**MASSACHUSETTS DEPARTMENT OF ELEMENTARY AND SECONDARY EDUCATION
COORDINATED PROGRAM REVIEW REPORT**

Southeastern Regional Vocational Technical High School

SCOPE OF COORDINATED PROGRAM REVIEWS

As one part of its accountability system, the Department of Elementary and Secondary Education oversees local compliance with education requirements through the Coordinated Program Review (CPR). All reviews cover selected requirements in the following areas:

Special Education (SE)

- selected requirements from the federal Individuals with Disabilities Education Act (IDEA-2004), the federal regulations promulgated under that Act at 34 CFR Part 300, M.G.L. c. 71B, and the Massachusetts Board of Education's Special Education regulations (603 CMR 28.00), as amended effective March 1, 2007. The 2008-2009 reviews will focus primarily on criteria containing requirements that are highlighted in the Massachusetts State Performance Plan and reported on every year to the Office of Special Education Programs of the U.S. Department of Education.

Civil Rights Methods of Administration and Other General Education Requirements (CR)

- selected federal civil rights requirements, including requirements under Title VI of the Civil Rights Act of 1964, the Equal Educational Opportunities Act of 1974, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act of 1990, together with selected state requirements under M.G.L. c. 76, Section 5.
- selected requirements from the Massachusetts Board of Education's Physical Restraint regulations (603 CMR 46.00).
- selected requirements from the Massachusetts Board of Education's Student Learning Time regulations (603 CMR 27.00).
- various requirements under other federal and state laws.

English Learner Education (ELE) in Public Schools

- selected requirements from M.G.L. c. 71A, the state law that governs the provision of education to limited English proficient students, and 603 CMR 14.00, as well as the No Child Left Behind Act of 2001 and Title VI of the Civil Rights Act of 1964. During the 2008-2009 school year, all districts that enroll limited English proficient students will be reviewed using a combination of updated standards and a self-assessment instrument overseen by the Department's Office of Language Acquisition and Academic Achievement (OLAAA), including a request for information regarding ELE programs and staff qualifications.

Some reviews also cover selected requirements in:

Career/Vocational Technical Education (CVTE)

- career/vocational technical education programs under the federal Carl D. Perkins Vocational and Technical Education Act of 1998 and M.G.L. c. 74.

Districts providing Title I services participate in Title I program monitoring during the same year they are scheduled for a Coordinated Program Review. Details regarding the Title I program monitoring process are available at: <http://www.doe.mass.edu/titlei/monitoring>.

COORDINATED PROGRAM REVIEW ELEMENTS

Team: Depending upon the size of a school district and the number of programs to be reviewed, a team of two to eight Department staff members conducts a Coordinated Program Review over two to ten days in a school district or charter school.

Timing: Each school district and charter school in the Commonwealth is scheduled to receive a Coordinated Program Review every six years and a mid-cycle special education follow-up visit three years after the Coordinated Program Review; about sixty school districts and charter schools are scheduled for Coordinated Program Reviews in 2008-2009. The Department's 2008-2009 schedule of Coordinated Program Reviews is posted on the Department's web site at <http://www.doe.mass.edu/pqa/review/cpr/cprschedule09.doc>. The statewide six-year Program Review cycle, including the Department's Mid-cycle follow-up monitoring schedule, is posted at <<<http://www.doe.mass.edu/pqa/review/cpr/6yrcycle.html>>>.

Criteria: The Program Review criteria for each program encompass the requirements selected for possible review. Within special education, reviews focus primarily on the 19 criteria marked by a triple asterisk (***) in the School District Information Package for Special Education. These 19 criteria mostly contain requirements that are highlighted in the Massachusetts State Performance Plan. Based on feedback, the Department agreed to add an additional 28 criteria to those Coordinated Program Reviews conducted during the period of March to June 2009. In any review, however, if circumstances warrant it, the Department may monitor additional special education criteria. For more details, please see the section on **Special Education Program Review Criteria** at the beginning of the School District Information Package for Special Education.

Methods: Methods used in reviewing programs include:

- Review of documentation about the operation of the charter school or district's programs.
- Interviews of administrative, instructional, and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives and other telephone interviews as requested by other parents or members of the general public.
- Review of student records for special education (and for student accommodation plans under Section 504), English learner education, and career/vocational technical education. The Department selects a representative sample of student records for the onsite team to review, using standard Department procedures, to determine whether procedural and programmatic requirements have been implemented.
- Surveys of parents of students with disabilities and parents of English learners. Parents of students with disabilities whose files are selected for the record review, as well as the parents of an equal number of other students with disabilities, are sent a survey that

solicits information regarding their experiences with the district's implementation of special education programs, related services, and procedural requirements; parents of English learners whose files are selected for the record review are sent a survey of their experiences with the district's implementation of the English learner education program and related procedural requirements.

- Observation of classrooms and other facilities. The onsite team visits a sample of classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

Note on collaborative programs and services. Where the district is a member of a collaborative approved by the Department of Elementary and Secondary Education and is a site for programs or services operated by the collaborative, interviews, student record review, and observation of classrooms are conducted for the collaborative.

Report: Preparation:

At the end of the onsite visit, the onsite team will hold an informal exit meeting to summarize its comments for the superintendent or charter school leader and anyone else he or she chooses. Within approximately 45 business days of the onsite visit, the onsite chairperson will forward to the superintendent or charter school leader (and collaborative director where applicable) a Draft Report containing comments from the Program Review. These comments will, once the district has had a chance to respond, form the basis for any findings by the Department. The district (and collaborative) will then have 10 business days to review the report for accuracy before the publication of a Final Report with ratings and findings (see below). The Final Report will be issued within approximately 60 business days of the conclusion of the onsite visit and posted on the Department's website at <http://www.doe.mass.edu/pqa/review/cpr/reports/>.

Content of Final Report:

Ratings. In the Final Report, the onsite team gives a rating for each compliance criterion it has reviewed; those ratings are "Commendable," "Implemented," "Implementation in Progress," "Partially Implemented," "Not Implemented," and "Not Applicable." "Implementation in Progress," used for criteria containing new legal requirements, means that the district has implemented any old requirements contained in the criterion and is training staff or beginning to implement the new requirements in such a way that the onsite team anticipates that the new requirements will be implemented by the end of the school year.

Findings. The onsite team includes a finding in the Final Report for each criterion that it rates "Commendable," "Partially Implemented," or "Not Implemented," explaining the basis for the rating. It may also include findings for other criteria.

Response: Where criteria are found "Partially Implemented" or "Not Implemented", the district or charter school must propose corrective action to bring those areas into compliance with the relevant statutes and regulations. This corrective action plan (CAP) will be due to the Department within 20 business days after the issuance of the Final Report and is subject to the Department's review and approval. Department staff will offer districts and charter schools technical assistance on the content and requirements for developing an approvable CAP.

Department staff will also provide ongoing technical assistance as the school or district is implementing the approved corrective action plan. **School districts and charter schools must demonstrate effective resolution of noncompliance identified by the Department as soon as possible but in no case later than one year from the issuance of the Department's Final Program Review Report.**

The Department believes that the Coordinated Program Review is a positive experience and that the Final Report is helpful in planning for the continued improvement of programs and services in each school district, charter school, and educational collaborative.

INTRODUCTION TO THE FINAL REPORT

A six-member Massachusetts Department of Elementary and Secondary Education team visited the Southeastern Regional Vocational Technical High School during the week of March 2, 2009 to evaluate the implementation of selected criteria in the program areas of special education, civil rights and other related general education requirements, English learner education and career/vocational/technical education. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Southeastern Regional Vocational Technical High School. These areas are as follows:

Teachers work collaboratively to motivate and challenge all students. Instructional support is provided to meet the needs of diverse learners as evidenced by reading supports, extended day programming, an algebra success group, an array of assistive technology, and the use of data to identify areas of need. Students who are identified as at risk of failure are assigned an adult mentor whose role it is to help the student become a successful contributing member of the student body.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of the following Department program review methods:

- Interviews of seven administrative staff.
- Interviews of 68 teaching and support services staff across all levels.
- Interviews of four parents for career/vocational technical education.
- Interviews of 26 students for career/vocational technical education.
- Interview of one parent advisory council (PAC) representative.
- Interviews as requested by persons from the general public.
- Student record reviews: Samples of 23 special education student records, 18 English learner education student records, and 30 career/vocational technical education student records were selected by the Department. These student records were first examined by local staff, whose comments were then verified by the onsite team using standard Department record review procedures.
- Surveys of parents of students with disabilities: 30 parents of students with disabilities were sent surveys that solicited information about their experiences with the district's implementation of special education programs, related services and procedural requirements. Eleven of these parent surveys were returned to the Department of Elementary and Secondary Education for review.
- Surveys of parents of ELE students: 18 parents of ELE students were sent surveys that solicited information about their experiences with the district's implementation of English learner education programs, services, and procedural requirements. Two of these parent surveys were returned to the Department of Elementary and Secondary Education for review.
- Observation of classrooms and other facilities. A sample of 38 instructional classrooms and other school facilities used in the delivery of programs and services was visited to examine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components. These components are:

- Component I: Assessment of Students**
- Component II: Student Identification and Program Placement**
- Component III: Parent and Community Involvement**
- Component IV: Curriculum and Instruction**
- Component V: Student Support Services**
- Component VI: Faculty, Staff and Administration**
- Component VII: School Facilities**
- Component VIII: Program Evaluation**
- Component IX: Recordkeeping and Fund Use**

The findings in each program area explain the “ratings,” determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially “Implemented” or implemented in a “Commendable” manner. (Refer to the “Definition of Compliance Ratings” section of the report.) Where criteria were found to be either “Partially Implemented” or “Not Implemented,” the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as “Implemented” or “Implementation in Progress” but made a specific comment on the district’s implementation methods that also requires response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plans.

DEFINITION OF COMPLIANCE RATINGS

Commendable	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
Implemented	The requirement is substantially met in all important aspects.
Implementation in Progress	The requirement includes one or more new federal special education requirements that became effective with the federal regulations on October 13, 2006. The district or charter school has implemented any previous requirements included in the criterion and is currently engaged in staff training and/or is beginning implementation practices for new requirements which the Department's onsite team anticipates will result in substantial compliance by the end of the 2007-2008 school year.
Partially Implemented	The requirement, in one or several important aspects, is not entirely met.
Not Implemented	The requirement is totally or substantially not met.
Not Applicable	The requirement does not apply to the school district or charter school.

Interviews and documentation indicate that the district has procedures in place that are consistent with the age of majority requirements, but the record review indicates that there are inconsistencies in the implementation of these procedures. For example, in some cases the district did not obtain consent from the student to continue in the special education program when the student reached 18 years of age, but rather waited for the next Team meeting to obtain the student’s consent. In other cases the IEP was left unsigned for several months to wait for the student to reach the age of majority

when a parent informed the school that they no longer wished to make educational decisions. The record review also indicates that the NI notice proposing the IEP was sent only to the parent even when the student reached the age of majority and had decision-making authority.

According to district documents, LEP students are receiving content instruction by teachers who have completed none of the four Categories of professional development; therefore, the school district is not currently meeting the requirement to shelter content for its English language learners. The district does have a rudimentary plan to begin training in Categories 1 and 2, but furnished no specific details regarding the implementation of this plan.

Additionally, the district is not reaching the recommended amounts of direct daily ESL instruction as outlined in the Commissioner’s Memorandum of June 2005 on this topic. The district indicated its model of service as individual pull-out by a licensed ESL teacher or support to classroom teachers instead of the required direct ESL instruction based on the English Language Proficiency Benchmarks and Outcomes (ELPBO).

Although the district indicated that it has an ESL curriculum based on the ELPBO, the district provided no evidence to the Department of such curriculum.

Department of Elementary and Secondary Education Findings:

Based upon a review of student records and documentation provided by the district as well as interviews the following concerns were noted:

- *The district does not provide career/vocational recruitment and promotional materials in languages other than English.*
- *Information on the full range of career/vocational technical programs, services, and activities available in the district as well as academic and technical assessment results, and career/vocational technical student organizations, and postsecondary education opportunities are only provided in English.*

	Rating: Partially Implemented	District Response Required:	Yes

Department of Elementary and Secondary Education Findings:

A review of student records and documentation provided by the district indicated the following:

- *Assessment of students during the exploratory program is not being administered consistently nor is it clear how assessment results are being utilized for admission to the programs. The majority of student records did not contain exploratory assessment results.*
- *Fifty percent of the score used for determining admission to the district/school is based upon an interview yet there is no standard scoring rubric or training of staff responsible for conducting the interviews and scoring. Student records did not contain interview results.*

- Translation services are not routinely provided to students who may require services during the interview.

The attendance policy, found on page 8 of the 2008 – 2009 Student Handbook, states that after five (5) absences from any course, the student “may be dropped from that course” and that after six (6) absences a “Status Determination Hearing” will be held “to determine the student’s enrollment at the school.” This information is also mailed home to students in “Attendance Information At-a-glance.” This policy is not in compliance with M.G.L.c.71 section 37H, 37H 1/2 or M.G.L. c. 76, § 17 which means that school districts shall not “terminate”, “involuntarily transfer”, or “send back” students from the school except as provided in that deals with student behavior.

Department of Elementary and Secondary Education Findings:

A review of documentation provided by the district and interviews indicate that not all committees have appropriate representation (e.g., the majority lack postsecondary representation) and some have teachers rather than advisory committee members chairing meetings. While there is evidence that several committees are engaged in reviewing program curricula, equipment and facilities, others show little or no evidence of such involvement.

Department of Elementary and Secondary Education Findings:

Based on interviews and a review of documentation submitted by the district, there is no evidence of linkages (e.g., guidance curriculum, calendar, or plan) to provide all students with assistance in career planning and decision making for postsecondary transitions. The majority of students interviewed both formally and informally was unaware of the opportunity to earn articulated credits for their technical coursework or of the existence and purpose of the Accuplacer college placement test at the state colleges and universities. While the district is a member of the Massasoit Community College Tech Prep Consortium and has several articulation agreements in place, the majority of these agreements are significantly outdated. There is no formal process for the annual review and updating of articulation agreements or to inform students and parents of the benefits of articulated credit. There are no articulation agreements with registered apprenticeship programs.

Department of Elementary and Secondary Education Findings:

Documentation and interviews indicate that the district does not consistently ensure that Workers Compensation insurance coverage is current for all cooperative education sites. The district issues Cooperative Employment Permits to students, but documentation of this practice was missing from several student folders. A number of cooperative education documentation checklists were not completed. One student file contained no cooperative education agreement. In some cases, students are being placed in cooperative education contrary to counselors’ recommendations without explanation. One student was working in an area that appeared unrelated to his vocational program/major.

Some language in the Student Cooperative Education Contract is misleading and technically incorrect; specifically item 2, which reads: “You will be laid off if your performance is not satisfactory. You cannot leave this job for another (unless you are laid off) until you graduate from Southeastern.” Stating that the student cannot leave the position is not only incorrect but may make a candidate reluctant to participate in cooperative education. (Note: Laid-off is a term reserved for staff reductions due to economic variables not performance. Terminated or dismissed would be the correct term.)

The district’s policy on cooperative education placements requires that students are placed at worksites for 30 hours a week, yet some students are working as little as 18 hours due to school scheduling conflicts and staff reductions at the worksite. A number of Cooperative Education Agreements were unsigned by one or more parties.

Documentation of knowledge and skills to be acquired during cooperative education was inconsistent and in some cases missing from students’ cooperative education files. Many students simply submit unverified weekly reports of their work assignments to their teachers. Onsite monitoring visits are not conducted at all cooperative education sites.
