COORDINATED PROGRAM REVIEW REPORT
Athol Royalston Regional School District**

SCOPE OF COORDINATED PROGRAM REVIEWS

As one part of its accountability system, the Department of Elementary and Secondary Education oversees local compliance with education requirements through the Coordinated Program Review (CPR). All reviews cover selected requirements in the following areas:

Special Education (SE)

- selected requirements from the federal Individuals with Disabilities Education Act (IDEA-2004); the federal regulations promulgated under that Act at 34 CFR Part 300; M.G.L. c. 71B, and the Massachusetts Board of Education's Special Education regulations (603 CMR 28.00), as amended effective March 1, 2007. The 2010-2011 Web-based Monitoring System (WBMS) districts conducted self-assessments across all criteria.

Civil Rights Methods of Administration and Other General Education Requirements (CR)

- selected federal civil rights requirements, including requirements under Title VI of the Civil Rights Act of 1964; the Equal Educational Opportunities Act of 1974; Title IX of the Education Amendments of 1972; Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act of 1990, together with selected state requirements under M.G.L. c. 76, Section 5 and M.G.L. c. 269 §§ 17 through 19.
- selected requirements from the Massachusetts Board of Education's Physical Restraint regulations (603 CMR 46.00).
- selected requirements from the Massachusetts Board of Education's Student Learning Time regulations (603 CMR 27.00).
- various requirements under other federal and state laws.

English Learner Education (ELE) in Public Schools

- selected requirements from M.G.L. c. 71A, the state law that governs the provision of education to limited English proficient students, and 603 CMR 14.00, as well as the No Child Left Behind Act of 2001 and Title VI of the Civil Rights Act of 1964. During the 2010-2011 school year, all districts that enroll limited English proficient students will be reviewed using a combination of updated standards and a self-assessment instrument overseen by the Department's Office of Language Acquisition and Academic Achievement (OLAAA), including a request for information regarding ELE programs and staff qualifications.

Some reviews also cover selected requirements in:

Career/Vocational Technical Education (CVTE)

- career/vocational technical education programs under the federal Carl D. Perkins Vocational and Technical Education Act of 1998 and M.G.L. c. 74.

Districts providing Title I services participate in Title I program monitoring during the same year they are scheduled for a Coordinated Program Review. Details regarding the Title I program monitoring process are available at: <http://www.doe.mass.edu/titlei/monitoring>.

COORDINATED PROGRAM REVIEW ELEMENTS

Team: Depending upon the size of a school district and the number of programs to be reviewed, a team of two to eight Department staff members conducts onsite activities over two to five days in a school district or charter school.

Timing: Each school district and charter school in the Commonwealth is scheduled to receive a Coordinated Program Review every six years and a mid-cycle special education follow-up visit three years after the Coordinated Program Review; about fifty-seven school districts and charter schools are scheduled for Coordinated Program Reviews in 2010-2011, of which all districts participated in the Web-based Monitoring System (WBMS). The Department's 2010-2011 schedule of Coordinated Program Reviews is posted on the Department's web site at <<<http://www.doe.mass.edu/pqa/review/cpr/schedule.html>>>. The statewide six-year Program Review cycle, including the Department's Mid-cycle follow-up monitoring schedule, is posted at <<<http://www.doe.mass.edu/pqa/review/cpr/6yrcycle.html>>>.

Criteria: The Program Review criteria for each WBMS review, begins with the district/school conducting a self-assessment across all fifty-two current special education criteria. Program Quality Assurance through its Desk Review procedures examines the district/school's self-assessment submission and determines which criteria will be followed-up on through onsite verification activities. For more details, please see the section on **The Web-based Approach to Special Education Monitoring** at the beginning of the School District Information Package for Special Education.

The requirements selected for review in all of the regulated programs are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993 to promote student achievement and high standards for all students.

WBMS Methods: Methods used in reviewing special education programs include:

Self-Assessment Phase:

- District/school review of special education documentation for required elements including document uploads. Upon completion of this portion of the district/school's self-assessment, it is submitted to the Department for review.
- District/school review of a sample of special education student records selected across grade levels, disability categories and level of need. Additional requirements for the appropriate selection of the student record sample can be found in **Appendix II: Student Record Review Procedures** of the School District Information Package for Special Education.

Upon completion of this portion of the district/school's self-assessment, it is submitted to the Department for review.

On-site Verification Phase: Includes activities selected from the following;

- Interviews of administrative, instructional, and support staff consistent with those criteria selected for onsite verification.
- Interviews of parent advisory council (PAC) representatives and other telephone interviews, as requested, by other parents or members of the general public.

- Review of student records for special education: The Department may select a sample of student records from those the district reviewed as part of its self-assessment, as well as records chosen by the Department from the special education student roster. The onsite team will conduct this review, using standard Department procedures, to determine whether procedural and programmatic requirements have been implemented.
- Surveys of parents of students with disabilities: Parents of students with disabilities whose files are selected for the record review, as well as the parents of an equal number of other students with disabilities, are sent a survey that solicits information regarding their experiences with the district's implementation of special education programs, related services, and procedural requirements.
- Observation of classrooms and other facilities: The onsite team visits a sample of classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

Note on collaborative programs and services: Where the district is a member of a collaborative approved by the Department of Elementary and Secondary Education and is a site for programs or services operated by the collaborative, interviews, student record review, and observation of classrooms are conducted for the collaborative.

Methods for all other programs in the Coordinated Program Review:

- Review of documentation about the operation of the charter school or district's programs.
- Interviews of administrative, instructional, and support staff across all grade levels.
- Telephone interviews as requested by other parents or members of the general public.
- Review of student records for English learner education and career/vocational technical education: The Department selects a representative sample of student records for the onsite team to review, using standard Department procedures, to determine whether procedural and programmatic requirements have been implemented.
- Surveys of parents of English learners whose files are selected for the record review are sent a survey of their experiences with the district's implementation of the English learner education program and related procedural requirements.
- Observation of classrooms and other facilities: The onsite team visits a sample of classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

Report: Preparation:

At the end of the onsite visit, the onsite team will hold an informal exit meeting to summarize its comments for the superintendent or charter school leader and anyone else he or she chooses. Within approximately 45 business days of the onsite visit, the onsite chairperson will forward to the superintendent or charter school leader (and collaborative director where applicable) a Draft Report containing comments from the Program Review. The Draft Report comments for special education are provided to the district/school on-line through the Web-based Monitoring System (WBMS). These comments will, once the district has had a chance to respond, form the basis for any findings by the Department. The district (and

collaborative) will then have 10 business days to review the report for accuracy before the publication of a Final Report with ratings and findings (see below). The Final Report will be issued within approximately 60 business days of the conclusion of the onsite visit and posted on the Department's website at <http://www.doe.mass.edu/pqa/review/cpr/reports/>.

Content of Final Report:

Ratings. In the Final Report, the onsite team gives a rating for each compliance criterion it has reviewed; those ratings are “Commendable,” “Implemented,” “Implementation in Progress,” “Partially Implemented,” “Not Implemented,” and “Not Applicable.” “Implementation in Progress,” used for criteria containing new or updated legal requirements, means that the district has implemented any old requirements contained in the criterion and is training staff or beginning to implement the new requirements in such a way that the onsite team anticipates that the new requirements will be implemented by the end of the school year.

Findings. The onsite team includes a finding in the Final Report for each criterion that it rates “Commendable,” “Partially Implemented,” “Not Implemented,” or “Implementation in Progress,” explaining the basis for the rating. It may also include findings for other related criteria.

Response: Where criteria are found “Partially Implemented” or “Not Implemented”, the district or charter school must propose corrective action to bring those areas into compliance with the relevant statutes and regulations. This corrective action plan (CAP) will be due to the Department within 20 business days after the issuance of the Final Report and is subject to the Department's review and approval. Department staff will offer districts and charter schools technical assistance on the content and requirements for developing an approvable CAP.

Department staff will also provide ongoing technical assistance as the school or district is implementing the approved corrective action plan. **School districts and charter schools must demonstrate effective resolution of noncompliance identified by the Department as soon as possible but in no case later than one year from the issuance of the Department's Final Program Review Report.**

INTRODUCTION TO THE FINAL REPORT

A three member Massachusetts Department of Elementary and Secondary Education team visited Athol-Royalston Regional School District during the week of May 9-13, 2011, to evaluate the implementation of selected criteria in the program areas of special education, civil rights and other related general education requirements, and English learner education. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district. The onsite team would like to commend the following areas that were brought to its attention and that it believes have a significant and positive impact on the delivery of educational services for students enrolled in the Athol Royalston Regional School District. These areas are as follows:

Staff interviews indicated that the district does an exemplary job of ensuring that students with disabilities participate in sports, extracurricular activities and clubs. The district routinely employs paraprofessionals and staff to provide supports during after school and school sponsored events. In addition, Athol-Royalston Regional School District has instituted practices to reduce its student drop-out rate. The district has established a long term relationship with Job Corps as an option for high risk students, trained and utilized staff to facilitate keeping students connected to school and established an extended year program for high school students who need additional coursework to complete their high school requirements.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of the following Department program review methods:

- Interviews of ten administrative staff.
- Interviews of 35 teaching and support services staff across all levels.
- Interviews of two parent advisory council (PAC) representatives.
- Two Interviews as requested by persons from the general public.
- Student record reviews: Samples of 35 special education student records and nine English learner education student records were selected by the Department. These student records were first examined by local staff, whose findings were then verified by the onsite team using standard Department record review procedures.
- Surveys of parents of students with disabilities: 50 parents of students with disabilities were sent surveys that solicited information about their experiences with the district's implementation of special education programs, related services and procedural requirements. Twelve of these parent surveys were returned to the Department of Elementary and Secondary Education for review.
- Surveys of parents of ELE students: nine parents of ELE students were sent surveys that solicited information about their experiences with the district's implementation of English learner education programs, services, and procedural requirements. Two of these parent surveys were returned to the Department of Elementary and Secondary Education for review.
- Observation of classrooms and other facilities. A sample of 13 instructional classrooms and other school facilities used in the delivery of programs and services were visited to examine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components. These components are:

- Component I: Assessment of Students**
- Component II: Student Identification and Program Placement**
- Component III: Parent and Community Involvement**
- Component IV: Curriculum and Instruction**
- Component V: Student Support Services**
- Component VI: Faculty, Staff and Administration**
- Component VII: Facilities**
- Component VIII: Program Evaluation**
- Component IX: Recordkeeping and Fund Use**

The findings in each program area explain the “ratings,” determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially “Implemented” or implemented in a “Commendable” manner. (Refer to the “Definition of Compliance Ratings” section of the report.) Where criteria were found to be either “Partially Implemented” or “Not Implemented,” the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plans.

DEFINITION OF COMPLIANCE RATINGS

Commendable	Any requirement or aspect of a requirement implemented in an exemplary manner significantly beyond the requirements of law or regulation.
Implemented	The requirement is substantially met in all important aspects.
Implementation in Progress	This rating is used for criteria containing new or updated legal requirements and means that the district has implemented any old requirements contained in the criterion and is training staff or beginning to implement the new requirements in such a way that the onsite team anticipates that the new requirements will be implemented by the end of the school year.
Partially Implemented	The requirement, in one or several important aspects, is not entirely met.
Not Implemented	The requirement is totally or substantially not met.
Not Applicable	The requirement does not apply to the school district or charter school.

Department of Elementary and Secondary Education Findings:

A review of student records and interviews indicated that the district does not routinely conduct educational assessments that include a history of the student’s educational progress in the general curriculum. In addition, the district does not conduct required classroom observations for students suspected of specific learning disabilities. Proposed evaluations are not always tailored to assess specific areas of educational and related developmental need nor are evaluations selected and administered to reflect aptitude and achievement levels and related developmental need.

A review of student records indicated that IEPs often omit goals and benchmarks for services identified in service delivery grids. In addition, the school district has a practice of changing the IEP services at a higher administrative level within the district without parental consent. The district changed the high school schedule for the 2010-2011 school year from a four block period to a seven block period and did not contact parents or guardians of eligible students, reconvene IEP Teams, or amend IEP service delivery grids to accurately reflect changes in service delivery, frequency, and duration. The district plans to return to a four block schedule for the 2011-2012 school year while IEP service grids that were developed and accepted by parents during the 2010-2011 school year reflect a seven period instructional block.

A review of student class lists and interviews indicate that district decisions regarding placement are not based on the IEP, including the type of settings in which those services are to be provided. The district currently places and transports eligible students from sending schools to the Miller's River Academy, a day program for eligible students with emotional and behavioral needs in grades 3 through 12. The program is located at a separate facility in Athol and has its own principal. IEPs inappropriately identify summer school in lieu of an extended school year but the type(s) of ESY services, duration or frequency are not identified in IEPs. The district does not have any system or procedures in place for teachers to determine the regression of skills. As a result, IEP teams

are not routinely considering ESY programs for students who are likely to demonstrate substantial regression in the learning of skills and/or substantial difficulty in relearning such skills if an extended program is not provided.

Documentation of monitoring plans and all actual monitoring are placed in the files of every eligible student who has been placed out-of-district. To the extent that this monitoring requires site visits, such site visits are documented and placed in the students' files for review. The duty to monitor out-of-district placements is not delegated to parents or their agents, to the Department of Elementary and Secondary Education, or to the out-of-district placement. 2. <u>Student right to full procedural protections</u>: The school district retains full responsibility for ensuring that the student is receiving all special education and related services in the student's IEP, as well as all procedural protections of law and regulation. Any Team meetings conducted during the time that a student is enrolled in the out-of-district program are initiated by the school district in coordination with the out-of-district placement. 3. <u>Preference to approved programs</u>: The school district, in all circumstances, first seeks to place a student in a program approved by the Department pursuant to the requirements of 603 CMR 28.09. Preference is also given to approved programs located within the Commonwealth of Massachusetts if the choice of such program is consistent with the needs of the student and the choice of such program complies with LRE requirements. When an approved program is available to provide the services on the IEP, the district makes such placement in the approved program in preference to any program not approved by the Department. 4. <u>Written contracts</u>: The school district enters into written contracts with all public and private out-of-district placements. At a minimum, such contracts meet the content requirements of 28.06(3)(f)(1-5). 5. <u>Use of unapproved programs</u>: A school district that places a student in a program that has not been approved by the Department according to the requirements under 603 CMR 28.09 ensures that such programs and services are provided in appropriate settings by appropriately credentialed staff able to deliver the services on the student's IEP. Students placed by the school district in such programs are entitled to the full protections of state and federal special education law and regulation. 6. <u>Placement documentation</u>: The following documentation is maintained by the school district pursuant to its placement of children in unapproved out-of-district programs: <ol style="list-style-type: none"> a. <u>Search</u>: The Administrator of Special Education documents the search for and unavailability of a program approved by the Department. Department of Elementary and Secondary Education Findings:

A review of student records and staff interviews indicated that the district does not consider positive behavioral interventions and the possible need for a functional behavioral assessment for students whose behavior impedes their learning or the learning of others. Teachers, both general education and special education, are unfamiliar with behavior intervention plans (BIPs) and functional behavior assessments (FBAs). Teachers are not implementing and do not know how to develop BIPs, or to request FBAs. The district is not implementing behavioral supports prior to placing students at Miller’s River Academy, a special education day program which serves eligible students in grades 3 -12.

CR 18	<p>Responsibilities of the school principal</p> <p>1. Instructional support. The principal in each of the district’s schools promotes instructional practices responsive to student needs and ensures that adequate instructional support is available for students and teachers. Instructional support includes remedial instruction for students, consultative services for teachers, availability of reading instruction at the elementary level, appropriate services for linguistic minority students, and other services consistent with effective educational practices and the requirements of M.G.L. c. 71B, §2. The principal consults with the Administrator of Special Education regarding accommodations and interventions for students. Such efforts and their results are documented and placed in the student record. Additionally, when an individual student is referred for an evaluation to determine eligibility for special education, the principal ensures that documentation on the use of instructional support services for the student is provided as part of the evaluation information reviewed by the Team when determining eligibility.</p>

	<p>2. Curriculum Accommodation Plan. The principal implements a curriculum accommodation plan developed by the district’s general education program to ensure that all efforts have been made to meet the needs of diverse learners in the general education program. The plan assists the regular classroom teacher in analyzing and accommodating diverse learning styles of all children in the regular classroom and in providing appropriate services and support within the general education program including, but not limited to, direct and systematic instruction in reading and provision of services to address the needs of children whose behavior may interfere with learning. The plan includes provisions encouraging teacher mentoring and collaboration and parental involvement. <i>(The plan may be part of a multi-year strategic plan.)</i></p> <p>3. Coordination with special education. The principal with the assistance of the Administrator of Special Education coordinates the delivery and supervision of special education services within each school building.</p> <p>4. Educational services in home or hospital. Upon receipt of a physician’s written order verifying that any student enrolled in a public school or placed by the public school in a private setting must remain at home or in a hospital on a day or overnight basis, or any combination of both, for medical reasons and for a period of not less than fourteen school days in any school year, the principal arranges for provision of educational services in the home or hospital. Such services are provided with sufficient frequency to allow the student to continue his or her educational program, as long as such services do not interfere with the medical needs of the student. The principal coordinates such services with the Administrator for Special Education for eligible students. Such educational services are not considered special education unless the student has been determined eligible for such services, and the services include services on the student’s IEP.</p> <p>M.G.L. c. 71, § 38Q ½; 603 CMR 28.03(3)</p>
	<p>Rating: Partially Implemented District Response Required: Yes</p>

Department of Elementary and Secondary Education Findings:

A review of student records, interviews and documentation indicated that the district does not have system wide procedures for determining and providing instructional support services. There are no procedures in place regarding the documentation of interventions, supports or services provided to students prior to referring a child for a special education evaluation. As a result, when an individual student is referred for an evaluation to determine eligibility for special education, the principals do not always ensure that documentation on the use of instructional support services for the student is provided as part of the evaluation information reviewed by the IEP Team when determining eligibility. See SE 24.
