COORDINATED PROGRAM REVIEW REPORT**

Needham Public School District

SCOPE OF COORDINATED PROGRAM REVIEWS

As one part of its accountability system, the Department of Elementary and Secondary Education oversees local compliance with education requirements through the Coordinated Program Review (CPR). All reviews cover selected requirements in the following areas:

Special Education (SE)

- selected requirements from the federal Individuals with Disabilities Education Act (IDEA-2004); the federal regulations promulgated under that Act at 34 CFR Part 300; M.G.L. c. 71B, and the Massachusetts Board of Education's Special Education regulations (603 CMR 28.00), as amended effective March 1, 2007. The 2010-2011 Web-based Monitoring System (WBMS) districts conducted self-assessments across all criteria.

Civil Rights Methods of Administration and Other General Education Requirements (CR)

- selected federal civil rights requirements, including requirements under Title VI of the Civil Rights Act of 1964; the Equal Educational Opportunities Act of 1974; Title IX of the Education Amendments of 1972; Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act of 1990, together with selected state requirements under M.G.L. c. 76, Section 5 and M.G.L. c. 269 §§ 17 through 19.
- selected requirements from the Massachusetts Board of Education's Physical Restraint regulations (603 CMR 46.00).
- selected requirements from the Massachusetts Board of Education's Student Learning Time regulations (603 CMR 27.00).
- various requirements under other federal and state laws.

English Learner Education (ELE) in Public Schools

- selected requirements from M.G.L. c. 71A, the state law that governs the provision of education to limited English proficient students, and 603 CMR 14.00, as well as the No Child Left Behind Act of 2001 and Title VI of the Civil Rights Act of 1964. During the 2010-2011 school year, all districts that enroll limited English proficient students will be reviewed using a combination of updated standards and a self-assessment instrument overseen by the Department's Office of Language Acquisition and Academic Achievement (OLAAA), including a request for information regarding ELE programs and staff qualifications.

Some reviews also cover selected requirements in:

Career/Vocational Technical Education (CVTE)

- career/vocational technical education programs under the federal Carl D. Perkins Vocational and Technical Education Act of 1998 and M.G.L. c. 74.

Districts providing Title I services participate in Title I program monitoring during the same year they are scheduled for a Coordinated Program Review. Details regarding the Title I program monitoring process are available at: <http://www.doe.mass.edu/titlei/monitoring>.

COORDINATED PROGRAM REVIEW ELEMENTS

Team: Depending upon the size of a school district and the number of programs to be reviewed, a team of two to eight Department staff members conducts onsite activities over two to five days in a school district or charter school.

Timing: Each school district and charter school in the Commonwealth is scheduled to receive a Coordinated Program Review every six years and a mid-cycle special education follow-up visit three years after the Coordinated Program Review; about fifty-seven school districts and charter schools are scheduled for Coordinated Program Reviews in 2010-2011, of which all districts participated in the Web-based Monitoring System (WBMS). The Department's 2010-2011 schedule of Coordinated Program Reviews is posted on the Department's web site at <<<http://www.doe.mass.edu/pqa/review/cpr/schedule.html>>>. The statewide six-year Program Review cycle, including the Department's Mid-cycle follow-up monitoring schedule, is posted at <<<http://www.doe.mass.edu/pqa/review/cpr/6yrcycle.html>>>.

Criteria: The Program Review criteria for each WBMS review, begins with the district/school conducting a self-assessment across all fifty-two current special education criteria. Program Quality Assurance through its Desk Review procedures examines the district/school's self-assessment submission and determines which criteria will be followed-up on through onsite verification activities. For more details, please see the section on **The Web-based Approach to Special Education Monitoring** at the beginning of the School District Information Package for Special Education.

The requirements selected for review in all of the regulated programs are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993 to promote student achievement and high standards for all students.

WBMS Methods: Methods used in reviewing special education programs include:

Self-Assessment Phase:

- District/school review of special education documentation for required elements including document uploads. Upon completion of this portion of the district/school's self-assessment, it is submitted to the Department for review.
- District/school review of a sample of special education student records selected across grade levels, disability categories and level of need. Additional requirements for the appropriate selection of the student record sample can be found in **Appendix II: Student Record Review Procedures** of the School District Information Package for Special Education.

Upon completion of this portion of the district/school's self-assessment, it is submitted to the Department for review.

On-site Verification Phase: Includes activities selected from the following;

- Interviews of administrative, instructional, and support staff consistent with those criteria selected for onsite verification.
- Interviews of parent advisory council (PAC) representatives and other telephone interviews, as requested, by other parents or members of the general public.
- Review of student records for special education: The Department may select a sample of student records from those the district reviewed as part of its self-assessment, as well as records chosen by the Department from the special education student roster. The onsite team will conduct this review, using standard Department procedures, to determine whether procedural and programmatic requirements have been implemented.
- Surveys of parents of students with disabilities: Parents of students with disabilities whose files are selected for the record review, as well as the parents of an equal number of other students with disabilities, are sent a survey that solicits information regarding their experiences with the district's implementation of special education programs, related services, and procedural requirements.
- Observation of classrooms and other facilities: The onsite team visits a sample of classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

Note on collaborative programs and services: Where the district is a member of a collaborative approved by the Department of Elementary and Secondary Education and is a site for programs or services operated by the collaborative, interviews, student record review, and observation of classrooms are conducted for the collaborative.

Methods for all other programs in the Coordinated Program Review:

- Review of documentation about the operation of the charter school or district's programs.
- Interviews of administrative, instructional, and support staff across all grade levels.
- Telephone interviews as requested by other parents or members of the general public.
- Review of student records for English learner education and career/vocational technical education: The Department selects a representative sample of student records for the onsite team to review, using standard Department procedures, to determine whether procedural and programmatic requirements have been implemented.
- Surveys of parents of English learners whose files are selected for the record review are sent a survey of their experiences with the district's implementation of the English learner education program and related procedural requirements.
- Observation of classrooms and other facilities: The onsite team visits a sample of classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

Report: Preparation:

At the end of the onsite visit, the onsite team will hold an informal exit meeting to summarize its comments for the superintendent or charter school leader and anyone else he or she chooses. Within approximately 45 business days of the onsite visit, the onsite chairperson

will forward to the superintendent or charter school leader (and collaborative director where applicable) a Draft Report containing comments from the Program Review. The Draft Report comments for special education are provided to the district/school on-line through the Web-based Monitoring System (WBMS). These comments will, once the district has had a chance to respond, form the basis for any findings by the Department. The district (and collaborative) will then have 10 business days to review the report for accuracy before the publication of a Final Report with ratings and findings (see below). The Final Report will be issued within approximately 60 business days of the conclusion of the onsite visit and posted on the Department's website at <http://www.doe.mass.edu/pqa/review/cpr/reports/>.

Content of Final Report:

Ratings. In the Final Report, the onsite team gives a rating for each compliance criterion it has reviewed; those ratings are “Commendable,” “Implemented,” “Implementation in Progress,” “Partially Implemented,” “Not Implemented,” and “Not Applicable.” “Implementation in Progress,” used for criteria containing new or updated legal requirements, means that the district has implemented any old requirements contained in the criterion and is training staff or beginning to implement the new requirements in such a way that the onsite team anticipates that the new requirements will be implemented by the end of the school year.

Findings. The onsite team includes a finding in the Final Report for each criterion that it rates “Commendable,” “Partially Implemented,” “Not Implemented,” or “Implementation in Progress,” explaining the basis for the rating. It may also include findings for other related criteria.

Response: Where criteria are found “Partially Implemented” or “Not Implemented”, the district or charter school must propose corrective action to bring those areas into compliance with the relevant statutes and regulations. This corrective action plan (CAP) will be due to the Department within 20 business days after the issuance of the Final Report and is subject to the Department's review and approval. Department staff will offer districts and charter schools technical assistance on the content and requirements for developing an approvable CAP.

Department staff will also provide ongoing technical assistance as the school or district is implementing the approved corrective action plan. **School districts and charter schools must demonstrate effective resolution of noncompliance identified by the Department as soon as possible but in no case later than one year from the issuance of the Department's Final Program Review Report.**

INTRODUCTION TO THE FINAL REPORT

A three-member Massachusetts Department of Elementary and Secondary Education team visited the Needham Public School District during the week of December 13, 2010 to evaluate the implementation of selected criteria in the program areas of special education, civil rights and other related general education requirements, and English learner education. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Needham Public Schools. These areas are as follows:

The district employs the commendable practice of continuous outreach to the community as it relates to student find from which the promotion or transfer of students in need of special education may be expected. Monthly screenings are advertized and offered, and trainings are conducted at community pre-schools, which also include meetings with the pre-school director. Additionally, staff meetings to disseminate updated information are held bi-annually.

Interviews indicate tremendous collaboration between the district and the early childhood community; the district has developed positive initiatives to identify and provide services to students at such a young age.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of the following Department program review methods:

- Interviews of 15 administrative staff.
- Interviews of 54 teaching and support services staff across all levels.
- Interviews of two parent advisory council (PAC) representatives.
- Interviews as requested by persons from the general public.
- Student record reviews: Samples of 37 special education student records and ten English learner education student records were selected by the Department. These student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department record review procedures.
- Surveys of parents of students with disabilities: 50 parents of students with disabilities were sent surveys that solicited information about their experiences with the district's implementation of special education programs, related services and procedural requirements. Twenty-seven of these parent surveys were returned to the Department of Elementary and Secondary Education for review.
- Surveys of parents of ELE students: Ten parents of ELE students were sent surveys that solicited information about their experiences with the district's implementation of English learner education programs, services, and procedural requirements. Five of these parent surveys were returned to the Department of Elementary and Secondary Education for review.
- Observation of classrooms and other facilities. A sample of 16 instructional classrooms and other school facilities used in the delivery of programs and services was visited to examine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components. These components are:

- Component I: Assessment of Students**
- Component II: Student Identification and Program Placement**
- Component III: Parent and Community Involvement**
- Component IV: Curriculum and Instruction**
- Component V: Student Support Services**
- Component VI: Faculty, Staff and Administration**
- Component VII: Facilities**
- Component VIII: Program Evaluation**
- Component IX: Recordkeeping and Fund Use**

The findings in each program area explain the “ratings,” determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially “Implemented” or implemented in a “Commendable” manner. (Refer to the “Definition of Compliance Ratings” section of the report.) Where criteria were found to be either “Partially Implemented” or “Not Implemented,” the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plans.

Monthly screenings are advertized and offered, and trainings are conducted at community pre-schools, which also include meetings with the pre-school director. Additionally, staff meetings to disseminate updated information are held bi-annually.

Interviews indicate tremendous collaboration between the district and the early childhood community; the district has developed positive initiatives to identify and provide services to students at such a young age.

Observations indicate that the facilities and the classrooms for eligible students are identified by signs or other means that stigmatize such students at the Broadmeadow School, e.g. OT and PT, and the High Rock Middle School, e.g., OT, PT, Resource Room. Observations indicate that at the high school there is a clustering of special education classrooms that minimize the inclusion of such students into the life of the school.

	<p>Rating: Partially Implemented District Response Required: Yes</p>

Department of Elementary and Secondary Education Findings:

Needham is a low incidence district with approximately 60 English language learners (ELLs) enrolled (just over 1% of the total population and 18 languages represented).

Content instruction is based on the appropriate Massachusetts Curriculum Framework; however, a review of district documents indicates that content area teachers, who teach English language learners, have not completed training in all four categories of sheltered English immersion (SEI). This training focuses on the skills and knowledge necessary for sheltering instruction as described in the Commissioner’s Memorandum of June 2004. Moreover, the district reports that because teachers are not fully trained in SEI, most sheltered content instruction is also provided by the ELL teachers rather than by classroom teachers. In addition, the district states that it has developed content area and literature units that address both the language objectives of the ELPBO and shelter/reinforce content

area knowledge and skills taught in mainstream classes.

Documents submitted by the district show that all schools in the district (K-5, middle school, and most ELLs in high school) are not receiving sufficient hours of ESL instruction consistent with the recommended hours as outlined in the Department’s 2009 “Guidance on Using MEPA Results to Plan Sheltered English Immersion (SEI) Instruction and Make Reclassification Decisions for Limited English Proficient (LEP) Students.” The guidelines recommend that students in level 1 and 2 receive minimally 2.5 hours of ESL instruction a day; those in level 3, 1-2 hours per day; and levels 4 and 5, 2.5 hours per week. However, students in the district receive much less time than that. For example, ESL instruction to kindergarteners in level 1 and level 2 is at 30 minutes a day whereas students in grades 1-4 in those same levels receive 40-45 minutes a day and students in grade 5 receive 60 minutes or more a day. The district reports that for direct ESL and some content area instruction LEP students meet 1-1 or in small groups spanning no more than two grade levels. The district also states that for most students in elementary school, levels 3 – 5, ESL instruction is embedded in sheltered content area instruction that students receive individually or in small groups. Also, in middle school, students in level 4 and 5 no longer receive direct ESL instruction. The students continue to see the ESL teacher for support and reinforcement in ELA and other content area classes. In high school, students in level 5 who have not exited the program do not receive ESL instruction, but continue to see the ESL teacher for support and reinforcement in ELA and other content area classes.

Due to the lack of classroom teachers who are appropriately trained to shelter content and the lack of appropriate levels of ESL instruction provided to ELL students, the district is not offering a program that meets the requirements of Chapter 71A.
