Classroom Observation Checklist
Grades 1-4
Required documentation for Component 4

Student ____________________________________________________ Grade ___________________
Class/location observed (include teacher name) _____________________________ Observer name and title __________________________ Date of observation _______

This tool is designed for use as a guide during a student observation. You may not see all domains addressed, however, the student should be observed during times when you will be able to monitor behaviors related to the area of concern.

In order to obtain a full and accurate picture of the student's performance, it may be necessary to observe the student more than once, in different settings and at different times of the day. Multiple observation forms may be included in the evaluation documentation.

Directions: First identify the area(s) of concern for the student. Behavior around each identified area is where you will focus your observation. During the observation place a check mark next to the behaviors that are observed within each domain that correlates with the noted areas of concern. Note, however, these checklists are not exhaustive. In the notes section, write any additional observed behavior, including strengths, which may be relevant to the student's evaluation.

Check area(s) of concern as identified in SLD 2.
