**REPORT SUBMISSION DATE September 29, 2023**

As required by Section 3 of Chapter 72, the End of the Year report must be submitted to the Massachusetts Department of Elementary and Secondary Education (DESE) on or before September 29, 2023. Adherence to this deadline is critical because of the reporting deadlines established under Education Reform. Extension requests may be directed to Jeffrey C. Riley, Commissioner, but will only be allowed based on unusual extenuating circumstances. No extensions will be granted after October 31. At the discretion of the Commissioner, the department may withhold all or some part of a district's or municipality's monthly state school aid if the school district has not filed the report in an acceptable form by the required filing deadlines or any extension of those deadlines granted by the Commissioner. Department staff will be assigned as needed to assist districts that fail to meet the September 29 deadline [603 CMR 10.03 (11)].

CERTIFICATIONS

The End of Year Financial Report certification statement must have the signature of the School Committee Chairperson, the Superintendent/Director of Schools, and the Chief Fiscal Officer of the city or town certifying to the contents of the report. Unsigned reports will be considered incomplete.

DOCUMENTATION

All reported data is subject to audit by DESE. All secondary documentation (e.g. allocation or summarization worksheets) as well as books of original entry, ledgers and original source documents (e.g. warrants, invoices) must be maintained in accordance with Regulations on School Finance and Accountability [603 CMR 10.05 (10)].

SUMMARY OF SCHEDULES

Schedule 1 includes all revenues (Part I) and expenditures (Part II) received or made by the district directly or indirectly, as well as those expenditures made by the city or town in support of these educational programs. Revenues and expenditures are reported separately by source of funds. Columns 1 through 3 are defined in 603 CMR 10.02. Column 4 should include Adult Civic Education, Regular Evening Programs, Regular Vacation and Chapter 74 Evening. Column 5 should include all expenditures which are not reported by program. For all lines in this Schedule, the sum of columns 1 through 5 must equal the total in column 6.

Schedules 2 through 7 include further detail of expenditures by programs.

Schedule 18 includes information on the district's teachers' collective bargaining agreement.

Schedule 19 includes the budget for the current school year (2023-2024).

Schedule 20 includes non-instructional grant spending

## ORGANIZATION OF THE EXCEL END OF YEAR REPORT WORKBOOK

There are nine worksheets on the 23eoy file. In order to move from one worksheet to another, simply place the cursor arrow over the desired sheet tab and click. The contents of the sheet will then appear. A brief description of these sheets follows:

<b>eoy23</b>	This is the main body of the report complete with all of the required schedules and a summary table of expenditures across fund types.
<b>schedule3</b>	School based and districtwide instructional expenditures are entered on this sheet (see the computer instructions included with the Schedule 3 line descriptions). Even if your district only operates one school, all 2000 series instructional expenditures must be entered on this worksheet.
<b>schedule3_total</b>	Schedule 3 instructional expenditures are automatically totaled on this sheet from the data entered on the districtwide and school reports.
<b>schedule18</b>	This sheet includes a survey asking for key teachers' contract data.
<b>schedule20</b>	This schedule includes non-instructional expenditures from federal and state grants.
<b>reports</b>	This sheet includes actual and budgeted Net School Spending reports, and a three year (FY21-FY23) comparison of selected line items.
<b>edits</b>	There is a macro on this sheet that will assist users in identifying and correcting any inconsistencies in their reports prior to submission. Generate the list of edits by clicking on the button in the upper right-hand corner of the worksheet.
<b>comments</b>	Provide any comments or explanations on this sheet.
<b>calcmisc</b>	This sheet includes underlying data and calculations that support other parts of the report.
<b>excess cost</b>	This is the IDEA Excess Cost Calculator.

### NOTE ON OPENING THE FILE

The End of Year workbook contains a number of macros, which are programs that automate tasks within the worksheets. When you open the file you may be asked if you want to enable or disable the macros that are part of the workbook. Your response to this question should always be to enable the macros. If you do not enable the macros, they will not function.

### NON-NET SCHOOL SPENDING CATEGORIES

The row and column references of Non-Net School Spending categories are shaded in gray.

### NON-DATA CELLS

Cells that should not contain any data are shaded in green.

### PRINTING INSTRUCTIONS

There is a user form that is part of the file that can be activated to expedite the printing of the schedules as well as the summary and edit reports. Pressing ctrl+p on your keyboard will activate the user form. The buttons on the form will print any or all of the various parts of the report.

The Print Schedule 3 Schools button will print all of the Schedule 3 school reports at once, but it will not print the schools individually. There is a printing button on the Schedule 3 input sheet that will allow you to print the school report that is currently activated.

The End of Year Report is set to print on letter sized paper and the Schedule 3 school reports are set to print on legal sized paper. You should feel free to adjust the scaling and page size options in the Page Setup menu to make the printout larger or smaller depending on your printer specifications. You should note that the rows that print on each page are hard coded in the print macros and that altering the scale or page size may cause page numbers to repeat.

## COMPUTER DIRECTIONS

### PRELIMINARY STEPS AND GENERAL INFORMATION

The file will be obtained in similar fashion to last year's file, by downloading from the end of year financial report drop box at the Department's secure portal, and it will be submitted by uploading on the same site. For details see the separate instruction sheet.

1. **The existing name (23eoy???.xls where ??? is the district 3 digit lea code) of the downloaded file must be retained for the macros to work.**
2. DO NOT OPEN FILE IN THE PORTAL! DOWNLOAD AND SAVE THE FILE TO YOUR COMPUTER PRIOR TO WORKING ON THE FILE.
3. Open the 2022-2023 End of Year Report spreadsheet .
4. Enter all information into Schedule 3 before completing Schedules 1, 2, 4, 7, and 20. Schedules 18 and 19 can be completed at any step in the process. All schedules must be completed before you can review the program edits on the "edits" sheet.
5. All totals and sub-totals are indicated by a zero. Do not change the formulas in these cells.
6. If you are not reporting any information for a cell, leave it blank. You do not have to enter a zero. Do not press spacebar to indicate a zero.
7. At regular intervals, save the data you have entered: Unless you save the file before leaving the spreadsheet, all the data that you have entered during that session will be lost.
8. Check all the edits and make corrections if necessary. You can correct an entry merely by keying in a new amount into the appropriate cell.
9. Save a back-up copy of the of the final file for your records.
10. Submit the file to DESE's security portal (see separate instruction sheet). Submit the signed certification sheet to:

## FINANCIAL DATA

### REPORTING BASIS

All financial data shall be reported on a "modified accrual" basis. For the reporting year revenues earned whether collected or uncollected and expenditures whether paid or unpaid would be reported. Governmental entities typically use the modified accrual basis of accounting to account for revenues and expenditures. Revenues are recognized when they become measurable and available. Measurable means that the amount can be reasonably estimated. Available means that the revenues are collected during the current year or soon enough thereafter to pay current liabilities. Expenditures are generally recorded when the liability is incurred, i.e. salaries are recorded in the period in which they are earned and goods and services in the period in which they are received. ESSER funds should be reported on a cash basis, meaning that the funds should be reported as expended in the year that the revenue was received even if they were used to support a prior year expenditure.

An encumbrance is a commitment of funds for contracts not yet performed or goods and services not yet received. An encumbrance is created when a contract is signed or a purchase order is issued. At year end it is recorded as a reservation of fund balance. Although not considered to be GAAP expenditures, encumbrances are treated as expenditures on a budgetary basis of accounting. This is because they will be paid from funds appropriated in the year in which the encumbrance is created. When completing the End of Year Financial Report, the encumbrances should be recorded as expenditures. The only exception to this policy is for multi year capital projects. **Multi year capital projects should be reported on a cash basis.**

### RECONCILIATION

The computer template includes edit checks to ensure that the data reported in summary on Schedule 1 matches the programmatic detail requested on Schedules 2-7. The more accurate and complete the report, the greater will be the equity in the formulas and usefulness of the data in other statistical applications required by DESE. In Schedules 2, 4, and 7, you will find edit cells that show the difference between the amount reported in Schedule 1 and the corresponding amount in the other schedules. If the value in these edit cells is zero, then you know that the two schedules correspond. Any other amount indicates that the two schedules do not agree and you should correct one or the other or both.

### ADDITIONAL INFORMATION

Report Format: Shaded column headings and functional expenditure categories are not counted toward meeting the net school spending requirement under Education Reform [Regulations: S.10.06(2)].

Undistributed: Undistributed expenditures are those which are not reported by program. If all columns other than "Undistributed" and "Total" are shaded, then "Undistributed" should equal "Total". For programmatic analysis undistributed costs are attributed to each program area by DESE.

Locked Cells: DO NOT fill in any spaces that have been shaded, change formulas, or add lines or columns.

Copying versus Cutting: Cutting the contents of unlocked cells and then pasting them into other unlocked cells will disrupt formulas within the spreadsheet. When moving data within the spreadsheet, use the copy-paste commands. **DO NOT CUT AND PASTE IN THIS WORKBOOK.**

Rounding: Financial data shall be reported to the nearest whole dollar.

New Items: New reporting categories are indicated by a plus sign (+). Items with new instructions or added emphasis are indicated with an exclamation point (!).

### REGULATIONS ON SCHOOL FINANCE AND ACCOUNTABILITY (603 CMR 10.00)

These Regulations govern reporting of students and expenditures and methods of computation and documentation requirements for the preparation of the End of Year Report. For your convenience, we have indicated relevant section and paragraph numbers in parentheses.

### GUIDELINES FOR STUDENT AND FINANCIAL REPORTING

The two approved assessment methodologies are defined in the Regional School District Regulations CMR 41.01 and Guidance for Regional School Districts. The "statutory" method requires a 2/3 approval of the member municipalities and requires the assessment to be based on the minimum local contribution. Any additional amounts requested in the school committee budget would be apportioned according to the regional agreement. The "Alternative Method" requires the approval of all member municipalities and follows the assessment process outlined in the regional school district agreement. For further information on this requirement and the methodologies, refer to CMR 41.00 at <https://www.doe.mass.edu/lawsregs/603cmr41.html> and Guidance for Regional School Districts at <https://www.doe.mass.edu/finance/regional/guidance.docx>.

**FY23 NET SCHOOL SPENDING**

The FY23 school committee expenditures from Schedule 1 will be automatically populated into the worksheet.

The FY23 school revenues will be entered in cell C24 by DESE. These revenues were submitted in Schedule 19 of the FY22 End of Year Report.

The FY23 city or town expenditures from Schedule 1 will be automatically populated from Schedule 1 for Employee Benefits (5100), Employee Separation Costs (5150), Insurance (5200), Retired Employee Insurance (5250), Short Term Interest RAN's (5400) and Tuition (9000).

The FY23 city or town expenditures will be entered by DESE for Administration (1000), Instruction (2000), Attendance-Health (3100, 3200), Maintenance (4000), and Rentals (5300). These amounts were submitted on Schedule 19 of the FY20 End of Year Report.

If the original budget for FY93 in Schedule 19 of the FY92 End of Year Report included estimated expenditures for Insurance for Retired School Employees (5250), an 'X' appears in cell J12. Only school districts that included these costs as part of the FY93 budgeted net school spending will be allowed to include them in the actual FY23 and budgeted FY24 net school spending.

The required FY23 net school spending amount will be recorded by DESE. Any FY22 required carry-over into FY23 will also appear.

For further information on the carry-over, refer to 603 CMR 10.06.

Please review the FY23 and FY24 net school spending tables to be sure that you have accurately measured your district's compliance with the expenditure provisions of Chapter 70.

## **FY24 NET SCHOOL SPENDING**

The following worksheet compares the FY24 Net School Spending Requirement with the budgeted information provided on Schedule 19. DESE has entered the required FY24 net school spending, which match the aid and spending requirements signed by the Governor.

Under the school finance regulations, the district's total net school spending expenditures shall be reduced by the school district's or municipality's general fund receipts for tuition received for students attending the district's schools, earnings on investments by the school district, rental fees for the use of school district facilities, insurance reimbursements for the services provided to students in the district's schools, and any other general fund revenues generated by the school district available to support current year operating expenses [603 CMR 10.06].

To determine compliance with the FY24 net school spending requirement, DESE's latest estimates of FY24 charter school reimbursements (net of charter facilities aid) that are deposited in the general fund of the city or town will be included in cell D55.

Cherry sheet estimates for charter and choice tuition have been included in districts' tuition line. However, when net school spending is calculated in the fall, winter and spring, DESE will use its most current estimates (based upon fall enrollment and actual tuition rates) for charter and choice tuition and reimbursements.

## Excess Cost Calculator 34 CFR §300.16

### Introduction

Local educational agencies (districts) receiving a federal grant under the Individuals with Disabilities Education Act (IDEA) Part B sections 611 (Fund Code 240) and 619 (Fund Code 262) funds are required to follow certain requirements when accepting the federal IDEA funds; one requirement is the calculation and use of IDEA Part B section 611 and 619 funds for excess costs.

### Definition

Excess costs are those costs for the education of elementary school or secondary school students with disabilities that are in excess of the aggregated average annual per -pupil expenditure in a district during the preceding school year. A district must spend at least a minimum average amount on the education of elementary school or secondary school children with disabilities, calculated separately, before (or concurrently with, see note below) IDEA Part B section 611 and 619 funds can be used to pay for the excess costs of providing special education and related services.

### Compliance

Excess cost must be calculated by the beginning of each school year to determine the minimum amount an LEA must spend for the education of students with disabilities before they use IDEA Part B section 611 and 619 funds. The district must maintain accurate records and meet the excess cost requirements by: calculating average cost per student for elementary and secondary school students separately (see note below re: distinguishing elementary and secondary expenses), spending at least the minimum average amount per student with a disability before (or concurrently with, see note below) using IDEA Part B section 611 and 619 funds, and ensure that the excess costs are specific to special education needs and allowable under IDEA Part B section 611 and 619 grant requirements. If a district determines that they will not or have not met the excess cost requirements, they must notify the Massachusetts Department Elementary and Secondary Education (DESE) and will be subject to repayment of IDEA Part B section 611 and 619 federal funds. The district should maintain all supporting documentation for its calculation of excess cost for future follow up by the Audit and Compliance unit.

Note: The United States Department of Education, Office of Special Education Programs (OSEP) has determined that the LEA does not need to expend the aggregated average per pupil expenditure prior to expending its IDEA Part B section 611 and 619 funds; as long as the LEA expends at least the required amount by the end of the school year, it can expend IDEA Part B section 611 and 619 funds concurrently with its general educational funds.

See OSEP: Letter to Kennedy and OSEP: Letter to Plagata-Neubauer.

### Exceptions

If no local or state funds are available for non-disabled children ages 3-5 and 18-21, then the excess cost requirement does not apply to students with disabilities in those age ranges. The district must however comply with the non-supplanting and other requirements for providing the education and services to those students with disabilities.

### Calculating Excess Cost

DESE has created the Excess Cost Calculator (below) for district to use to calculate the minimum amount of funds to be spent in FY23 for elementary and secondary school students before (or concurrently with) using IDEA Part B section 611 and 619 funds.

### Distinguishing elementary and secondary students

The calculator should be completed with requested expenditure and enrollment information for all students in grades K-12 (**not** pre-kindergarten), divided into elementary and secondary categories.

Massachusetts student learning time regulations define an **elementary school** as a school providing instruction to grades 1 through 5, 6, 7, or 8, and, where so designated by a school committee prior to the commencement of a school year, may also include a middle school or other intermediate level school providing instruction to grades 5 through 8 or any combination thereof.

A **secondary school** is defined as a school providing instruction to grades 6 through 12, or any combination of those grades, except where a school committee, prior to the commencement of the school year, has designated a middle or other intermediate level school providing instruction to grades 5 through 8, or any combination thereof, as an elementary school.

**Within these definitions (and including kindergarten as elementary), your district has some flexibility to distinguish elementary from secondary students, as long as the categories are reasonable and consistent across schools and from year to year.** For example, your district may include all expenditures for students in grades K-6 in elementary and those for students in grades 7-12 in the elementary category, as long as this is consistent for all students in those grades regardless of which school they attend. Please indicate below how your district has defined each group by grade.

### Allocating expenditures between elementary and secondary students

- Districts should use actual expenditure information to separate elementary from secondary expenses (most districts -- it is not permissible to lump all school system expenditures and pro-rate based solely on elementary and secondary enrollment.
- While all K-12 expenditures should be included in these calculations, a district's expenditures for purposes outside of K-12 should not be included (i.e., adult education or preschool).
- When expenditures represent staff or services to both elementary and secondary students, work assignments should be used to allocate costs as accurately as possible.
- Where separating or distinguishing an expenditure between elementary and secondary students cannot be achieved as described above, the district may determine a reasonable method of allocation, which should be memorialized and retained for audit purposes.

**Districts should contact DESE's Audit and Compliance office with questions about allocating expenditures([Audit.Compliance@doe.mass.edu](mailto:Audit.Compliance@doe.mass.edu)).**

**Excess Cost Calculation Instructions**  
 IDEA funds must only be used to pay the excess costs of providing special education and related services to children with disabilities. 34 CFR § 300.202(a)(2). 34 CFR § 300.16 defines the term to mean costs that are in excess of the average annual per-student expenditure in an LEA during the preceding school year for an elementary or secondary school student as may be appropriate. Each district is required to complete separate calculations for elementary schools and secondary schools.

**Elementary and Secondary Calculations**  
 Complete once for Elementary Students and once for Secondary Students  
 If final audited expense or enrollment information for FY23 is not available at the time you are submitting this application, you may use preliminary or estimated amounts, which will be subject to updating as final information becomes available.

**J. Minimum aggregate educational expenditures for FY24 for students with disabilities:** This amount must be spent for the education of students with disabilities before (or concurrently with) IDEA Part B funds during the FY24 school year. Districts should monitor this spending and, if an LEA determines that it will not or has not met the excess cost requirements at any point, it must notify the Massachusetts Department Elementary and Secondary Education (DESE). Failure to meet minimum spending requirements will be subject to repayment of IDEA Part B section 611 and 619 federal funds.

## EOYR-EPIMS Crosswalk

### August 2023

The EOYR-EPIMS crosswalk is a resource to help districts assign staff to functional categories, align EOYR and EPIMS reporting, and improve the comparability of EOYR data.

This table shows how salaries for staff with certain EPIMS job codes should be assigned EOYR function codes. This table does not include all EPIMS job codes nor does it identify staff who are not assigned EPIMS job codes. For those staff, their salaries should be reported under the functional area they are assigned to support. For example, administrative support for the school business office should be reported in function 1410 (under object code 02). Also note that some function codes can include more than one EPIMS job code and function codes 2110 and 2120 include the same job codes, with the differences in function code assignments based on the supervisory or non-supervisory roles of individual staff.

If the district prorates an employee's time across more than one job code in EPIMS, their salary should likewise be prorated across function codes on the EOYR, and vice versa.

Each year, the Department provides a crosswalk data file to help districts identify possible reporting errors.
