Reported percentages may not total 100% due to rounding.

\*Totals reported for SY 2002 (n= 1,979) and SY 2003 (n= 2,068) were greater than the total number of exclusions because some exclusions involved more than one offense.

\*\*Data are for all exclusions involving weapons, including weapons violations in combination with other offenses.

According to the Gun-Free Schools Act (GFSA) of 1994, each state must have in effect a State law requiring the school district to immediately expel a student for a period of not less than one year, if he/she is found to have brought or to have possessed a gun/firearm at school. Each State's law must also stipulate that the school district superintendent has

Federal law requires special education students with an Individualized Education Plan (IEP) who are excluded from school to be offered alternative education. Ninety-five percent of the special education students excluded in 2002-03 received alternative education. Of those general education students that were referred for special education evaluation but had not yet been evaluated, 80 percent received alternative education as shown in Table 7b.

**Reported percentages may not total 100% due to rounding.**

**\*Program status data for one student was not reported.**

In regards to the 28 special education students who did not receive alternative education, 11 were reported as having refused or not responding to the offer of alternative education, and eight students had moved or transferred. In the case of six students, the school chose not to provide alternative education, and three students were reported as having been incarcerated.

For special education students that are excluded, placement of those students to an alternative setting is determined by either: (1) an impartial hearing officer, or (2) school personnel. In school year 2002-03, 16 percent (83 students) were removed to an alternative education setting by an impartial hearing officer and 84 percent (424 students) were removed to an alternative education setting by school personnel. For two special education students it was not reported whether the removal was by either an impartial hearing officer or school personnel.
