COORDINATED PROGRAM REVIEW REPORT

Tri-County Regional Vocational Technical High School

OVERVIEW OF COORDINATED PROGRAM REVIEW PROCEDURES

As one part of its Accountability System, the Department of Education oversees local compliance with education requirements through the Coordinated Program Review System (CPR). All reviews include the following selected requirements:

- special education under the federal Individuals with Disabilities Education Act (IDEA-2004), and M.G.L. Chapter 71B (Chapter 766 of the Acts of 1972). Note that until regulations under IDEA-2004 are final, the Department has the responsibility of enforcing regulations under IDEA-1997 that do not conflict with IDEA-2004; therefore both IDEA-1997 regulations and sections of IDEA-2004 are cited in the special education standards.
- federal civil rights requirements under Title VI of the Civil Rights Act of 1964, the Equal Educational Opportunities Act of 1974, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act of 1990, together with related state requirements under M.G.L. Chapter 76, Section 5 (Chapter 622 of the Acts of 1971) and other Massachusetts General Laws.
- targeted standards from the Board of Education's Physical Restraint regulations (603 CMR 46.00).
- targeted standards from the Board of Education's Student Learning Time regulations (603 CMR 27.00).
- targeted standards from the federal McKinney-Vento Homeless Education Assistance Improvements Act of 2001 (included in the No Child Left Behind Act of 2001).
- provisions of M.G.L. c. 71A, the state law that governs the provision of education to limited English proficient students. Note that due to the voters' approval in 2002 of an initiative petition entitled "Question 2," M.G.L. c. 71A has been significantly amended. Under the amended Chapter 71A, limited English proficient students, now referred to as "English learners," must be provided instruction in sheltered English immersion or two-way bilingual programs unless they have received a waiver. As a result of this change in the law, the Department's Coordinated Program Review standards under Chapter 71A were significantly revised for the 2003-2004 school year. All districts that enroll limited English proficient students will be reviewed using these updated standards during the 2005-2006 school year.

Additional program areas reviewed during the Coordinated Program Review visits in selected districts may include:

- Title I of the Elementary and Secondary Education Act of 1965, including other related grants funded by the No Child Left Behind Act of 2001;
- Safe and Drug-Free Schools and Communities Act;
- Career and Technical Education requirements under the federal Perkins Vocational and Technical Education Act and M.G.L. c. 74;
- Innovative assistance programs funded under Title V of the No Child Left Behind Act; and
- Nutrition Programs and Services.

The Department's 2005-2006 schedule of Coordinated Program Reviews is posted on the Department's web site at <<<http://www.doe.mass.edu/pqa/review/cpr/schedule.html>>>. The statewide six-year

Program Review cycle together with the Department's Mid-cycle Special Education follow-up monitoring schedule is posted at <<<http://www.doe.mass.edu/pqa/review/cpr/6yrcycle.html>>>.

Coordinated Program Review Elements

Team: Depending upon the size of a school district and the number of program areas to be reviewed, a team of two to eight Department staff members, together with any necessary outside consultants, conducts a Coordinated Program Review over two to ten days in a school district or charter school.

Scope: Each school district and charter school in the Commonwealth is scheduled to receive a Coordinated Program Review every six years and a mid-cycle special education follow-up visit three years after the Coordinated Program Review; about seventy school districts and charter schools are scheduled for Coordinated Program Reviews in 2005-2006.

Content: The Program Review criteria encompass the required elements for the specific program areas. In the case of special education, the elements selected for the 2005-2006 reviews contain, at a minimum, those required by the federal Office for Special Education Programs (OSEP) and revised requirements included under IDEA-2004 as described in the Department's Special Education Advisories. Additionally, the 2005-2006 reviews incorporate state special education requirements as adopted by the Board of Education and effective on July 1, 2005. The Program Review compliance criteria selected in all of the regulated program areas are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993 and intended to promote high standards and achievement for all students.

Report: The Department's report is based on a review of written documentation and data regarding the operation of the district's programs, together with information gathered through the following Department program review methods:

- Interviews of administrative, instructional, and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives and other interviews as requested by persons from the general public.
- Student record reviews in the program areas of special education, English learner education (c. 71A), Career and Technical Education, and Section 504 (student accommodation plans). A representative sample of student records is selected by the Department. Student records are examined by the onsite team using standard Department student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements. Parents of students with disabilities whose files are selected for the record review, as well as the parents of an equal number of other students with disabilities, are sent a survey that solicits information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements; parents of students with limited English proficiency whose files are selected for the record review are sent a survey of their experiences with the district's implementation of the English learner education program and related procedural requirements.

- Classroom and facilities observation. The onsite team visits a sample of instructional classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

Collaborative programs and services. Where the district is a member of a collaborative approved by the Department of Education and is a site for programs or services operated by the collaborative, interviews, student record review, and classroom and facility observations are conducted for the collaborative.

Ratings. The onsite team gives a rating for each compliance criterion it reviews; those ratings are “Commendable,” “Implemented” (meaning at least substantially implemented), “Implementation in Progress,” “Partially Implemented,” “Not Implemented” (meaning at least substantially not implemented), and “Not Applicable.” “Implementation in Progress” is used for criteria containing new legal requirements and means that the district has implemented any old requirements contained in the criterion and is either training staff or beginning to implement the new requirements in such a way that the onsite team anticipates that the new requirements will be implemented by the end of the school year.

Findings. The onsite team includes a finding for each criterion that it rates “Commendable,” “Partially Implemented,” or “Not Implemented,” explaining the basis for the rating. It may also include findings for other criteria.

Executive Summary. Organized by the report components described on the next page, the Executive Summary summarizes the report’s major findings for each program reviewed

Response: Where criteria are not implemented fully, the local district or charter school must propose corrective actions to bring those areas into compliance with the respective statutes or regulations. These corrective actions are subject to the Department’s review and approval. **School districts and charter schools must demonstrate effective resolution of noncompliance identified by the Department as soon as possible but in no case later than one year from the issuance of the Department’s Final Program Review Report.**

The Department believes that the Coordinated Program Review process is a positive experience and that the Final Report is a helpful planning document for the continued development and improvement of programs and services in each school district, charter school, and educational collaborative.

REPORT INTRODUCTION

A seven-member Massachusetts Department of Education team visited Tri-County Regional Vocational Technical High School during the week of May 1, 2006 to evaluate the implementation of selected criteria in the program areas of Special Education, Civil Rights, English Learner Education, Career/Vocational Technical Education, Safe and Drug Free Schools and Communities Act, Title I, and Nutrition. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Tri-County Regional Vocational Technical High School. These areas are as follows:

It is evident that the district has high standards for the individual academic and vocational success of students and incorporates the principals set forth in its involvement of High Schools That Work. Programming is developed and based on each student's interests and goals, and is consistently reviewed and evaluated for effectiveness. All students are respected and accepted for their individuality rather than identified by their abilities or disabilities. These practices promote and provide a collaborative educational environment that is welcoming, safe and fully integrated.

The district offers a variety of support services and programs. Particularly of note are the Homework Center, the Power Schools Website, and transportation that is provided to students from school to their hometowns after support services and extra-curricular activities. All students are required to participate in the Senior Project as a graduation requirement.

Teachers are held to high standards as well. The district offers a wide array of professional development opportunities and staff are included on numerous district committees and task forces.

The district is fully utilizing self-assessment tools, data collection and statistical analysis to determine and target areas of need and achievement along with soliciting input in many ways from teachers, students and parents regarding the effectiveness of the changes. One result of this will be the creation of the Integrated Occupations program which will begin in the fall of 2006.

Decisions regarding the design and evaluation of the Title I program are data driven. Results of the evaluation show that 79% of the participating students who did not pass the grade 8 mathematics MCAS test, passed the grade 10 test.

In addition to Title I instruction in mathematics during the school day, there is a wide spectrum of in-school and extended day services for students at the school who are at risk of not passing the MCAS in mathematics.

Some of the commendations noted above are repeated within the body of the Department's report under the appropriate compliance criteria.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of following Department program review methods:

- Interviews of nine administrative staff.
- Interviews of 50 teaching and support services staff across all levels.

- Interviews of two parent advisory council (PAC) representatives, one Title I parent representative, three Career and Technical Education parent representatives and six Advisory Committee members, and one Safe and Drug Free Schools and Communities Act parent representative.
- Interviews of 27 student representatives.
- Interviews of three persons from the general public, including Cooperative Education site personnel.
- Student record reviews: A sample of 30 special education student records and 30 vocational student records were selected by the Department. Student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department of Education student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements.
- Parent surveys: 60 parents of students with disabilities were sent surveys that solicited information regarding their experiences with the district's implementation of special education programs, related services and procedural requirements. 29 of these parent surveys were returned to the Department of Education for review by the onsite team.
- Observation of classrooms and other facilities. A sample of eight instructional classrooms and all of the vocational shops used in the delivery of programs and services were visited to determine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components . These components are listed in the executive summary on the following pages. The findings in each program area explain the "ratings," determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially "Implemented" or implemented in a "Commendable" manner. (Refer to the "Definition of Terms" section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as "Implemented" but made a specific comment on the district's implementation methods that also may require response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plans.

COORDINATED PROGRAM REVIEW REPORT

EXECUTIVE SUMMARY

Tri-County Regional Vocational Technical High School

The following summary organized under each of the nine overarching Coordinated Program Review components synthesizes the findings for criteria included in the Coordinated Program Review as they respond to essential questions that the Department has formulated for each of the components of the report. Note that a more detailed discussion of the onsite team's findings, together with the specific legal standards for each program area included in this review, follows this summary.

Component I: Assessment of Students

Has the district implemented an assessment system that uses appropriate instruments, is conducted according to the specified timelines, and covers the appropriate content areas to determine instructional needs of students?

Assessments are appropriately selected and interpreted for students referred for evaluation and the assessment results are used to develop the Individualized Education Program (IEP). Appropriately credentialed and certified personnel conduct evaluations. All students take part in mandated state assessments, test results are carefully reviewed and efforts are made to improve student performance. Student transition needs are discussed annually and are developed and integrated into student IEPs and courses of study, including the Senior Project graduation requirement.

The district does not consistently adhere to the mandated timelines for determination of eligibility for special education and for providing the proposed IEP or notice of ineligibility to the parent, although this is an area that has improved. A regular education teacher is not always present at the Team meetings.

The record review indicated that three-year evaluations are not always completed within regulated timeframes. Progress reports are issued as often as student report cards but they do not always give specific information regarding the progress being made on the IEP goal.

The district needs to continue the development of a formal system to identify, classify and evaluate (using approved tests and administered by qualified staff) each student upon enrollment, to determine appropriately if the student is limited-English-proficient.

The district uses students' MCAS results and the Stanford 9 to determine the instructional needs of students.

Not all incoming students are provided with career/vocational assessments. Specifically, students placed in the human services alternative education program are not assessed for career interest and aptitude.

Component II: Student Identification and Program Placement

Has the district followed procedures for student identification and placement into the program according to the criteria specified in law and/or regulations?

The district follows procedures for student identification and placement. A curriculum accommodation plan exists and a Student Based Support Team will meet to consider the need for student supports and/or recommend helpful strategies to teachers in assisting students in their learning. Needed classroom modifications and effective teaching techniques are documented for all students and there exists a strong commitment to educating students in the least restrictive setting. The district adheres to the current structured learning time.

IEPs are written in generally understandable language, contain measurable annual goals and comprehensive summaries of student strengths and assessment results; however, the proposed IEP is not consistently sent to parents within required timelines. Teachers are not always aware of their specific responsibilities related to the implementation of the student's IEP.

The district does not currently have procedures to seek and identify limited English proficient students, or staff who are qualified to identify students who are limited-English-proficient and to assess their level of English proficiency.

There is not an established plan to provide program modifications and support services to serve limited-English-proficient students that is consistent with regulatory requirements and teachers have not been trained in sheltered English immersion. Although the district has translated information into languages other than English, there is no consistent policy or procedure to ensure that communications are in English and in the primary language of the home.

Written program exit criteria, procedures, and appropriate forms to document the student's progress and the decision to exit the student from the ELL program have not been developed. Waiver procedures and waiver forms do not adhere to regulated requirements.

The district has followed all procedures for student identification and placement into the Title I program according to the criteria specified in the regulations.

While the school has a comprehensive vocational exploratory program, the school enrolled students with disabilities in a human services alternative education program and placed them directly into the human services program without participating in the exploratory program. Based on interviews, the worksite experiences for students in the human services alternative education program are not comparable to those for students without disabilities

Component III: Parental Involvement

Has the district ensured that parents are notified in the appropriate language and are involved in decisions regarding their children's programs and services? Where appropriate, does the district involve community representatives in shaping programs?

Although there are staff in the district who have, on occasion, translated pertinent information for families or who may have interpreted for parents in meetings, there is no consistent policy or procedure to ensure that communications are in English and in the primary language of the home.

The district has established a Parent Advisory Council with by-laws and officers that conduct regularly scheduled meetings throughout the school year to provide the district with input on special education programs.

Parents are participating in meetings and notices are sent to parents regarding evaluations, parental consent and Team meetings according to the federally mandated timelines, and contain all required information. Teachers are not always notified when an IEP has been signed by the parent and therefore, services may be provided without consent. Parents receive the Notice of Procedural Safeguards annually and the district attempts to resolve disputes quickly.

The district has not developed a plan or mechanism for including parents or guardians of limited English proficient (LEP) students in matters pertaining to their children's education.

The district effectively maintains consultation with community agencies, parents, students, the Franklin police and fire departments, Board of Health, the District Attorney's Office, staff, students, counselors, administrators, nurses and parents in the development and implementation of the SDFS program and activities. There is evidence that the district promotes parent involvement and parents have participated in focus group/ meetings regarding the prevalence of drugs and violence among youth in the community.

Title I Parents are notified in the appropriate language and are involved in decisions regarding their children's program and services. Parents are surveyed each year to provide input into the development of the program.

There are active SDFS program advisory committees and a strong school-wide general advisory committee. Members are actively involved in identifying vocational program needs and making suggestions for improvements.

Component IV: Curriculum and Instruction

Does the district hold all students to high expectations and standards? Are programs designed to maximize student performance and students' participation in the general curriculum? Is curriculum throughout the district's programs based on the Massachusetts Curriculum Frameworks? Has the district provided for coordination across program areas?

All students are held to high expectations and all receive instruction based on the Massachusetts Curriculum Frameworks. The school provides a wide spectrum of in-school and extended day services for students who are at risk of not passing the MCAS in mathematics. Programs are designed to maximize student performance and students' participation in the general curriculum, and are designed to foster the inclusion of students within regular education. The district strives to provide a continuum of services and placements for special education students. Special education programs are implemented according to specific regulatory requirements with respect to class size, age spans within classes and staffing ratios; however, the district should carefully monitor these areas as there are classes that are close to maximum for class size and staffing ratios. The district provides the required hours of structured learning time for all students.

The district's extracurricular activities are accessible to all students and do not exclude students on the basis of race, sex, color, religion, national origin, sexual orientation, disability, or homelessness.

The district has not developed policies and procedures regarding the instructional grouping of LEP students and LEP students are not receiving English language development instruction.

The SDFS coordinator provides coordination with all Program Directors/Coordinators under NCLB. There was evidence that teachers are using the Vocational Technical Education Frameworks.

Component V: Student Support Services

Has the district ensured that all students have equal access to programs and services? Does the district provide support to students who need it?

All students receiving special education have an equal opportunity to participate in and, if appropriate, receive credit for the vocational, supportive, or remedial services that may be available as part of the general education program, as well as the non-academic and extracurricular programs of the school. Related services are routinely provided to special education students.

The district has a student handbook and a code of conduct. There is a nondiscrimination policy that is consistent with M.G.L. c. 76, s. 5, and affirms the school's non-tolerance for harassment based on race, color, national origin, sex, religion, or sexual orientation. The handbook also contains the school's procedure for accepting, investigating and resolving complaints alleging discrimination or harassment; and the disciplinary measures that the school may impose if it determines that harassment or discrimination has occurred.

The district implements discipline and suspension procedures that are routinely monitored by the special education department to ensure procedural protections are afforded to students; however, written procedures to address the discipline of students with Section 504 Accommodation Plans need to be included.

Scholarships, prizes and awards sponsored or administered by the district are free of restrictions based upon race, color, sex, religion, national origin, sexual orientation or disability.

English Language Learners, Special Education students and homeless students are selected for the Title I program using the same criteria.

While enrollment improves for females pursuing vocational programs that prepare them for careers that are nontraditional for their gender, very few males are enrolled in, or complete programs that prepare them for careers that are nontraditional for their gender.

Component VI: Faculty, Staff and Administration

Does the district maintain certified staff in the specific program areas, provide supervision of aides and tutors, and provide ongoing professional development? Are program leadership and oversight effective? Are the district's personnel procedures non-discriminatory and does it seek to recruit employees from all groups?

There is administrative oversight and monitoring district-wide regarding compliance with the federal and state special education laws and the appropriate implementation of all aspects of the IEP process. The program areas have effective leadership that promotes consistency in program areas in all schools within the district. All special education personnel and related service providers meet credentialing requirements and hold appropriate licensure for the content areas they teach.

The district has developed a District Curriculum Accommodation Plan to ensure that all efforts have been made to meet the needs of diverse learners in the general education classroom. In the area of civil rights, personnel policies and procedures, staff recruitment, employment applications and hiring practices are nondiscriminatory.

Staff training has occurred on the confidentiality of student records. Training regarding civil rights responsibilities is conducted on an annual basis for all school personnel. The district provides

professional development opportunities for vocational staff members on an ongoing basis; however, not all paraprofessionals and assistants have received sufficient training to assist in the provision of special education services and related services.

The district does not have an ESL certified teacher during structured learning time, or any teachers who are trained in Sheltered English Immersion. The district is developing a professional development plan to address the provision of high quality instruction for LEP students. Currently, appropriate teachers have not received ongoing professional development training regarding the instruction of LEP students.

The Title I mathematics teacher is currently certified in mathematics, grades 7-12.

Vocational Staff are appropriately licensed. The district provides a mentoring program for new teachers and there are extensive professional development opportunities for teachers and staff.

Component VII: School Facilities

Does the district maintain accessible facilities that are conducive to learning, facilitate integration, and provide equal opportunity for students to achieve?

The district takes great pride in their building and promotes an educational environment that is conducive to learning for all students. The facilities are welcoming of all students and classroom placement promotes and maximizes integration. All classrooms are comparable in size, condition, number and location for all students in the district and provide equal access and opportunity to all students.

Facilities used by Title I are accessible and are conducive to learning and provide equal opportunity for students to achieve.

A safety expert from the Massachusetts Department of Labor – Division of Occupational Safety (DOS) inspected the schools facilities. The safety report on the inspections was sent to Superintendent Jones on May 15, 2006. There were 51 items identified for corrective action.

Component VIII: Program Plan and Evaluation

Does the district evaluate its programs in accordance with statutory and regulatory requirements? Does it use the results of its evaluations to improve programs? Do parents have opportunities for input on program needs, program implementation, and program evaluation and improvement?

The district evaluates the effectiveness of its special education program, services and administrative areas in accordance with statutory and regulatory requirements and uses the information gathered in the evaluation process to improve programs or to develop programs to meet an identified need. Parents are afforded opportunities for input on program needs, program implementation, and program evaluation and improvement?

The district reviews all educational materials for simplistic and demeaning generalizations and evaluates, in an ongoing manner, all aspects of its programs to ensure that all students regardless of race, color, sex, religion, national origin, limited English proficiency, sexual orientation, disability or housing status have equal access to all programs and extracurricular activities.

The district has a well-developed process in place to determine the current level of substance abuse and violence problems among students in the community. The district has established goals and

measurable objectives for its prevention programs that address the needs identified by the objective analysis. Programs are crafted on scientifically based research and evaluation that demonstrate evidence of program effectiveness in reducing and preventing drug use and disruptive behaviors among youth. There is no evaluation plan for the SDFS program and evaluation results are not currently made available to the public.

The district evaluates its programs according to regulatory requirements and includes considerable data to document the program's success. Results of the evaluations show that 79% of the students who did not pass the grade 8 mathematics MCAS test, passed the grade 10 test. Input from parents and staff is solicited to evaluate the program each year.

There is a strong focus on collecting data and using data to determine vocational program improvements

Component IX: Record keeping

Does the district maintain required records and documentation for each program area? Are entitlement grants appropriately designed, amended, and locally monitored? Does the district use federal grant funds in accordance with statutory fund-use rules, including "supplement not supplant" provisions where applicable? Does the district meet applicable maintenance of effort requirements?

The district has established effective practices for maintaining required records and documentation; however, ELE student records are not complete and do not contain all of the required assessment data. Entitlement grants are appropriately designed, amended when necessary and monitored locally.

Appropriate SDFS accounting documentation was found, budget procedures are in place and approved budgets and amendments are on file. Expenditures are strictly related to the intent of the grant. Tri-County Regional Vocational High School conveys a clear message that acts of violence and illegal drug use are wrong and harmful. The town of Franklin Public Safety officials in partnership with Tri-County Regional Administrators have developed an exemplary Critical Response Program.

Records for the Title I program are well maintained. Entitlement grants are appropriately designed, amended and monitored. There is a situation where instruction by the Title I teachers is supplanting mathematics instruction for four students. The district meets applicable maintenance of effort requirements.

Vocational student records contain all required documentation.

**DEFINITION OF TERMS FOR COMPLIANCE RATINGS
FOR THE RATING OF EACH COMPLIANCE CRITERION**

Commendable	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
Implemented	The requirement is substantially met in all important aspects.
Implementation in Progress	The requirement includes one or more new federal special education (IDEA-2004) requirements that became effective during the 2005-2006 academic year. The district or charter school has substantially implemented any pre-July 1, 2005 requirements also included under the criterion and is currently engaged in staff training and/or is beginning implementation practices for new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the 2005-2006 school year.
Partially Implemented	The requirement, in one or several important aspects, is not entirely met.
Not Implemented	The requirement is totally or substantially not met.
Not Applicable	The requirement does not apply to the school district or charter school.

Several key areas of compliance with federal special education requirements and one area under civil rights requirements have been highlighted in **SHADED TEXT** in the Program Review Criteria. These shaded areas are being monitored under the Massachusetts Special Education State Performance Plan and/or reported on in the state's Annual Performance Report, both mandated by the Office of Special Education Programs of the U.S. Department of Education. Some of these highlighted areas may also be areas that the Department of Education is closely monitoring because of concerns identified through a statewide special education steering committee needs assessment. School districts are reminded that although CPR activities may focus in certain key areas, the Department has the legal obligation under its general supervisory responsibilities to review any or all special education requirements as it deems necessary.

	Rating: Partially Implemented District Response Required: Yes

Department of Education Findings:

Documentation and interviews indicated that while academic and career interest and career aptitude assessments administered to incoming students are used in planning most students' academic and technical program of study, students who are placed in the human services alternative education program are not assessed for career interest and career aptitude. Thus, career interest and career aptitude assessments are not used in planning the program of study for these students.

The criteria in this component of the Coordinated Program Review examine whether the School Food Authority ensures that the requirements for participation in the National School Lunch, School Breakfast, Special Milk and Commodity School Programs are being implemented. These requirements specify program responsibilities of local officials in the areas of program administration, preparation and service of nutritious meals, use of program funds, program monitoring, reporting and record keeping. The findings included in this section of the report have been made through on-site activities completed by the Department's Nutrition Programs and Services team member.

**APPENDIX:
SCHOOL DISTRICT PROFILE INFORMATION**

The information that is provided in this Appendix was drawn from data supplied by the school district or charter school. The Department's visiting team carefully reviewed this data as part of its planning for the onsite visit and in preparing this Coordinated Program Review Report. This district-wide information, together with more detailed school building data, is periodically updated by the school district and is available in an ever current form on the Department's internet web site at <http://profiles.doe.mass.edu/>.

School District Profile Information

Introduction

The Massachusetts Department of Education collects a variety of data from schools and districts in the state. Some of the information collected is published in the School and District Profiles. In addition to profiles, users can also view and download school & district directories and data reports. The data reports provide particular data for all schools & districts and can be sorted and/or exported. A "profile" is a snapshot of the data for a specific school/district or charter school.

Organization Types

<u>Approved Special Education Schools</u>	Responsible for providing an education for students with disabilities. A school district (LEA) may place a student in an out-of-state program if it believes that such program is the most appropriate for the student.
<u>Charter School</u>	Public schools that are created by parents, teachers, businesses, and community leaders and have the freedom to organize their activities around a core mission, curriculum, or teaching method. Their autonomy gives them the freedom to create their own budgets and to hire and fire teachers and staff.
<u>Collaborative</u>	Collaboratives are formed through an agreement among two or more school committees to provide education for their member school systems. Agreements must be filed with the Commissioner of DOE. A Board representative of each member school committee manages them.
<u>Private School</u>	A non-publicly funded school that provides educational services directly to attending students.
<u>Public School</u>	Public schools are administered by a Public School District, and provide educational services directly to attending students.
<u>Public School Districts</u>	An administrative unit responsible for managing primary and secondary school services within a defined geographical boundary.

DOE Code:

The eight-digit DOE Code following the school or district name is assigned by the Massachusetts Department of Education to every organization listed in the Directory Profiles, including every district and school in the Commonwealth. For districts and schools, the first four digits represent the District Code and the last four digits represent the School Code. Thus the DOE code "02660505" stands for "0266" (Sharon Public Schools) + "0505" (Sharon High).

Prior to the 2001 school year, DOE codes contained six digits (three for the district and three for the school.) With the exception of some special needs schools, the eight-digit codes are the same as the six-digit codes with one zero added before the district code and another zero added before the school code. Thus, Sharon High's old six-digit DOE code was 266505.

Please Note: The DOE Code is not the same as the Institution codes assigned by the College board for SAT and AP results or the NCES code assigned to Massachusetts schools by the U.S. Department of Education.

Grades/Schools:

For districts this section displays the number and grade range of elementary, middle/junior high and high schools in the district, as well as the total number of schools in the district and the grade range of the school system. An elementary range beginning with "PK" indicates the district has pre-kindergarten. Kindergarten starting age indicates the age as of a particular date at which children are eligible to begin kindergarten.

Organization Characteristics

- **Chapter 74 Approved Vocational Technical Program:** Programs that meet the definition of vocational technical education contained in Massachusetts General Law Chapter 74, Section 1 and are approved by the Department of Education pursuant to c. 74 and the Vocational Technical Education Regulations 603 CMR 4.00 are known as "Chapter-74 approved programs".

- **Charter School Type:**

Commonwealth- A public school that is managed by a board of trustees and operates independently of any school committee under a five-year charter granted by the Board of Education. It has the freedom to organize around a core mission, curriculum, theme, and/or teaching method and to control its own budget and hire (and fire) teachers and staff. In return for this freedom, a charter school must attract students and produce positive results within five years or its charter will not be renewed.

Horace Mann- Operates under the same set of rules as described above, with the following exceptions. First, a Horace Mann charter school must have its charter approved by the local school committee and the local teacher's union in addition to the Board of Education. Second, to the extent provided by their charters, Horace Mann charter schools may be exempt from certain provisions in local collective bargaining agreements. Third, employees of a Horace Mann charter school remain members of the local collective bargaining unit; continue to accrue seniority; and receive, at a minimum, the salary and benefits established by the local collective bargaining agreement.

- **District Operating Status:**

Non-Operating - A town that does not directly operate a school district. The town belongs to a regional school district or pays tuition for their students to attend another school district.
