All grantees must send a team to the end of the year workshop, *Documenting and Communicating Success*. There will be four optional professional development events. Three day-long workshops will be provided on each approach in a central location. Districts should send staff members who are engaged in implementing plans on that approach. A summer institute for sexual health educators will be offered for health or PE teachers who will be implementing sexual health education in your district.

**Wednesday, October 22, 2014**  
ESHE
