COORDINATED PROGRAM REVIEW REPORT**

Randolph Public Schools

SCOPE OF COORDINATED PROGRAM REVIEWS

As one part of its accountability system, the Department of Elementary and Secondary Education oversees local compliance with education requirements through the Coordinated Program Review (CPR). All reviews cover selected requirements in the following areas:

Special Education (SE)

- selected requirements from the federal Individuals with Disabilities Education Act (IDEA-2004), the federal regulations promulgated under that Act at 34 CFR Part 300, M.G.L. c. 71B, and the Massachusetts Board of Elementary and Secondary Education's Special Education regulations (603 CMR 28.00), as amended effective March 1, 2007.

Civil Rights Methods of Administration and Other General Education Requirements (CR)

- selected federal civil rights requirements, including requirements under Title VI of the Civil Rights Act of 1964, the Equal Educational Opportunities Act of 1974, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act of 1990, together with selected state requirements under M.G.L. c. 76, Section 5.
- selected requirements from the Massachusetts Board of Elementary and Secondary Education's Physical Restraint regulations (603 CMR 46.00).
- selected requirements from the Massachusetts Board of Elementary and Secondary Education's Student Learning Time regulations (603 CMR 27.00).
- various requirements under other federal and state laws.

English Learner Education (ELE) in Public Schools

- selected requirements from M.G.L. c. 71A, the state law that governs the provision of education to limited English proficient students, and 603 CMR 14.00, as well as the No Child Left Behind Act of 2001 and Title VI of the Civil Rights Act of 1964. During the 2009-2010 school year, all districts that enroll limited English proficient students will be reviewed using a combination of updated standards and a self-assessment instrument overseen by the Department's Office of Language Acquisition and Academic Achievement (OLAAA), including a request for information regarding ELE programs and staff qualifications.

Some reviews also cover selected requirements in:

Career/Vocational Technical Education (CVTE)

- career/vocational technical education programs under the federal Carl D. Perkins Vocational and Technical Education Act of 1998 and M.G.L. c. 74.

Districts providing Title I services participate in Title I program monitoring during the same year they are scheduled for a Coordinated Program Review. Details regarding the Title I program monitoring process are available at: <http://www.doe.mass.edu/titlei/monitoring>.

COORDINATED PROGRAM REVIEW ELEMENTS

Team: Depending upon the size of a school district and the number of programs to be reviewed, a team of two to eight Department staff members conducts a Coordinated Program Review over two to ten days in a school district or charter school.

Timing: Each school district and charter school in the Commonwealth is scheduled to receive a Coordinated Program Review every six years and a mid-cycle special education follow-up visit three years after the Coordinated Program Review; about fifty-two school districts and charter schools are scheduled for Coordinated Program Reviews in 2009-2010. The Department's 2009-2010 schedule of Coordinated Program Reviews is posted on the Department's web site at <http://www.doe.mass.edu/pqa/review/cpr/schedule.html>. The statewide six-year Program Review cycle, including the Department's Mid-cycle follow-up monitoring schedule, is posted at <<<http://www.doe.mass.edu/pqa/review/cpr/6yrcycle.html>>>.

Criteria: The Program Review criteria for each program encompass the requirements that have been selected for review. The requirements selected for review in all of the regulated programs are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993 to promote student achievement and high standards for all students.

Methods: Methods used in reviewing programs include:

- Review of documentation about the operation of the charter school or district's programs.
- Interviews of administrative, instructional, and support staff across all grade levels.
- Interviews of parent advisory council (PAC) representatives and telephone interviews as requested by other parents or members of the general public.
- Review of student records for special education (and for student accommodation plans under Section 504), English learner education, and career/vocational technical education. The Department selects a representative sample of student records for the onsite team to review, using standard Department procedures, to determine whether procedural and programmatic requirements have been implemented.
- Surveys of parents of students with disabilities and parents of English learners. Parents of students with disabilities whose files are selected for the record review, as well as the parents of an equal number of other students with disabilities, are sent a survey that solicits information regarding their experiences with the district's implementation of special education programs, related services, and procedural requirements; parents of English learners whose files are selected for the record review are sent a survey of their experiences with the district's implementation of the English learner education program and related procedural requirements.

- Observation of classrooms and other facilities. The onsite team visits a sample of classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

Note on collaborative programs and services. Where the district is a member of a collaborative approved by the Department of Elementary and Secondary Education and is a site for programs or services operated by the collaborative, interviews, student record review, and observation of classrooms are conducted for the collaborative.

Report: Preparation:

At the end of the onsite visit, the onsite team will hold an informal exit meeting to summarize its comments for the superintendent or charter school leader and anyone else he or she chooses. Within approximately 45 business days of the onsite visit, the onsite chairperson will forward to the superintendent or charter school leader (and collaborative director where applicable) a Draft Report containing comments from the Program Review. These comments will, once the district has had a chance to respond, form the basis for any findings by the Department. The district (and collaborative) will then have 10 business days to review the report for accuracy before the publication of a Final Report with ratings and findings (see below). The Final Report will be issued within approximately 60 business days of the conclusion of the onsite visit and posted on the Department’s website at <http://www.doe.mass.edu/pqa/review/cpr/reports/>.

Content of Final Report:

Ratings. In the Final Report, the onsite team gives a rating for each compliance criterion it has reviewed; those ratings are “Commendable,” “Implemented,” “Partially Implemented,” “Not Implemented,” and “Not Applicable.”

Findings. The onsite team includes a finding in the Final Report for each criterion that it rates “Commendable,” “Partially Implemented,” or “Not Implemented,” explaining the basis for the rating. It will also provide a narrative statement explaining the designation of “Not Applicable.”

Response: Where criteria are found “Partially Implemented” or “Not Implemented”, the district or charter school must propose corrective action to bring those areas into compliance with the relevant statutes and regulations. This corrective action plan (CAP) will be due to the Department within 20 business days after the issuance of the Final Report and is subject to the Department’s review and approval. Department staff will offer districts and charter schools technical assistance on the content and requirements for developing an approvable CAP.

Department staff will also provide ongoing technical assistance as the school or district is implementing the approved corrective action plan. **School districts and charter schools must demonstrate effective resolution of noncompliance identified by the Department as soon as possible but in no case later than one year from the issuance of the Department’s Final Program Review Report.**

INTRODUCTION TO THE FINAL REPORT

A seven-member Massachusetts Department of Elementary and Secondary Education team visited the Randolph Public Schools during the week of November 30, 2009 to evaluate the implementation of selected criteria in the program areas of special education, civil rights and other related general education requirements, and English learner education. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Randolph School District. These areas are as follows:

The district is commended for the professional development opportunities made available to paraprofessionals. A review of documents and interviews indicate that paraprofessionals at the elementary, middle and high school levels receive extensive professional development training, attend all district professional development days and are included in academic trainings with teachers.

The district is also commended for its comprehensive approach to bringing inclusion practices into the school district. Extensive study and consideration took place to determine the model that would best meet the district's needs. Presentations and discussions occurred throughout the 2008-2009 school year to inform the school committee, parents, administrators, teachers, service providers and paraprofessionals of the proposed changes. During the summer, special education coordinators were trained so that they could be trainers in inclusion practices, and general educators and special education teachers partnered to plan for the new school year. Paraprofessionals received training in inclusive practices in September of 2009 and ongoing observations and consultations were arranged for the 2009-2010 school-year.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of the following Department program review methods:

- Interviews of nine administrative staff.
- Interviews of 58 teaching and support services staff across all levels.
- Interviews of three parent advisory council (PAC) representatives.
- Telephone interviews as requested by persons from the general public.
- Student record reviews: Samples of 26 special education student records and 15 English learner education student records were selected by the Department. These student records were first examined by local staff, whose Findings were then verified by the onsite team using standard Department record review procedures.
- Surveys of parents of students with disabilities: 50 parents of students with disabilities were sent surveys that solicited information about their experiences with the district's implementation of special education programs, related services and procedural requirements. Seven of these parent surveys were returned to the Department of Elementary and Secondary Education for review.
- Surveys of parents of ELE students: 15 parents of ELE students were sent surveys that solicited information about their experiences with the district's implementation of English learner education programs, services, and procedural requirements. None of these parent surveys were returned to the Department of Elementary and Secondary Education for review.

- Observation of classrooms and other facilities. A sample of seven instructional classrooms and other school facilities used in the delivery of programs and services was visited to examine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components. These components are:

- Component I: Assessment of Students**
- Component II: Student Identification and Program Placement**
- Component III: Parent and Community Involvement**
- Component IV: Curriculum and Instruction**
- Component V: Student Support Services**
- Component VI: Faculty, Staff and Administration**
- Component VII: School Facilities**
- Component VIII: Program Evaluation**
- Component IX: Recordkeeping and Fund Use**

The findings in each program area explain the “ratings,” determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially “Implemented” or implemented in a “Commendable” manner. (Refer to the “Definition of Compliance Ratings” section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have rated a requirement as “Implemented” or “Implementation in Progress” but made a specific comment on the district’s implementation methods that also requires response from the district or charter school.

Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plans.

Extensive study and consideration took place to determine the model that would best meet the district’s needs. Presentations and discussions occurred throughout the 2008-2009 school year to inform the school committee, parents, administrators, teachers, service providers and paraprofessionals of the proposed changes. During the summer, special education coordinators were trained so that they could be trainers in inclusion practices, and general educators and special education teachers partnered to plan for the new school year. Paraprofessionals received training in inclusive practices in September of 2009 and ongoing observations and consultations were arranged for the 2009-2010 school-year.

Interviews and record review indicate that not all limited English proficient (LEP) students at the elementary level participate in the Mathematics MCAS exam during their first year in the country. Interviews indicate that not all LEP students at the elementary level have access to an approved bilingual word to word dictionary during the MCAS exam.

Department of Elementary and Secondary Education Findings:

Documentation and record review indicate that the home language survey is not translated into the major languages of the district. In addition, student records did not always contain evidence that students were assessed in all of the four modalities (reading, writing, speaking and listening). In some cases, students were only tested in speaking and listening. Record review also indicates that the district employs a “refusal to test” form, in which parents refuse to allow students to be initially tested for English language proficiency. Administration has indicated that this is no longer the practice in the district, however, records contained evidence of these being used.

	Authority: Title VI; EEOA; G.L. c. 71A, §§ 2, 4, 7

Department of Elementary and Secondary Education Findings:

Sheltered English immersion (SEI) is a program model for limited English proficient (LEP) students composed of two parts—English as a second language (ESL) and sheltered content instruction. ESL is explicit, direct instruction about the English language, delivered to LEP students only and designed to promote the English language development of LEP students. Sheltered content instruction is an approach for teaching content to LEP students in strategic ways that make the subject matter concepts comprehensible while promoting the LEP students’ English language development.

Interviews and record review indicate that at times, ESL services are recommended for a finite period of time (e.g., “4 x 55 x four months”). Administration is aware that this practice is inappropriate and is working to remedy it.

Interviews and student record review indicate that ESL instruction is not available for all LEP students. Documentation and interviews indicate that students who do receive ESL instruction at the elementary and high school levels do not receive sufficient ESL instruction consistent with Department’s September 2009 guidance document: “Guidance on Using MEPA Results to Plan Sheltered English Immersion (SEI) Instruction and Make Reclassification Decisions for Limited English Proficient (LEP) Students.”

Interviews and observations indicate that LEP students in the “sheltered English immersion” (SEI) program at Young Elementary School are segregated from their English speaking peers for the entire school day, with the exception of lunch and recess.

The district’s SEI program at the elementary level consists of separate classrooms in which LEP students are educated only with other LEP students. These classrooms are multi-grade (one through three and four through six). Interviews indicate that the LEP students in this program are not taught the same content as English-speaking peers because teachers teach multiple grade levels and are unable to teach all content areas at all levels. Interviews indicate that students in the SEI program at Young Elementary do not have science and social studies textbooks, though non-LEP students do.

At the middle school level, LEP students in the SEI program are also taught all content in separate classrooms with only other LEP students. The same content is taught to students in multiple grades, as students are all in the same classes, so students do not receive consistent grade level content. ESL teachers teach content in which they are not certified.

Interviews indicate that science and math textbooks were not provided for LEP students at middle school at the beginning of the school year, and that some English books were not provided at the high school at the beginning of the year. Interviews indicate that this was an issue only for LEP students.

Interviews and documentation indicate that the district has neither an ESL curriculum nor evidence of consistent curriculum mapping, and that most instruction is not based on the English Language Proficiency Benchmarks and Outcomes. See also ELE 9.

Department of Elementary and Secondary Education Findings:

Although the district submitted documentation of an exit procedure, interviews indicate that staff are unaware of these procedures. Therefore, these procedures are not consistently used to determine when a student should be re-designated from LEP to FLEP status. Interviews indicate that some students have been exited too soon, before they were determined to have the ability to participate in ordinary classroom work in English.

Department of Elementary and Secondary Education Findings:

At the elementary and middle school levels, LEP students are grouped together in instructional settings for content and ESL despite having different levels of English proficiency. Accordingly, and because the district’s SEI program model results in students being placed in multi-grade classes and teachers are unable to teach content at all appropriate academic levels, LEP students do not receive appropriate content instruction. Department of Elementary and Secondary Education Findings:

Record review and documentation indicate that the parent notification letter does not contain all required elements. Specifically, the following components were missing:

- How the program will meet the educational strengths and needs of the student;
- How the program will specifically help the child learn English;
- The specific exit requirements; and
- The parents’ right to apply for a waiver or to decline to enroll their child in the program.

Record review further indicates that the parent notification letter is not issued annually.

Record review and interviews indicate that report cards and progress reports are not written in a language understandable to the parent/guardian who is limited English proficient.

	Rating: Partially Implemented	District Response Required:	Yes

Department of Elementary and Secondary Education Findings:

A review of the documentation indicated that classroom teachers are not sufficiently trained in sheltering English content and students are currently not instructed through an ESL curriculum based on the ELPBO. Therefore, students with limited English proficiency do not have access to the same content standards as their English-speaking peers. Information in notices such as activities, responsibilities, and academic standards provided to all students is not consistently provided to students with limited English proficiency in a language and mode of communication that they understand.

Interviews indicate that LEP students do not have equal access to Title I services, and do not receive support services in a language that the student understands. Interviews indicate that native language guidance and counseling is not available for LEP students when needed.

Interviews indicate that LEP students in the SEI program at the middle school are placed only with special education students for electives, and do not have equal access to art, music and chorus.
