COORDINATED PROGRAM REVIEW REPORT**

Northampton Public School District

SCOPE OF COORDINATED PROGRAM REVIEWS

As one part of its accountability system, the Department of Elementary and Secondary Education oversees local compliance with education requirements through the Coordinated Program Review (CPR). All reviews cover selected requirements in the following areas:

Special Education (SE)

- selected requirements from the federal Individuals with Disabilities Education Act (IDEA-2004), the federal regulations promulgated under that Act at 34 CFR Part 300, M.G.L. c. 71B, and the Massachusetts Board of Education's Special Education regulations (603 CMR 28.00), as amended effective March 1, 2007. The 2008-2009 reviews will focus primarily on criteria containing requirements that are highlighted in the Massachusetts State Performance Plan and reported on every year to the Office of Special Education Programs of the U.S. Department of Education.

Civil Rights Methods of Administration and Other General Education Requirements (CR)

- selected federal civil rights requirements, including requirements under Title VI of the Civil Rights Act of 1964, the Equal Educational Opportunities Act of 1974, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act of 1990, together with selected state requirements under M.G.L. c. 76, Section 5.
- selected requirements from the Massachusetts Board of Education's Physical Restraint regulations (603 CMR 46.00).
- selected requirements from the Massachusetts Board of Education's Student Learning Time regulations (603 CMR 27.00).
- various requirements under other federal and state laws.

English Learner Education (ELE) in Public Schools

- selected requirements from M.G.L. c. 71A, the state law that governs the provision of education to limited English proficient students, and 603 CMR 14.00, as well as the No Child Left Behind Act of 2001 and Title VI of the Civil Rights Act of 1964. During the 2008-2009 school year, all districts that enroll limited English proficient students will be reviewed using a combination of updated standards and a self-assessment instrument overseen by the Department's Office of Language Acquisition and Academic Achievement (OLAAA), including a request for information regarding ELE programs and staff qualifications.

Some reviews also cover selected requirements in:

Career/Vocational Technical Education (CVTE)

- career/vocational technical education programs under the federal Carl D. Perkins Vocational and Technical Education Act of 1998 and M.G.L. c. 74.

Districts providing Title I services participate in Title I program monitoring during the same year they are scheduled for a Coordinated Program Review. Details regarding the Title I program monitoring process are available at: <http://www.doe.mass.edu/titlei/monitoring>.

COORDINATED PROGRAM REVIEW ELEMENTS

Team: Depending upon the size of a school district and the number of programs to be reviewed, a team of two to eight Department staff members conducts a Coordinated Program Review over two to ten days in a school district or charter school.

Timing: Each school district and charter school in the Commonwealth is scheduled to receive a Coordinated Program Review every six years and a mid-cycle special education follow-up visit three years after the Coordinated Program Review; about sixty school districts and charter schools are scheduled for Coordinated Program Reviews in 2008-2009. The Department's 2008-2009 schedule of Coordinated Program Reviews is posted on the Department's web site at <http://www.doe.mass.edu/pqa/review/cpr/cprschedule09.doc>. The statewide six-year Program Review cycle, including the Department's Mid-cycle follow-up monitoring schedule, is posted at <<<http://www.doe.mass.edu/pqa/review/cpr/6yrcycle.html>>>.

Criteria: The Program Review criteria for each program encompass the requirements selected for possible review. Within special education, reviews focus primarily on the 19 criteria marked by a triple asterisk (***) in the School District Information Package for Special Education. These 19 criteria mostly contain requirements that are highlighted in the Massachusetts State Performance Plan. Based on feedback, the Department agreed to add an additional 28 criteria to those Coordinated Program Reviews conducted during the period of March to June of 2009. In any review, however, if circumstances warrant it, the Department may monitor additional special education criteria. For more details, please see the section on **Special Education Program Review Criteria** at the beginning of the School District Information Package for Special Education.

Methods: Methods used in reviewing programs include:

- Review of documentation about the operation of the charter school or district's programs.
- Interviews of administrative, instructional, and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives and other telephone interviews as requested by other parents or members of the general public.
- Review of student records for special education (and for student accommodation plans under Section 504), English learner education, and career/vocational technical education. The Department selects a representative sample of student records for the onsite team to review, using standard Department procedures, to determine whether procedural and programmatic requirements have been implemented.
- Surveys of parents of students with disabilities and parents of English learners. Parents of students with disabilities whose files are selected for the record review, as well as the parents of an equal number of other students with disabilities, are sent a survey that solicits information regarding their experiences with the district's implementation of

special education programs, related services, and procedural requirements; parents of English learners whose files are selected for the record review are sent a survey of their experiences with the district's implementation of the English learner education program and related procedural requirements.

- Observation of classrooms and other facilities. The onsite team visits a sample of classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

Note on collaborative programs and services. Where the district is a member of a collaborative approved by the Department of Elementary and Secondary Education and is a site for programs or services operated by the collaborative, interviews, student record review, and observation of classrooms are conducted for the collaborative.

Report: Preparation:

At the end of the onsite visit, the onsite team will hold an informal exit meeting to summarize its Findings for the superintendent or charter school leader and anyone else he or she chooses. Within approximately 45 business days of the onsite visit, the onsite chairperson will forward to the superintendent or charter school leader (and collaborative director where applicable) a Draft Report containing comments from the Program Review. These comments will, once the district has had a chance to respond, form the basis for any findings by the Department. The district (and collaborative) will then have 10 business days to review the report for accuracy before the publication of a Final Report with ratings and findings (see below). The Final Report will be issued within approximately 60 business days of the conclusion of the onsite visit and posted on the Department's website at <http://www.doe.mass.edu/pqa/review/cpr/reports/>.

Content of Final Report:

Ratings. In the Final Report, the onsite team gives a rating for each compliance criterion it has reviewed; those ratings are "Commendable," "Implemented," "Implementation in Progress," "Partially Implemented," "Not Implemented," and "Not Applicable." "Implementation in Progress," used for criteria containing new legal requirements, means that the district has implemented any old requirements contained in the criterion and is training staff or beginning to implement the new requirements in such a way that the onsite team anticipates that the new requirements will be implemented by the end of the school year.

Findings. The onsite team includes a finding in the Final Report for each criterion that it rates "Commendable," "Partially Implemented," or "Not Implemented," explaining the basis for the rating. It may also include findings for other criteria.

Response: Where criteria are found "Partially Implemented" or "Not Implemented", the district or charter school must propose corrective action to bring those areas into compliance with the relevant statutes and regulations. This corrective action plan (CAP) will be due to the Department within 20 business days after the issuance of the Final Report and is subject to the Department's review and approval. Department staff will offer districts and charter schools technical assistance on the content and requirements for developing an approvable CAP.

Department staff will also provide ongoing technical assistance as the school or district is implementing the approved corrective action plan. **School districts and charter schools**

must demonstrate effective resolution of noncompliance identified by the Department as soon as possible but in no case later than one year from the issuance of the Department's Final Program Review Report.

The Department believes that the Coordinated Program Review is a positive experience and that the Final Report is helpful in planning for the continued improvement of programs and services in each school district, charter school, and educational collaborative.

INTRODUCTION TO THE FINAL REPORT

A three-member Massachusetts Department of Elementary and Secondary Education team visited the Northampton Public School District during the week of May 4, 2009, to evaluate the implementation of selected criteria in the program areas of special education, civil rights and other related general education requirements, and English learner education. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of the following Department program review methods:

- Interviews of ten administrative staff.
- Interviews of 40 teaching and support services staff across all levels.
- Interviews of five parent advisory council (PAC) representatives.
- Sixteen interviews as requested by persons from the general public.
- Student record reviews: Samples of 25 special education student records and 15 English learner education student records were selected by the Department. These student records were first examined by local staff, whose comments were then verified by the onsite team using standard Department record review procedures.
- Surveys of parents of students with disabilities: 75 parents of students with disabilities were sent surveys that solicited information about their experiences with the district's implementation of special education programs, related services and procedural requirements. Thirty-two of these parent surveys were returned to the Department of Elementary and Secondary Education for review.
- Surveys of parents of ELE students: 25 parents of ELE students were sent surveys that solicited information about their experiences with the district's implementation of English learner education programs, services, and procedural requirements. Two of these parent surveys were returned to the Department of Elementary and Secondary Education for review.
- Observation of classrooms and other facilities. A sample of 37 instructional classrooms and other school facilities used in the delivery of programs and services was visited to examine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components. These components are:

- Component I: Assessment of Students**
- Component II: Student Identification and Program Placement**
- Component III: Parent and Community Involvement**
- Component IV: Curriculum and Instruction**
- Component V: Student Support Services**
- Component VI: Faculty, Staff and Administration**
- Component VII: School Facilities**
- Component VIII: Program Evaluation**
- Component IX: Recordkeeping and Fund Use**

The findings in each program area explain the “ratings,” determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially “Implemented” or implemented in a “Commendable” manner. (Refer to the “Definition of Compliance Ratings” section of the report.) Where criteria were found to be either “Partially Implemented” or “Not Implemented,” the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as “Implemented” or “Implementation in Progress” but made a specific comment on the district’s implementation methods that also requires response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plans.

DEFINITION OF COMPLIANCE RATINGS

Commendable	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
Implemented	The requirement is substantially met in all important aspects.
Implementation in Progress	The requirement includes one or more new federal special education requirements that became effective with the federal regulations on October 13, 2006. The district or charter school has implemented any previous requirements included in the criterion and is currently engaged in staff training and/or is beginning implementation practices for new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the 2007-2008 school year.
Partially Implemented	The requirement, in one or several important aspects, is not entirely met.
Not Implemented	The requirement is totally or substantially not met.
Not Applicable	The requirement does not apply to the school district or charter school.

Department of Elementary and Secondary Education Findings:

A review of student records, interviews and parent surveys indicate that the program selected is not the least restrictive environment for students, with consideration given to any potential harmful effect on the student or on the quality of services that he or she needs. The district has minimal academic supports for students in reading, as well as in content area classes. Non-Participation Justification Statements in the IEPs do not explain why the removal is considered critical to the student's program and the basis for its conclusion that education of the student in a less restrictive environment, with the use of supplementary aids and services, could not be achieved satisfactorily.

Staff report that placement decisions are determined by the administrator of special education and are based on the availability of placements, programs, services, and supports, not evaluation data and individual student needs.

Department of Elementary and Secondary Education Findings:

A review of student records, and staff and parent interviews indicate that the school district does not always provide the mutually agreed upon services without delay upon acceptance of the IEP by the parent, and the district does not have an IEP in effect at the beginning of the school year for each eligible student within its jurisdiction.

Interviews indicate that not all teachers and providers described in the IEP are informed of their specific responsibilities related to the implementation of the student's IEP and the specific accommodations, modifications, and supports that must be provided for the student under it.

Interviews and parent surveys indicate that when related services are interrupted for extended periods of time the school district does not inform parents in writing of any delayed services, reasons for delay, actions that the school district is taking to address the lack of space or personnel or offer alternative methods to meet the goals on the accepted IEP. Nor does the district, upon agreement of the parents, implement alternative methods immediately until the lack of space or personnel issues are resolved.

Written parental consent is obtained before conducting a reevaluation and before placing a student in a special education placement subsequent to the initial placement in special education. 2. The school district obtains consent before initiating extended evaluation services. 3. The school district obtains consent to the services proposed on a student’s IEP before providing such services. 4. A parent is informed that consent may be revoked at any time. Except for initial evaluation and initial placement, consent may not be required as condition of any benefit to the child. 5. When the participation or consent of the parent is required and the parent fails or refuses to participate, the attempts to secure the consent of the parent are implemented through multiple attempts using a variety of methods which are documented by the district. Such efforts may include letters, written notices sent by certified mail, electronic mail (e-mail), telephone calls, or, if appropriate, TTY communications to the home, and home visits at such time as the parent is likely to be home. Efforts may include seeking assistance from a community service agency to secure parental participation. 6. If, subsequent to initial evaluation and initial placement and after following the procedures required by the regulations, the school district is unable to obtain parental consent to a reevaluation or to placement in a special education program subsequent to the initial placement, or the parent revokes consent to such reevaluation or placement, the school district considers with the parent whether such action will result in the denial of a free appropriate public education to the child. If, after consideration, the school district determines that the parent’s failure or refusal to consent will result in a denial of a free appropriate public education to the student, it seeks resolution of the dispute through Special Education Appeals. <p>State Requirements 603 CMR 28.07(1)</p> <p>Federal Requirements 34 CFR 300.300</p>

Department of Elementary and Secondary Education Findings:

A review of documentation, student records, staff and parent interviews and parent surveys indicate that there are several gaps in the continuum that prevent the district from providing supports and services to special needs students. The district lacks co-teaching, inclusion and resource room support options at all levels. The district is also in need of reading and behavioral therapeutic supports for special education students at all levels. In addition, Teams do not routinely consider or discuss students' vocational needs, services or vocational opportunities at the high school level when developing IEPs because the district does not have vocational services or vocational opportunities for students who have been denied admission into the local vocational school.

Documentation of monitoring plans and all actual monitoring are placed in the files of every eligible student who has been placed out-of-district. To the extent that this monitoring requires site visits, such site visits are documented and placed in the students' files for review. The duty to monitor out-of-district placements is not delegated to parents or their agents, to the Department of Elementary and Secondary Education, or to the out-of-district placement. 2. <u>Student right to full procedural protections</u>: The school district retains full responsibility for ensuring that the student is receiving all special education and related services in the student's IEP, as well as all procedural protections of law and regulation. Any Team meetings conducted during the time that a student is enrolled in the out-of-district program are initiated by the school district in coordination with the out-of-district placement. 3. <u>Preference to approved programs</u>: The school district, in all circumstances, first seeks to place a student in a program approved by the Department pursuant to the requirements of 603 CMR 28.09. Preference is also given to approved programs located within the Commonwealth of Massachusetts if the choice of such program is consistent with the needs of the student and the choice of such program complies with LRE requirements. When an approved program is available to provide the services on the IEP, the district makes such placement in the approved program in preference to any program not approved by the Department. 4. <u>Written contracts</u>: The school district enters into written contracts with all public and private out-of-district placements. At a minimum, such contracts meet the content requirements of 28.06(3)(f)(1-5). 5. <u>Use of unapproved programs</u>: A school district that places a student in a program that has not been approved by the Department according to the requirements under 603 CMR 28.09 ensures that such programs and services are provided in appropriate settings by appropriately credentialed staff able to deliver the services on the student's IEP. Such evaluation determines whether the unapproved facility can appropriately implement the student’s IEP in a safe and educationally appropriate environment. Such evaluation additionally determines whether the unapproved facility can and will provide the student with all the rights that are accorded to the student under state and federal special education law. Such evaluation is documented in detail and placed in the student record for review. To the extent that this evaluation requires a site visit, such site visits are documented and placed in the student record for review. Interviews at all levels indicate that while the district has designated educational Team liaisons, they do not have the authority to commit the resources of the district and frequently reschedule Team meetings and seek approval from the administrator of special education regarding services, programs and placements. Interviews also found that individuals who are qualified to interpret the instructional implications of evaluation results are not always in attendance at Team meetings. A review of student records, and staff and parent interviews indicate that the district has a practice of identifying limited English proficient (LEP) students as eligible for special education services and does not always determine if an LEP student's lack of progress is the result of a disability or limited English proficiency. In addition, staff and parent interviews indicate that students are identified as eligible for special education services due to a lack of instruction in reading or mathematics.

Department of Elementary and Secondary Education Findings:

A review of documents and interviews indicate that due to limited resources principals have been unable to implement the curriculum accommodation plan developed by the district’s general education program to ensure that all efforts have been made to meet the needs of diverse learners in the general education program. Instructional supports, including remedial reading instruction at the elementary levels, consultative services for teachers, and appropriate services for linguistic minority students, are very limited and are unavailable in most schools in the district. The district submitted documentation indicating that professional development was provided in the areas of differentiated instruction and response to intervention. However, interviews indicate that regular classroom teachers do not analyze and accommodate the diverse learning styles of all children in the regular classroom and cannot provide appropriate services and supports within the general education program including, but not limited to, direct and systematic instruction in reading and provision of services to address the needs of children whose behaviors may interfere with learning. Teacher mentoring and collaboration opportunities are severely limited. Lastly, when students are referred for an evaluation to determine eligibility for special education, the principals do not ensure that documentation on the use of instructional support services for the student is provided as part of the

evaluation information reviewed by the Team when determining eligibility.

Students who are under age 10, may only be granted waivers if (a) the student has been placed in an English language classroom for at least 30 calendar days, (b) the school certifies in no less than 250 words that the student “has special and individual physical or psychological needs, separate from lack of English proficiency” that requires an alternative program, and (c) the waiver is authorized by both the school superintendent and principal. All waiver requests and school district responses (approved or disapproved waivers) must be placed in the student’s permanent school record. For students under age 10, both the superintendent and the principal must authorize the waiver, and it must be made under guidelines established by, and subject to the review of the local school committee. These guidelines may, but are not required to, contain an appeals process. Students who are over age 10 may be granted waivers when it is the informed belief of the school principal and educational staff that an alternative program would be better for the student’s overall educational progress. Department of Elementary and Secondary Education Findings:

Sheltered English immersion (SEI) is a program model for limited English proficient (LEP) students composed of two parts—English as a second language (ESL) and sheltered content instruction. ESL is explicit, direct instruction about the English language, delivered to LEP students only and designed to promote the English language development of LEP students. Sheltered content instruction is an approach for teaching content to LEP students in strategic ways that make the subject matter concepts comprehensible while promoting the LEP students’ English language development.

The Northampton Public Schools serves English Language Learners (ELL) through a Sheltered English Immersion (SEI) model. Based on documentation submitted, direct ESL instruction in these programs does not meet the recommended number of hours as outlined in the Department’s guidance document on this topic issued in June 2005. It appears as though only the high school meets the recommended hours for Beginner and Early Intermediate ELLs, but not for Intermediate ELLs who appear to get no direct ESL instruction.

The district indicated that ESL instruction is based on the English Language Proficiency Benchmarks and Outcomes (ELPBO) at the middle school, but also indicated that it does not have an ESL curriculum. Programs at the various grade levels (elementary, middle and high school) appear to differ substantially as indicated by the district’s documentation.

A review of student records indicates that records of ELE students did not consistently contain home language surveys; results of identification and proficiency tests and evaluations, including MEPA results; information about students' previous school experiences; copies of parent notification letters, progress reports and report cards (in the native language, if necessary); evidence of follow-up monitoring; documentation of a parent's consent to "opt-out" of English learner education, if applicable.
