

# Proven Provider Analysis Summary for EDWorks

September 2015

The following tables provide a summary of school performance data relevant to the proven provider requirement.

The tables contain student enrollment demographics, academic performance data, in-school suspension (and emergency removal) rates, out-of-school suspension rates, attendance rates, and if applicable, 4-year graduation rates during the most recent five years of published data of four Ohio public schools, three district public schools and one charter public school, affiliated with the proposed proven provider candidate, EDWorks.

The schools selected for the Department's analysis meet the requirements for the minimum number of years in operation and the minimum number of years of available performance data. The schools are Akron Early College High School, Dayton Early College Academy, Toledo Early College High School, and Youngstown Early College. Dayton Early College Academy serves grades 7-12, and the other three schools serve grades 9-12.

The tables of student enrollment demographics provide the percentages of enrollment for students identified as economically disadvantaged and students receiving special education services at the four schools of interest, their four sending districts (Akron, Dayton, Toledo, and Youngstown) and the statewide average for Ohio for 2010 through 2014. (Tab: Student Enrollment)

The tables of student achievement data provide comparison performance percentages for all students (Tabs: EDWorks Schools - Reading, Writing, Math ALL) and the low income subgroup (Tabs: EDWorks Schools - Reading, Writing, Math EcoDis) by grade. Each table presents the percent of students passing the Ohio state assessment for reading, writing, and mathematics for the four schools of interest during the most recent five years. The tables also include the state and district averages for comparison purposes.

The tables of student indicator data on (Tab: Student Indicators) summarize in-school suspension (and emergency removal) rates (counts per 100 students), out-of-school suspension rates (counts per 100 students), attendance, and 4-year graduation rates during the most recent five years of published data. The tables also include the state and district averages for comparison purposes.

All data displayed in these tables is derived from Ohio Department of Education Interactive Reports (<http://bireports.education.ohio.gov/PublicDW/asp/Main.aspx>).

## **Proven Provider Context:**

Pursuant to 603 CMR 1.04(4)(b), applicants for Proven Provider status must demonstrate success in student academic performance and evidence of overall academic program success, including, but not limited to:

- proficiency levels and growth measures on the MCAS or equivalent assessments for all students and for one or more targeted subgroups as defined in M.G.L. c. 71, § 89(i)(3), which are similar to statewide averages in English Language Arts and mathematics for all students in Massachusetts in comparable grades, over no less than a three-year period for cohorts of students; and
- attendance, retention, attrition, in-school suspension rates, out-of-school suspension rates, and if applicable, graduation and dropout data.

## EDWorks - Student Enrollment Demographic Data

|  |             | Economically Disadvantaged |      |      |       |       |

| Youngstown District Average            | 45161       |                            |      |      |      |      |

## Notes:

Data exported from: <http://bireports.education.ohio.gov/PublicDW/asp/Main.aspx>

"--" means that fewer students were enrolled than the requirements to publish school data

Please note that each school annually enrolled English Language Learners, but the number of students did not meet the required threshold for reporting.
