

**Approved Massachusetts  
In-State  
Day and Residential  
Private Special Education School Programs  
Pursuant to 603 CMR 18.00 and 28.09**

**and**

**Policy and Procedures Regarding  
the Approval of  
Private Out-of-State Programs  
Providing Special Education Services  
to Massachusetts Students**

**March 2007**

## **EXPLANATION OF ABBREVIATION AND TERMS**

### **AGENCY NAME/ PROGRAM NAME:**

All programs are listed alphabetically by the name of the operating agency for each approved program. Note that in some instances the name of the operating agency is also the name of the approved program.

### **DAY (D), RESIDENTIAL (R), SUMMER (S):**

- D = Day Program
- R = Residential Program
- S = Summer Program

### **NUMBER OF MONTHS:**

- 10 = Program of 10 months in duration consists of a minimum of 180 school days
- 11 = Program of 11 months in duration consists of a minimum of 198 school days
- 12 = Program of 12 months in duration consists of a minimum of 216 school days
- Summer programs are usually scheduled over a 2 month period and do not have a minimum number of days set by the Department of Education.

### **PROGRAM CODE:**

Most programs have a four-digit number followed by a letter. This is a Department of Education assigned code number for the purposes of identifying programs where the Department has financial interests.

### **SEX, AGE RANGE:**

This column notes the sex (M/F) and the age range of the students served in a particular program.

### **NEEDS SERVED:**

The disability abbreviations listed below and that are referenced in this directory are those that are reported by approved private school programs.

- |                         |       |
|-------------------------|-------|
| • Autism                | AUT   |
| • Developmental Delay   | DD    |
| • Intellectual          | INT   |
| • Sensory Hearing       | SENH  |
| • Sensory Vision        | SENV  |
| • Sensory Deaf-Blind    | SENDB |
| • Neurological          | N     |
| • Emotional             | E     |
| • Communication         | COM   |
| • Physical              | PHY   |
| • Specific Learning     | SL    |
| • Health                | H     |
| • Multiple Disabilities | M     |

### **CONTACT PERSON:**

The contact person for each program is listed together with the program mailing address, telephone number, e-mail address, and web page, if available. The contact person is the individual most able to discuss the nature and scope of program services. Note that some of the programs provide services at additional locations. Please contact the director of the specific program for locations not listed in the directory.

### **\*TUITION RATE:**

The maximum allowable Massachusetts tuition rate for a publicly funded day or residential placement in approved private program is set by the Operational Services Division of the Executive Office of Administration and Finance. Note that these rates are subject to change. Information on the most current rate for each program is available at the Web site noted at the bottom of each page in the directory.

# The Commonwealth of Massachusetts Department of Education

---

350 Main Street, Malden, Massachusetts 02148-5023  
(781) 338-3000

Telephone:

March 2007

Dear Interested Parties:

We are pleased to provide you with the March 2007 update of our "*Approved Massachusetts In-State Day and Residential Private Special Education School Programs*" directory. This directory is designed to provide assistance to local special education administrators, teachers and parents when placing eligible students with special education needs in private day or residential programs.

This directory has been updated to reflect the school year 2006-2007 and includes new private day and residential programs that the Department of Education has approved throughout the past year pursuant to 603 CMR 18.00 and 28.09. Tuition rates that are set by the Operational Services Division of the Executive Office of Administration and Finance can be found by choosing "Special Education Pricing" at <http://www.mass.gov/osd>.

Once again, the Department wishes to remind school districts and interested parties of the required procedures for the approval of schools serving disabled students in programs operated outside the Commonwealth. These procedures were originally issued in May 1997 and are provided at the end of this directory.

A copy of this book may be obtained by visiting our website at <http://www.doe.mass.edu/pqa/spedpvtlist/> or by contacting Program Quality Assurance Services (PQA) at (781) 338-3700. Programmatic or procedural questions regarding the placement of students with special education needs in these approved schools should be directed to PQA.

Sincerely,

Darlene Lynch  
Director  
Program Quality Assurance Services

### OUT-OF-STATE SPECIAL EDUCATION PROGRAMS

#### ***Massachusetts Department of Education (MDOE) Policy Regarding the Approval of Private Out-of-State Programs Providing Special Education Services to Massachusetts Students, Including Requests for Authorization for Pricing of Such Programs***

**Effective: May 1, 1997 and updated April 1, 2002**

#### **A. Background**

Local school districts, through the Massachusetts special education Team process, have full responsibility to determine what services are necessary for a student with special education needs. Placement decisions are made at the local level and *districts are expected to give preference to approved in-state programs*. If the local school district Team determines that necessary services cannot be provided in Massachusetts, then local school districts may identify appropriate out-of-state special education programs. Currently, all New England states have approval requirements for private special education schools located in their state. According to federal special education law, all state education agencies have oversight responsibilities for programs serving students with disabilities.

#### **B. Regulatory and Authorizing Environment**

The Massachusetts legislature has consistently appropriated funds to assist in the costs of special education services. The MDOE is the state agency responsible for the administration of any funds provided to MDOE for this purpose.

The Office of the Comptroller, by policy and historical procedure, requires documentation from the Massachusetts Executive Office of Administration and Finance, Operational Services Division (OSD) of a rate approval prior to authorizing release of state funds from MDOE. MDOE approves out-of-state programs primarily to enable OSD to set rates, and only then for the purposes of disbursing funds directly from accounts managed by MDOE.

#### **C. School District Responsibility**

Massachusetts special education regulations are clear that primary responsibility to ensure appropriateness of placement for students with disabilities rests with the local school district. A school district may place a student in an out-of-state program if no appropriate special education program is available in Massachusetts and the district believes that the out-of-state program is able to provide the services on the approved IEP for the student. In the case of an out-of-state program that has been approved by the host state, the responsible school district must request and maintain in the student's file current documentation of the host state's approval. Further, the school district must ensure that the tuition charged for out-of-state programs is either approved by the host state, or is the lowest rate charged to students with similar presenting needs.

#### **D. Massachusetts State Funding and State Approval**

An out-of-state program, in cooperation with a Massachusetts school district, may initiate activities with MDOE to obtain program approval. Once approval is obtained from the MDOE, out-of-state programs are eligible for rate approval through OSD. Program approval from MDOE and pricing approval from OSD are always necessary for private programs enrolling publicly funded Massachusetts special education students.

### Program Approval:

At the request of the out-of-state program, and in coordination with a Massachusetts school district, the MDOE may "approve" out-of-state programs upon receipt of documentation showing (a) the intent of a Massachusetts school district to place a student in the out-of-state program, and (b) approval from the host state to operate as a private special education school. MDOE may issue a three (3) year "approval" to the out-of-state program and will forward such approval to the OSD for pricing. MDOE may deny any approval if it deems that circumstances warrant such action. MDOE program approval will remain current for either three (3) years from the date of the initial approval or until the end of the program session (if placement is made mid-session), whichever is longer. Out-of-state programs may accept other Massachusetts students without additional documentation during the three (3) year period of approval. Out-of-state programs with lapsed approvals from the MDOE must reapply if a continuing three (3) year approval is desired. If the out-of-state program is not approved by the host state, the approval process becomes subject to authorization of pricing requirements outlined below.

Once a Massachusetts "approval" status for a program is no longer current, the OSD will no longer be obligated to set annual rates until documentation is updated showing (a) presence of Massachusetts enrolled students and (b) approval from the host state. **It is the responsibility of the Massachusetts school district or the out-of-state program to initiate and/or reinstate this three (3) year approval.**

### Tuition Rate Approval:

Rate approval from OSD will be contingent on current MDOE approval and submission of annual pricing documentation. The Massachusetts OSD will issue annual rate approval letters that will be used in state purchasing activity in relation to tuition payments to out-of-state programs.

- (a) For out-of-state programs existing in states with a state agency rate setting procedure, the OSD will require documentation showing the rate set by the host state and will approve such rate for Massachusetts students.
- (b) If the host state has no rate setting procedures, the OSD will generally accept a tuition rate consistent with the tuition that would be paid for students enrolled in the program by the host state and will require documentation demonstrating that the rate is the lowest rate charged for the service. Massachusetts' OSD will exercise judgment as to whether additional documentation may be required for programs operating in states with no rate approval procedures.

## **E. Program Responsibility & Monitoring:**

### Program responsibility:

The Massachusetts school district placing a student in an out-of-state special education program remains responsible to ensure that the program and services are appropriate. The school district is responsible to initiate a contract with the out-of-state program, arrange for services, conduct Team meetings and annual review procedures, and make whatever site visits it deems necessary to ensure appropriate services for the student, including verification of the use of qualified personnel.

### Monitoring:

The MDOE will monitor out-of-state programs in the following manner: MDOE will accept evidence of approval status from the host state as sufficient evidence of active state oversight. However, if a problem is identified, the MDOE has duties to conduct investigations and ensure that Massachusetts students receive a free appropriate public education (FAPE). In such cases, the MDOE may request the Massachusetts school district to conduct an investigation, may contact the Department of Education in the host state, or may conduct an independent onsite investigation if it deems such action necessary. Massachusetts program approval status may be withdrawn by MDOE at its discretion.

As part of MDOE's oversight responsibilities, in the course of routine Coordinated Program Review procedures in all districts, MDOE will conduct targeted reviews of Massachusetts LEA documentation, LEA monitoring of out-of-state programs, and other procedures ensuring appropriate services for students placed in out-of-state special education programs.

**F. Requests for Authorization of Pricing for Out-of-State Programs:**

No placements of Massachusetts students may be made in out-of-state programs without approval of the program by the host state. If the host state does not have an approval process, then the program must provide to the placing school district documentation of the program's reputable accreditation. All Massachusetts general requirements for out-of-district placements [603 C.M.R. 28.06 (3)] apply to such placements, and, for those programs that are not approved by Massachusetts pursuant to the procedures above, the requirements for the use of unapproved programs [603 C.M.R. 28.06(3)(e)] also apply. In such circumstances, MDOE will request that OSD authorize a price for an individual student's placement. Such requests for authorization of pricing of out-of-state programs must be renewed each year.

\*\*\*

If further guidance is needed to complete Massachusetts Department of Education requirements regarding the approval of private out-of-state programs providing special education services to Massachusetts students, including requests for authorization for the pricing of such programs, please consult with the Program Quality Assurance Services Coordinator of Private School Approval, (781) 338-3700.
