Specific Learning Disability Eligibility Checklist

COMPONENT 1: Historical Review and Educational Assessment (Documented on SLD 1)

- All requirements of the Historical Review have been met.
- Some, but not all requirements of the Historical Review have been met. See SLD TA 3 for assistance in gathering the additional information. Concurrently address all other eligibility requirements.
- Information is not available to answer the requirements of the Historical Review. Therefore, the student cannot be found eligible with a SLD until the school has sufficient information to determine that the student has been given appropriate opportunities to learn in the general education environment. See SLD TA 4.

COMPONENT 2: Area of Concern and Evaluation Method (Documented on SLD 2)

- The Team must be able to provide an assessment of the student’s attention skills, participation behaviors, communication skills, memory, and social relations with groups, peers, and adults.
- The Team must review supporting evidence within the area of concern that indicates the student has: consistently performed within the range of performance of same-age peers; or consistently performed better than same-age peers; or consistently performed less well than same-age peers; or demonstrated inconsistent performance throughout his/her educational history.
- The Team must provide educationally relevant medical findings, if any. This information will most likely be provided by the parent.

COMPONENT 3: Exclusionary Factors (Documented on SLD 3)

- The team must ensure that the student’s lack of progress is not primarily the result of cultural factors, environmental or economic disadvantage, limited English proficiency, a visual, hearing, or motor disability, mental retardation, or an emotional disturbance.

COMPONENT 4: Observation (Documented on SLD 4)

- The student must be observed in his/her natural learning environment to document academic performance and behavior in the area(s) of difficulty.
