EDUCATION

Kindergarten Development Grants

This Report to the Legislature on Kindergarten Development Grants pursuant to Chapter 31 of the Acts of 2010 line item 7030-1002 provides information on full-day kindergarten programs across the Commonwealth. The information contained in the report also addresses the progress made on a number of aspects of the Kindergarten Development Grant Program. Data included in this report have been gathered from a number of sources including the Department's Student Information Management System (SIMS) data and Quality Full-Day Kindergarten grant data.

November 2011

Dear Members of the General Court:

I am pleased to submit this Report to the Legislature: *Kindergarten Development Grants* pursuant to Chapter 31 of the Acts of 2010 line item 7030-1002.

Between fiscal year 2000 and 2011, the percentage of public school kindergarten children statewide attending full-day programs grew from 29 to 80 percent. Although several factors contributed to the growth of full-day programs, support provided by the state's Kindergarten Development Grants and the commitment by districts to expand their early education programs are primary among them.

In fiscal year 2011 (FY11), 164 districts received Quality Full-day Kindergarten grants. Of these, 140 have universal full-day programs. Because of the decrease in funding of this line item, no Transition to Full-day Kindergarten Grants have been awarded since FY09. Nonetheless, the number of students in full-day kindergarten across the state increased by nearly 1,400, from a total of 52,818 in FY10 to 54,216 in FY11. Overall, 80 percent of kindergarten students were in full-day programs, up from 77 percent in FY10. During this time period, the percent of students paying tuition for full-day classes increased from 10 to 16 percent in all districts, and rose slightly from 9.4 percent to 11.7 percent in grant funded districts.

Universal, voluntary full-day kindergarten is a key component of an early care and education system for children from birth to third grade. Kindergarten is the threshold year in children's lives and education, merging home, non-public, and public early education and care and preschool programs into the public education system. Funding for the Kindergarten Development Grant Program in the last twelve fiscal years (FY00-11) has supported school districts' voluntary transition from half-day to full-day kindergarten and the ongoing quality enhancement of existing full-day programs.

The benefits of full-day kindergarten contribute to cost savings and improve educational outcomes, if the elements of quality are in place from preschool through third grade with strong leadership at every level. The Department of Elementary and Secondary Education (the Department) is committed to full-day kindergarten programs even during fiscally strained times. In order to support the interdepartmental taskforce focused on Grade 3 literacy proficiency, the Department is open to restructuring funding and targeting grant awards to high need districts. The Department also supports Chapter 70 reimbursement policies that promote tuition-free full-day kindergarten and create disincentives for eliminating existing full-day kindergarten programs.

If you have questions, please contact me or Associate Commissioner John L.G.Bynoe, III via jbynoe@doe.mass.edu or 781-338-6300.

Sincerely,

Mitchell D. Chester, Ed.D.
Commissioner of Elementary and Secondary Education

Legislative Request

The Department of Elementary and Secondary Education is pleased to submit this Report to the Legislature on Kindergarten Development Grants pursuant to Chapter 27 of the Acts of 2010 line item 7030-1002. This report addresses the progress made on certain aspects of the Kindergarten Development Grant Program. Language in line item 7030-1002 states that:

“...the department shall report to the house and senate committees on ways and means on the total number of grants requested and awarded; provided further, that the report shall detail common factors associated with both successful and unsuccessful applications and shall include the total number of full-day and half-day kindergarten classrooms projected to be in operation in public schools in fiscal year 2012...”

Grants Program Overview

A high quality education system for children from preschool through third grade (PreK-3) includes universal, full-day kindergarten. Kindergarten is a pivotal year in children’s lives and education, bridging home or preschool programs provided in diverse settings—family child care, Head Start, private early education and care, or public preschool—and the public elementary education system. Kindergarten is the first experience of formal schooling for many children; 22 percent of children who enter kindergarten in grant districts come without a preschool experience. Since FY00 the legislature and the governor have approved funding for the Kindergarten Development Grant Program as an ongoing program to accomplish two primary goals:

1. Increase the number of districts with high-quality full-day kindergarten by supporting selected districts’ preparations for implementing full-day kindergarten through the *Transition Planning for Full-day Kindergarten Grant*; and
2. Support elements of high quality programs that provide children with optimal learning experiences in their first formal year of public education with the *Quality Full-day Kindergarten Grant*.

Districts with kindergarten-age students must provide part-time kindergarten sessions for 425 hours per school year (*Regulations of the Massachusetts Board of Education, Massachusetts General Laws*). Districts are encouraged to offer full-day kindergarten programs. Funding guidelines define full-day programs as 5 hours per day and 5 days per week, or a minimum of 850 hours per school year.

Between FY00 and FY11 the percentage of public school kindergarten children statewide attending full-day programs grew from 29 to 80 percent. Although several factors contributed to the growth of full-day programs, support provided by the state’s Kindergarten Development Grants and the commitment by districts to expand their early education programs are primary among them.

Table 1 summarizes the program results and funding history of the Kindergarten Development Grant Program and its Quality and Transition components. Funding has fluctuated with fiscal

conditions. In some years the Quality grant line item was only sufficient to support districts with continuing programs, and no new districts were added. In half the years since FY00 the Transition grant line item was not funded. The amount of funding per classroom (\$11,600 for classrooms with at least a half-time instructional assistant; \$5,800 for classrooms without a half-time instructional assistant) has fluctuated as well, but has been trending downward since the highest funding amount in FY08 (\$14,900 per classroom with at least a half-time instructional assistant; \$7,500 for classrooms without a half-time instructional assistant). The per classroom eligibility amount is driven not only by the appropriation level and new grantees, but by the opening of additional classrooms in continuing districts. Over the whole period, however, the number of grantees, full-day classrooms, and full-day students has increased significantly.

Table 1: History of Full-Day Kindergarten Grants

Fiscal Year	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011*

* FY11 student data is based on the October 1, 2010 SIMs data collection.

District Kindergarten Programs

Full-day programs are optional, and districts have different budget issues and priorities so they offer full-day kindergarten in a variety of configurations. Districts have the option of offering a full-day program that has the capacity to serve all of their kindergarten-age children or some of their kindergarten-age children, and districts may also charge tuition for the hours beyond the mandated part-time program. If a district offers a limited number of full-day classes, it may place children by lottery or parent request, or it may offer full-day classes in particular neighborhood schools. In FY11, 306 districts serve kindergarten students, of which 276 provide at least some full-day classes.

One hundred and sixty-two (162) districts, of which 6 are charter schools, received Quality Full-day Kindergarten grants in FY10 and 164 districts received funds in FY11. Of the 54,216 children in full-day kindergarten across the Commonwealth, 43,730 (81 percent) are in grant-supported classrooms. The average per classroom cost of operating full-day kindergarten in

grant-funded districts is \$109,505. The grant funding (\$11,600 per classroom) supports on average about 10.5 percent of the cost of a full-day kindergarten classroom.

If a district offers a tuitioned full-day kindergarten program supported by kindergarten grant funds, grant guidelines establish a sliding fee scale for families making less than 100 percent of the state median income. The district may not charge any tuition for children of families earning less than 25 percent of the state median income and children on Individualized Education Programs (IEPs) requiring a full-day program. In FY11, 80 districts across the state charge tuition for their full-day program. Of these districts, 38 are grantees and charge tuition with a sliding scale of \$1,075 to \$4,000 per child¹ with an average² of \$2,857 per program. Three grantees eliminated tuition starting in FY11—Taunton Public Schools, Winthrop Public Schools and Narragansett Regional School District. The other 42 districts that charge tuition are not grantees, and the average³ tuition in these 42 districts is \$3,338. Some of these districts offer a sliding fee scale while others do not. The average statewide tuition for Full-day Kindergarten is \$3,110.

Table 2 summarizes FY10 and FY11 data about districts’ programs, students, and classrooms for grantees and for all districts.

Table 2: FY10 and FY11 Kindergarten Program Statistics

		All Districts		Grant Districts	
		FY10	FY11	FY10	FY11
Districts	With kindergarten students	307	306	162	164
	With some or all full-day kindergarten classes	279	276	162	164
	--With all full-day kindergarten	188	192	119	126
	--Tuition for full-day kindergarten	77	80	41	38
Classes	Full-day kindergarten classes	2,780	2,853	2,254	2,267

	Students in part-time kindergarten	15,402	13,280**	3,325*	2,226**
	Percent in full-day classes	77%	80%	93%	95%
	Percent paying tuition for full-day classes	10%	16%	9%	11%

* Data based on information from the *Quality Full-Day Kindergarten continuation grant applications*.

** Numbers based on October 1, 2010 SIMS data.

¹ The FY11 Department of Elementary and Secondary Education's scale for full-day kindergarten grantees is based on the Department of Early Education and Care's FY10 scale.

² The average tuition for grantees is calculated based on data submitted by grantees. It is the average of the maximum annual amount charged per student in each program (not including any sliding scale reductions).

³ The average tuition of non-grant districts is based on data collected through phone calls or website information regarding annual tuition for the districts’ full-day kindergarten program. It is the average of the maximum annual amount charged per student in each program (not including any sliding scale reductions).

Uses of Quality Full-day Kindergarten Grant Funds

Quality Full-day Kindergarten grants support the ongoing improvement of full-day programs and are continuation grants, meaning that a district can receive funding annually as long as it complies with program requirements. In FY11, \$22.9 million in Quality grants was awarded to 164 districts (see Appendix A for the list of grantees). Most Quality grant dollars (94 percent) fund staff positions, primarily paraprofessionals or assistant teachers. Grant funds supplement local funds and tuition. Funding priorities and activities include:

- Developing/implementing a full-day curriculum using the Department's [*Kindergarten Learning Experiences*](#) (April 2008), based on the Massachusetts Curriculum Frameworks, for planning curriculum;
- Seeking accreditation from the National Association for the Education of Young Children (NAEYC) or an alternative to accreditation approved by the Department⁴. Thirty-one percent of grant-funded classrooms are NAEYC accredited; another 36 percent are in process;
- Nineteen grantees are working on approved alternatives to NAEYC accreditation; and 19 requested a one-year postponement from NAEYC activities due to funding or restructuring issues in the district;
- Supporting paraprofessionals in each classroom to maintain appropriate adult-child ratios and appropriate class sizes (average class size is 19 students and adult-child ratio is 1:10);
- Offering effective professional development for administrators, teachers, and paraprofessionals;
- Working on continuity of curriculum and assessment, from preschool to grade three;
- Promoting family involvement and improving the transition of children and their families from preschool into kindergarten and from kindergarten into first grade;
- Increasing the number of children with disabilities included in the general education classroom, improving the quality of inclusion, and improving the quality of classes and services for children with disabilities (90 percent of funded classrooms are inclusive); and
- Improving the education of English language learners.

All districts with Quality grants maintain ongoing School Readiness and Early Childhood/Early Elementary Curriculum committees that may operate separately, jointly, or as a subcommittee to another council (such as Community Partnerships for Children Councils). Required members include representatives of private preschools and kindergartens; Head Start; teachers from public preschools, kindergartens, grades 1 to 3, and special education; school administrators and curriculum coordinators; after-school programs and other relevant programs; parents; and interested community members.

⁴ Seventeen (17) districts are approved to use one of the alternatives to accreditation, which include: the Classroom Assessment Scoring System (CLASS); Ready School Assessment (High/Scope); New England Association of Schools and Colleges Accreditation; Work Sampling System (Pearson Learning); and the Tools of the Mind Curriculum (Bodrova and Leong).

The primary tasks of the committees are to: improve the readiness of children and the readiness of schools; assist with developing and aligning an interdisciplinary and inclusive full-day curriculum addressing all domains of development, using the aforementioned *Kindergarten Learning Experiences*; align assessments from preschool to grades 2-3; and improve transitions for children and families from preschool into kindergarten and from kindergarten into first grade.

Uses of Transition to Full-day Kindergarten Grant Funds

Transition to Full-day Kindergarten grants have assisted districts converting part-time sessions to full-day programs. During years the Transition grant program has been funded, requests from eligible high-need districts were given priority, but grants have also been awarded to all types of communities. The Transition grants, along with the potential for a Quality grant in succeeding years to help support a full-day program, provided a significant incentive for districts to adopt and expand full-day kindergarten.

Appendix B: Map and Table of Full-Day Kindergarten Programs Available by Municipality

FY11 Kindergarten Programs Available by Municipality and at Charter Schools

Note: The table below lists towns rather than districts, so each town in a regional district is listed separately. Charter schools do not appear on the map above, but are included at the bottom of this list.

District	Full-day	Availability	Free or tuition	Quality grant	Annual tuition
Abington	Yes	Some	Tuition	No	\$3,000

Appendix C: Chapter 131 of the Acts of 2010

[7030-1002](#) For kindergarten expansion grants to provide grant awards to continue quality enhancement of existing full-day kindergarten classrooms; provided, that the department shall administer a grant program to encourage the voluntary expansion of high quality, full-day kindergarten education throughout the commonwealth; provided further, that grants funded through this appropriation shall not annualize to more than \$18,000 per classroom in subsequent fiscal years; provided further, that preference shall be given to grant applicants with high percentages of students scoring in levels 1 or 2 on the Massachusetts comprehensive assessment system exam, as determined by the department based on available data; provided further, that any grant funds distributed from this item shall be deposited with the treasurer of such city, town or regional school district and held in a separate account and shall be expended by the school committee of such city, town or regional school district without further appropriation, notwithstanding any general or special law to the contrary; provided further, that such program shall supplement and shall not supplant currently funded local, state and federal programs at the school or district; provided further, that not later than January 17, 2011, the department shall report to the house and senate committees on ways and means on the total number of grants requested and awarded; provided further, that the report shall detail common factors associated with both successful and unsuccessful applications and shall include the total number of full-day and half-day kindergarten classrooms projected to be in operation in public schools in fiscal year 2012; provided further, that all kindergarten programs previously funded through community partnership councils at the department of early education and care may receive grants from this item in amounts equal to the amounts they received in fiscal year 2010, reduced in proportion to the overall reduction of this item from fiscal year 2010 to fiscal year 2011; and provided further, that no funds shall be expended for personnel costs.....\$25,948, 947
