were not consistently found in student files and were not always appropriately developed for students on IEPs. Although the school sends out Age of Majority letters informing students of his or her right at age 18 to make all decisions relative to special education programs and services the year before a student turns 18, these letters were also not found in the student files.

A summary of academic achievement and functional performance has not yet been developed to present to students upon graduation.

Staff members have not yet been trained in administering either the MEPA or the MELA-O.

City on a Hill has adopted policies and practices to ensure that homeless students are not stigmatized or segregated on the basis of their being homeless.

Component II: Student Identification and Program Placement { TC "**Component II: Student Identification and Program Placement**" \f C \l "2" }

Has the district followed procedures for student identification and placement into the program according to the criteria specified in law and/or regulations?

The school's pre-referral team makes decisions based on limited information prior to referring currently enrolled students for evaluation.

City on a Hill offers ongoing and periodic screening for all students as required by the Department of Public Health, including vision, hearing, and posture.

IEPs do not contain specially designed instruction to address the needs of individual students and do not consistently describe how the school will measure progress towards meeting goals and objectives. Service delivery grids often contain "Learning Network Staff" as the service provider, instead of indicating the type of personnel who will deliver services. Placement decisions and proposed services are based on the availability of the school's instruction and services and not according to the needs of the child. IEPs were not always provided within three to five days of the meeting. Not every student has a current IEP in effect. Students who transfer in with currently consented-to IEPs do not receive comparable services to those described in their service plans.

Staff members who are part of the school's English language education (ELE) identification process have not yet been trained in administering the MELA-O or received training in providing sheltered English immersion (SEI) classrooms for limited English proficient (LEP) students. Overall, the school has not developed program modifications or support services that meet the requirements of Ch. 71A.

City on a Hill has designated a homeless education liaison who works closely with advisors. The liaison ensures that homeless children and youth enroll in, and have a full and equal opportunity to succeed in, district programs, and homeless families, children, and youth receive educational services for which they are eligible. However, students who meet the criteria under McKinney-Vento are not consistently identified. The school continues the student's education in the student's school of origin for the duration of homelessness and, if the student becomes permanently housed during an academic year, for the remainder of that academic year. Even if student records such as previous academic records, medical records, or proof of residency are not provided, the school immediately enrolls the student. City on a Hill has not incorporated the homeless student's right to dispute enrollment decisions into its McKinney-Vento policies. The school district has adopted policies and practices to ensure that transportation is provided for homeless students.

The school has not developed a continuum of alternative placements to meet the needs of all students with disabilities. Accordingly, IEP Teams have limited program options to consider when developing appropriate IEPs. Additionally, for students who transfer to the school from

other districts with current, consented-to IEPs with more restrictive placements and intensive services, the IEPs are re-written according to the school's available programming and not according to those students' needs.

Pregnant students are permitted to remain in regular classes and participate in extracurricular activities with non-pregnant students throughout their pregnancy, and after giving birth are permitted to return to the same academic and extracurricular program as before the leave.

The school's waiver policy does not indicate that parents must apply annually to waive the student's placement in an SEI classroom. City on a Hill has a provision for certifying when a student has special and individual physical or psychological needs that require an alternative program, which is only applicable to students under the age of ten. Additionally, when a student has been designated as an English learner, the school will provide the student's parent or guardian with the school district's waiver policy and timelines, developed in accordance with M.G.L. c. 71A, § 5. However, the school submitted its waiver letter in English only.

The school provided a general student identification process but has not yet developed an ELE program, trained teachers in providing SEI, or identified teachers to provide English language development instruction based on the English Language Proficiency Benchmarks and Outcomes (ELPBO). The school has not yet developed a means by which to use assessment data to plan programming for students at different instructional levels, as only one student has been identified as ELE. Additionally, the school has not developed program exit and readiness standards for designating a student as Formerly Limited English Proficient (FLEP).

The school has available the rank order list used to determine which students should receive priority for services, as well as a description of the multiple, educationally-related objective criteria used to identify and rank eligible students who are failing or most at-risk of failing to meet the state's challenging academic achievement standards required of all students, and LEP students, students with disabilities, and students who are homeless are identified as eligible and selected for Title I services on the same basis as other students.

Component III: Parental Involvement { TC "**Component III: Parental Involvement**" \f C \l "2" }

Has the district ensured that parents are notified in the appropriate language and are involved in decisions regarding their children's programs and services? Where appropriate, does the district involve community representatives in shaping programs?

The school's version of the consent to evaluate form does not conform to state and federal requirements because it omits the Educational Assessment as an option for the parent to consider.

The school is having considerable difficulty obtaining signatures from parents. Although staff document the multiple attempts made to obtain consent, they have not developed policies and procedures for action when parent refusal or failure to provide consent may result in the denial of FAPE. Further, City on a Hill has not documented a policy for sending notice to the Bureau of Special Education Appeals when parents have rejected an IEP, a proposed placement, or a finding of no eligibility.

Qualified interpreters are available to orally provide notice and assist during IEP meetings,

but these alternate means of providing notice were not documented.

The district's notice of procedural safeguards contains all required elements included in the Massachusetts Interim Notice of Procedural Safeguards.

PAC members were not aware of their responsibilities in planning, developing, and evaluating the school's special education offerings.

Parents and guardians of homeless students are informed of the educational and related opportunities available to their children and are provided with meaningful opportunities to participate in their children's education. While the homeless liaison has put up posters regarding the rights of homeless children and youth in and around the school, a thorough and complete policy has not been written, approved, or disseminated by the school. Each homeless student's parent or guardian is fully informed of all transportation services, including transportation to and from the school of origin, and is assisted in accessing transportation to the school where the student is placed. The homeless staff member coordinates and collaborates with state coordinators and community and school personnel responsible for the provision of education and related services to homeless children and youth.

The school has a variety of mechanisms to involve parents of students in the school; however, the school has not yet developed a mechanism by which to specifically involve parents or guardians of LEP students.

The school policy does not contain all of the required elements of a Title I Parent Involvement Policy. The written "right to know" information is not sufficiently documented and the school has not provided sufficient materials and trainings to parents to build their capacity to improve their children's academic achievement.

The school does not have a written parent involvement policy that has been agreed upon and distributed to parents of Title I students. The staff is not involved in communicating and working with parents as educational partners. The School-Parent Compact needs to be developed and implemented.

Component IV: Curriculum and Instruction{ TC "**Component IV: Curriculum and Instruction**" \f C \l "2" }

Does the district hold all students to high expectations and standards? Are programs designed to maximize student performance and students' participation in the general curriculum? Is curriculum throughout the district's programs based on the Massachusetts Curriculum Frameworks? Has the district provided for coordination across program areas?

At least one member of all IEP Teams is familiar with the general curriculum and is able to discuss an eligible student's appropriate access to the general curriculum, and assistive technology is considered for each eligible student. However, the school has not developed a continuum of alternative services and placements to meet the needs of its students with disabilities. The school does not fully implement currently consented-to IEPs for students with out-of-district IEPs.

The size and composition of instructional groupings for eligible students receiving services outside the general education classroom are compatible with the methods and goals stated in the students' IEPs.

The ages of the youngest and oldest child in any instructional grouping do not differ by more than forty-eight months.

The school ensures that the secondary school is scheduled for at least 990 hours of structured learning time a year within the required school year schedule. The school also ensures that its structured learning time is time during which students are engaged in regularly scheduled instruction, learning, or assessments within the curriculum of core subjects, including physical education. Seniors do not graduate more than 12 school days before the regular scheduled closing date of school.

The school's statement of assurance from prospective employers of students does not include either national origin or disability.

City on a Hill has not yet developed a means to provide students with English language support when their parents have declined entry to an SEI, two-way bilingual or other ELE programs.

The school provided an ELE parent notification letter in English only. Additionally, required elements were missing, including the child's level of English proficiency; how the program will specifically help the child learn English; and the specific exit requirements.

Because only one student has recently been identified as ELE, no SEI programming has been implemented.

The school implements Title I instructional strategies based on scientifically based research that give primary consideration to extended learning time. Because the school offers Title I services to students at the end of the day, the removal of students from the classroom during regular hours is minimal. The school also provides opportunities for Title I students to participate in extended day/week/year offerings.

Component V: Student Support Services{ TC "**Component V: Student Support Services**" \f C \l "2" }

Has the district ensured that all students have equal access to programs and services? Does the district provide support to students who need it?

City on a Hill Teams routinely consider the impact of student's behavior on student learning, including a student's need for positive behavioral interventions, code modifications or functional behavioral assessment.

The "sent home" category of exclusions is not included in the accumulation and/or pattern of suspensions of students on IEPs at City on a Hill.

City on a Hill does not have a policy for expediting evaluations for a student suspected of having a disability. Additionally, the school's disciplinary policy is not detailed and fails to specify actions for circumstances where disciplinary actions are pending against a student not yet eligible for special education.

All students have an equal opportunity to participate in the support, remedial, non-academic and extracurricular programs of the school.

City on a Hill's Student and Family handbook contains procedural inaccuracies and violations, including outdated references to Ch. 766; a required re-entry meeting with parents following a student suspension; and incorrect student records provisions.

The school's handbook does not identify the school's current 504 coordinator; staff members also did not know who the Title IX and Section 504 coordinators were. Staff also could not articulate the grievance procedure.

With the exception of the school's statement of assurance from prospective employers, written materials and other media used to publicize a school include a notice that the school does not discriminate on the basis of race, color, national origin, sex, disability, religion, or sexual orientation.

The school does not currently have a means to provide LEP students with counseling in their primary languages. Additionally, LEP students do not receive English language development instruction based on the Massachusetts English Language Proficiency Benchmarks and Outcomes (ELPBO).

The school has adopted policies and practices to ensure that homeless students are not stigmatized or segregated on the basis of their being homeless, and homeless students receive comparable to services as other students in the school, including Title I services.

Scholarships, prizes and awards sponsored or administered by the district are free of restrictions based upon race, color, sex, religion, national origin, sexual orientation or disability.

The school's standard notice to students 16 or older with 15 consecutive unexcused absences fails to inform parents of their rights to extend the timeline for meeting with the school to 14 days from the date the notice was sent. Additionally, the notice does not include the family's and student's right to return to the school and the possibility of alternative educational options for the student. The school did submit a copy of the letter translated into Spanish, but not into Haitian Creole, which is the other primary language of the school community. There is a contact name for help in Haitian Creole.

Staff members reported that they were trained last year on the school's physical restraint policies and procedures, but not in 2005-2006. Not all staff could identify who was on the crisis team or who had received in-depth training for providing restraints. Additionally, the school's restraint policy does not incorporate all aspects of 603 CMR 46:00, including reporting requirements to the Department for a restraint lasting longer than five minutes or when an injury has been sustained as the result of a restraint. Finally, the parent letter submitted by the school has not been translated into other languages.

The school's monitoring process did not indicate that FLEP students would be monitored for two years.

Component VI: Faculty, Staff and Administration { TC "**Component VI: Faculty, Staff and Administration**" \f C \l "2" }

Does the district maintain certified staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development? Are program leadership and oversight effective?

Are the district's personnel procedures non-discriminatory and does it seek to recruit employees from all groups?

All professional staff providing Title I services are appropriately licensed (or hold current licensure waivers) and are highly qualified for their job title and function. All related services providers are appropriately certified and licensed to provide such services.

While City on a Hill has designated a staff member to oversee implementation of home-hospital services, a description of local practices for the implementation of home-hospital services was not submitted for the CPR. Additionally, the school did not submit a description of special education services available to LEP students.

City on a Hill does consistently provide in-service training for school personnel at least annually on civil rights responsibilities, but training on confidentiality of student records was not provided to staff for the 2005-2006 SY.

City on a Hill does not currently have trained staff to provide SEI programming or staff appropriately licensed to teach English to LEP students.

The school district uses at least 5% of its Title I funds for professional development activities to ensure that teachers become highly qualified by the end of this school year. Title I teachers are involved in the Title IIA professional development needs assessment.

Component VII: School Facilities{ TC "**Component VII: School Facilities**" \f C \l "2" }

Does the district maintain accessible facilities that are conducive to learning, facilitate integration, and provide equal opportunity for students to achieve?

The school fully includes all students into the life of the school; all aspects of the school's facilities are equal in physical respects and are entirely accessible to students with disabilities. There are no separate facilities.

Component VIII: Program Plan and Evaluation{ TC "**Component VIII: Program Plan and Evaluation**" \f C \l "2" }

Does the district evaluate its programs in accordance with statutory and regulatory requirements? Does it use the results of its evaluations to improve programs? Do parents have opportunities for input on program needs, program implementation, and program evaluation and improvement?

Special education programs and services have not been evaluated using multiple sources of data, although the school submitted an assurance that parents and staff would be surveyed.

City on a Hill has a homeless policy that acknowledges the McKinney-Vento definition of homelessness. A thorough policy including rights to transportation, free lunch and breakfast, dispute resolution, and access to services has not been written, approved, or disseminated for homeless students. While policies regarding attendance, supplies, uniforms, and professional attire have been disseminated, clearly posted on the web, included in the handbook, and have become part of the school culture, there is no indication that the school will ensure that these do not become barriers to success for homeless students.

Teachers at City on a Hill regularly review all educational materials for generalizations lacking intellectual merit on the basis of race, color, sex, religion, national origin and sexual

orientation.

City on a Hill did not indicate who was responsible for the annual institutional self-evaluation or articulate any method or process by which the evaluation might occur.

The district reports annually to the Department the grade levels of the students and the primary languages of identified LEP students.

The school has a plan for completing a Title I needs assessment, but there is no written evaluation of the Title I program. The documentation does not reflect an analysis of data for Adequate Yearly Progress.

Component IX: Record keeping { TC "**Component IX: Record keeping**" \f C \l "2" }

Does the district maintain required records and documentation for each program area? Are entitlement grants appropriately designed, amended, and locally monitored? Does the district use federal grant funds in accordance with statutory fund-use rules, including "supplement not supplant" provisions where applicable? Does the district meet applicable maintenance of effort requirements?

The school maintains appropriate procedures to ensure that an accurate and unduplicated child count is provided to the Department of Education upon request.

City on a Hill's Special Education entitlement grant is designed by appropriate local administrators, who are responsible for the implementation of the local special education programs and services.

The school has not developed a procedure to ensure a more timely and accurate transfer of student records from other districts, especially for students on IEPs.

The school maintains records for each homeless student, including immunization or medical records, academic records, birth certificates, guardianship records, and evaluations for special services or programs.

The maintenance of effort fiscal test is of local and state expenditures, not of Title I or other federal expenditures. The school's combined fiscal effort per student (or aggregate expenditures of the school district and state for free public education for the preceding fiscal year) was not less than 90% of the combined fiscal effort or aggregate expenditures for the second preceding fiscal year.

The school has submitted all required reports to the Department including the district Title I Plan/Application and Performance and Achievement Report. However, the Comparability Report Form A is missing from the submitted documentation. No semi-annual certifications or monthly time and effort records were provided.

The school maintains appropriate Title I records in a central location and keeps correspondence on file.

City on a Hill's Title I grant is developed by designated personnel who are responsible for the implementation of its programs, policies and services.

DEFINITION OF TERMS FOR COMPLIANCE RATINGS

FOR THE RATING OF EACH COMPLIANCE CRITERION{tc \l1 "DEFINITION OF TERMS FOR COMPLIANCE RATINGS}

Commendable	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
Implemented	The requirement is substantially met in all important aspects.
Implementation in Progress	The requirement includes one or more new federal special education (IDEA-2004) requirements that became effective during the 2005-2006 academic year. The district or charter school has substantially implemented any pre-July 1, 2005 requirements also included under the criterion and is currently engaged in staff training and/or is beginning implementation practices for new requirements which the Department’s onsite team anticipates will result in substantial compliance by the end of the 2005-2006 school year.
Partially Implemented	The requirement, in one or several important aspects, is not entirely met.
Not Implemented	The requirement is totally or substantially not met.
Not Applicable	The requirement does not apply to the school district or charter school.

Several key areas of compliance with federal special education requirements and one area under civil rights requirements have been highlighted in **SHADED TEXT** in the Program Review Criteria. These

shaded areas are being monitored under the Massachusetts Special Education State Performance Plan and/or reported on in the state's Annual Performance Report, both mandated by the Office of Special Education Programs of the U.S. Department of Education. Some of these highlighted areas may also be areas that the Department of Education is closely monitoring because of concerns identified through a statewide special education steering committee needs assessment. School districts are reminded that although CPR activities may focus in certain key areas, the Department has the legal obligation under its general supervisory responsibilities to review any or all special education requirements as it deems necessary.

Student records show that progress reports are not consistently placed in student files. Additionally, interviews and student records indicate that progress reports are not always appropriately developed for students on IEPs, as written information on the students' lack of progress was not included. A summary of academic achievement and functional performance has not yet been developed to present to students upon graduation.

Department of Education Findings:

Student records show that IEP plans do not contain specially designed instruction to address the needs of individual students. Additionally, IEPs do not consistently describe how the school will measure progress towards meeting goals and objectives. Also, student records showed that service delivery grids often contain “Learning Network Staff” as the service provider, instead of indicating the type of personnel who will deliver services. According to interviews and student record review, when developing IEPs for entering students with current, consented-to IEPs from other districts, the Team proposes services according to the availability of the school’s instruction and services and not according to the needs of the student.

Not later than the date of the decision to take disciplinary action, the school district notifies the parents of that decision and provides them with the written notice of procedural safeguards. If the parent chooses to appeal or the school district requests a hearing because it believes that maintaining the student's current placement is substantially likely to result in injury to the student or others, the student remains in the disciplinary placement, if any, until the decision of the hearing officer or the end of the time period for the disciplinary action, whichever comes first, unless the parent and the school district agree otherwise.</p> <p>State Requirements</p> <p>Federal Requirements IDEA-97: 34 CFR 300.519-300.528 IDEA 2004: Section 615(k)(1)-(4)</p>

Department of Education Findings:

The homeless liaison has put up posters regarding the rights of homeless children and youth in and around the school. However, a thorough and complete policy has not been written, approved, or disseminated by the school. While policies regarding attendance, supplies, uniforms, and professional attire have been disseminated, clearly posted on the school's website, and in the school's handbook, there is no indication that the school will ensure that these do not become barriers to succeeding in school for homeless students.

Department of Education Findings:

City on a Hill has a homeless policy that acknowledges the McKinney-Vento definition of homelessness. However, the rights to transportation, free lunch and breakfast, dispute resolution, and access to services has not been covered. A thorough policy including those rights has not been written, approved, or disseminated by the school. While policies regarding attendance, supplies, uniforms, and professional attire have been disseminated, clearly posted on the web, included in the handbook, and become part of the school culture, there is no indication that the school will see that these do not become barriers to success for homeless students.

The school has a provision for certifying when a student has special and individual physical or psychological need that requires an alternative program, which is only applicable to students under the age of ten. Additionally, when a student has been designated as an English learner, the school must provide the student’s parent or guardian with the school district’s waiver policy and timelines, developed in accordance with M.G.L. c. 71A, § 5 in a language that the parent or guardian can understand. **APPENDIX:
SCHOOL DISTRICT PROFILE INFORMATION{ TC "APPENDIX: SCHOOL
DISTRICT PROFILE INFORMATION" \f C \l "2" }**

The information that is provided in this Appendix was drawn from data supplied by the school district or charter school. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. This district-wide information, together with more detailed school building data, is periodically updated by the school district and is available in an ever current form on the Department's internet web site at <http://profiles.doe.mass.edu/> .

School District Profile Information

Introduction

The Massachusetts Department of Education collects a variety of data from schools and districts in the state. Some of the information collected is published in the School and District Profiles. In addition to profiles, users can also view and download school & district directories and data reports. The data reports provide particular data for all schools & districts and can be sorted and/or exported. A "profile" is a snapshot of the data for a specific school/district or charter school.

Organization Types

<u>Approved Special Education Schools</u>	Responsible for providing an education for students with disabilities. A school district (LEA) may place a student in an out-of-state program if it believes that such program is the most appropriate for the student.
<u>Charter School</u>	Public schools that are created by parents, teachers, businesses, and community leaders and have the freedom to organize their activities around a core mission, curriculum, or teaching method. Their autonomy gives them the freedom to create their own budgets and to hire and fire teachers and staff.
<u>Collaborative</u>	Collaboratives are formed through an agreement among two or more school committees to provide education for their member school systems. Agreements must be filed with the Commissioner of DOE. A Board representative of each member school committee manages them.
<u>Private School</u>	A non-publicly funded school that provides educational services directly to attending students.
<u>Public School</u>	Public schools are administered by a Public School District, and provide educational services directly to attending students.
<u>Public School Districts</u>	An administrative unit responsible for managing primary and secondary school services within a defined geographical boundary.

About the Data

Data in Profiles is displayed in four sections:

[Directory Information](#)

[Enrollment/Indicators](#)

[Test Results](#)

[Finance](#) - district level only

Directory Information

Districts view, add, update and delete their own directory information to ensure that the information is as up-to-date and accurate as possible.

DOE Code:

The eight-digit DOE Code following the school or district name is assigned by the Massachusetts Department of Education to every organization listed in the Directory Profiles, including every district and school in the Commonwealth. For districts and schools, the first four digits represent the District Code and the last four digits represent the School Code. Thus the DOE code "02660505" stands for "0266" (Sharon Public Schools) + "0505" (Sharon High).

Prior to the 2001 school year, DOE codes contained six digits (three for the district and three for the school.) With the exception of some special needs schools, the eight-digit codes are the same as the six-digit codes with one zero added before the district code and another zero added before the school code. Thus, Sharon High's old six-digit DOE code was 266505.

Please Note: The DOE Code is not the same as the Institution codes assigned by the College board for SAT and AP results or the NCES code assigned to Massachusetts schools by the U.S. Department of Education.

Grades/Schools:

For districts this section displays the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "PK" indicates the district has pre-kindergarten. Kindergarten starting age indicates the age as of a particular date at which children are eligible to begin kindergarten.

Relationships: (for districts only)

- **Membership - Union:** A "school union" is a group of school systems that are administered by one superintendent.
- **Grade Tuition Agreement:** A town may tuition all their students in a particular grade span into another school system.
- **Membership - Academic Regional:** A regional school district provides educational services to more than one town. For a city/town district, this lists the name(s) of any academic regional district(s) of which the local school district is a member. For an academic regional district, this lists the member cities and towns.
- **Membership - Vocational Regional:** A regional school district provides educational services to more than one town. For a city/town district, this lists the name(s) of any vocational regional district(s) of which the local school district is a member. For a vocational regional district, this lists the member cities and towns.
- **Membership - Independent Vocational:** An independent vocational district is administered by a board of trustees. For a city/town district, this lists the name(s) of any independent vocational district(s) of which the local school district is a member. For an independent vocational district, this lists the member cities and towns. Tuition is charged to out-of-town residents.
- **Membership - County Agricultural:** A county agricultural district is administered by a board of trustees. For a city/town district, this lists the name(s) of any county agricultural district(s) of which the local school district is a member. For a county agricultural district, this lists the member cities and towns.
- **Membership - Collaboratives:** Educational Collaboratives are formed through an agreement among two or more school committees to provide educational programs or services for their member school systems. Organization Characteristics

- **Chapter 74 Approved Vocational Technical Program:** Programs that meet the definition of vocational technical education contained in Massachusetts General Law Chapter 74, Section 1

and are approved by the Department of Education pursuant to c. 74 and the Vocational Technical Education Regulations 603 CMR 4.00 are known as "Chapter-74 approved programs".

- **Charter School Type:**

Commonwealth- A public school that is managed by a board of trustees and operates independently of any school committee under a five-year charter granted by the Board of Education. It has the freedom to organize around a core mission, curriculum, theme, and/or teaching method and to control its own budget and hire (and fire) teachers and staff. In return for this freedom, a charter school must attract students and produce positive results within five years or its charter will not be renewed.

Horace Mann- Operates under the same set of rules as described above, with the following exceptions. First, a Horace Mann charter school must have its charter approved by the local school committee and the local teacher's union in addition to the Board of Education. Second, to the extent provided by their charters, Horace Mann charter schools may be exempt from certain provisions in local collective bargaining agreements. Third, employees of a Horace Mann charter school remain members of the local collective bargaining unit; continue to accrue seniority; and receive, at a minimum, the salary and benefits established by the local collective bargaining agreement.

- **District Operating Status:**

Non-Operating - A town that does not directly operate a school district. The town belongs to a regional school district or pays tuition for their students to attend another school district.
