SE5	<p>Participation in general State and district-wide assessment programs</p> <ol style="list-style-type: none"> All students with disabilities whose placements are funded by the district are included in the Massachusetts Comprehensive Assessment System (MCAS) and other district-wide assessment programs. SE6	<p>Determination of transition services</p> <ol style="list-style-type: none"> For a student who is 14 years of age, the Team considers the student's course of study in relation to the student's future goals and document this in the IEP. For a student who is 16 years of age, or younger if appropriate, the Team includes in the IEP services that promote movement of the student from school to post-school activities, including post-secondary education, vocational training, integrated employment (including supported employment), continuing and adult education, adult 	3	23	24

The transition services are based upon the student's needs, taking into account the student's preferences and interests and includes specially designed instruction, community experiences, the development of employment or other post-school adult living objectives, and, if appropriate, the acquisition of daily living skills and functional vocational evaluation.</p> <p>4. For any student approaching graduation or the age of twenty-two, the Team determines whether the student is likely to require continuing services from adult human service agencies. In such circumstances, the Administrator of Special Education makes a referral to the Bureau of Transitional Planning in the Executive Office of Health and Human Services in accordance with the requirements of M.G.L. c.71B, §12A-§12C (known as Chapter 688).</p> <p>5. In cases where the IEP included needed transition services and a participating agency other than the school district fails to provide these services, the Team reconvenes to identify alternative strategies to meet the transition objectives.</p> <p>6. The district ensures that students age 14, or younger if appropriate, are invited to and encouraged to attend part or all of Team meetings at which transition services are discussed or proposed.</p> <p>State Requirements M.G.L. SE7	<p>Transfer of parental rights at age of majority and student participation and consent at the age of majority</p> <p>1. One year prior to the student reaching age eighteen, the district informs the student of his or her right at age 18 to make all decisions in relation to special education programs and services.</p> <p>2. Upon reaching the age of eighteen, the school district implements procedures to obtain consent from the student to continue the student's special education program.</p> <p>3. The district continues to send the parent written notices and information but the parent will no longer have decision-making authority, except as provided below.</p> <p>(a) If the parent has sought and received guardianship from a court of competent jurisdiction, then the parent retains full decision-making authority. The parent does not have authority to override any decision or lack of decision made by the student who has reached the age of majority unless the parent has sought or received guardianship or other legal authority from a court of competent jurisdiction</p> <p>(b) The student, upon reaching the age of majority and in the absence of any court actions to the contrary, may choose to share decision-making with his or her parent (or other willing adult), including allowing the parent to co-sign the IEP. Such choice is made in the presence of the Team and is documented in written form. The student's choice prevails at any time that a disagreement occurs between the adult student and the parent or other adult with whom the student has shared decision-making</p> <p>(c) The student, upon reaching the age of majority and in the absence of any court actions to the contrary, may choose to delegate continued decision-making to his or her parent, or other willing adult. Such choice is made in the presence of at least one representative of the school district and one other witness and is documented in written form and maintained in the student record.</p> <p>State Requirements M.G.L. If a Team determines that a student is not eligible for special education but may be eligible for accommodation(s) for disability(ies) under Section 504, the student is referred for consideration by the district for eligibility under that regular education program. 3. SE11	<p>School district response to parental request for independent educational evaluation</p> <p>If a parent disagrees with an initial evaluation or re-evaluation completed by the school district, and the parent requests an independent educational evaluation, the district implements the following requirements:</p> <ol style="list-style-type: none"> 1. All independent educational evaluations funded by the district are conducted by qualified persons who are registered, certified, licensed or otherwise approved and who abide by the rates set by the state agency responsible for setting such rates. Unique circumstances of the child are justified when an individual assessment rate is higher than that normally allowed. 2. The school district has procedures to offer parents the option of participating in an income eligibility program for free or reduced cost independent educational evaluations that are equivalent to the types of assessments done by the school district. 3. The district extends the right to a publicly funded independent educational evaluation (only if cost shared or funded for state wards or for students receiving free or reduced cost lunch) for sixteen (16) months from the date of the evaluation with which the parent disagrees. 4. If the parent is requesting an evaluation in an area not assessed by the school district, or if the student does not meet or the parent does not choose to share the financial documentation regarding the income eligibility standards for free or reduced cost independent educational evaluation, then the school district responds in accordance with the requirements of federal law by paying for the independent educational evaluation or, within five school days, proceeding to Special Education Appeals to show that its evaluation was comprehensive and appropriate. Where the Department's Special Education Appeals finds that the school district's evaluation was comprehensive and appropriate, the school district does not pay for the independent educational evaluation requested by the parent. 		1	41	6	2

	<p>5. Whenever possible, the independent educational evaluation is completed and a written report sent no later than thirty (30) days after the date the parent requests the independent educational evaluation. If publicly funded, the report is sent to the parents and to the school district. The independent evaluator's report summarizes, in writing, procedures, assessments, results, and diagnostic impressions as well as educationally relevant recommendations for meeting identified needs of the student. The independent evaluator recommends appropriate types of placements but does not recommend specific classrooms or schools.</p> <p>6. Within ten (10) school days from the time the school district receives the report of the independent educational evaluation, the Team reconvenes and considers the independent educational evaluation (which may be publicly or privately funded) and whether a new or amended IEP is appropriate.</p> <p>State Regulations 28.04(5)</p> <p>Federal Requirements 34 CFR 300.502(a)(3)(i)</p>				
SE12	<p>Frequency of re-evaluation</p> <p>1. Every three years, or sooner if necessary, the school district, with parental consent, conducts a full three-year re-evaluation consistent with the requirements of federal law.</p> <p>2. The district implements re-evaluation procedures in all cases where it is suspected that a student is no longer eligible for special education.</p> <p>State Regulations 28.04(3)</p> <p>Federal Requirements 34 CFR 300.536</p>		33	17	1
SE13	<p>Progress Reports and content</p> <p>1. Parents receive reports on the student's progress toward reaching the goals set in the IEP at least as often as parents are informed of the progress of non-disabled students.</p> <p>2. SE17	Initiation of services at age three and Early Intervention transition procedures 1. The school district encourages referrals from the Department of Public Health, other agencies, and individuals for young children when or before the child turns two-and-one-half years old in order to ensure continuity of services and to ensure the development and implementation of an IEP for eligible children by the date of the child's third birthday in accordance with federal requirements. 2. The district implements procedures to ensure the effective transition of young children with disabilities from Early Intervention Programs through participation in transition planning conferences arranged by such programs.		4	42	4

SE18A	IEP development and content 1. Upon determining that the student is eligible for special education, the Team, including the parent(s), develops an IEP at the Team meeting using the evaluation data to guide development of measurable, annual goals and objectives/benchmarks for the student. If the district chooses to draft any element(s) of the IEP for discussion, the Team Chairperson ensures that those elements are genuinely considered prior to adoption at the Team meeting. All ideas and needs of the child as expressed by all Team members, especially the parents, are genuinely considered by the district prior to proposing the IEP. 2. The IEP includes specially designed instruction to meet the needs of the individual student and related services that are necessary to allow the student to benefit from the specially designed instruction, or consists solely of related services that are necessary to allow the student to access the general curriculum, consistent with federal and state requirements. 3. In developing the IEP, the Team proposes specially designed instruction and related services according to the needs of the child <u>and not</u> according to the availability of such instruction or related services. 4. The IEP is completed addressing all elements of the most current IEP format provided by the Department of Education. Where applicable, the district includes in the IEP, or other notice to the parent, information regarding the implementation of any necessary restraint procedures for students as required under 603 CMR 46.00. 5. If the Team members are unable to agree on the IEP, the Team chairperson states the elements of the IEP proposed by the school district. 6. The school district ensures that each IEP Team has at least one person with authority to commit the resources of the district and that whatever services are set out in the IEP will actually be provided and that the IEP will not be changed at a higher administrative level within the district. 7. The IEP is written in generally understandable language.		2	15	32	1

SE18B	Determination of placement; provision of IEP to parent 1. At the Team meeting, after the IEP has been fully developed, the Team determines the appropriate placement to deliver the services on the student's IEP. 2. Unless the student's IEP requires some other arrangement, the student is educated in the school that he or she would attend if the student did not require special education. 3. The decision regarding placement is based on the IEP, including the types of related services that are to be provided to the child, the type of settings in which those services are to be provided, the types of service providers, and the location at which the services are to be provided. 4. The placement selected by the Team is the least restrictive environment consistent with the needs of the student. 5. Immediately following the development of the IEP, and within 45 school working days after receipt of the parent's written consent to an initial evaluation or reevaluation, the district provides the parent with two (2) copies of the proposed IEP and proposed placement along with the required notice, except that the proposal of placement may be delayed according to the provisions of 603 CMR 28.06(2)(e) in a limited number of cases.			16	33	1

SE19	<p>Extended evaluation</p> <p>If the Team finds a student eligible for special education and finds the evaluation information insufficient to develop a full or partial IEP, the Team, with the parents' consent, agrees to an extended evaluation period.</p> <ol style="list-style-type: none"> 1. The extended evaluation period is not used to deny programs or services determined to be necessary by the Team. If, prior to the extended evaluation, the Team determines that sufficient information is available to determine, in part, necessary annual goals and services, the Team writes a partial IEP that, if accepted by the parent, is immediately implemented by the district while the extended evaluation is occurring. 2. The extended evaluation period is not used to allow additional time to complete the required assessments. 3. If the parent consents to an extended evaluation, the Team documents their findings and determines what evaluation time period is necessary and the types of information needed to develop an IEP. The Team may decide to meet at intervals during the extended evaluation, but in all cases reconvenes promptly to develop an IEP when the evaluation is complete. 4. The extended evaluation may extend longer than one week, but does not exceed eight school weeks. 5. The extended evaluation is not considered a placement. <p>State Regulations 28.05(2)(b)</p> <p>Federal Requirements</p>	37	11	2

If the student is removed from the general education classroom at any time, the Team states why the removal is considered critical to the student's program and the basis for its conclusion that education of the student in a less restrictive environment, with the use of supplementary aids and services, could not be achieved satisfactorily. 3. The district does not remove an eligible child from the general education classroom solely because of needed modification in the curriculum. <p>State Regulations 28.06(2)(a)</p> <p>Federal Requirements 34 CFR 300.130; 300.550-300.556</p>	7	25	18

The Team routinely considers the need for an educational program that is less than or more than the regular school day or school year, including extended day, or year, and/or residential services and indicates on the IEP why the shorter or longer program is necessary. 3. The daily duration of the child's program is equal to that of the regular school day unless the Team states that a different duration is necessary to provide a free appropriate public education to the child. In such case the daily duration of the program shall be specified by the Team, and Team shall state on the IEP the reason for such different duration. 4. Specialized transportation schedules do not impede a student's access to a full school day and program of instruction. 5. An extended day or year program is identified if the student has demonstrated or is likely to demonstrate substantial regression in his or her learning skills and/or substantial difficulty in relearning such skills if an extended program is not provided. 6. If residential services are required, the IEP clearly specifies the reasons for such determination and how such services will be coordinated with the day education services provided to the student. Additionally, the annual goals and services on the student's IEP reflects the comprehensive nature of the educational program required. 7. Camping or recreation programs provided solely for recreational purposes and with no corresponding IEP goals or specially designed instruction are not to be considered for extended year programs. <p>State Regulations 28.05(4) Chapter 69, Section 1G</p> <p>Federal Requirements 34 CFR 300.309(b)</p>	3	29	16	2

Each teacher and provider described in the IEP is informed of his or her specific responsibilities related to the implementation of the student's IEP. 4. The school district does not delay implementation of the IEP due to lack of classroom space or personnel, provides as many of the services on the accepted IEP as possible and immediately informs parents in writing of any delayed services, reasons for delay, actions that the school district is taking to address the lack of space or personnel and offers 	31	18	1

When the participation or consent of the parent is required and the parent fails or refuses to participate, the attempts to secure the consent of the parent are implemented through multiple attempts using a variety of methods which are documented by the district. Such efforts may include letters, written notices sent by certified mail, electronic mail (e-mail), telephone calls, or, if appropriate, TTY communications to the home, and home visits at such time as the parent is likely to be home. Efforts may include seeking assistance from a community service agency to secure parental participation. 7. If, subsequent to initial evaluation and initial placement and after following the procedures required by the regulations, the school district is unable to obtain parental consent to a reevaluation or to placement in a special education program subsequent to the initial placement, or the parent revokes consent to such reevaluation or placement, the school district considers with the parent whether such action will result in the denial of a free appropriate public education to the child. If, after consideration, the school district determines that the parent's failure or refusal to consent will result in a denial of a free appropriate public education to the student, it seeks resolution of the dispute through Special Education Appeals 		33	17

Documentation of monitoring plans and all actual monitoring are placed in the files of every eligible student who has been placed out-of-district. To the extent that this monitoring requires site visits, such site visits are documented and placed in the students' files for review. The duty to monitor out-of-district placements is not delegated to parents or their agents, to the Department of Education, or to the out-of-district placement. 2. <u>Student right to full procedural protections</u>: The school district retains full responsibility for ensuring that the student is receiving all special education and related services in the student's IEP, as well as all procedural protections of law and regulation. Any Team meetings conducted during the time that a student is enrolled in the out-of-district program are initiated by the school district in coordination with the out-of-district placement. 3. <u>Preference to approved programs</u>: The school district, in all circumstances, first seeks to place a student in a program approved by the Department pursuant to the requirements of 603 CMR 28.09. Preference is also given to approved programs located within the Commonwealth of Massachusetts if the choice of such program is consistent with the needs of the student and the choice of such program complies with LRE requirements. When an approved program is available to provide the services on the IEP, the district makes such placement in the approved program in preference to any program not approved by the Department. 4. <u>Written contracts</u>: The school district enters into written contracts with all public and private out-of-district placements. At a minimum, such contracts meet the content requirements of 28.06(3)(f)(1-5). 5. <u>Use of unapproved programs</u>: A school district that places a student in a program that has not been approved by the Department according to the requirements under 603 CMR 28.09 ensures that such programs and services are provided in appropriate settings by appropriately credentialed staff able to deliver the services on the student's IEP. Students placed by the school district in such programs are entitled to the full protections of state and federal special education law and regulation. 6. <u>Placement documentation</u>: The following documentation is maintained by the school district pursuant to its placement of children in unapproved out-of-district programs: <ol style="list-style-type: none"> a. <u>Search</u>: The Administrator of Special Education documents the search for and unavailability of a program approved by the Department. The Administrator places such documentation in the student record. b. <u>Evaluation of facility</u>: The Administrator of Special Education or his/her designee thoroughly evaluates the appropriateness of any unapproved facility prior to placement of the student in such program. Such evaluation determines whether the unapproved facility can appropriately implement the student's IEP in a safe and educationally appropriate environment. Such evaluation additionally determines whether the unapproved facility can and will provide the student with all the rights that are accorded to the student under state and federal special education law. Such evaluation is documented in detail and placed in the student record for review. To the extent that this evaluation requires a site visit, such site visits are documented and placed in the student record for review. The duty to evaluate the appropriateness of any unapproved facility is not delegated to the parents or their agents or the proposed unapproved facility. c. <u>School district approval to operate a private school in Massachusetts</u>: If services in an unapproved program are provided in a school setting, the Administrator of Special Education ensures that such school has received approval from the local school committee under M.G.L. c.76, §1 and a copy of such approval is retained in the student record. d. <u>Pricing</u>: Pursuant to the requirements for Compliance, Reporting and Auditing for Human and Social Services at 808 CMR 1.00, the Administrator obtains pricing forms required to set program prices for programs receiving publicly funded students. Such pricing forms are completed by the proposed placement and document that the price proposed for the student's tuition is the lowest price charged for similar services to any student in that program. e. <u>Notification of the Department of Education</u>: Prior to placement, if the Team determines that placement in such facility is appropriate, the Administrator notifies the Department of the intent to place the student and the name and location of the proposed placement. In addition, the Administrator forwards the notice of proposed placement and completed pricing forms to the Department along with the information on the proposed terms of the contract that will govern such placement and documentation of a monitoring plan pursuant to 603 CMR 28.06(3)(b). The district maintains any documentation of the Department's objections to such placement and the steps the district has taken in regard to such objection.
