## Students with Limited or Interrupted Formal Education (SLIFE)

Each year, Massachusetts schools enroll an increasing and diverse number of English learners (ELs) with limited or interrupted formal education. Some of these students may be refugee children fleeing civil unrest or war, while others may have had inconsistent access to formal education in their home countries before coming to the United States. While SLIFE are diverse, with interruptions in schooling often due to factors like conflict, migration, economic hardship, or limited access to education in their home countries, the guidance and resources below aim to help districts identify additional supports these students may need beyond standard English learner education services. The Department is committed to supporting school districts and educators to improve educational opportunities for all students, including students identified as SLIFE, in alignment with the agency's [Educational Vision](#).

The Office of Language Acquisition has taken a three-pronged approach to supporting schools and districts with identifying and meeting the needs of SLIFE: 1) research, 2) a community of practice, and 3) guidance and tool development.

### Research

In 2024, the American Institutes for Research® (AIR®), an independent third-party research organization, conducted this study for the Massachusetts Department of Elementary and Secondary Education (DESE) to document field-based promising practices for supporting **Students with Limited or Interrupted Formal Education (SLIFE)** across Massachusetts. Rather than prescribing solutions, this study aimed to learn from practitioners actively developing and implementing SLIFE support strategies. Here are the completed report and executive summary, as well as associated vignettes.

## Three-Pronged Approach – Guidance and Tool Development

# Students With Limited or Interrupted Formal Education (SLIFE)

Guidance for SLIFE Identification,  
Services, and Support

June 2024

# Purpose

## The SLIFE District Self-Assessment will:

- Enable Massachusetts school districts to assess their services and programming for SLIFE for alignment with the DESE SLIFE guidance document (2024)
- Facilitate data-driven decision-making for program improvement and resource allocation
- Support districts in better meeting the academic, linguistic, and social-emotional strengths and needs of SLIFE
- Provide a framework for developing a districtwide or schoolwide action plan

# Components

Key Components	Description
<b>SLIFE District Self-Assessment</b>	SLIFE District Self-Assessment aligned to DESE SLIFE guidance steps
<b>Self-Check</b>	Allows districts and/or schools to reflect on the strengths and needs of the processes in place for identifying and meeting the needs of SLIFE
<b>Action Plan Template</b>	Allows districts and/or schools to develop an action plan to address needed improvements for identifying and meeting the needs of SLIFE

# Overview

- The format is a paper document.
- District teams will assess themselves on key indicators addressing the implementation of SLIFE policies, programs, and practices.
- The district team will then tabulate the average scores across all four steps to review for action planning.
- A Google Sheets version will also be available to your teams.

# The Tool

## SLIFE District Self-Assessment

June 2025

# Instructions

## Overview

Each year, Massachusetts schools have enrolled an increasing and diverse number of English learners (ELs) with limited or interrupted formal education. Some of these students may be refugee children fleeing civil unrest or war, while others may have had inconsistent access to formal education in their home countries before coming to the United States. Although students with limited or interrupted formal education (SLIFE) are diverse, with interruptions in schooling often due to factors like conflict, migration, economic hardship, or limited access to education in their home countries, the guidance and resources that follow are intended to help districts identify the additional supports that these students may need beyond standard EL education services. The Department of Elementary and Secondary Education (DESE) is committed to supporting school districts and educators in their efforts to improve educational opportunities for all students, including students identified as SLIFE, in alignment with the agency's [Educational Vision](#).

DESE's Office of Language Acquisition has taken a three-pronged approach to supporting schools and districts with identifying and meeting the needs of SLIFE: (1) research, (2) a community of practice, and (3) guidance and tool development. This SLIFE District Self-Assessment is part of a [robust ecosystem of resources](#) designed to help schools and districts to plan effectively to meet the needs of SLIFE and their families.

## Purpose

The SLIFE District Self-Assessment will:

- Enable Massachusetts school districts to assess their services and programming for SLIFE to ensure that such services and programming align with the DESE Guidance for SLIFE Identification, Services, and Support (2024) (hereafter "guidance document");
- Facilitate data-driven decision-making for program improvement and resource [allocation](#);
- Support districts in better meeting the academic, linguistic, and social-emotional strengths and needs of SLIFE; and
- Provide a framework for developing a districtwide or schoolwide action plan.

## Components

The SLIFE District Self-Assessment is aligned with DESE's [Guidance for SLIFE Identification, Services, and Support](#). It allows teams to rate your district's readiness for addressing the needs of SLIFE. The tool provides space for individuals or teams to reflect on their ratings for the SLIFE systems that are in place in the district and identify places where those systems can be improved or developed. The final part of the tool provides a structure that teams can use to develop a district action plan.

## How to Use the SLIFE District Self-Assessment

1. **Convene a SLIFE Planning Team.** Team composition may vary according to district size, staffing roles, and other characteristics. At the very least, the team should include staff with SLIFE expertise (or identify members to develop new SLIFE expertise) as well as administrators who can secure resources to implement changes to systems to meet the needs of SLIFE (e.g., placement, services, support, programming). Team composition could include key leads and various stakeholders—for example, central and building administrators, coaches, content and language teachers at different grade levels, special educators, specialists serving SLIFE, guidance and adjustment counselors, nurses, family liaisons, registration staff, intake personnel, families, and students. See [Guidance for SLIFE Identification, Services, and Support](#) (p. 10). Additional support can be found in the [Massachusetts SLIFE Toolkit](#).

If the team prefers to use an interactive spreadsheet version of the SLIFE District Self-Assessment in Google Sheets, they can request the link from [el@doe.mass.edu](mailto:el@doe.mass.edu).

2. **Assess.** Review the indicators for each step in the SLIFE Identification, Services, and Support four-step process and rate each indicator. It may be helpful for teams to have DESE's [Guidance for SLIFE Identification, Services, and Support](#) close by so that they can refer to the steps in more detail as they complete the scoring process. Score each indicator using the following conventions:

**1 = Not in place.** We do not have any parts of this element in place.

**2 = Partially in place.** We are working toward having this element in place but are just at the beginning stages.

**3 = Mostly in place.** We have many parts of this element in place but not all of them are planned for or implemented yet.

**4 = Fully in place.** All components of this element are in place in terms of planning and implementation.

3. **Self-Check and Reflect.** After reviewing and scoring all indicators, reflect on the results. Identify the strengths or strongest indicators toward full systematic and comprehensive implementation as well as those indicators that may need to be further developed. Identify one to two areas that the team will prioritize as action items.
4. **Develop an Action Plan.** After reflection and prioritization, create an action plan that includes measurable goals and actions to be taken that focus on those areas for growth. Include a time-bound, realistic progression.

# Scoring

2. **Assess.** Review the indicators for each step in the SLIFE Identification, Services, and Support four-step process and rate each indicator. It may be helpful for teams to have DESE's [Guidance for SLIFE Identification, Services, and Support](#) close by so that they can refer to the steps in more detail as they complete the scoring process. Score each indicator using the following conventions:

**1 = Not in place.** We do not have any parts of this element in place.

**2 = Partially in place.** We are working toward having this element in place but are just at the beginning stages.

**3 = Mostly in place.** We have many parts of this element in place but not all of them are planned for or implemented yet.

**4 = Fully in place.** All components of this element are in place in terms of planning and implementation.

# Scoring in Tool

Indicator	1 Not in place	2 Partially in place	3 Mostly in place	4 Fully in place	Notes
<b>Pre-Screener:</b> We have a Pre-Screener in place that is a consistent part of the registration process for all newly arrived ELs who are 8 years of age and older.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

# Scoring Conventions

1. **Not in place:** We do not have any parts of this element in place.
2. **Partially in place:** We are working toward having this element in place but are just at the beginning stages.
3. **Mostly in place:** We have many parts of this element in place but not all of them are planned for or implemented yet.
4. **Fully in place:** All components of this element are in place in terms of planning and implementation.

# Assessment Structure

## First Three Steps

The first three steps of the four-step process are designed to work together as interconnected activities. Their purpose is not only to determine whether a student qualifies for SLIFE status but also to create a holistic, asset-based understanding of the student's interests, goals, strengths, and needs. The intake process integrates various types of data to build a comprehensive picture of a student's educational background and to assess their eligibility for SLIFE services. The initial three steps focus on gathering diverse and detailed information to support Step 4, where an individualized plan is developed to guide placement, services, and progress monitoring.

### Step 1. Administer the Pre-Screener

In **Step 1**, a brief Pre-Screener is administered during enrollment to identify potential gaps in formal education and decide whether further screening is necessary.

Indicator	1 Not in place	2 Partially in place	3 Mostly in place	4 Fully in place	Notes
<b>Pre-Screener:</b> We have a Pre-Screener in place that is a consistent part of the registration process for all newly arrived ELs who are 8 years of age and older.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Trained Staff:</b> We systematically and comprehensively train appropriate staff to administer the SLIFE Pre-Screener with fidelity. Staff has been trained on the following topics: <ul style="list-style-type: none"><li>• The purpose of the SLIFE Pre-Screener</li><li>• The components of the SLIFE Pre-Screener</li><li>• How to administer each component of the SLIFE Pre-Screener in a consistent manner</li></ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

# SLIFE District Self-Assessment

## Step 1 – Administer the Pre-Screener

# First Three Steps

## Key Idea or Premise:

Develop a holistic, strengths-based understanding of the individual student.

## Step 1 –

**In Step 1**, a brief Pre-Screener is administered during enrollment to identify potential gaps in formal education and decide whether further screening is necessary.

# Step 1: Administer the Pre-Screener

Indicator	1 Not in place	2 Partially in place	3 Mostly in place	4 Fully in place	Notes
<b>Pre-Screener:</b> We have a Pre-Screener in place that is a consistent part of the registration process for all newly arrived ELs who are 8 years of age and older.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Trained Staff:</b> We systematically and comprehensively train appropriate staff to administer the SLIFE Pre-Screener with fidelity. Staff has been trained on the following topics: <ul style="list-style-type: none"> <li>• The purpose of the SLIFE Pre-Screener</li> <li>• The components of the SLIFE Pre-Screener</li> <li>• How to administer each component of the SLIFE Pre-Screener in a consistent manner</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Indicator	1 Not in place	2 Partially in place	3 Mostly in place	4 Fully in place	Notes
<b>Necessary Materials:</b> We ensure that the staff administering the SLIFE Pre-Screener have gathered all the necessary materials to administer the Pre-Screener: <ul style="list-style-type: none"> <li>• Information from registration/intake</li> <li>• Answer to the question - Is this a newly enrolled EL, 8 years of age or older?</li> <li>• Record review</li> <li>• SLIFE Pre-Screener document</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Administration Plan:</b> We have developed a clear, systematic, and comprehensive plan for administering the SLIFE Pre-Screener that includes the following: <ul style="list-style-type: none"> <li>• Scheduling</li> <li>• Logistics</li> <li>• Procedures for accommodating students as needed</li> <li>• Practice sessions where staff members can role-play administering the SLIFE Pre-Screener</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Sustained Quality of Administration:</b> We continuously sustain the quality of the administration of the SLIFE Pre-Screener by: <ul style="list-style-type: none"> <li>• Systematically and comprehensively evaluating the SLIFE Pre-Screener administration process</li> <li>• Identifying areas for improvement</li> <li>• Making necessary adjustments for future administration</li> <li>• Maintaining support for the systems in place</li> <li>• Ensuring that new staff are familiar with the process</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Total Scores Per Column</b>					Average Score:

# Step 1 – Five Indicators

- Pre-Screener
- Trained Staff
- Necessary Materials
- Administration Plan
- Sustained Quality of Administration

# Scoring Reminder

1. **Not in place:** We do not have any parts of this element in place.
2. **Partially in place:** We are working toward having this element in place but are just at the beginning stages.
3. **Mostly in place:** We have many parts of this element in place but not all of them are planned for or implemented yet.
4. **Fully in place:** All components of this element are in place in terms of planning and implementation.

# Evidence and Notes

Indicator	1 Not in place	2 Partially in place	3 Mostly in place	4 Fully in place	Notes
<b>Necessary Materials:</b> We ensure that the staff administering the SLIFE Pre-Screener have gathered all the necessary materials to administer the Pre-Screener: <ul style="list-style-type: none"> <li>• Information from registration/intake</li> <li>• Answer to the question - Is this a newly enrolled EL, 8 years of age or older?</li> <li>• Record review</li> <li>• SLIFE Pre-Screener document</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Administration Plan:</b> We have developed a clear, systematic, and comprehensive plan for administering the SLIFE Pre-Screener that includes the following: <ul style="list-style-type: none"> <li>• Scheduling</li> <li>• Logistics</li> <li>• Procedures for accommodating students as needed</li> <li>• Practice sessions where staff members can role-play administering the SLIFE Pre-Screener</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

## Self-Check

Return to the average scores for each step and focal point in the assessment and add those scores below.

Element	Average Scores
Step 1. Administer the Pre-Screener	
Step 2. Conduct the SLIFE Interview	
Step 3. Administer Academic Background Screener(s)	
Step 4. Develop a SLIFE Services and Support Plan	
• Step 4: Focal Point 1: Academic and Linguistic Support	
• Step 4: Focal Point 2: Social-Emotional Support	
• Step 4: Focal Point 3: Family and Community Connections	
• Step 4: Focal Point 4: Progress Monitoring and Exiting SLIFE Status	
Average Score for Step 4 and the Four Focal Points	

## Reflection

- Which of the steps in the four-step process are your strongest?
- Which steps need to be developed further?
- Which step would you like to prioritize for improvement?
  - Select an area within your prioritized area(s) to serve as a goal for growth. This area reflects how you will focus on strengthening your priority area. Refer to the priority area where you scored in the lower range.
  - Use the priorities that you have chosen to identify a problem of practice in your school or district. This problem of practice will help you develop the action plan.

# SLIFE District Self-Assessment Action Plan

# Action Planning and Immediate Actions

## Action Plan

### Next Steps

Discuss the results of the self-assessment with the team. Allow the team enough time to contemplate what their priorities are for SLIFE services. Determine actions steps or goals for three phases: (1) Do Now, (2) Do Soon, and (3) Do Later.

The following are guiding questions to help the team determine its next steps.

### *Immediate Action/Goal: Do Now*

1. Identify specific actions to implement over the next month to improve practice.
2. List potential actions such as workshops, coaching conversations, or resources.

Action/Goal (Specific and Realistic)	Resources Needed (Specific)	By When? (Time Related)	Outcome (Measurable)
Example: Participate in professional learning opportunities, both asynchronous and synchronous, to enhance our understanding of SLIFE support needs	Example: Time and personnel; technology; DESE resources	Example: February/March 2026	Example: We will build our ability to effectively support and involve educators in the educational process for SLIFE, ensuring that SLIFE receive the appropriate support and resources they need. As a result, educators will feel more included and engaged, leading to better educational outcomes for SLIFE.

# Near Future Action/Goal: Do Soon

## *Near Future Action/Goal: Do Soon*

1. Identify specific actions to implement over the next 6–12 months to improve practice.
2. List potential actions from workshops, coaching conversations, or resources.

Action/Goal (Specific and Realistic)	Resources Needed (Specific)	By When? (Time Related)	Outcome (Measurable)
Example: Administer a survey to educators to identify common concerns regarding the provision of SLIFE services	Example: Time and personnel; survey and feedback tools; technology	Example: May 2026	Example: By identifying common educator concerns regarding the provision of SLIFE services, we will be able to effectively address their concerns and improve communication and collaboration with staff.

# Long-Term Action/Goal: Do Later

## *Long-Term Action/Goal: Do Later*

1. Identify specific actions to implement over the next 12–18 months to improve practice.
2. List potential actions from workshops, coaching conversations, or resources.

Action/Goal (Specific and Realistic)	Resources Needed (Specific)	By When? (Time Related)	Outcome (Measurable)
Example: Revise the training to address the knowledge and skill of educators and enhance educator engagement	Example: Time and personnel; clear guidelines and templates	Example: December 2026	Example: We will create a more supportive environment, improve communication, increase educator involvement, and provide better educational outcomes for SLIFE by ensuring that educators feel more connected and informed.

### Students with Limited or Interrupted Formal Education (SLIFE)

Each year, Massachusetts schools enroll an increasing and diverse number of English learners (ELs) with limited or interrupted formal education. Some of these students may be refugee children fleeing civil unrest or war, while others may have had inconsistent access to formal education in their home countries before coming to the United States. While SLIFE are diverse, with interruptions in schooling often due to factors like conflict, migration, economic hardship, or limited access to education in their home countries, the guidance and resources below aim to help districts identify additional supports these students may need beyond standard English learner education services. The Department is committed to supporting school districts and educators to improve educational opportunities for all students, including students identified as SLIFE, in alignment with the agency's [Educational Vision](#).

The Office of Language Acquisition has taken a three-pronged approach to supporting schools and districts with identifying and meeting the needs of SLIFE: 1) research, 2) a community of practice, and 3) guidance and tool development.

#### Research

In 2024, the American Institutes for Research® (AIR®), an independent third-party research organization, conducted this study for the Massachusetts Department of Elementary and Secondary Education (DESE) to document field-based promising practices for supporting **Students with Limited or Interrupted Formal Education (SLIFE)** across Massachusetts. Rather than prescribing solutions, this study aimed to learn from practitioners actively developing and implementing SLIFE support strategies. Here are the completed report and executive summary, as well as associated vignettes.

  - d. Progress Monitoring and Exiting SLIFE
3. Self-Check Reflections
4. Action Planning
5. Wrap-Up and Next Steps

# Four Steps for SLIFE Identification, Services, and Support

## Steps 1–3: SLIFE Screening and Identification

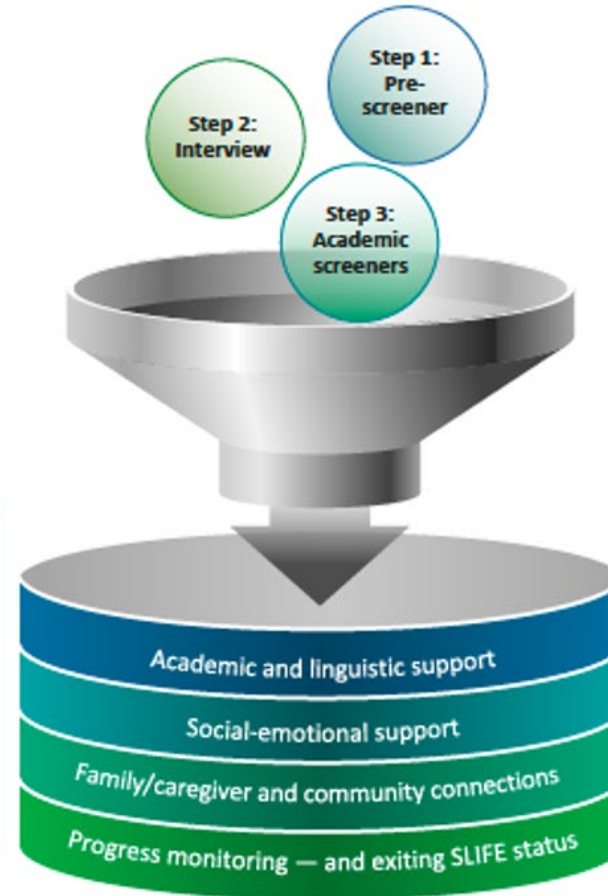

The intake process should involve the generation of multiple data points as well as triangulation of data to develop a holistic understanding of a student's profile and determine whether they would benefit from receiving services associated with a SLIFE classification.

- Step 1: Pre-screener
- Step 2: Interview
- Step 3: Academic screeners

## Step 4: SLIFE Services and Support

Based on the data gathered through Steps 1–3 (SLIFE screening and identification), the team may develop an individualized plan to support the student's academic, social, and emotional well-being, and to monitor progress. We present four focal areas of services and support:

- Academic and linguistic support
- Social-emotional support
- Family/caregiver and community connections
- Progress monitoring – and exiting SLIFE status

# SLIFE District Self-Assessment Steps 1-3

# Steps 1-3

## Key Idea/Premise:

Develop a holistic, strengths-based understanding of the individual student.

# Step 1: Administer the Pre-Screener

## Step 1

The intake process collects and combines a variety of data to better understand a student's educational background and decide if they may qualify for SLIFE services. Step 1 uses a short pre-screener at enrollment to identify possible gaps in formal education and determine if further screening is needed.

**Key Idea/Premise:**

Develop a holistic, strengths-based understanding of the individual student.

# Step 1: Indicators

## Step 1. Administer the Pre-Screener

**In Step 1**, a brief Pre-Screener is administered during enrollment to identify potential gaps in formal education and decide whether further screening is necessary.

Indicator	1 Not in place	2 Partially in place	3 Mostly in place	4 Fully in place	Notes
<b>Pre-Screener:</b> We have a Pre-Screener in place that is a consistent part of the registration process for all newly arrived ELs who are 8 years of age and older.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Trained Staff:</b> We systematically and comprehensively train appropriate staff to administer the SLIFE Pre-Screener with fidelity. Staff has been trained on the following topics: <ul style="list-style-type: none"><li>• The purpose of the SLIFE Pre-Screener</li><li>• The components of the SLIFE Pre-Screener</li><li>• How to administer each component of the SLIFE Pre-Screener in a consistent manner</li></ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

**Key Idea/Premise:**  
Develop a holistic, strengths-based understanding of the individual student.

# Step 2: Conduct the SLIFE Interview

## Step 2

Focuses on gathering deeper context about the student through interviews. Educators collect information about the student's personal interests, education history, goals, living situation, and preferences for classroom integration. These interviews help build a fuller picture of the student's unique background and support needs and contribute to decisions about SLIFE classification.

**Key Idea/Premise:**

Develop a holistic, strengths-based understanding of the individual student.

# Step 2: Indicators

## Step 2. Conduct the SLIFE Interview

**Step 2** focuses on gathering deeper context about the student through interviews. Educators collect information about the student's personal interests, educational history, goals, living situation, and preferences for classroom integration. These interviews help build a fuller picture of the student's unique background and support needs and can contribute to decisions about SLIFE classification.

Indicator	1 Not in place	2 Partially in place	3 Mostly in place	4 Fully in place	Notes
<b>Interview Protocol:</b> We have an interview protocol in place that is a consistent part of the enrollment and identification process.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Approach to Interview:</b> Our staff consistently and effectively conduct the SLIFE Interviews by engaging with students and caregivers with: <ul style="list-style-type: none"> <li>• Warmth,</li> <li>• A welcoming demeanor, and</li> <li>• A <a href="#">culturally and linguistically responsive manner</a></li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Trained Staff:</b> We systematically and comprehensively train appropriate staff to administer the SLIFE Interview with fidelity. Staff has been trained on the following topics: <ul style="list-style-type: none"> <li>• How to conduct the interview in a consistent and welcoming manner</li> <li>• The purpose of the chosen approach to the SLIFE Interview</li> <li>• The components of the SLIFE Interview</li> <li>• How to set up an interview environment so that it is supportive and welcoming to help students and families/caregivers to feel comfortable</li> <li>• How to use <a href="#">culturally and linguistically responsive</a>, <a href="#">trauma-informed</a>, and <a href="#">asset-based</a> approaches</li> <li>• How to build knowledge about academic, extracurricular, and community resources that can be offered to students and families/caregivers</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

**Key Idea/Premise:**  
 Develop a holistic, strengths-based understanding of the individual student.

# Step 3: Administer the Academic Background Screener(s)

## Step 3

Involves using academic screeners to assess a student's literacy and math skills, guide class placement, and support planning for instruction and services. These screeners help identify foundational strengths and needs rather than grade level, and should be done in the student's primary language, when possible, to ensure accuracy.

**Key Idea/Premise:**

Develop a holistic, strengths-based understanding of the individual student.

# Step 3: Indicators

## Step 3. Administer Academic Background Screener(s)

**Step 3** involves using academic screeners to assess a student's literacy and math skills, guide class placement, and support planning for instruction and services. These screeners help identify foundational strengths and needs rather than grade level, and should be done in the student's primary language, when possible, to ensure accuracy.

Indicator	1 Not in place	2 Partially in place	3 Mostly in place	4 Fully in place	Notes
<b>Academic Background Screener:</b> We have an Academic Background Screener in place that is a consistent part of the process. <ul style="list-style-type: none"> <li>In home language literacy (or first language of instruction, if different from home language)</li> <li>In math</li> <li>With access to variations in home languages</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Trained Staff:</b> We systematically and comprehensively train the appropriate staff to administer the Academic Background Screener(s). Staff has been trained on the following topics: <ul style="list-style-type: none"> <li>The purpose of the academic screening for SLIFE</li> <li>The district's selected academic screeners</li> <li>The components of those selected academic screeners for SLIFE</li> <li>How to administer the academic screener(s) in a consistent manner</li> <li>How to set up the academic screening space</li> <li>How to store, manage, and share (as appropriate) the information collected</li> <li>How to create a supportive environment during the academic screening</li> <li>How to use <a href="#">culturally and linguistically responsive</a>, <a href="#">trauma-informed</a>, and <a href="#">asset-based</a> approaches</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

**Key Idea/Premise:**  
 Develop a holistic, strengths-based understanding of the individual student.

# SLIFE District Self-Assessment Step 4

# Preparation for Step 4

## Steps 1–3: SLIFE Screening and Identification

The intake process should involve the generation of multiple data points as well as triangulation of data to develop a holistic understanding of a student's profile and determine whether they would benefit from receiving services associated with a SLIFE classification.

- Step 1: Pre-screener
- Step 2: Interview
- Step 3: Academic screeners

## Step 4: SLIFE Services and Support

Based on the data gathered through Steps 1–3 (SLIFE screening and identification), the team may develop an individualized plan to support the student's academic, social, and emotional well-being, and to monitor progress. We present four focal areas of services and support:

- Academic and linguistic support
- Social-emotional support
- Family/caregiver and community connections
- Progress monitoring – and exiting SLIFE status

# Step 4: Develop a SLIFE Services and Support Plan

## **Step 4**

Focuses on creating an individualized support plan for SLIFE students based on the information gathered in earlier steps. This plan may include academic and linguistic support, social-emotional support, family and community connections, and progress monitoring and exiting SLIFE status.

# Step 4: Indicators

Indicator	1 Not in place	2 Partially in place	3 Mostly in place	4 Fully in place	Notes
<b>SLIFE Planning Team</b> The district has developed a SLIFE Planning Team that: <ul style="list-style-type: none"> <li>• Promotes shared responsibility for collaboration, coordination, and communication</li> <li>• Includes staff with SLIFE experience as well as administrators who can secure resources</li> <li>• Includes a variety of stakeholders such as:               <ul style="list-style-type: none"> <li>– central district and building administrators,</li> <li>– coaches,</li> <li>– content and language teachers at all grade levels,</li> <li>– special educators,</li> <li>– specialists serving SLIFE,</li> <li>– guidance and adjustment counselors,</li> <li>– nurses,</li> <li>– family liaisons,</li> <li>– registration and intake staff,</li> <li>– families, and</li> <li>– students.</li> </ul> </li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Trained Staff:</b> We systematically and comprehensively train the appropriate staff to: <ul style="list-style-type: none"> <li>• Recognize the unique characteristics and heterogeneity of SLIFE</li> <li>• Provide a person-centered approach</li> <li>• Develop <a href="#">cultural competency</a>, <a href="#">trauma-informed practices</a>, and <a href="#">collaboration skills</a></li> <li>• Promote an inclusive and supportive environment</li> <li>• Provide teaching frameworks, strategies, and approaches designed specifically for SLIFE</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

# Step 4: Focal Points

## Steps 1–3: SLIFE Screening and Identification

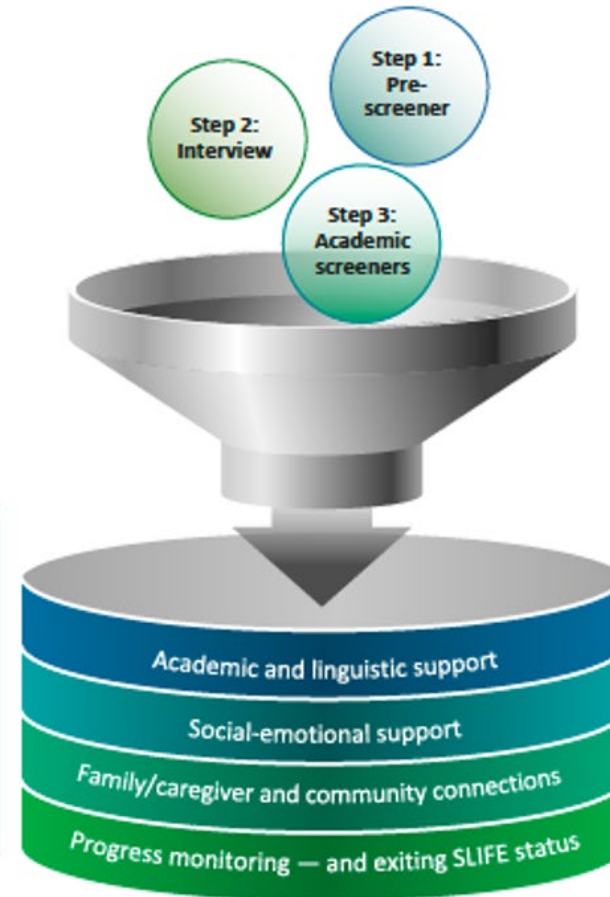

The intake process should involve the generation of multiple data points as well as triangulation of data to develop a holistic understanding of a student's profile and determine whether they would benefit from receiving services associated with a SLIFE classification.

- Step 1: Pre-screener
- Step 2: Interview
- Step 3: Academic screeners

## Step 4: SLIFE Services and Support

Based on the data gathered through Steps 1–3 (SLIFE screening and identification), the team may develop an individualized plan to support the student's academic, social, and emotional well-being, and to monitor progress. We present four focal areas of services and support:

- Academic and linguistic support
- Social-emotional support
- Family/caregiver and community connections
- Progress monitoring – and exiting SLIFE status

# Step 4, Focal Point 1: Academic and Linguistic Support

## *Step 4, Focal Point 1: Academic and Linguistic Support*

**Purpose:** Given their significant interruptions in formal schooling, SLIFE may need specialized, asset-based assistance to succeed in Massachusetts classrooms. The purpose of academic and linguistic support is to provide SLIFE with responsive and equitable access to high-quality language and content development so they can achieve their full potential in the educational setting.

Indicator	1 Not in place	2 Partially in place	3 Mostly in place	4 Fully in place	Notes
<b>Full Educational Experience Toward Equity:</b> Our staff fosters authentic dialogue that allows SLIFE to be fully engaged in and integrated into educational experiences by: <ul style="list-style-type: none"> <li>• Community building</li> <li>• Honoring students' funds of knowledge and assets</li> <li>• Using <a href="#">culturally and linguistically sustaining practices</a></li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Explicit, Systematic, and Sustained Language Development:</b> Our staff ensures that SLIFE receive high-quality language instruction that: <ul style="list-style-type: none"> <li>• Is individualized to address the educational backgrounds of SLIFE</li> <li>• Honors and develops the home language with bilingual support, where possible</li> <li>• Builds academic content, vocabulary, discourse practices, and dimensions of language</li> <li>• Provides multiple opportunities to practice speaking, listening, reading, and writing with peers</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Develop Literacy and Numeracy:</b> Our staff ensures that SLIFE are supported in developing their academic skills by: <ul style="list-style-type: none"> <li>• Building foundational literacy skills that are scaffolded to meet individual student needs and use the home language, where possible</li> <li>• Building foundational numeracy skills that are scaffolded to meet individual student needs and use the home language, where possible</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

# Step 4, Focal Point 2: Social-Emotional Support

## Step 4, Focal Point 2: Social-Emotional Support

**Purpose:** To plan aspects of SLIFE services and support that foster a student's sense of belonging, inclusivity, and well-being

Indicator	1 Not in place	2 Partially in place	3 Mostly in place	4 Fully in place	Notes
<b>Trauma-Informed Instruction:</b> Our staff can provide trauma-informed supports and instruction by: <ul style="list-style-type: none"> <li>• Possessing the knowledge and skills needed to recognize and address SLIFE needs related to past traumatic experiences</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Welcoming School Environment:</b> Our staff provides SLIFE with a welcoming environment that values: <ul style="list-style-type: none"> <li>• Belonging</li> <li>• Inclusion</li> <li>• Strengths-based student-centered instruction</li> <li>• Developing relationships with students and their families</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Establish Programs for Additional Support:</b> Our staff provide SLIFE with additional social-emotional support by: <ul style="list-style-type: none"> <li>• Establishing school and classroom norms for belonging</li> <li>• Establishing programs such as peer ambassadors</li> <li>• Developing community partnerships to assist SLIFE and their families</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Total Scores Per Column</b>					Average Score:

**Notes:**

# Step 4, Focal Point 3: Family and Community Connections

## **Step 4, Focal Point 3: Family and Community Connections**

**Purpose:** Establish strong family/caregiver and community partnerships that support SLIFE social-emotional well-being, academic success, and overall development

Indicator	1 Not in place	2 Partially in place	3 Mostly in place	4 Fully in place	Notes
<b>Honoring SLIFE's Communities:</b> Our staff honor SLIFE and their families by: <ul style="list-style-type: none"> <li>Continuing to learn about their cultures, languages, and experiences</li> <li>Engaging in effective communication</li> <li>Inviting families to participate in school events</li> <li>Providing welcoming environments for families</li> <li>Conducting home visits and community walks</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Community Partnerships:</b> Our staff has developed community partnerships that sustainably support SLIFE and their families with: <ul style="list-style-type: none"> <li>Translation and interpretation services</li> <li>The provision of basic needs</li> <li>Courses for family members on jobs skills, language, and access to resources</li> <li>Career guidance</li> <li>School-related orientations</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Total Scores Per Column</b>					Average Score:

**Notes:**

# Step 4, Focal Point 4: Progress Monitoring and Exiting SLIFE

## *Step 4, Focal Point 4: Progress Monitoring and Exiting SLIFE Status*

**Purpose:** The purpose of progress monitoring is to observe, document, interpret, and reflectively act to enhance the growth, achievement, and well-being of SLIFE. Progress monitoring also helps to determine the appropriate time to transition a student out of SLIFE status.

Indicator	1 Not in place	2 Partially in place	3 Mostly in place	4 Fully in place	Notes
<b>Structures and Systems:</b> We have systems, processes, and structures in place for: <ul style="list-style-type: none"> <li>Progress monitoring SLIFE</li> <li>Determining criteria for exiting SLIFE status</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Staff Knowledge and Skills:</b> Our staff has the knowledge and skills to: <ul style="list-style-type: none"> <li>Access and use the English proficiency benchmarks</li> <li>Use a data-driven approach to determining pathways for SLIFE with the SLIFE planning team</li> <li>Collect and analyze data</li> <li>Set appropriate goals</li> <li>Use multiple data sources</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Monitoring Progress:</b> Our staff monitor progress: <ul style="list-style-type: none"> <li>On a regular basis</li> <li>In multiple areas including language, academics, social-emotional well-being, and cross-cultural understanding</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

# SLIFE District Self-Assessment- Self-Check Review

# Sample Scoring

Indicator	1 Not in place	2 Partially in place	3 Mostly in place	4 Fully in place	Notes
<b>Pre-Screener:</b> We have a Pre-Screener in place that is a consistent part of the registration process for all newly arrived ELs who are 8 years of age and older.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
<b>Trained Staff:</b> We systematically and comprehensively train appropriate staff to administer the SLIFE Pre-Screener with fidelity. Staff has been trained on the following topics: <ul style="list-style-type: none"> <li>The purpose of the SLIFE Pre-Screener</li> <li>The components of the SLIFE Pre-Screener</li> <li>How to administer each component of the SLIFE Pre-Screener in a consistent manner</li> </ul>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Necessary Materials:</b> We ensure that the staff administering the SLIFE Pre-Screener have gathered all the necessary materials to administer the Pre-Screener: <ul style="list-style-type: none"> <li>Information from registration/intake</li> <li>Answer to the question - Is this a newly enrolled EL, 8 years of age or older?</li> <li>Record review</li> <li>SLIFE Pre-Screener document</li> </ul>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Administration Plan:</b> We have developed a clear, systematic, and comprehensive plan for administering the SLIFE Pre-Screener that includes the following: <ul style="list-style-type: none"> <li>Scheduling</li> <li>Logistics</li> <li>Procedures for accommodating students as needed</li> <li>Practice sessions where staff members can role-play administering the SLIFE Pre-Screener</li> </ul>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Sustained Quality of Administration:</b> We continuously sustain the quality of the administration of the SLIFE Pre-Screener by: <ul style="list-style-type: none"> <li>Systematically and comprehensively evaluating the SLIFE Pre-Screener administration process</li> <li>Identifying areas for improvement</li> <li>Making necessary adjustments for future administration</li> <li>Maintaining support for the systems in place</li> <li>Ensuring that new staff are familiar with the process</li> </ul>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

# Guidance for Reflection

## Reflection

- Which of the steps in the four-step process are your strongest?
- Which steps need to be developed further?
- Which step would you like to prioritize for improvement?
  - Select an area within your prioritized area(s) to serve as a goal for growth. This area reflects how you will focus on strengthening your priority area. Refer to the priority area where you scored in the lower range.
  - Use the priorities that you have chosen to identify a problem of practice in your school or district. This problem of practice will help you develop the action plan.

June 2025

# SLIFE District Self-Assessment Action Plan Review

# Immediate Actions

## Action Plan

### Next Steps

Discuss the results of the self-assessment with the team. Allow the team enough time to contemplate what their priorities are for SLIFE services. Determine actions steps or goals for three phases: (1) Do Now, (2) Do Soon, and (3) Do Later.

The following are guiding questions to help the team determine its next steps.

### *Immediate Action/Goal: Do Now*

1. Identify specific actions to implement over the next month to improve practice.
2. List potential actions such as workshops, coaching conversations, or resources.

Action/Goal (Specific and Realistic)	Resources Needed (Specific)	By When? (Time Related)	Outcome (Measurable)
Example: Participate in professional learning opportunities, both asynchronous and synchronous, to enhance our understanding of SLIFE support needs	Example: Time and personnel; technology; DESE resources	Example: February/March 2026	Example: We will build our ability to effectively support and involve educators in the educational process for SLIFE, ensuring that SLIFE receive the appropriate support and resources they need. As a result, educators will feel more included and engaged, leading to better educational outcomes for SLIFE.

# Near Future

## ***Near Future Action/Goal: Do Soon***

1. Identify specific actions to implement over the next 6–12 months to improve practice.
2. List potential actions from workshops, coaching conversations, or resources.

Action/Goal (Specific and Realistic)	Resources Needed (Specific)	By When? (Time Related)	Outcome (Measurable)
Example: Administer a survey to educators to identify common concerns regarding the provision of SLIFE services	Example: Time and personnel; survey and feedback tools; technology	Example: May 2026	Example: By identifying common educator concerns regarding the provision of SLIFE services, we will be able to effectively address their concerns and improve communication and collaboration with staff.

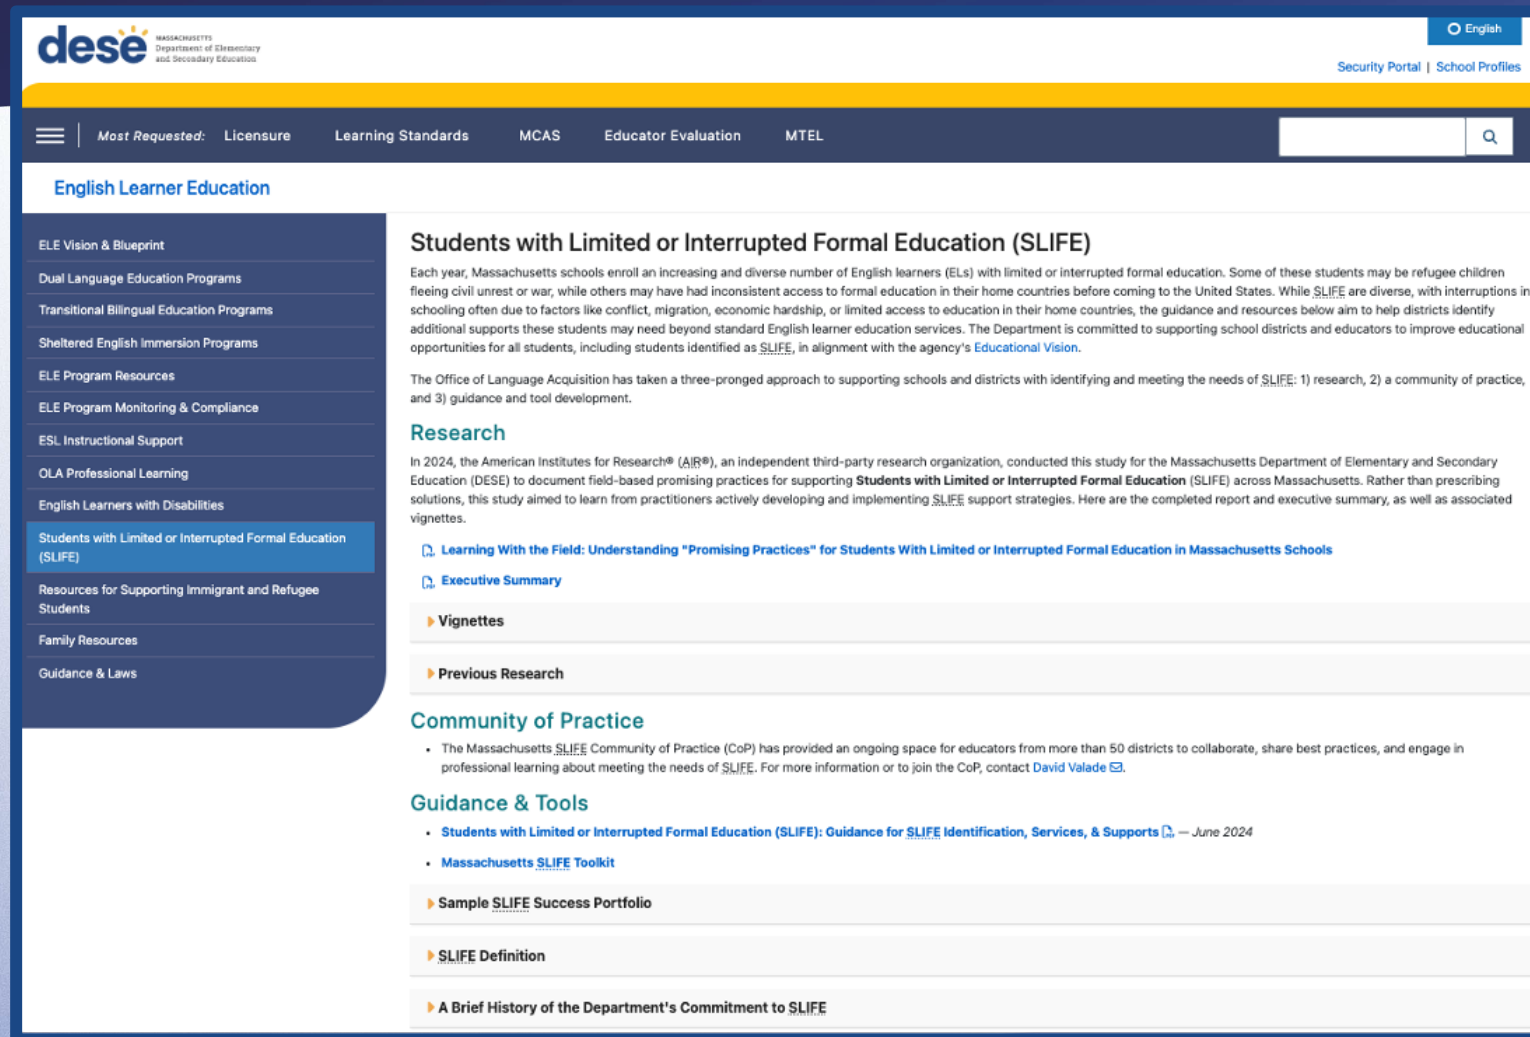

# Long-Term

## *Long-Term Action/Goal: Do Later*

1. Identify specific actions to implement over the next 12–18 months to improve practice.
2. List potential actions from workshops, coaching conversations, or resources.

Action/Goal (Specific and Realistic)	Resources Needed (Specific)	By When? (Time Related)	Outcome (Measurable)
Example: Revise the training to address the knowledge and skill of educators and enhance educator engagement	Example: Time and personnel; clear guidelines and templates	Example: December 2026	Example: We will create a more supportive environment, improve communication, increase educator involvement, and provide better educational outcomes for SLIFE by ensuring that educators feel more connected and informed.

### Students with Limited or Interrupted Formal Education (SLIFE)

Each year, Massachusetts schools enroll an increasing and diverse number of English learners (ELs) with limited or interrupted formal education. Some of these students may be refugee children fleeing civil unrest or war, while others may have had inconsistent access to formal education in their home countries before coming to the United States. While SLIFE are diverse, with interruptions in schooling often due to factors like conflict, migration, economic hardship, or limited access to education in their home countries, the guidance and resources below aim to help districts identify additional supports these students may need beyond standard English learner education services. The Department is committed to supporting school districts and educators to improve educational opportunities for all students, including students identified as SLIFE, in alignment with the agency's [Educational Vision](#).

The Office of Language Acquisition has taken a three-pronged approach to supporting schools and districts with identifying and meeting the needs of SLIFE: 1) research, 2) a community of practice, and 3) guidance and tool development.

#### Research

In 2024, the American Institutes for Research® (AIR®), an independent third-party research organization, conducted this study for the Massachusetts Department of Elementary and Secondary Education (DESE) to document field-based promising practices for supporting **Students with Limited or Interrupted Formal Education (SLIFE)** across Massachusetts. Rather than prescribing solutions, this study aimed to learn from practitioners actively developing and implementing SLIFE support strategies. Here are the completed report and executive summary, as well as associated vignettes.
