COORDINATED PROGRAM REVIEW REPORT

Lawrence Family Development Charter School

OVERVIEW OF COORDINATED PROGRAM REVIEW PROCEDURES

As one part of its Accountability System, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review System (CPR). All reviews include the following selected requirements:

- special education under the federal Individuals with Disabilities Education Act (IDEA-2004), and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972). Note that until regulations under IDEA-2004 are final, the Department has the responsibility of enforcing regulations under IDEA-1997 that do not conflict with IDEA-2004; therefore both IDEA-1997 regulations and sections of IDEA-2004 are cited in the special education standards.
- federal civil rights requirements under Title VI of the Civil Rights Act of 1964, the Equal Educational Opportunities Act of 1974, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act of 1990, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971) and other Massachusetts General Laws.
- targeted standards from the Board of Education’s Physical Restraint regulations (603 CMR 46.00).
- targeted standards from the Board of Education’s Student Learning Time regulations (603 CMR 27.00).
- targeted standards from the federal McKinney-Vento Homeless Education Assistance Improvements Act of 2001 (included in the No Child Left Behind Act of 2001).
- provisions of M.G.L. c. 71A, the state law that governs the provision of education to limited English proficient students. Note that due to the voters’ approval in 2002 of an initiative petition entitled “Question 2,” M.G.L. c. 71A has been significantly amended. Under the amended Chapter 71A, limited English proficient students, now referred to as “English learners,” must be provided instruction in sheltered English immersion or two-way bilingual programs unless they have received a waiver. As a result of this change in the law, the Department’s Coordinated Program Review standards under Chapter 71A were significantly revised for the 2003-2004 school year. All districts that enroll limited English proficient students will be reviewed using these updated standards during the 2005-2006 school year.

Additional program areas reviewed during the Coordinated Program Review visits in selected districts may include:

- Title I of the Elementary and Secondary Education Act of 1965, including other related grants funded by the No Child Left Behind Act of 2001;
- Safe and Drug-Free Schools and Communities Act;
- Career and Technical Education requirements under the federal Perkins Vocational and Technical Education Act and M.G.L. c. 74;
- Innovative assistance programs funded under Title V of the No Child Left Behind Act; and
- Nutrition Programs and Services.

The Department's 2005-2006 schedule of Coordinated Program Reviews is posted on the Department's web site at <<<http://www.doe.mass.edu/pqa/review/cpr/schedule.html>>>. The statewide six-year Program Review cycle together with the Department's Mid-cycle Special Education follow-up monitoring schedule is posted at <<<http://www.doe.mass.edu/pqa/review/cpr/6yrcycle.html>>>.

Coordinated Program Review Elements

Team: Depending upon the size of a school district and the number of program areas to be reviewed, a team of two to eight Department staff members, together with any necessary outside consultants, conducts a Coordinated Program Review over two to ten days in a school district or charter school.

Scope: Each school district and charter school in the Commonwealth is scheduled to receive a Coordinated Program Review every six years and a mid-cycle special education follow-up visit three years after the Coordinated Program Review; about seventy school districts and charter schools are scheduled for Coordinated Program Reviews in 2005-2006.

Content: The Program Review criteria encompass the required elements for the specific program areas. In the case of special education, the elements selected for the 2005-2006 reviews contain, at a minimum, those required by the federal Office for Special Education Programs (OSEP) and revised requirements included under IDEA-2004 as described in the Department's Special Education Advisories. Additionally, the 2005-2006 reviews incorporate state special education requirements as adopted by the Board of Education and effective on July 1, 2005. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993 and intended to promote high standards and achievement for all students.

Report: The Department's report is based on a review of written documentation and data regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional, and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives and other interviews as requested by persons from the general public.
- Student record reviews in the program areas of special education, English learner education (c. 71A), Career and Technical Education, and Section 504 (student accommodation plans). A representative sample of student records is selected by the Department. Student records are examined by the onsite team using standard Department student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements. Parents of students with disabilities whose files are selected for the record review, as well as the parents of an equal number of other students with disabilities, are sent a survey that solicits information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements; parents of students with limited English proficiency whose files are selected for the record review are sent a survey of their

experiences with the district's implementation of the English learner education program and related procedural requirements.

- Classroom and facilities observation. The onsite team visits a sample of instructional classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

Collaborative programs and services. Where the district is a member of a collaborative approved by the Department of Education and is a site for programs or services operated by the collaborative, interviews, student record review, and classroom and facility observations are conducted for the collaborative.

Ratings. The onsite team gives a rating for each compliance criterion it reviews; those ratings are “Commendable,” “Implemented” (meaning at least substantially implemented), “Implementation in Progress,” “Partially Implemented,” “Not Implemented” (meaning at least substantially not implemented), and “Not Applicable.” “Implementation in Progress” is used for criteria containing new legal requirements and means that the district has implemented any old requirements contained in the criterion and is either training staff or beginning to implement the new requirements in such a way that the onsite team anticipates that the new requirements will be implemented by the end of the school year.

Findings. The onsite team includes a finding for each criterion that it rates “Commendable,” “Partially Implemented,” or “Not Implemented,” explaining the basis for the rating. It may also include findings for other criteria.

Executive Summary. Organized by the report components described on the next page, the Executive Summary summarizes the report’s major findings for each program reviewed

Response: Where criteria are not implemented fully, the local district or charter school must propose corrective actions to bring those areas into compliance with the respective statutes or regulations. These corrective actions are subject to the Department’s review and approval. **School districts and charter schools must demonstrate effective resolution of noncompliance identified by the Department as soon as possible but in no case later than one year from the issuance of the Department’s Final Program Review Report.**

The Department believes that the Coordinated Program Review process is a positive experience and that the Final Report is a helpful planning document for the continued development and improvement of programs and services in each school district, charter school, and educational collaborative.

REPORT INTRODUCTION

A four-member Massachusetts Department of Education team visited **Lawrence Family Development Charter School** during the week of March 13, 2006, to evaluate the implementation of selected criteria in the program areas of Special Education, English Learner Education, Civil Rights Methods of Administration, Title I and McKinney-Vento. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the **Lawrence Family Development Charter School**. These areas are as follows:

*The school goes to great lengths to make sure that **all** Individualized Education Programs (IEPs), meeting notes, and meetings are appropriately translated for parents and have several people on staff with appropriate translation skills to cover immediate translation needs. (SE 29)*

There are a nurse and a nurse's assistant shared between the two school sites. The nurse's assistant is a fluent Spanish speaker to better meet the needs of the students. (SE 48)

The school well exceeds mandatory minimum structured learning time with 1,137 structured learning hours annually at both the primary and middle school levels (MOA 7B).

The school provides Sheltered English Immersion in the regular classroom and students receive a two-way bilingual program as well. (ELE5)

Every effort is made to ensure that all parental notification for parents of LEP students is written in the language of the home. Additionally, the school has developed its own separate ELE report card for parents that is sent out to parents along with the regular report card, is written in the home language and outlines progress specific to the goals of the ELE program. (ELE 10)

Some of the commendations noted above are repeated within the body of the Department's report under the appropriate compliance criteria.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of six administrative staff.
- Interviews of 20 teaching and support services staff across all levels.
- Interviews of one parent advisory council (PAC) representative and one parent liaison.
- Student record reviews: the Department selected a sample of 15 special education student records and 15 English language learner student records. Student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.
- Parent surveys: 30 parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. Six of these parent surveys were returned to the Department of Education for review by the onsite team.

- Observation of classrooms and other facilities. All instructional classrooms and other school facilities used in the delivery of programs and services were visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components. These components are listed in the executive summary on the following pages. The findings in each program area explain the “ratings, ”determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially “Implemented” or implemented in a “Commendable” manner. (Refer to the “Definition of Terms” section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances, the team may have rated a requirement as “Implemented” but made a specific comment on the district’s implementation methods that also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plans.

COORDINATED PROGRAM REVIEW REPORT

EXECUTIVE SUMMARY

Lawrence Family Development Charter School

The following summary organized under each of the nine overarching Coordinated Program Review components synthesizes the findings for criteria included in the Coordinated Program Review as they respond to essential questions that the Department has formulated for each of the components of the report. Note that a more detailed discussion of the onsite team's findings, together with the specific legal standards for each program area included in this review, follows this summary.

Component I: Assessment of Students

Has the district implemented an assessment system that uses appropriate instruments, is conducted according to the specified timelines, and covers the appropriate content areas to determine instructional needs of students?

The district has an appropriate assessment system in place to identify students who are eligible for special education. Both required and optional assessments are appropriately selected and interpreted. Reports of assessment results contain the required elements and are completed and available to the parent, on request, at least two days prior to the Team meeting. IEP Team composition is consistently appropriate and timelines for the determination of eligibility and provision of documentation to the parent are strictly adhered to. The parent leaves the Team meeting with a summary, and the IEP or notice of ineligibility being provided to the parent within 3 to 5 days. The entire process consistently takes place within 45 working days after receipt of the parent's written consent to evaluate. Appropriate general education supports and accommodations exist for students deemed ineligible for special education services. The district re-evaluates the student at the appropriate three-year interval, or when a parent or teacher requests it, or the student's needs warrant it, or it is suspected that the student is no longer in need of special education services. Records of students in the past several years were concerning because they seemed to suggest that evaluations took place without parental consent. This took place under a different administration and all current student records contained appropriate consent forms. Progress reports are consistently provided with the student's report card and include appropriate information about the student's progress toward meeting his/her goals, including whether or not the progress is sufficient to meet the goals within the IEP period. IEP's are reviewed annually.

All students, including those in special education, and limited English proficient (LEP) students take part in MCAS as required and in accordance with Department guidelines. The district annually and appropriately assesses the English proficiency of all LEP students.

Component II: Student Identification and Program Placement

Has the district followed procedures for student identification and placement into the program according to the criteria specified in law and/or regulations?

The district has appropriate procedures for the identification and placement of students who are eligible for special education services and makes provisions for the screening of incoming kindergarteners. The district also conducts the required ongoing and periodic screening of all students as required by the Department of Health. IEP Teams develop individualized programs with most of the required elements; a concern being that in some records there is evidence of

weak or formulaic goals and objectives carried over from one year to the next despite progress reports which indicate that the student is making effective progress towards meeting those goals. Immediately following IEP meetings, the parent is presented with a summary of the meeting in English and copies of the proposed IEP are provided to the parents consistently within the 3 to 5 day timeframe. The district routinely ensures that the proposed IEP is translated into the home language, but the summary of the meeting is provided to the parent only in English, even when a translator is used to translate for the parent at the Team meeting. Teams consider the need for extended evaluation when there is insufficient information to develop the IEP. Teams consistently and appropriately select the least restrictive program possible for students, but when stating why the removal from the general education classroom is critical to the student's program, the justification may be vague or not specific. Teams routinely consider the need for an educational program that is longer or shorter than the regular school day or year or whether specialized transportation is necessary. The district immediately implements the services of the IEP on receipt of the copy signed by the parent and has an IEP in effect for each eligible student at the beginning of each school year.

While the district's procedures for the identification, placement, and transportation of homeless students appears to be adequate for those students who become homeless once they are already attending Lawrence Family Development Charter School, the current lottery enrollment procedures might preclude the identification of homeless students at initial enrollment.

The district has well developed procedures in place to appropriately identify limited English proficient students, and commendably, provides a program which includes both a Two Way Bilingual Program and Sheltered English Language Instruction by teachers trained in SEI strategies in all kindergarten to 5th grade classrooms and a Two Way Bilingual Program with some SEI trained teachers (with the goal of having all teachers SEI trained in the near future) at the 6th through 8th grade levels. The district does not designate a student As Formerly Limited English Language Proficient (FLEP) until it is appropriate to do so and does not cap the amount of time an LEP student is placed in an English support program.

Component III: Parental Involvement

Has the district ensured that parents are notified in the appropriate language and are involved in decisions regarding their children's programs and services? Where appropriate, does the district involve community representatives in shaping programs?

The district should be commended for its efforts to ensure that all meetings and notices are appropriately translated, and that there are Spanish speaking personnel (their LEP population is exclusively Spanish speaking) available on staff for immediate needs. Interviews indicated that the district is committed to encouraging parents of special education students to be full partners in the education of their students. Efforts are made to hold Team meetings at times outside of the regular school day and the special education director makes every effort to make sure that the parent can attend the meeting and that the information shared at the meeting is understood by the parent. Concerns are that; notices to parents of district action are formulaic, not narrative, and not comprehensive enough in either English or Spanish to provide sufficient information to the parent about the actions the district is taking, or choosing not to take, and that in the past (under a different administrator), evaluations were conducted without parent consent. Interviews also indicate that the PAC is active and enthusiastic.

The homeless education liaison ensures that parents and guardians of homeless students are informed of opportunities available to their children and provided with meaningful opportunities to participate in their children's education. While transportation is provided to homeless students, it is unclear whether informational materials are available to fully inform parents or guardians of transportation services.

The district has a Title I written parental involvement policy, but there is concern that the policy does not contain all of the required elements. The district does provide materials and training to Title I parents and provides parents with opportunities for regular meetings and information about Title I programs. There is no School-Parent Compact.

Component IV: Curriculum and Instruction

Does the district hold all students to high expectations and standards? Are programs designed to maximize student performance and students' participation in the general curriculum? Is curriculum throughout the district's programs based on the Massachusetts Curriculum Frameworks? Has the district provided for coordination across program areas?

The district has high expectations for students and is committed to providing programs that are designed to maximize student performance within regular education. The district has based its instruction on the Massachusetts Curriculum Frameworks and ensures that all students with disabilities have access to the general curriculum. With the exception of a substantially separate setting, which the district does not now have, and which it would be willing to provide should the Team determine a student has the need, a full continuum of services and all necessary specialized materials and assistive technology are provided for special education students. IEPs are implemented immediately following receipt of the signed IEP and the district makes a good faith effort to help the student achieve the goals. A concern exists that some IEP goals are not as specific and measurable as they should be. Class sizes are small, usually under 20, and the district observes all staffing and age span regulations.

The school well exceeds mandatory minimum structured learning time with 1,137 hours structured learning hours annually at both the primary and middle school levels. The district has developed its own separate ELE report card for parents that is written in the primary language of the home, outlines progress specific to the ELE program and goes home with the regular report card.

While the district has developed a Title I schoolwide program plan with input from the community, the school has not addressed all of the ten components in the plan.

Component V: Student Support Services

Has the district ensured that all students have equal access to programs and services? Does the district provide support to students who need it?

The district ensures that students whose behavior impedes their learning or the learning of others are provided with procedural safeguards according to federal law (IDEA). Special Education staff, through IEP Teams, provides functional behavioral assessments and behavioral plans for special education students who have been recognized as having behavioral difficulties before the student violates the school's codes of conduct. The school has procedures and processes in place to record the number and duration of suspensions,

including suspensions from any part of the student's IEP program (including transportation) and follows state and federal requirements regarding procedures for suspensions of up to 10 days and after 10 days and suspensions of students with disabilities, or suspected disabilities. These procedures are reflected in the school code of conduct. Disabled students have equal opportunity to participate in the supportive and remedial services that are available as part of the general education program as well as in the non-academic and extracurricular programs the district offers.

The school provides the required notice of nondiscrimination in its handbooks, which are produced in two editions, one for students and one for teachers. These are distributed annually to all students and faculty but documentation and interviews indicate that the school needs to update the names and contact information of the appropriate personnel in the handbook. Counseling materials are free from bias and stereotypes but students need to be provided with the opportunity to receive counseling in their primary language. The school has policies and procedures related to the use of physical restraint but there is a concern that not all staff receives training, annually, as required.

LEP students have equal opportunity to participate in the supportive and remedial services that are available as part of the general education program as well as in the non-academic and extracurricular programs the district offers, although counseling may not be available in the home language. The district actively monitors students who have exited the ELE program for two years and provides language support services to those students as needed.

All Title I professional staff are appropriately certified, or hold current waivers, and are highly qualified for their job title and function. There is some concern that the needs assessment, that includes an analysis of data is conducted annually in each Title I school, did not include parent input.

Component VI: Faculty, Staff and Administration

Does the district maintain certified staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development? Are program leadership and oversight effective? Are the district's personnel procedures non-discriminatory and does it seek to recruit employees from all groups?

The school has an appointed special education administrator whose job it is to supervise all special education for the school and ensure compliance with all state and federal special education laws. All related service providers are appropriately certified and all paraprofessionals are appropriately supervised by a proximate and appropriately certified professional. There is a concern that there is one special education teacher identified as lacking current appropriate certification or licensure.

The school provides professional development in all the required areas with a commendable emphasis on accommodating diverse learning styles to foster inclusion in the regular classroom, as well as ensuring that all teachers in the primary school, and some in the middle school, have had at least 10 hours of high quality training in Sheltered English Immersion instruction. This is an ongoing commitment of the school because of their preponderance of second language speakers. There is some concern that there remain teachers (kindergarten, Spanish language acquisition) who are not yet fully licensed or literate and fluent in English.

Component VII: School Facilities

Does the district maintain accessible facilities that are conducive to learning, facilitate integration, and provide equal opportunity for students to achieve?

Facilities for special education are at least equal in all respects to the average standards for general education classrooms and are given the same priority as the general education programs in the allocation space in order to maximize inclusion and provide accessibility, with the exception of some pull-out instructional spaces used for LEP students in the hallways.

Component VIII: Program Plan and Evaluation

Does the district evaluate its programs in accordance with statutory and regulatory requirements? Does it use the results of its evaluations to improve programs? Do parents have opportunities for input on program needs, program implementation, and program evaluation and improvement?

Special education programs and services are evaluated yearly and the school measures the success of programs based on local and state assessment results.

The school has a process that ensures that teachers in the district review all educational materials for simplistic and demeaning generalizations, lacking intellectual merit, on the basis of race, color, sex, religion, national origin or sexual orientation. The school also evaluates all aspects of its K-8 program to ensure that all students have equal access to all programs including athletics and extracurricular activities and makes appropriate changes. The school evaluates the effectiveness of its ELE program and uses the results of those evaluations to improve the program. The school maintains appropriate records for each homeless student so that records are available in a timely manner when the student enters a new school or school district.

There is some concern that the needs assessment, which includes an analysis of data that is conducted annually in each Title I school, did not include parent input and there is no written evaluation of the program with the required components. A school improvement plan does exist but it does not thoroughly address all of the required components. Title I documentation does not indicate the amount spent on professional development. The school does not document its efforts to notify parents of the availability of supplemental services or address the issue of supplemental services.

Component IX: Record keeping

Does the district maintain required records and documentation for each program area? Are entitlement grants appropriately designed, amended, and locally monitored? Does the district use federal grant funds in accordance with statutory fund-use rules, including “supplement not supplant” provisions where applicable? Does the district meet applicable maintenance of effort requirements?

Required records and documentation are maintained for special education, LEP, and Title I programs.

The school takes all reasonable steps to respond to requests for records promptly when a student with an IEP has transferred to another district, and makes all reasonable efforts to promptly obtain records including the IEP when a child transfers into the school.

**DEFINITION OF TERMS FOR COMPLIANCE RATINGS
FOR THE RATING OF EACH COMPLIANCE CRITERION**

Commendable	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
Implemented	The requirement is substantially met in all important aspects.
Implementation in Progress	The requirement includes one or more new federal special education (IDEA-2004) requirements that became effective during the 2005-2006 academic year. The district or charter school has substantially implemented any pre-July 1, 2005 requirements also included under the criterion and is currently engaged in staff training and/or is beginning implementation practices for new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the 2005-2006 school year.
Partially Implemented	The requirement, in one or several important aspects, is not entirely met.
Not Implemented	The requirement is totally or substantially not met.
Not Applicable	The requirement does not apply to the school district or charter school.

Several key areas of compliance with federal special education requirements and one area under civil rights requirements have been highlighted in **SHADED TEXT** in the Program Review Criteria. These shaded areas are being monitored under the Massachusetts Special Education State Performance Plan and/or reported on in the state's Annual Performance Report, both mandated by the Office of Special Education Programs of the U.S. Department of Education. Some of these highlighted areas may also be areas that the Department of Education is closely monitoring because of concerns identified through a

statewide special education steering committee needs assessment. School districts are reminded that although CPR activities may focus in certain key areas, the Department has the legal obligation under its general supervisory responsibilities to review any or all special education requirements as it deems necessary.

Some IEP goals and objectives were weak, or formulaic. In several records, goals were continued verbatim from the year before, even though progress reports from the prior year indicated the student would achieve his/her goal during the I.E. P. period.

**APPENDIX:
SCHOOL DISTRICT PROFILE INFORMATION**

The information that is provided in this Appendix was drawn from data supplied by the school district or charter school. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. This district-wide information, together with more detailed school building data, is periodically updated by the school district and is available in an ever current form on the Department's internet web site at <http://profiles.doe.mass.edu/> .

School District Profile Information

Introduction

The Massachusetts Department of Education collects a variety of data from schools and districts in the state. Some of the information collected is published in the School and District Profiles. In addition to profiles, users can also view and download school & district directories and data reports. The data reports provide particular data for all schools & districts and can be sorted and/or exported. A "profile" is a snapshot of the data for a specific school/district or charter school.

Organization Types

<u>Approved Special Education Schools</u>	Responsible for providing an education for students with disabilities. A school district (LEA) may place a student in an out-of-state program if it believes that such program is the most appropriate for the student.
<u>Charter School</u>	Public schools that are created by parents, teachers, businesses, and community leaders and have the freedom to organize their activities around a core mission, curriculum, or teaching method. Their autonomy gives them the freedom to create their own budgets and to hire and fire teachers and staff.
<u>Collaborative</u>	Collaboratives are formed through an agreement among two or more school committees to provide education for their member school systems. Agreements must be filed with the Commissioner of DOE. A Board representative of each member school committee manages them.
<u>Private School</u>	A non-publicly funded school that provides educational services directly to attending students.
<u>Public School</u>	Public schools are administered by a Public School District, and provide educational services directly to attending students.
<u>Public School Districts</u>	An administrative unit responsible for managing primary and secondary school services within a defined geographical boundary.

About the Data

Data in Profiles is displayed in four sections:

[Directory Information](#)

[Enrollment/Indicators](#)

[Test Results](#)

[Finance](#) - district level only

Directory Information

Districts view, add, update and delete their own directory information to ensure that the information is as up-to-date and accurate as possible.

DOE Code:

The eight-digit DOE Code following the school or district name is assigned by the Massachusetts Department of Education to every organization listed in the Directory Profiles, including every district and school in the Commonwealth. For districts and schools, the first four digits represent the District Code and the last four digits represent the School Code. Thus the DOE code "02660505" stands for "0266" (Sharon Public Schools) + "0505" (Sharon High).

Prior to the 2001 school year, DOE codes contained six digits (three for the district and three for the school.) With the exception of some special needs schools, the eight-digit codes are the same as the six-digit codes with one zero added before the district code and another zero added before the school code. Thus, Sharon High's old six-digit DOE code was 266505.

Please Note: The DOE Code is not the same as the Institution codes assigned by the College board for SAT and AP results or the NCES code assigned to Massachusetts schools by the U.S. Department of Education.

Grades/Schools:

For districts this section displays the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "PK" indicates the district has pre-kindergarten. Kindergarten starting age indicates the age as of a particular date at which children are eligible to begin kindergarten.

Relationships: (for districts only)

- **Membership - Union:** A "school union" is a group of school systems that are administered by one superintendent.
- **Grade Tuition Agreement:** A town may tuition all their students in a particular grade span into another school system.
- **Membership - Academic Regional:** A regional school district provides educational services to more than one town. For a city/town district, this lists the name(s) of any academic regional district(s) of which the local school district is a member. For an academic regional district, this lists the member cities and towns.
- **Membership - Vocational Regional:** A regional school district provides educational services to more than one town. For a city/town district, this lists the name(s) of any vocational regional district(s) of which the local school district is a member. For a vocational regional district, this lists the member cities and towns.
- **Membership - Independent Vocational:** An independent vocational district is administered by a board of trustees. For a city/town district, this lists the name(s) of any independent vocational district(s) of which the local school district is a member. For an independent vocational district, this lists the member cities and towns. Tuition is charged to out-of-town residents.
- **Membership - County Agricultural:** A county agricultural district is administered by a board of trustees. For a city/town district, this lists the name(s) of any county agricultural district(s) of which the local school district is a member. For a county agricultural district, this lists the member cities and towns.
- **Membership - Collaboratives:** Educational Collaboratives are formed through an agreement among two or more school committees to provide educational programs or services for their member school systems. For a district, this lists the name(s) of any collaboratives of which the district is a member. For a collaborative this lists the member districts.
- **Private Schools located in this city/town:** Lists the private schools located in the city/town.

Organization Characteristics

- **Chapter 74 Approved Vocational Technical Program:** Programs that meet the definition of vocational technical education contained in Massachusetts General Law Chapter 74, Section 1

and are approved by the Department of Education pursuant to c. 74 and the Vocational Technical Education Regulations 603 CMR 4.00 are known as "Chapter-74 approved programs".

- **Charter School Type:**

Commonwealth- A public school that is managed by a board of trustees and operates independently of any school committee under a five-year charter granted by the Board of Education. It has the freedom to organize around a core mission, curriculum, theme, and/or teaching method and to control its own budget and hire (and fire) teachers and staff. In return for this freedom, a charter school must attract students and produce positive results within five years or its charter will not be renewed.

Horace Mann- Operates under the same set of rules as described above, with the following exceptions. First, a Horace Mann charter school must have its charter approved by the local school committee and the local teacher's union in addition to the Board of Education. Second, to the extent provided by their charters, Horace Mann charter schools may be exempt from certain provisions in local collective bargaining agreements. Third, employees of a Horace Mann charter school remain members of the local collective bargaining unit; continue to accrue seniority; and receive, at a minimum, the salary and benefits established by the local collective bargaining agreement.

- **District Operating Status:**

Non-Operating - A town that does not directly operate a school district. The town belongs to a regional school district or pays tuition for their students to attend another school district.

Operating - A city/town that operates its own local school district. It may operate as its own district at some grades, and belong to a regional district or tuition out its students at other grades.

- **District Title I Status:** A district that receives federal Title I funding.

- **District Type:**

Institutional School - State institutional schools that are administered by the DOE.

County Agricultural - Agricultural school district that is administered by a board of trustees.

Independent Public - This category includes Commonwealth Charter Schools, Horace Mann Charter Schools and the Massachusetts Academy of Mathematics and Science.

Independent Vocational - Vocational school district that is administered by a board of trustees.

Local School - District that is administered by a city or town school committee.

Regional Academic - District that is administered by a regional school committee.

Regional Vocational Tech - District that is administered by a regional vocational school committee.

- **Inter-District School Choice:**

Does Not Offer Choice - The local school committee has voted not to accept students from other communities under the School Choice regulations.

Not Accepting New Enrollments - The school district participates in the School Choice program, but is not accepting new students at this time.

Offers Choice - The school district is accepting students from other districts as defined under the School Choice regulations.

- **Out of State School** (Only those out-of-state schools which MA students attend with public funds are listed.):
Private School - a non-public school located outside of Massachusetts.
Public School - a public school located outside of Massachusetts.
- **School Title I Status:**
Non-Title I School - School does not have a Title I program.
Title I School (SW) - School has a Schoolwide Title I program.
Title I School (TA) - School has a Targeted Assistance Title I program.
Title I School (TAP) - School has a Targeted Assistance Title I program and is in the planning year to have a Schoolwide program
- **Special Ed Single Source (Unapproved) Program:** The program has not met program and safety requirements as defined under Massachusetts and federal law.
- **Special Education Approved Program:** The program meets program and safety requirements as defined under Massachusetts and federal law.

Test Results

Massachusetts Comprehensive Assessment System (MCAS):

For all years of the MCAS:

- **Percent of Students at Each Performance Level**, (default view) - Shows percent of students at each performance level for the current year. Select a year to view historical performance level data.
- **MCAS Annual Comparisons** - Shows a graphical display comparing MCAS performance level results over time. Select the icon , or select "MCAS Annual Comparisons" from More MCAS Reports

For 2001 and subsequent years:

- **Participation Results by Grade, Subject** - Shows the number and percent of students participating in the MCAS by each grade and subgroup including regular education students,

students with disabilities, limited English proficient students. (listed under "More MCAS Reports")

- **Results by Race, Gender, Special Education, Low Income & Migratory Status** - Shows number and the percent of students participating in each subgroup by school/district and the percent of students at each performance level. (listed under "More MCAS Reports")
- **Test Item Analysis Data** - Shows average test item score for school/district and state, percent of students answering items correctly, percent of responses for each choice, and the correct multiple-choice answer. (select a "Grade and Subject" from the Percent of Students at Each Performance Level).

Adequate Yearly Progress and Accountability Data

- **For 2003: Cycle III Mid-cycle AYP Determinations**
- **For 2004: Cycle III Accountability Report** - Performance and improvement ratings for public schools

Finance - District level data only

Per Pupil Expenditures: Calculated by dividing a district's operating costs by its average pupil membership. Operating costs include expenditures for administration, instruction, pupil services, transportation, plant maintenance, and fixed charges. These costs do not include capital outlay and long-term interest on school debt. Average pupil membership includes students who receive services in the district's schools, as well as students receiving home or hospital instruction. Data for regular education, special education, bilingual education and vocational education students are provided in addition to the total for all day programs, for the listed school years.
