COORDINATED PROGRAM REVIEW REPORT
Swampscott Public Schools**

SCOPE OF COORDINATED PROGRAM REVIEWS

As one part of its accountability system, the Department of Elementary and Secondary Education oversees local compliance with education requirements through the Coordinated Program Review (CPR). All reviews cover selected requirements in the following areas:

Special Education (SE)

- selected requirements from the federal Individuals with Disabilities Education Act (IDEA-2004); the federal regulations promulgated under that Act at 34 CFR Part 300; M.G.L. c. 71B, and the Massachusetts Board of Education's Special Education regulations (603 CMR 28.00), as amended effective March 1, 2007. The 2013 - 2014 Web-based Monitoring System (WBMS) districts conducted self-assessments across all criteria.

Civil Rights Methods of Administration and Other General Education Requirements (CR)

- selected federal civil rights requirements, including requirements under Title VI of the Civil Rights Act of 1964; the Equal Educational Opportunities Act of 1974; Title IX of the Education Amendments of 1972; Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act of 1990, together with selected state requirements under M.G.L. c. 76, Section 5 as amended by Chapter 199 of the Acts of 2011 and M.G.L. c. 269 §§ 17 through 19.
- selected requirements from the Massachusetts Board of Education's Physical Restraint regulations (603 CMR 46.00).
- selected requirements from the Massachusetts Board of Education's Student Learning Time regulations (603 CMR 27.00).
- various requirements under other federal and state laws.
- The 2013 - 2014 Web-based Monitoring System (WBMS) districts conducted self-assessments across all criteria

English Learner Education (ELE) in Public Schools

- selected requirements from M.G.L. c. 71A, the state law that governs the provision of education to limited English proficient students, and 603 CMR 14.00, as well as the No Child Left Behind Act of 2001 and Title VI of the Civil Rights Act of 1964. During the 2013-2014 school year, all districts that enroll limited English proficient students will be reviewed using a combination of updated standards and a self-assessment instrument overseen by the Department's Office of Language Acquisition and Academic Achievement (OLAAA), including a request for information regarding ELE programs and staff qualifications.

Some reviews also cover selected requirements in:

Career/Vocational Technical Education (CVTE)

- career/vocational technical education programs under the federal Carl D. Perkins Vocational and Technical Education Act of 1998 and M.G.L. c. 74.

Districts providing Title I services participate in Title I program monitoring during the same year they are scheduled for a Coordinated Program Review. Details regarding the Title I program monitoring process are available at: <http://www.doe.mass.edu/titlei/monitoring>.

COORDINATED PROGRAM REVIEW ELEMENTS

Team: Depending upon the size of a school district and the number of programs to be reviewed, a team of one to eight Department staff members conducts onsite activities over two to five days in a school district or charter school.

Timing: Each school district and charter school in the Commonwealth is scheduled to receive a Coordinated Program Review every six years and a mid-cycle special education follow-up visit three years after the Coordinated Program Review; about eighty school districts and charter schools are scheduled for Coordinated Program Reviews in 2013-2014, of which all districts participated in the Web-based Monitoring System (WBMS). The Department's 2013–2014 schedule of Coordinated Program Reviews is posted on the Department's web site at <<<http://www.doe.mass.edu/pqa/review/cpr/schedule.html>>>. The statewide six-year Program Review cycle, including the Department's Mid-cycle follow-up monitoring schedule, is posted at <<<http://www.doe.mass.edu/pqa/review/cpr/6yrcycle.html>>>.

Criteria: The Program Review criteria for each WBMS review, begins with the district/school conducting a self-assessment across all fifty-two current special education criteria. Program Quality Assurance through its Desk Review procedures examines the district/school's self-assessment submission and determines which criteria will be followed-up on through onsite verification activities. For more details, please see the section on **The Web-based Approach to Special Education and Civil Rights Monitoring** at the beginning of the School District Information Package for Special Education and Civil Rights.

The requirements selected for review in all of the regulated programs are those that are most closely aligned with the goals of the Massachusetts Education Reform Act of 1993 to promote student achievement and high standards for all students.

WBMS Methods: Methods used in reviewing special education and civil rights programs include:

Self-Assessment Phase:

- District/school review of special education and civil rights documentation for required elements including document uploads. Upon completion of this portion of the district/school's self-assessment, it is submitted to the Department for review.
- District/school review of a sample of special education student records selected across grade levels, disability categories and level of need. Additional requirements for the appropriate selection of the student record sample can be found in **Appendix II: Student Record Review Procedures** of the School District Information Package for Special Education.

Upon completion of this portion of the district/school's self-assessment, it is submitted to the Department for review.

On-site Verification Phase: Includes activities selected from the following;

- Interviews of administrative, instructional, and support staff consistent with those criteria selected for onsite verification.
- Interviews of parent advisory council (PAC) representatives and other telephone interviews, as requested, by other parents or members of the general public.
- Review of student records for special education: The Department may select a sample of student records from those the district reviewed as part of its self-assessment, as well as records chosen by the Department from the special education student roster. The onsite team will conduct this review, using standard Department procedures, to determine whether procedural and programmatic requirements have been implemented.
- Surveys of parents of students with disabilities: Parents of students with disabilities whose files are selected for the record review, as well as the parents of an equal number of other students with disabilities, are sent a survey that solicits information regarding their experiences with the district's implementation of special education programs, related services, and procedural requirements.
- Observation of classrooms and other facilities: The onsite team visits a sample of classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.
- Review of additional documents for special education or civil rights.

Methods for all other programs in the Coordinated Program Review:

- Review of documentation about the operation of the charter school or district's programs.
- Interviews of administrative, instructional, and support staff across all grade levels.
- Telephone interviews as requested by other parents or members of the general public.
- Review of student records for English learner education and career/vocational technical education: The Department selects a representative sample of student records for the onsite team to review, using standard Department procedures, to determine whether procedural and programmatic requirements have been implemented.
- Surveys of parents of English learners whose files are selected for the record review are sent a survey of their experiences with the district's implementation of the English learner education program and related procedural requirements.
- Observation of classrooms and other facilities: The onsite team visits a sample of classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

Report: Preparation:

At the end of the onsite visit, the onsite team will hold an informal exit meeting to summarize its comments for the superintendent or charter school leader and anyone else he or she chooses. Within approximately 45 business days of the onsite visit, the onsite chairperson will forward to the superintendent or charter school leader (and collaborative director where applicable) a Draft Report containing comments from the Program Review. The Draft Report comments for special education and civil rights are provided to the district/school on-line

Template Version 130417

through the Web-based Monitoring System (WBMS). These comments will, once the district has had a chance to respond, form the basis for any findings by the Department. The district (and collaborative) will then have 10 business days to review the report for accuracy before the publication of a Final Report with ratings and findings (see below). The Final Report will be issued within approximately 60 business days of the conclusion of the onsite visit and posted on the Department's website at <<http://www.doe.mass.edu/pqa/review/cpr/reports/>>.

Content of Final Report:

Ratings. In the Final Report, the onsite team gives a rating for each compliance criterion it has reviewed; those ratings are “Commendable,” “Implemented,” “Implementation in Progress,” “Partially Implemented,” “Not Implemented,” and “Not Applicable.” “Implementation in Progress,” used for criteria containing new or updated legal requirements, means that the district has implemented any old requirements contained in the criterion and is training staff or beginning to implement the new requirements in such a way that the onsite team anticipates that the new requirements will be implemented by the end of the school year.

Findings. The onsite team includes a finding in the Final Report for each criterion that it rates “Commendable,” “Partially Implemented,” “Not Implemented,” or “Implementation in Progress,” explaining the basis for the rating. It may also include findings for other related criteria.

Response: Where criteria are found “Partially Implemented” or “Not Implemented”, the district or charter school must propose corrective action to bring those areas into compliance with the relevant statutes and regulations. This corrective action plan (CAP) will be due to the Department within 20 business days after the issuance of the Final Report and is subject to the Department's review and approval. Department staff will offer districts and charter schools technical assistance on the content and requirements for developing an approvable CAP.

Department staff will also provide ongoing technical assistance as the school or district is implementing the approved corrective action plan. **School districts and charter schools must demonstrate effective resolution of noncompliance identified by the Department as soon as possible but in no case later than one year from the issuance of the Department's Final Program Review Report.**

INTRODUCTION TO THE FINAL REPORT

A three-member Massachusetts Department of Elementary and Secondary Education team visited Swampscott Public Schools during the week of May 12, 2014 to evaluate the implementation of selected criteria in the program areas of special education, civil rights and other related general education requirements, and English learner education. The team appreciated the opportunity to interview staff and parents, to observe classroom facilities and to review the programs underway in the district.

The onsite team would like to commend the following area that was brought to its attention and that it believes has a significant and positive impact on the delivery of educational services for students enrolled in the Swampscott Public Schools. This area is as follows:

Observations and staff interviews indicated that the integrated preschool program is comprised of five separate classrooms effectively servicing a wide range of student learners within the public school setting, including students with significant disabilities. The classrooms have a high ratio of adults to students, and each has focused learning centers that are inclusive for general education student peers and students with disabilities.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of the following Department program review methods:

- Interviews of seven administrative staff.
- Interviews of 34 teaching and support services staff across all levels.
- Interview of one parent advisory council (PAC) representative.
- Interviews as requested by persons from the general public.
- Student record reviews: Samples of 38 special education student records and 10 English learner education student records.
- Surveys of parents of students with disabilities: 50 parents of students with disabilities were sent surveys that solicited information about their experiences with the district's implementation of special education programs, related services and procedural requirements. Fourteen of these parent surveys were returned to the Department of Elementary and Secondary Education for review.
- Surveys of parents of ELE students: 10 parents of ELE students were sent surveys that solicited information about their experiences with the district's implementation of English learner education programs, services, and procedural requirements. Four of these parent surveys were returned to the Department of Elementary and Secondary Education for review.
- Observation of classrooms and other facilities. A sample of 21 instructional classrooms and other school facilities used in the delivery of programs and services was visited to examine general levels of compliance with program requirements.

The report includes findings in the program areas reviewed organized under nine components. These components are:

- Component I: Assessment of Students**
- Component II: Student Identification and Program Placement**
- Component III: Parent and Community Involvement**
- Component IV: Curriculum and Instruction**
- Component V: Student Support Services**
- Component VI: Faculty, Staff and Administration**
- Component VII: Facilities**
- Component VIII: Program Evaluation**
- Component IX: Recordkeeping and Fund Use**

The findings in each program area explain the “ratings,” determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially “Implemented” or implemented in a “Commendable” manner. (Refer to the “Definition of Compliance Ratings” section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the district or charter school must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. Districts are expected to incorporate the corrective action into their district and school improvement plans, including their professional development plans.

When the student's lack of progress is due to a lack of instruction in reading or mathematics, limited English proficiency, social maladjustment, or is due to an inability to meet the school discipline code but is not due to a disability, the district makes a finding of no eligibility for special education and may refer the student to a more appropriate instructional program or support service.

Any Team meetings conducted during the time that a student is enrolled in the out-of-district program are initiated by the school district in coordination with the out-of-district program. 3. <u>Preference to approved programs</u>: The school district, in all circumstances, first seeks to place a student in a program approved by the Department pursuant to the requirements of 603 CMR 28.09. Preference is also given to approved programs located within the Commonwealth of Massachusetts if the choice of such program is consistent with the needs of the student and the choice of such program complies with LRE requirements. When an approved program is available to provide the services on the IEP, the district makes such placement in the approved program in preference to any program not approved by the Department. 4. <u>Written contracts</u>: The school district enters into written contracts with all public and private out-of-district placements. At a minimum, such contracts meet the content requirements of 28.06(3)(f)(1-5). 5. <u>Use of unapproved programs</u>: A school district that places a student in a program that has not been approved by the Department according to the requirements under 603 CMR 28.09 ensures that such programs and services are provided in appropriate settings by appropriately credentialed staff able to deliver the services on the student's IEP. Such pricing forms are completed by the proposed placement and document that the price proposed for the student’s tuition is the lowest price charged for similar services to any student in that program.</p> <p>e. <u>Notification of the Department of Elementary and Secondary Education</u>: Prior to placement, if the Team determines that placement in such facility is appropriate, the Administrator notifies the Department of the intent to place the student and the name and location of the proposed placement before placing the student into the program by sending a completed mandated 28M3 form titled “Notice of Intent to Seek Approval for Individual Student Program” and all the required supporting documentation (i.e., completed pricing forms, signed written contract that will govern such placement, and monitoring plan pursuant to 603 CMR 28.06(3)(b)). The district maintains copies of this documentation, as well as any documentation of the Department’s objections to such placement and the steps the district has taken in regard to such objection. The district maintains documentation of the approved price for publicly-funded students as set by the state agency responsible for setting program prices.
