Student Learning Team Name (if applicable)

Student Learning Goal - Specific/Strategic
What do you want to measure?

Student Learning Goal – Measurable
How are you going to measure it?

Student Learning Goal - Action-oriented
How will you accomplish the goal?

Student Learning Goal - Rigorous, Realistic & Results-Focused
Is this a realistic goal that you can reasonably accomplish?

Student Learning Goal - Timed and Tracked
When will you reach your goal?

Describe Possible Evidence
How will you know your goal has been reached, and whether or not it has impacted student learning? (This is what will be included in the teacher’s final reflection at the year’s end.)

Professional Practice Goal Type

New Goal Setting Processes

• Prior to this year, no templates or exemplars were provided to teachers
• The SMART GOAL form was three pages long and did not include specific action planning
• Teachers did not know how to right an effective SMART GOAL or how to keep track of their progress toward it
• The following new FORM, templates and exemplars were provided this year, along with specific training and follow-up for each

GOAL WRITING TEMPLATES

• A STUDENT LEARNING GOAL (SLG) needs to specify what your students are going to achieve – the student outcome – and how you will know how and if students reached the goal (how it will be measured.)

   Suggested template for writing SLG. Feel free to modify as necessary:

Based on the fact that ________ (x %) of students currently score _____ on the ______ (assessment), my goal is that by __________ (when), _________ (x %) of students will score ________ on the same assessment.

• A PROFESSIONAL PRACTICE GOAL (PPG) names an ACTION that is going to be taken by the teacher – something the TEACHER will DO that will ultimately improve and enhance student learning. The teacher’s actions must be linked to the rubric – goals should reflect terms used in the rubric (i.e. “differentiation”).

   Suggested template for writing PPG. Feel free to modify as necessary:

In order to improve/enhance _________________ (specific teaching practice or student learning outcome), I will ________________ (specific action – professional development/new strategy, etc.). I will measure my progress toward this goal by ________________ (specific data.)

Based on the fact that my **ELL students completed, on average, 50% or less of the multi-part open response test items** on the prior year’s quarterly science assessments, my goal is that by June, 2015, ELL students, on average, will complete at least 75% of the multi-part open response test items on the end-of-year science assessment with 100% accuracy.

**Goal Duration:** 1 year

In order to demonstrate increased levels of engagement for all ELL students in my science class, I will improve support of ELL students in vocabulary acquisition (content and assessment words), and reading comprehension through the development and implementation of two strategies to increase fluency in science vocabulary and reading comprehension (including the use of interactive word walls and two-column notes. I will measure my progress toward this goal by recording data on daily formative assessments and performance on quarterly multi-part open response test items. By June, my ELLs performance will improve by 25 percent on multi-part open-response test items.
